OPGI HEADQUARTERS
IN SEAL BEACH, CA

OUR 'CUSTOMER FIRST' APPROACH...

There are many options out there, but when you shop OPGI, there is a huge difference in the level of service before, during and after the sale. Our integrity, expertise, and attention to detail are unrivaled in the industry.

IN-STOCK SELECTION, UNMATCHED IN THE INDUSTRY

Whether it is a faithfully reproduced factory part, an aftermarket add-on, or a high-performance item, we offer a broader In-Stock inventory selection than any other competitor.

EXCEPTIONAL SERVICE & SUPPORT

Here at OPGI, we aren't content to just sell you on our product line and service. Our team is dedicated to resolving the technical issues that can arise from installation to performance. We are there for you every step of the way.

Our parts have been featured on numerous award-winning vehicles and TV shows – they've become the first choice for many of the nation's top automotive builders.

CARFIX · DETROIT · WRENCH'D · All Girls Garage · Bitchin' Rides · SPEED IS THE NEW BLACK · Sam's · Rust Valley RESTORERS · Barrett-Jackson · MECUM AUCTIONS · JUNKYARD EMPIRE · THE RIDE THAT GOT AWAY

"Car restorations are not for the faint of heart and choosing to restore a car like a classic Cadillac is especially challenging with the lack of aftermarket support compared to other more popular cars of the same era. OPGI makes it possible with a wide selection of quality parts at a fair price. Without OPGI my car would have never made it back on the road after it's 20 years tucked away."

- Travis Laffin Cypress, Texas
1968 Cadillac DeVille

INSTANT ONLINE PRICE MATCH GUARANTEE

No gimmicks, no nonsense! We will quickly match any advertised price from any competitor site or catalog for any identical product.

(See our policy in the back of this catalog for full details.)

THE CUSTOMER IS KING!

Whether you are a long time customer of Original Parts Group or are new to the OPGI family, we know that you have a choice. We want to thank you for choosing OPGI for your restoration needs. Please don't hesitate to contact us if you have any questions or concerns. We are happy to help in any way we can before, during and after the sale.

41 YEARS OF EXCELLENCE

MANUFACTURING PREMIUM RESTORATION PARTS SINCE 1982

MANUFACTURING PREMIUM RESTORATION PARTS SINCE 1982

41 YEARS OF EXCELLENCE

For over 4 decades we've provided the classic car enthusiast with exceptional quality restoration, aftermarket and high performance parts. We take great pride to ensure that every part and accessory we stock and sell are of the highest quality standards. It's how we have built our reputation. Our vision remains: To provide you with the absolute best quality and service anywhere, period. Our goal is that your OPGI buying experience is remarkable in every way!

BUSINESS OF THE YEAR

Original Parts Group had the honor of accepting ARMO's coveted Business of the Year award twice at the SEMA Show. This award is presented to the company that has demonstrated exceptional service, integrity and business ethics, as well as made a commendable contribution to the restoration industry.

Original Parts Group also received General Motors "Best Restored GM Vehicle" award at SEMA four out of six years – for vehicles restored entirely with OPGI restoration parts.

LENSES

RESTOPARTS® lenses are manufactured to exact GM specifications to ensure a perfect fit and appearance. Each lens features factory-correct color, details, trim and GUIDE markings where applicable.

MOLDINGS

RESTOPARTS® stainless steel and anodized aluminum moldings are formed to factory specifications and polished to a brilliant finish. Of course, we test fit all parts on our own vehicles first, ensuring an exact fit.

MANUFACTURED RESTOPARTS® BY ORIGINAL PARTS GROUP

STAMPINGS

RESTOPARTS® non-corrosive and high resistance stampings are precision manufactured on new tool and die surface forms to ensure dimensional accuracy and a consistent surface finish.

DIE CASTINGS / CHROME

RESTOPARTS® case-hardened steel tooling and die-casting process ensure parts are stamped to perfection and exceed original GM specifications for overall quality.

MORE WAYS TO SAVE

Fast, FREE Shipping
Free Standard Ground Shipping on orders over $299 shipped within the continental U.S. Excludes oversize and overweight items. See page 183 for details.

Volume Discounts
When we aren't already running a promotion you can still take advantage of our volume discounts. Be sure to sign up for email promotions online for the best deals. We offer volume discounts on orders that exceed $499 qualify for a 5% discount, and orders that exceed $999 qualify for a 10% discount. See page 185 for details.

Frequent Buyer Rewards
If you have ever made a purchase or requested a catalog in your name, you are already enrolled in our Frequent Buyer Rewards program. By placing orders for parts, you'll be well on your way to earning future discounts. See page 185 for details.

60-Day Guarantee
We want you to be completely satisfied with the parts you receive. Items purchased from OPGI may be returned within 60 days from date of purchase for any reason. Simply return the item in its original, unused condition along with its original packaging. See page 185 for details.

Kit Swap Savings
Need an interior kit, but not every item in the kit? Mix and match, or even delete items, and you'll still get the full kit discount. See page 185 for details.

Ratings & Reviews
Your opinion is important to not only us, but to everyone who visits our website as well. Make your voice heard. Post a comment, ask a question, or look at what others are saying about the parts we offer at opgi.com.

Instant Online Price Match Guarantee
Original Parts Group, Inc. will match any competitor's current advertised retail price for an identical product. Simply provide us with a copy of the competitor's current advertised price from a catalog, ad, or website. The price match guarantee is available at the time the order is placed and is available for in-stock merchandise only. See page 185 for details.

Award Winning
Several OPGI vehicles have won the GM/SEMA Award for Best Restored Vehicle over the many other show vehicles at the Specialty Equipment Marketing Association (SEMA) industry convention held each year in Las Vegas, NV.

See our policies on pages 183-185 for complete details of our value added programs. Prices and shipping rates are subject to change without notice. Printed April 2023, all prices current at the time of printing, please check opgi.com or call during normal business hours for our most current pricing and the most up-to-date information.

ICON REFERENCES

Premium reproductions manufactured by RESTOPARTS®

Our latest in-house PERFORMANCE brand.

We have added many new products for 2023, from interior parts to quality steel reproductions and everything in between. Just look for the NEW symbol!

As Original Parts Group continues to grow year after year, we can take advantage of special volume pricing on hundreds of parts that manufacturers offer companies of our size. This means that we can offer the same high quality parts but at a substantial discount for you, our customer.

Every time you see this symbol, it indicates that we have assembled a complete kit of those products for your convenience. But there's more: most kits in this catalog are attractively discounted from our regular prices.

Free Standard Ground Shipping on this item within the continental U.S.

Our "Made in the USA" icon speaks for itself... American-manufactured products, of course!

When you see this Original GM logo, you are assured that the parts you are purchasing are Genuine General Motors parts.

In this catalog, the GM Restoration Parts logo indicates that a product is officially licensed to Original Parts Group Incorporated by General Motors.

Please take note of the following abbreviations:

ABBREVIATIONS USED THROUGHOUT THIS CATALOG:

AT/AUTO = Automatic transmission

REDUCE HEAT AND ROAD NOISE

MADE IN THE USA

HushMat

PRODUCT VIDEO AVAILABLE ONLINE

Silencer Megabond

Absorb and eliminate high frequency airborne noise that enters the vehicle by using Silencer Megabond sound deadener from Hushmat. Made in the USA using light weight and self-adhesive material, Hushmat Silencer Megabond will not only eliminate those annoying road noises, but also reduce the heat that comes from the engine, headers, exhaust and catalytic converters. Similar to the application of foam on the ceiling and walls of a recording studio, the Silencer Megabond sound deadener performs the same function for the interior of your vehicle and is guaranteed to make a difference in your driving experience.

LIGHT WEIGHT SOUND DEADENER

HushMat MADE IN THE USA

OPGI.COM PRODUCT VIDEO AVAILABLE ONLINE

Hushmat Ultra Sheet Sets

When driving your vehicle do you feel the heat coming through the firewall, floor and tunnel? Do you hear road noise and vibration that prevents you from having a conversation inside your vehicle? Then reduce that engine, exhaust drone, road noise, vibration and reduce the heat that comes from the engine, headers, exhaust or catalytic converters with the light weight Hushmat Ultra! Hushmat's proprietary USA manufactured visco-elastic chemistry dissipates this heat insulating your interior causing less load on your A/C system. Hushmat Ultra is available from OPGI in several different kits and sizes to cover certain sections of your vehicle or the entire vehicle. Available in black or silver.
Silver also available, please see OPGI.COM for your vehicle fitment.

EASILY REPAIR YOUR FLOOR DIMMER HARNESS

Complete with molded plastic connector

1965-76 Dimmer Switch Repair Harness

This wiring harness is ideal for repairing a broken plug or damaged wires associated with your floor mounted dimmer switch. Each harness features pre-terminated wires and a molded plastic plug for direct connection at the switch. The other end of the harness is designed to splice into original wiring.

'59-60, '68 & '70 SEAT UPHOLSTERY

MANUFACTURING PREMIUM RESTORATION INTERIOR PRODUCTS SINCE 1969

Distinctive Industries has been manufacturing interior products for the American muscle car since 1969. We still manufacture our products right here in America with the same passion and attention to detail that was used when these cars were new. The dielectric (heat sealed) detail on Distinctive Industries seat covers features unsurpassed detail and is true to the original GM patterns. We use our own proprietary 32 oz. weight vinyl (automotive grade) and the correct 6 stitch per inch sewing, along with colors that are based off the original factory masters to ensure a 100% showroom accurate appearance. Attention to detail, final assembly quality, correctness and durability are built into every product we manufacture and the product truly is "Better by Design".

INJECTION-MOLDED ABS PLASTIC
An exact match to original equipment

Black | Dk Blue | Dk Green | Dk Saddle | Med. Blue | Red | Tan | White

Strato Bench & Bucket Seatbacks
These high-quality seatbacks are manufactured in durable injection-molded ABS plastic and feature the correct Madrid grain pattern for outstanding authenticity. Each seatback is identical to original equipment and features the correct recessed center, mounting points, and lock button cut-out where applicable. Available in a variety of factory colors, our seatbacks are sold in pairs and feature premium molded chrome trim already installed.

Part#	Year	Desc.	UOM	Price

CHV1000	69-70	.....	pair	87.99

NOTE: 1967 backs were originally metal. These are plastic reproductions that fit and look like the original.

Strato Bench Lower Side Seat Bases
These lower seat bases are the perfect detail item for your Strato bench or bucket seats. Each base is injection-molded in resilient ABS plastic to replicate original equipment. The correct Madrid grain finish and properly located mounting holes add to the authenticity of these bases, making them a must-have for your seats. The finishing touch is added with the pre-installed molded chrome trim.

Part#	Year	Desc.	UOM	Price
NKK002B	67-70	.....	pair	59.99

NOTE1: One pair equals two base covers—enough for one seat. NOTE2: Models equipped with power seats require hole for seat switch.

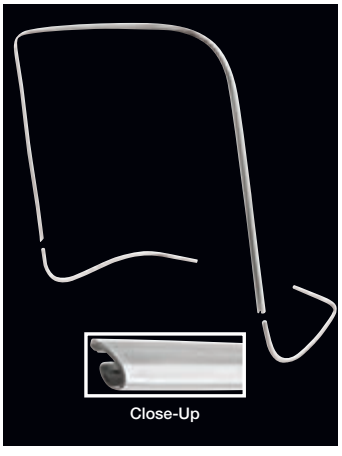
GM FACTORY APPEARANCE WITHOUT THE HIGH PRICE!
Complete set does the backs and bases for strato bench or bucket seats

1967-70 Econo Strato Bench & Bucket Seat Chrome Piping
This chrome piping set is more pliable than the factory originals and is made to install on reproduction plastic seatbacks only. This high-quality set has a factory original appearance once installed. Set covers two bucket seats.

Part#	Year	Desc.	UOM	Price
CHV0259	67-70	.....	set	48.99

NOTE: This chrome piping fits the reproduction seatbacks only.

IDENTICAL TO ORIGINAL EQUIPMENT
Precision-molded for a great fit



Original Style Strato Bench & Bucket Seat Piping
This original style bucket seat chrome piping has been authentically reproduced with concours restorations in mind. The chrome moldings are pre-cut and precisely molded for an authentic factory fit and appearance. The rigid moldings also feature the correctly formed lip for a secure snap-on installation. For original seatbacks only and sold in a six-piece set for two bucket seats.

Part#	Year	Desc.	UOM	Price
G240874	67-68	.....	set	99.95
G240875	69-70	.....	set	99.95

NOTE: This chrome piping fits the original seatbacks only. In 1967 the original seatbacks were metal, while in 1968 and up they were plastic.

Customer Rating: ★★★★★ 5 out of 5

Looks good - hard to use but worth the money!

1962-84 Sun Visor Vanity Mirror

The passenger side sun visor vanity mirror was an option for many GM vehicles. This quality reproduction measures 7" x 3-1/4" and has push-in snap buttons on back that are spaced 4-7/8" apart. Snap button receivers are not included and therefore this mirror is for visors with existing vanity mirror only. Since GM had several different styles of this mirror, appearance may differ from original.

Part#	Desc.	UOM	Price
CH31782	.....	each	34.99

NOTE: Does not include snap button receivers

'59-60 CADILLAC

Molded to original dimensions

1959-60 Map Light Lens

This original style map light lens is molded to factory specifications for an authentic fit and appearance. Each white plastic lens features the correctly located mounting holes for a straightforward installation. Sold per each.

THE VERY BEST ON THE MARKET!

THERE IS SIMPLY NO COMPARISON BETWEEN RESTOPARTS® PADS AND OTHERS.

1965-66 Dash Pad

COLORS AVAILABLE: Black, blue or red.

RESTOPARTS® brand remains the 'Rolls Royce' of dash pads. In the past few years, inferior pads have come to the market, and although pricing is similar, there are significant differences in quality, fit, and finish. A major difference is that RESTOPARTS® pads are produced the right way utilizing a steel inner core (like the GM factory originals), which ensures an exact, consistent fit every time, unlike competitor versions that cut corners using cheap fiberglass cores. Using fiberglass is less expensive, but it is often inconsistent so by nature will vary in fitment and quality.

RESTOPARTS® Dash Pads are produced the right way using carefully researched Madrid grains and textures as General Motors did back in the day.
Whether it's professionally vinyl wrapped foam as GM did, or solid urethane (we make both types), each dash pad is produced using only the highest quality tooling and careful factory finishing work.
- RESTOPARTS® pads include companion mounting hardware as well, while others do not.
- RESTOPARTS® dash pads carry an extended 12 month warranty, while others do not.
- RESTOPARTS® dash pads feature a factory correct steel inner core, while competitor versions use an inconsistent fiberglass core.

Avoid installation frustration, insist on premium brand RESTOPARTS®. When you purchase a RESTOPARTS® pad from OPGI, you are buying direct from the manufacturer, an automatic extended 12 month warranty, and you can be sure that we stand firmly behind the quality, fit and appearance.

1963-66 VHX Dash Conversion

This direct-fit instrument system could be called the Cadillac of gauge sets; it brings six analog instruments plus a pair of LCD message centers to this classy barge. Keep the original chrome housings but upgrade to modern instrumentation suitable for any drivetrain, from the stock 390 to a turbo LS3, integration is no problem. Choose from black or silver face styling and blue, red or white LED backlighting to complement your Series 60S, 62 or 75.Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback, all supported by an unrivaled limited lifetime warranty

Electronic Cable Speedometer Drive

The missing link between your cable-driven speedometer and late model electronic transmission! Measuring 5 1/2" x 3 1/2" x 2", this drive unit allows the use of a mechanical-cable speedometer to be used in conjunction with a modern drivetrain which provides only an electronic output. 36" cable available for GM thread-on & GM clip-on style speedometers. Powerful motor is quiet enough to mount the module inside the cabin. Waterproofed case can also be mounted under the hood, or even inside a fenderwell. Bluetooth-enabled to sync with available mobile app for stone-simple set up. Supplied programming switch and LED readout make setup easy. For OBD II equipped vehicles, the supplied pigtail will easily plug into the DLC, simplifying the wiring connections. The PID control of the cable speed provides quick, smooth operation and prevents overdriving or damaging the speedometer needle. Consider this the most precise and easiest to use cable-drive unit on the market!

Interface Module

Output your gauge information direct from the OBD-II/CAN or aftermarket EFI CAN connection to your Dakota Digital HDX, RTX, VFD3 or VHX Gauges.

For factory computers with OBD-II(J1850/CAN OBD protocols only) the interface module allows you to directly plug into the engine diagnostic port which allows you to extract engine & transmission information from the vehicles computer(ECM). The interface collects and outputs for most vehicles the speedometer, tachometer, engine temperature and check engine indicator. It can also potentially, depending on application, collect and output intake air temperature, transmission temperature, ambient air temperature, gear position, oil pressure and boost pressure. The module is compatible with OBDII protocols SAE J1850 VPW, SAE J1850 PWM and ISO 15765 CAN 500k 11 bit identifiers that follow the SAE J1979 PID protocol. The module will not collect and output gear position data for GM Connect & Cruise packages because it's not transmitted from that system. The AEM interface module is a direct plug-in using the supplied 4 pin harness for simple connection to the AEM CAN bus (AEMnet) system that is used by the AEM Infinity ECU, Series 2 EMS & EMS-4 kits. The interface module will potentially collect and output speedometer, tachometer, engine temperature, oil pressure, fuel pressure, air/fuel ratio, intake air temperature, boost, transmission temperature and check engine indicator. The outputs are dependent on what is available from the AEM system. The Edelbrock interface module works with the dedicated DB9 CAN connection plug on the main harness of the Pro-Flo EFI Kits. The interface module will potentially collect and output tachometer, engine temperature, intake air temperature, fuel pressure, air/fuel ratio, MAP and boost. The outputs are dependent on what is available from the Edelbrock system. The Holley interface module is a direct plug-in using the supplied 2 or 4 pin harness to the Holley Terminator (including the X and X Max), HP, Sniper or Dominator EFI kits. The interface module will potentially collect and output tachometer, engine temperature, intake/manifold temperature, fuel pressure and air/fuel ratio. There may also be available speedometer, oil pressure and boost. These outputs are dependent on what is available from the Holley system. The MSD interface module is a direct plug-in using the supplied y-adaptor for the MSD Atomic TBI EFI Kits. The interface module will potentially collect and output tachometer, engine temperature, intake/manifold temperature, fuel pressure and air/fuel ratio. There may also be available oil pressure. These outputs are dependent on what is available from the MSD Atomic TBI system. The interface module isn't compatible with the Atomic LS EFI.

Part#	Year	Desc.	UOM	Price
DDBIM01	36-93	.....	each	113.99

NOTE1: The interface works with HDX, RTX, VFD3 & VHX gauges with the black plastic modules. The earlier aluminum modules will not work with the interface. NOTE2: Dakota Digital cannot guarantee the presence or accuracy of the outputs since this is a function of the computer (ECM) or aftermarket system and matching OEM or aftermarket functional sensors.

MADE IN THE USA

Gear Shift Sending Unit

This new generation of the gear-shift position system from Dakota Digital. They've minimized the decoder (the brain of the system). That new smaller size with inboard terminals allows for easier installation. Able to be used with a Dakota Digital instrument system or on its own, this versatile unit can relay transmission gear positions to a VFD, VHX, HDX or RTX instrument system, as well as the DGS-series of standalone indicators.
- Built-in outputs for reverse lights (up to 15 amps) and neutral safety switch (with supplied 30amp relay).
- Easy setup and calibration.
- User-calibrated for 2-4 forward gears plus Park, Reverse and Neutral.
- Stainless steel and aluminum mounting hardware included for a variety of transmissions. Includes: Mounting hardware included to fit automatic transmissions including GM TH350, TH400, 700R4 and 4L60/70.

ENHANCE YOUR DIGITAL DASH

Simple installation

MADE IN THE USA

NEW! Dash Dimmer Kit

If you want the most out of your gauges, Dakota Digital offers a light dimming kit to adjust the dimming feature built into your instrument system for enhanced night time driving. The switch can be mounted anywhere on the dash or out of sight for optimum convenience. A hole of .570" diameter is required to secure the switch which will look great anywhere with its aluminum knob and bezel. This light dimming switch will work with VFD3/RE, VHX, HDX, and RTX instrument systems. This dimming switch will not work with the STR series control box, Odyssey or Solarix gauges. Your stock dimming switches will not work with Dakota Digital Instruments.

1959-88 GPS Vehicle Speed Sensor

Need an easy way to pick up your speed signal? Have a transmission without a built in vehicle speed sensor or cable output? NVU'S GPS speed sender may be the ticket you're looking for. Compact unit (less than 2"x2") mounts virtually anywhere and delivers a steady, smooth signal to any NVU (or other brand) electronic programmable speedometers.

Specifications:
Power: 10-30V DC
GPS signal rate: 10/sec (10Hz)
Dimensions: Antenna 1.5"x.06", mounting holes 1.9", harness 4"
Accuracy: 3M-CEP
Temperature operating range: -40-200F
Signal: 12V square wave, 16,000 PPM (pulses per mile)
NEMA0813 output baud, RS232 (not required to use but available).

MADE IN THE USA

GPS Speedometer Sending Unit

The Intellitronix GPS Speedometer Sending Unit offers high-accuracy readouts and can be wired directly into your existing speedometer with a simple 3 wire hookup! The Intellitronix GPS Speedometer Sending Unit easily connects to your existing speedometer, allowing for precise readings that you will not get with any other speed sending unit.
Our GPS Speedometer works with any industry standard 4000, 8000 or 16000 pulse per mile or programmable speedometer. It can be wired directly into your existing speedometer and needs no additional sensor from the transmission to operate. The unit comes with a GPS receiver, omni-directional 4 ½ ft. antenna, and microprocessor that continuously converts GPS signals into a pulse stream that then replicate the output from you existing, mechanical speed sensor but with GPS accuracy. This combination of GPS technology and our own innovative engineering and electrical design allows for high-accuracy readouts. You do not have to worry about inaccuracies due to changes like different tire sizes or rear end gear ratios ever again!

AUTOMETER HIGH-PERFORMANCE GAUGES

AutoMeter products come from a long line of racing history. When engines were becoming more powerful, in turn, they revved faster, created more heat, and demanded more out of the vehicle. Factory instruments were unable to keep up with the need of the racers. In 1957, AutoMeter was founded on the fastest, most accurate tachometer ever designed. Able to keep with the revs and provide unparalleled accuracy, the AutoMeter tachometer was widely accepted in the cockpits of the fastest race cars. Through the years, AutoMeter honed this technology to continuously improve all products. AutoMeter Products, Inc. is the worldwide leader in performance instrumentation.

Intellitronix — MADE IN THE USA

Tachometer Recall Kit

Now you can have high RPM memory recall on your factory or aftermarket tachometer. Designed to work with any electric tachometer and also on your factory electronic tachometer. Simply connect the little black box in between your existing tachometer and the tachometer signal from your ignition. The microprocessor monitors each incoming tachometer signal and saves the highest reading. In normal mode, the microprocessor simply sends the incoming tachometer signal straight to your tachometer, but when you press the button, the microprocessor recalls and sends the highest signal to your tachometer instead of the one coming from the ignition. This product includes a lifetime warranty, and this product is made in the USA!

A MUST HAVE ITEM

With or without tilt

Turn Signal Cancelling Cams

Our turn signal cancel cams are a must-have item for any car. Installing beneath the steering wheel assembly, this cam rotates with the wheel and deactivates the turn signals on all cars. The molded plastic cam aligns with the steering wheel and also houses your horn plunger and spring, as well as a brass contact ring that is necessary to the proper operation of your horn. Cams are sold per each for specific applications.

SMOOTH SOLID LINKAGE OPERATION

Top-quality craftsmanship throughout

1961-77 Floor Mounted Automatic Shifter

Add a subtle custom look to your interior with a floor mounted shifter from Lokar. These shifters are manufactured to premium quality standards to ensure proper function and a long life. The solid linkage utilizes adjustable rod ends which eliminate the need for a cumbersome cable.

Standard shifters feature a chrome finish with a satin mushroom knob, while Midnight series shifters feature a black powder coated finish and black mushroom knob. Shifters are available in either 8" or 16" height and can be purchased in either straight or curved configurations to accommodate your interior style. These shifters are the perfect complement to any interior and can be mounted inside a console, or direct to the floor. Neutral safety switch is included with every shifter, while shift boots and custom knobs are sold separately.

AVAILABLE IN: Black powder coated or chrome finish.

AN EXCELLENT UPGRADE FOR YOUR STOCK ANTENNA
All steel construction will last the life of your car

1982-83 Power Antenna Cable Repair
The original internal cable of the GM power antennas are plastic which becomes brittle and can easily break after years of use. This upgrade kit contains a steel replacement cable. If your antenna motor works, but the mast will not go up or down, it means the internal plastic cable is most likely damaged or broken, and replacing it with this improved steel cable will often solve the problem. Requires original and undamaged power antenna motor and mast for proper operation.

SPATTER PAINT

We stock a large supply of this item

Trunk Spatter Paint

OPGI stocks GM "Spatter Paint" produced by the original manufacturer! Sold by the quart, this is a petroleum distillate base paint that can be thinned with water. But once it's applied, clear coat protectant is not needed. The paint must be sprayed through a gun so complete easy-to-follow instructions are included. One quart will do your entire trunk area.

OE Convertible Tops

With authentic grain pattern, contours and colors, our convertible tops for Cadillac are excellent quality reproductions that are patterned after the General Motors factory originals. Our manufactured tops are produced using the authentic heavy-duty, sateen-backed vinyl with precise stitching points. Each top is guaranteed for 72 months against cracking, leaking, separating and excessive shrinking. Tops are available in your choice of black or white - please specify when ordering.

PREMIUM DIE-CAST
Features top-quality chrome-plating

Convertible Top Latch Striker Plates
These die-cast striker plates are authentic reproductions of original equipment for 1957-60 Cadillac convertibles. After a thorough polishing, each plate is dipped in high-quality chrome producing a brilliant luster and making them indistinguishable from originals.

Part#	Year	Desc.	UOM	Price
CE11580	57-60	.....	pair	138.99

SPRINGBOARD STEEL
Protects hoses from moving parts

Convertible Top Hose Retainer
This metal spring clip is the correct factory-style clip that holds the plastic top hose to the body. The often-missing clip keeps the hoses out of the way and prevents them from interfering with moving top cylinders. Clip is sold per each—requires two per vehicle.

Part#	Year	Desc.	UOM	Price
CH27595	58-72	.....	each	9.99

EXCEPTIONAL QUALITY HANDLES
Professionally polished and chrome-plated

CE11585

CE11586

Reproduction Style Window Felts

2

Our reproduction style window felts fit and function just like originals, but a few cosmetic differences such as a lower density felt and a rounded chrome bead, makes these an economical choice for your restoration. Correctly located mounting clips, make installation a breeze. **Original-Style felts also available, please see OPGI.COM for your vehicle fitment.**

SIMPLE DESIGN FOR EASY INSTALLATION
Superior noise reduction and heat absorption in this aftermarket, high-quality replacement

Dynamat

Hoodliner Custom Insulator
Dynamat's high-heat hoodliner's "sound soaker" foam construction absorbs engine noise up to 50%. This also cuts the heat up to 97% to help protect your paint finish. This is a simple "peel and stick" installation. Available in 32" x 54" sheet.

Decal & Graphics Preparation

Surface preparation is key when installing decals and graphics on your vehicle. OPGI has several products that will help you achieve professional results ensuring your vehicle looks great for years to come. PRE-APP eliminates wax, oil and dirt providing a smooth and clean surface to begin with. SLIDE-ON resists drying and allows movement of the decal for proper placement. Once the squeegee is applied, the decal adhesives be allowed to "set-up". SLIDE-OVER UV protectant shields your decals from fading while repelling dust, dirt and oils. Unlike petroleum based products, it does not attract dust or draw moisture out of the decal. These products are a must-have when installing decals or graphics on your vehicle.

HIGH POWER HEADLIGHT UPGRADE

Increase visibility while maintaining original appearance

L241218

1976-88 H4 Headlight Upgrade Kit

Easily upgrade your standard halogen 45/55 watt headlights to a more modern and powerful 55/60 watt headlight system with this all-inclusive kit. The four headlights included have a glass lens which keeps the stock appearance and fit, no modification to the headlight housing are necessary. The included plug-and-play harness re-routes power directly from your battery to your new headlights using two 80 amp relays, an in-line fuse, and the proper connectors, eliminating concerns from running higher amperage through the original headlight switch. The harness can also be used to upgrade to even higher wattage halogen bulbs (up to 80 watts) if preferred. The 55/60 watt H4 upgrade bulbs can be purchased individually as replacements.

Part#	Desc.	UOM	Price

American Autowire

1952-76 Headlight Relay

This relay is required when upgrading to Halogen or Xenon headlight bulbs which draw significantly more current than standard headlight bulbs. The relay protects your headlight and dimmer switches in addition to your factory wiring harness. Instructions included.

Inside Rearview Mirrors

Why compromise? Our mirrors are high-end reproductions and manufactured in precision-stamping dies just like the factory originals. Stainless steel backing finely replicates the original "mirror-like" finish to a tee! Hardened zinc die-cast attachment and end ball ensures that the mirror stays in place, securely in the socket where you want it. Don't take a chance on others in the market that have been known to loosen over time, which can be frustrating (we guarantee ours). Our mirror reproductions are also professionally assembled and checked for quality at the factory then rechecked again before shipping, ensuring that your mirror will be trouble-free and a breeze to install. The 10-1/8" and 11-1/2" mirrors are available with your choice of black or gray rubber protective ring.

Part#	Year	Desc.	UOM	Price
97CH029	54-56	8	each	49.99
PZ00437	57-64	10" day & night, original style	each	69.99
PZ00438	57-66	10-1/8" day & night, repro-style	each	64.99
PZ00439	67-70	11-1/2" day & night	each	56.99

NOTE: Mirrors fit and function like originals, but depending on model, some cosmetic differences may be apparent.

ADD A HANDY CUSTOM FEATURE TO YOUR INTERIOR

CH31608 (Black) CH31608 (Silver)

1950-72 Custom Rear View Mirrors with Map Light

These custom day/night rear view mirrors are styled after original equipment, but feature the addition of a built-in map light. Designed to easily mount to your original mirror support, each unit includes a day/night lever on the bottom. The included wire features both a male and female terminal which can easily be plugged into your fuse block. Available in 3 sizes; 8-inch and 10-inch are available in silver or black, while the 12-inch is only available in silver.

MADE IN THE USA

1936-93 Billet Aluminum Inside Rearview Mirrors

Custom interior mirrors are manufactured from 6061-T6 billet aluminum to achieve a consistent appearance, fit and function. Mirrors feature convex glass and an adjustable pivot to enhance your field of vision and ensure stability while driving. Mirrors measure 9" x 2-1/2" x 1" and are available in two styles and several finishes. Choose the stem mount to fit the mirror to your original mirror mount bracket, or the glass mount, which fastens to the windshield when used with the proper adapter, which is sold separately.

PERFECT MIX OF STYLE, ELEGANCE & FUNCTION!
Manufactured in the USA

MADE IN THE USA

1936-93 Billet Aluminum Outer Mirror
Starting with 6061-T6 aluminum, the billet mirrors are CNC-machined to achieve consistent appearance, fit and function. To enhance the field of vision, these mirrors feature convex glass as well as increased articulation. Due to the unique design, the pivot ball can be tightened to lock the mirror head in place once positioned. These mirrors utilize the original mounting holes drilled by General Motors, but can be fitted to nearly any vehicle by drilling new holes. Mirrors include a mounting gasket.

59-78 CADILLAC

Precision zinc die-cast state-of-the-art reproduction door handles, triple chrome-plating and hand-polished to perfection!

1959-78 Outside Door Handle Kits

RESTOPARTS® has manufactured this kit the right way. Tooled from factory original Cadillac handles. Our handle and button kit is guaranteed identical in appearance, fit and finish. Important: Kits offered elsewhere look similar to the original, are slightly (incorrectly) angled once installed and not original for Cadillac. That is why we set out to manufacture this kit the right way. We didn't compromise and neither should you!

COMPLETE KITS INCLUDE: (2) Chrome outside door handles (LH/RH), (2) Door handle gaskets (4-pc), (2) Chrome pushbuttons (with rods, LH/RH), (2) O-rings (LH/RH) (2) Button springs (LH and RH) and (2) Retainers (LH and RH)

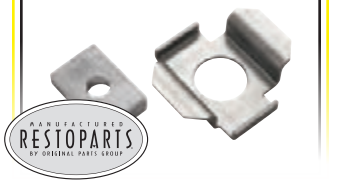
Regarding Minor Imperfections In Steel Panels:
The sheet metal you receive may have scratches, dings, small dents and other minor imperfections, which are considered normal sheet metal characteristics due to the nature of the product. OPGI does not consider these minor imperfections as damaged. These items will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. All sheet metal panels will require some sort of manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

Test Fit All Panels Prior To Paint and Installation:
OPGI recommends test-fitting all sheet metal panels prior to final paint and installation. It is also recommended that the damaged area of the vehicle not be cut out before receiving the new sheet metal. Measure twice, cut once to be safe. Sheet metal panels are not a finished product like door handles and mirrors. Minor modifications including elongating mounting holes, adding shims etc. are normal and may be necessary when installing sheet metal. This is a consideration when reinstalling original GM panels as well as reproductions. It is important to note that hard driving conditions can twist frames and bodies out of original tolerances. Poor bodywork from previous collisions can cause problems with the body structures that the panels are attached to.

MANUFACTURED IN HEAVY-DUTY STEEL
A must-have item



1954-77 Steel Cage Nut Assembly

This reproduction cage nut is reproduced to factory specifications and designed to help you repair your body and trunk mounts. The nut is manufactured using steel for superior strength and durability. The nut features a 7/16" coarse thread insert along with a stamped steel housing which must be welded into place and allows for movement when aligning the body with the frame.

ENERGY SUSPENSION — MADE IN THE USA

NEW! Hyper Flex Control Arm Bushing Sets
Energy Suspension has manufactured these bushings using their HYPER FLEX performance polyurethane, inevitably enhancing its durability and performance benefits over the factory bushing. They have been designed to provide proper stability and control by providing the driver a nice tight feel for those out in their weekend cruisers or out at the race tracks. Replacing your faulty rubber with these bushings will help maintain proper alignment settings under extreme conditions compared to factory rubber which tend to crack and distort.

Tie Rod Ends
Inner and outer tie rods are essential components to your steering linkage as they connect the center link to the steering arm and spindle. Choose between our standard tie rod ends and premium Moog tie rod ends depending on your needs.

Premium Moog tie rod ends feature a patented cover plate design, which captures the ball stud between two bearings to eliminate lash. Assembled with the correct pre-load, these tie rod ends help maintain proper steering effort. All housings are forged and heat-treated for strength and durability and each housing incorporates the correct threaded end for installation. All Federal Mogul/ Moog suspension components carry a limited lifetime warranty. Warranty is subject to proper installation and normal driving conditions. Warranty is not applicable to any off-road or race vehicles.

Standard bushings available, please see OPGI.COM for your vehicle fitment.

MASTERFULLY CRAFTED REPRODUCTION
Built for years of service

Pitman Arms
These precisely reproduced pitman arms are identical to original Cadillac equipment. The arm for 1959-60 models features a forging that is 50% larger than stock for superior strength and a replaceable ball stud for maintenance. Premium castings for 1967-70 Eldorado are identical to original equipment and ready for installation. All arms feature OEM sized splines for connection at the steering box and the correctly sized ball stud which mates to the center link and renews the tight feel to your steering.

ENERGY SUSPENSION

MADE IN THE USA

NEW! 1976-96 Hyper Flex Sway Bar End Link Assembly

Energy Suspension's bushings have increased in longevity and durability over the factory bushings using their famous HYPER FLEX performance polyurethane. They are capable of providing a soft, smooth ride while also providing a tight feeling of stability and control for those demanding roads or tracks. Replacing your faulty rubber with these bushings will help maintain proper alignment settings under extreme conditions compared to factory rubber which tend to crack and distort.

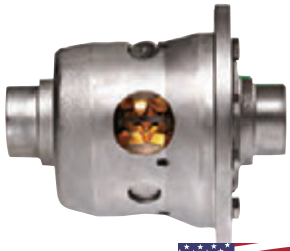
UPGRADE YOUR VEHICLE TO A SAFE TRANSFER OF INCREASED POWER & TORQUE ACROSS THE AXLE

Case material is up to 50% stronger than OE cases



AuburnGear

MADE IN THE USA

1976-79 Grip-N-Loc Differential

Welcome to Auburn Gear's most advanced limited slip differential, the Grip-N-Loc™. It builds upon exclusive technologies previously found in their limited slip line, but is even more robust to satisfy the extreme demands of serious drivers. If you push the limits of performance and traction, perhaps through competition, or simply through extreme weather driving, Grip-N-Loc is your best choice. A Grip-N-Loc will upgrade your vehicle for safe transfer of increased power/torque across the axle. Case material is up to 50% stronger than OE cases. Advanced cone clutch technology provides 25% increase in bias ratio/increased traction. Heat-treated, hardened-steel gear materials for confidence in extreme conditions.

DIFFERENTIAL COVERS

Adds a custom appearance while reducing temperatures

Cast Aluminum Differential Covers

Add a custom differential cover to your vehicle for an outstanding nostalgic upgrade. Lightweight and durable aluminum dissipates heat efficiently and quickly for reduced temperatures. A durable mounting flange increases strength and durability, while a magnetic drain plug allows for easy oil changes. Covers are available in as-cast, black powder coat, or polished finish, and mounting hardware included in each box.

KYB Gas-A-Just Shocks

This system eliminates the common problem of fading performance (associated with twin-tube construction) that allows the air and fluid to mix. KYB "Gas-A-Just" shocks include a protective outer shell to keep dirt out, self-sealing packing to reduce oil leakage, rubber cushions to protect inside on extreme extension strokes, seamless cylinder to reduce splitting, hard-chromed piston rod to reduce friction, rebound/compression valve to give quick dual-direction response, sintered iron piston for strength, all-weather fluid, floating dividing piston to separate gas and fluid and a tube guard to prevent damage from stones and debris. "Gas-A-Just" shocks are ideal for use with both radial and bias-ply tires.

THE MOST ADVANCED AIR SUSPENSION LEVELING SYSTEM IN THE WORLD

The perfect solution

ridetech Air Ride Technologies

RidePro-X Digital Air Suspension Control System

The RidePro X's sophisticated pressure and height algorithms tune air spring rates for proper handling and world-class ride quality. A sleek and stealthy 3-position Control Module plugs into your car's 12V power port and talks to the ECM via RF.

FEATURES AND BENEFITS:

- Stealthy 3-position Control Module communicates via RF.
- "Ride Height On Start" automatic lift and level feature.
- Pressure-based crossload compensation — critical for dynamic driving scenarios such as cornering and panic stops.
- Display and setup via smartphone "App" or laptop.
- Weatherproof ECM and heavy duty mil-spec connectors.
- RidePRO-X (pressure-based) system is upgradable to RidePRO-HP (pressure and height) system.
- Bluetooth connectivity and smartphone app are included
- ¼" Air Lines - Thomas Valves

Part#	Desc.	Mfg #	UOM	Price
RT34100	5 gallon, dual compressor	30534100	each	2,375.99

RidePro-HP Ride Height Sensors

RidePro-HP ride height sensors upgrade your existing RidePro-X pressure based system. Height and spring balance are established by comparing the position of the ride height sensor to the air pressure within each air spring. Your vehicle is then leveled with no cross-loading. This is especially important for dynamic driving scenarios where quick transitions occur such as high-performance driving, sudden directional changes and panic stops. This complete kit includes height sensors, height sensor linkage kits, group harness, heat shrink tubes and necessary hardware to complete the easy installation.

The LevelPro sensors automatically monitor both air pressure and ride height to eliminate crossloading. All products include detailed instructions for installation. Satisfaction guaranteed!

EDDIE MOTORSPORTS

MADE IN THE USA

1964-88 GM Type II Pump Power Steering Hardlines

Eddie Motorsports power steering hardlines are used on GM type II power steering pumps with attached reservoirs. These stainless steel power steering hardlines are available in a long or short option. The long hardline wraps around the top of the reservoir whereas the short hardline wraps around the side of the reservoir. The integral banjo fitting has 16.5mm x 1.5 threads and the line includes a nut and ferrule for attaching AN-6 Teflon lined braided stainless steel hose. Eddie Motorsports also offers power steering pump fittings and hardware for GM type II power steering pumps only. High flow pressure fitting accepts fittings with 16.5mm x 1.5 threads, internal orifice is .150" and allows pump to flow 3 -3.5 gallons per minute @ 1500 psi for use with Eddie Motorsports pumps used with GM power steering gear boxes. Low flow pressure fitting accepts fittings with 16.5mm x 1.5 threads, internal orifice is .120" and allows pump to flow 1.5 - 2 gallons per minute @ 1200 psi for use with Eddie Motorsports pumps used with rack and pinion steering systems.

EDDIE MOTORSPORTS

MADE IN THE USA

1936-93 Braided Stainless Power Steering Hoses

Eddie Motorsports power steering hose kits feature high-quality 28" braided stainless steel hoses that are Teflon lined to handle the high-pressure demands of your steering system. These kits are for use with Eddie Motorsports pulley kits and include two 28" braided stainless steel/teflon lines, each with one crimped-on 90 degree hose end and all of the necessary fittings. Installation requires cutting the two hoses to length and installing the included screw-together hose ends. Kits for systems with remote reservoirs will also include one 36" -10 return line, or add a remote power steering reservoir to your existing system using hose kit # EM10737, this kit includes 36" of -10 braided stainless steel line and clear anodized hose ends.

1936-93 Power Steering Clip-On Plastic Reservoirs

Eddie Motorsports GM type II power steering pump clip-on reservoirs are available in plastic or billet aluminum. The plastic reservoir is a standard replacement and requires a top and lower mounting clip (sold separately) where the billet reservoir is internally baffled and includes a race-inspired vented notched-grip cap and built in dipstick. The tank also includes an aluminum -6 AN return fitting. The reservoirs can be purchased with a raw machined or highly polished finish as well as a variety of Fusioncoat or anodized colors. Mounting clips are also available separately.

1959-76 500 Series Quick Ratio Power Steering Box

This new power steering conversion gearbox is a modern alternative to the popular but outdated 800 box. The 500 Series box provides superior directional control and road feedback, as well as a more stable and comfortable feel to the driver. CPP engineered the recirculating ball gears for low friction and increased steering response. Also, it will line up perfectly to your column without shims or spacers. All the other boxes on the market are rebuilt units, whereas this CPP 500 Series box is brand new, with a new housing, new internals, new gaskets, and seals. This is the very best gear-box available to convert your vehicle to power steering! Output shaft is 3/4" 30-spline, it utilizes a factory power steering pitman arm and the box is setup for stock inverted flared fittings.

AUTHENTICALLY REPRODUCED CYLINDERS

Features all-new components

Rear Wheel Cylinders

Keep your drum brakes working properly with new wheel cylinders from OPGI. Each wheel cylinder is manufactured using all-new internal components. A precisely machined housing combined with new pistons, seals, rubber boots, spring and bleeder screw help provide excellent pressure to the rear shoes for maximum stopping power.

RUSSELL

Speed Bleeders

Brake bleeding is now a one-person job. This revolutionary Russell "Speed Bleeder" replaces the original bleeder valve in your caliper/wheel cylinder with a spring-loaded, one-way ball and check valve design. This allows the old fluid and air out and then closes automatically between pumps preventing the old fluid and air from re-entering the brake line. Just position a container to collect the brake fluid then remove your OEM bleeder screw and replace it with the new Speed Bleeder screw.

WORKS WITH OUR "POWER BLEEDER" KIT PART# CH26311

Motive Products Brake Bleeding Catch Bottle Kit

When you're using Motive Products power brake bleeder, this catch bottle kit will be very handy. The kit consists of two 500 mL polyethylene bottles with a flexible bleed valve attachment tube and steel wire to hang the bottles from any suspension part. Each bottle also has a vent on top to connect the bleed valve tube when the bottle is not in use.

RUSSELL

1936-93 Speed Bleeder Bag

The "Speed Bleeder Bag" catches your old brake fluid for a no-spill operation. This is an EPA-approved, user-friendly product that includes plastic tubing and a 7" x 7" plastic bag with a unique tube connection. It holds approximately 12-ounces.

Part#	Desc.	UOM	Price
CH24314	.....	each	7.99

1936-93 Power Bleeder Kit

This power brake bleeder is designed as a one-person operation with no external power source needed. Because of the two-quart container, you can flush a complete brake system without having to stop to refill the fluid supply container. They say you should flush your brake system once a year due to the absorption of up to 2% moisture and contaminants, which will rust, corrode and wear-out brake system components. The "Power Bleeder" makes this an easy operation and it is a durable tool that is inexpensive to boot. Comes complete with the correct adapters, hoses and clamps.

CONSISTENT BRAKE RELEASE CHARACTERISTICS
Increased stopping power

HAWK PERFORMANCE

NEW! HPS Brake Pads
High Performance Street disc brake pads are legendary for increasing stopping power on street-legal vehicles and increasing the performance of your vehicle's braking system is easy when you choose Hawk Performance Street HPS braking compound. The HPS compound offers a higher coefficient of friction over stock brake pads and can provide you 20-40% more stopping power and higher resistance to brake fade than most standard replacement pads. Less fade means you will have better pedal feel and more consistent performance in a durable brake pad that generates less dust. Smooth braking feel. Excellent for spirited driving. Gentle on rotors and extended pad life. 100-700° F operating temperatures, 100-500° F optimal temperature range. Sold in axle sets.

SMOOTH & PREDICTABLE CONTROL
Aggressive torque

HAWK PERFORMANCE

NEW! HPS 5.0 Brake Pads
High Performance Street 5.0 pads give your vehicle the greatest stopping power and pedal feel without compromising ABS. HPS 5.0 is a Ferro-Carbon compound that provides advanced braking characteristics to enhance the driving experience. This compound combines the safety and quality of aerospace design with the braking technology of motorsports. The results are shorter stopping distances, improved performance under heavy braking conditions, and street car friendly characteristics. Great rotor and pad wear life. Designed to deliver high deceleration rates. Consistent brake release characteristics for a smooth braking feel. 100-750° F operating temperatures, 100-550° F optimal temperature range. Sold in axle sets.

EXTREMELY HIGH COEFFICIENT OF FRICTION AND FADE RESISTANCE
Superior high-temperature rotor and brake pad wear

HAWK PERFORMANCE

NEW! SuperDuty Brake Pads
Hawk's SuperDuty compound features that same high performance, severe-duty friction technology. The unique ferro-carbon material in SuperDuty disc brake pads delivers extremely high fade resistance. This compound has been engineered for Class 2 and higher, on-highway, commercial-grade vehicles. This product is not recommended for personal or recreational trucks and SUVs. Technology engineered for use in heavy-duty on/off highway applications. Recommended for professional fleets (greater than 1 ton) and light trucks towing excessive payloads. Low torque. 100-750° F operating temperatures, 100-500° F optimal temperature range. Sold in axle sets.

HAWK PERFORMANCE

NEW! Ceramic Brake Pads
Hawk understands the needs of today's ceramic brake pad users and has specifically formulated our composite material to meet - and beat - the stringent low noise, ultra-low dust performance standards they have set. Engineered to reduce brake noise, vibration and harshness, Performance Ceramic is a premium disc brake pad that delivers excellent performance mile after mile. Providing a linear friction profile that allows your vehicle's ABS system to operate most effectively, our unique compound has the advantage of never sacrificing power to achieve traditional ceramic pad attributes. With Hawk's Performance Ceramic, you can expect reduced brake pad wear, longer rotor life, and our quietest ride ever. Improved stopping power. Gentle on rotors for extended pad life. 100-650° F operating temperatures, 100-450° F optimal temperature range. Sold in axle sets.

NOTE: All Hawk Performance compounds are not compatible with carbon ceramic rotors. Hawk pads are designed to work with iron/metal rotors.

TOP-QUALITY
Precision CNC bends

Front-To-Rear Brake Lines

These CNC-bent brake lines are identical reproductions of factory originals. Each line features the correct bends as well as flared ends and threaded fittings for a leak-free seal. These complete sets are available in either OM steel or stainless steel depending on your preference and includes all of the hard lines necessary to get fluid from the master cylinder to all four corners of your vehicle.

NOTCHEAD

1936-93 Braided Line Clamps

These all-new clamps from Notchead are the easiest way to secure your braided fluid transfer lines. Manufactured using heat resistant Copolymer Acetal, the clamps are made to stand up to the most rigorous conditions. Mounting is made easy with the included machine screws and nuts, as well as self-drilling screws for blind applications. Once installed, lines snap into place to conceal the hardware and provide a clean appearance. Available in a variety of sizes to suit your needs.

EARL'S PERFORMANCE PLUMBING

Professional Flaring Tool

Making quality flares in tubing can be difficult without the proper tools. This professional level flaring tool makes flares quickly in all types of tubing and does not damage or deform the tubing. The tool comes with 5 dies and one turret with 8 punches to provide 37° flares for 3/16", 1/4", 5/16", 3/8" and 1/2" tubing sizes in various materials including copper, aluminum, copper/nickel, steel and stainless steel. The Earl's Professional Flaring Tool also includes a bench mounting flange to mount to your shop bench and can also be used with a vise.

Part#	Desc.	UOM	Price
ERL1002	.....	each	471.99

EARL'S PERFORMANCE PLUMBING

Professional Lever Style Tubing Benders

Earl's professional tubing benders are high-quality tools that can handle all types of tubing including harder material like stainless steel but will also work with other materials such as steel, copper and copper/nickel. The open side of the tool slips over the tube at any point, and makes smooth, tight radius bends without scoring or flattening the tube and can bend tubing up to 180°. Each tool bends a single size and are sold individually.

THE FINEST TANKS AVAILABLE!

SUPERIOR ATTENTION TO DETAIL THROUGHOUT

CE10457 (1957)

MANUFACTURED RESTOPARTS BY ORIGINAL PARTS GROUP

OPGI.COM PRODUCT VIDEO AVAILABLE ONLINE

CE10458 (1959-62)

GALVANIZED TANKS feature a double-sided zinc coating for corrosion resistance. all seams and components are copper brazed for increased strength and durability, while a powder coated finish is applied to each brazing area as an added layer of protection.

Galvanized Fuel Tank Assemblies

Premium fuel tanks from RESTOPARTS® are now available and ready for shipment! Each tank features the lock ring and gasket for installation of the fuel sending unit. Tanks also feature the necessary vent and return line connections as well as the filler neck where specified. Rather than arc welding which can become brittle and subject to premature cracking, our RESTOPARTS® tanks are manufactured using superior methods for increased strength and durability. These methods are able to withstand constant road vibrations without fears of cracking or leaking. Galvanized Tanks feature a double-sided Zinc coating for corrosion resistance. All seams and components are copper brazed for increased strength and durability, while a powder coated finish is applied to each brazing area as an added layer of protection.

A MUST-HAVE ITEM

Prevent metal-to-metal wear

MANUFACTURED RESTOPARTS BY ORIGINAL PARTS GROUP

1967-90 Fuel Tank Mounting Strap Anti-Squeak Kit

This is the rubber strap material that prevents metal-to-metal wear between the straps and gas tank due to vibrations. The seals go between the steel straps and the gas tank. They also prohibit annoying squeaks usually heard after removing and reinstalling the tank for repair, or replacing it with a new one. Each kit includes 6-feet of material, enough to do both sides.

Part#	Desc.	UOM	Price

A MUST-HAVE FOR ANY ELECTRIC FUEL PUMP-EQUIPPED VEHICLE
Run your fuel pump when you need it

Electric Fuel Pump Controller
This fuel pump controller is ideal for any vehicle that utilizes an electric pump. The controller works off of the tachometer signal which tells the pump when to work. The pump is allowed to run for 3-seconds when the key is turned on in order to prime the system, after that, the pump runs only when the engine is running. When the engine stops, so does the fuel pump. The controller is for use with any 12-volt pump and includes detailed instructions for a straightforward installation.

Ultimate LS EFI System

FiTech's Ultimate LS Induction systems are designed as a complete system for your LS engine and are ready to be installed out of the box! The sheet metal intake looks stellar and delivers the performance to match for engines ranging from 500-750 horsepower. Kits are available with or without built-in transmission controls for popular GM 4-speed automatics. There are kits available with a taller intake to accept the truck accessory drive assembly.

- Cast throttle body with a 92mm(500 HP) or 102mm(750 HP) inlet
- Sheet metal design is ideal for a 1500-6500 rpm power band
- Self-learning technology maintains your target air/fuel ratio settings
- Sequential fuel and spark control with individual cylinder trim
- Connects to 24x and 58x cam sensors
- Knock sensor control connects to factory sensors
- 3-Bar MAP sensor for boosted applications up to 30-psi
- Tach output driver works with most tachs
- Two programmable electric fan outputs
- Wide band oxygen sensors
- Custom wiring harness for a direct plug-in installation
- Control the shift points & firmness of 4L60/65/80/85 transmissions

STARTING AT $1,696.99

Master kits include the above plus:

- FiTech EFI Kit with Inline Pump Kit

This kit is supplied with our heavy duty, 255 LPH, external fuel pump that is suitable to support engines producing up to 650 horsepower. This kit includes 40 feet of high pressure fuel hose, two fuel filters including a serviceable 10-micron filter, fittings, mounts & clamps.

- FiTech EFI Kit with Force Fuel System

The new Force Fuel System mounts under the hood and uses the stock fuel pump to supply fuel to the reservoir. Inside is an efficient 340 LPH electric pump that produces the high pressure required of the EFI system. This kit is supplied with the reservoir assembly and includes a built-in pressure regulator, 5-feet of high pressure hose, -6AN fittings and an efficient 10-micron serviceable fuel filter.

NEW! Retro-LS EFI Kit

The Retro-LS throttle body system, plated in classic carburetor gold, bolts to an LS intake made for carburetors and delivers all the driveability benefits of a factory EFI system. The kit supports up to 650 horsepower with its four 80-lbs injectors and delivers a semi-sequential fuel supply through an effective annular discharge design. For ease of installation, a wiring harness is supplied that is already terminated with the specific LS engine sensors, including the factory knock sensors to complement the built-in timing control. On top of that, the ECU also has the ability to control the transmission shift points and characteristics of the popular 4L60/65/80E transmissions.

3

CH33710 (BASE) **$1,834.99**

CH33711 (MASTER) **$2,241.99**

No laptop is required and the system will work on 24x or 58x cam sensors. Supplied with: ECU, handheld controller, windshield mount, dual WB02 sensors, bung kits, gasket, and mini USB cable. Master kits include the above plus: •FiTech EFI Kit with Force Fuel System. The new Force Fuel System mounts under the hood and uses the stock fuel pump to supply fuel to the reservoir. Inside is an efficient 340 LPH electric pump that produces the high pressure required of the EFI system. This kit is supplied with the reservoir assembly and includes a built-in pressure regulator, 5-feet of high pressure hose, -6AN fittings and an efficient 10-micron serviceable fuel filter.

GO Port EFI

The Go Port EFI system features eight injectors placed precisely in each intake runner to inject fuel right into the cylinder head port. A sequential port fuel design provides excellent throttle response, effective fuel atomization and delivery resulting in terrific throttle response and overall performance.

3

***starting at* $1,074.99**

FiTech offers two complete systems; a kit for up to 550 horsepower and a 1050 horsepower kit. Each system is supplied with a new aluminum intake machined and fitted with injectors (36 or 80 lbs), fuel rails, the wiring harness and an 850 cfm throttle body. The ECU, with its high speed processor, is integral to the throttle body along with the TPS, IAC, IAT and MAP sensors reducing wiring and making installation as easy as possible. All setup is handled through the color touchscreen monitor with no tuning experience necessary to have your engine fired up and running at its best. There is also a standalone system if you would like to supply the manifold. Supplied with: Throttle Body, gasket, aluminum single plane intake manifold, high flow fuel rails, injectors, WB02 sensor, bung kit, coolant temp sensor, color touchscreen monitor and mount.

3

CH33614 (BASE)
$1,723.99

CH33615 (MASTER, FORCE FUEL SYSTEM)
$2,104.99

Ultra Ram EFI

FiTech's Ultra Ram EFI Systems deliver outstanding port fuel injection performance with an aggressive looking sheet metal intake manifold. The design of the Ultra Ram intake performs as good as it looks and will support up to 600 horsepower (naturally aspirated). The system comes ready to go out of the box with the injectors and fuel rails installed. The robust ECU is easy to mount and handles the air/fuel mixture targets with self-learning technology so no laptop is required. In fact, you only need to input a few engine specs into the color touch screen monitor to get the engine to fire up. The Ultra Ram is ideal for crate motors or your custom built engine and will deliver great performance with the looks to match.

- FiTech EFI Kit with Force Fuel System

The new Force Fuel System mounts under the hood and uses the stock fuel pump to supply fuel to the reservoir. Inside is an efficient 340 LPH electric pump that produces the high pressure required of the EFI system. This kit is supplied with the reservoir assembly and includes a built-in pressure regulator, 5-feet of high pressure hose, -6AN fittings and an efficient 10-micron serviceable fuel filter.

NOTE: Base kits do not come with a fuel system.

CH33715 (SINGLE OUTPUT)
$141.99

3

NEW! EFI Fuel Regulator

The FiTech Go Fuel Regulators allow you to set the fuel pressure precisely where your EFI system and engine require. Both models can be adjusted from 30 – 70 psi and can support up to 1000 horsepower (gas engines). Crafted from billet aluminum, the regulators feature -6 ORB ports along a vacuum/boost port and will accept a gauge. Two models are available; a compact unit with a single output as well as a larger, dual output model.

CH33713
$481.99

3

Force Fuel System

- Supports fuel demands of 800-hp engine on gas
- No fuel slosh - ideal for autocross and off-road
- Effective 10-micron serviceable filter ensures the best filtration
- Increased fuel capacity over other systems – no chance of cavitation, even under hard cornering or acceleration
- Capable of running with E-85, ethanol or methanol based fuels

Supplied with: 5-feet of high pressure fuel hose, 10-micron fuel filter, AN fittings, return line fitting bung and liquid filled gauge.

Holley EFI CONVERSIONS AT ORIGINAL PARTS GROUP

For over a century Holley has driven the cutting edge of fuel-system design. That work continues today through Holley's market-leading EFI products as well as through Holley's family of best-in-industry brands. Top brands like MSD, Flowmaster, Hurst, Accel and many more make up the industry's leading offering of enthusiast-driven products to deliver robust, complete performance solutions for builders, racers, and drivers.

HOLLEY SNIPER EFI KITS

Easy to install and will support up to 600 HP with a simple 4 wire connection. There are no extra control boxes to mount and both the fuel pressure regulator, ignition timing control are completely integrated. All controlled by an included color touchscreen programmer. The self-tuning ECU will automatically make adjustments on the fly which means no laptop required. The master kit will contain the most complete EFI fuel system on the market. Everything is included to completely plumb your fuel system including 20 feet of 3/8" EFI hose, in-line fuel pump, post and pre fuel filters, return bulkhead and all of the necessary fittings and hardware.

STARTING AT

3 **$1,124.99**

SNIPER QUADRAJET EFI CONVERSION

The first bolt on spread bore electronic fuel injected throttle body system that does not require any additional adapters, sealing plates, or intake manifold swaps! The system retains the same great features as the 4150 Sniper EFI version such as; four 100lb./hr. Injectors, built in timing control, a 3.5" full color touchscreen and much more! The throttle body will support up to 500 horsepower naturally aspirated. In addition to all of these great tried and true features, the Sniper EFI Rochester Quadrajet™ (Q-Jet) system will fit most stock air cleaners and offers multiple fuel inlet configurations that allow for a stock appearing installation!

STARTING AT

3 **$1,403.99**

DUAL-QUAD SNIPER STEALTH 4150 EFI

The Sniper EFI 4150 2x4 system from Holley features 8, 100LB/HR Fuel Injectors capable of supporting 1250 HP on both naturally aspirated and forced induction applications. The Sniper EFI 4150 2x4 was designed for use on naturally aspirated engines, while the Super Sniper EFI 4150 2x4 system was developed for both naturally aspirated and draw through supercharged applications. Every Sniper EFI can be used with free downloadable Sniper EFI Software, giving you unlimited control of your engine. Super Sniper EFI 2x4 comes with a USB to CAN tuning cable allowing for live engine tuning.

Phantom Fuel Systems

These Phantom 340 Stealth fuel systems from Aeromotive converts any stock fuel tank to a modern, in-tank design and supplies enough fuel for whatever engine combination you have. Whether you have a carbureted application, EFI swap or you are placing a late model electronic fuel injected engine into your classic, OPGI has what you need! The clever design of this fuel system allows you to have an in-tank fuel pump that runs quietly, keeps fuel from sloshing and keeps the pump submerged even at low fuel levels. This system includes all the fittings needed, the fuel pressure regulator as well as the fuel filter needed to get you on the road quickly. Not only will these kits support up to 900 horsepower, they are made of anodized billet aluminum and made in the U.S.A. Detailed instructions are included to make sure you know exactly what needs to be done to complete the installation. AN-08 style fuel hose and hose ends are not included.

Carbureted: (1) 18688 Phantom 340 fuel pump, (1) 12321 10 micron fuel filter, (1) 12305 fuel filter bracket, (1) 13204 bypass fuel pressure regulator, (1) 16307 fuel pump wiring kit, (3) 15606 AN-06 ORB to AN-06 flare fittings, (1) 15607 AN-08 ORB to AN-08 flare fitting, (3) 15610 AN-10 ORB to AN-08 flare fittings, (1) 15626 AN-06 port plug, (2) 15649 AN-06 ORB to AN-08 flare fittings, (1) 15632 0-15 psi fuel pressure gauge.

EFI conversions: (1) 18688 Phantom 340 fuel pump, (1) 12321 10 micron fuel filter, (1) 12305 fuel filter bracket, (1) 13131 bypass fuel pressure regulator, (1) 16307 fuel pump wiring kit, (6) 15606 AN-06 ORB to AN-06 flare fittings, (2) 15609 AN-10 ORB to AN-06 flare fittings, (1) 15626 AN-06 port plug, (1) 15633 0-100 psi fuel pressure gauge.

Late model EFI: (1) 18688 Phantom 340 fuel pump, (1) 12321 10 micron fuel filter, (1) 12305 fuel filter bracket, (1) 13131 bypass fuel pressure regulator, (1) 16307 fuel pump wiring kit, (1) 15118 3/8" quick connect to AN-08 fitting, (1) 15605 AN-08 ORB to AN-06 flare fitting, (6) 15606 AN-06 ORB to AN-06 flare fittings, (2) 15609 AN-10 ORB to AN-06 flare fittings, (1) 15633 0-100 psi fuel pressure gauge.

Holley SNIPER EFI

NEW! Dual Pump In-Tank Fuel Modules

Looking to make a serious step up in the horsepower department? The Sniper Dual 340 LPH or 450 LPH EFI pump modules would be an excellent choice. While the name includes EFI, these modules can be used as an upgrade for carbureted systems as well with the proper regulator. The innovative clamping system allows you to locate the module nearly anywhere in the tank while retaining your factory fuel level sending unit. The clamping system allows you to rotate the unit 360° for easier clocking of the plumbing and wiring locations under your vehicle.

Features:Billet, anodized, laser etched flanges with 8AN ORB Return/Outlet and 6AN ORB vent. The innovative clamping system allows you to locate the module nearly anywhere in the tank while retaining your factory fuel level sending unit. Easy install – just drill a 4" hole in the top of the tank then use hand tools E85 compatible. The dual pump design allows the pumps to be ran together or the second pump can be triggered additionally when you need it (Hobbs switch, Holley EFI auxiliary pump circuit, etc…) Units install in tanks from 7" – 12" deep Filter socks included

A1000 Fuel Pump

This is the fuel pump that gave Aeromotive the name it has in the performance market today! This fuel pump is extremely durable and reliable no matter what power level your vehicle may have. The A1000 fuel pump supports up to 1300 horsepower in fuel injected applications and up to 1500 horsepower in carbureted applications. Featuring a flow rate of 600 lbs./hr. at 13.5 V and 45 psi, these fuel pumps are the obvious choice for owners who are looking for more from their fuel system. Made in the USA.

Fuel Injected Engines:
up to 1300 HP - naturally aspirated
up to 1000 HP - forced air induction

Carbureted Engines:
up to 1500 HP - naturally aspirated
up to 1200 HP - forced air induction

AEROMOTIVE IN-LINE FUEL FILTERS

These fuel filters are an inexpensive insurance policy to make sure that your fuel system is clean and the performance you expect from your engine is not diminished. Aeromotive has made these fuel filters to run on anything from 200 horsepower to an astounding 3000 horsepower. These high-flow filters are available in NPT, ORB, AN, and canister styles, with your choice of a 100, 40, or 10 micron (µm) filter. The 100 micron in-line filters include a stainless steel cleanable element that is meant to be used between the fuel tank and the fuel pump to protect the pump. The 40 micron in-line filters include a fabric filter element and the 10 micron in-line filters include a cellulose filter element that is meant to run after the fuel pump to protect your injectors or carburetor. Aeromotive also offers replacements O-rings for use with your Aeromotive fuel filters. Whenever you change your fuel filter element, install new O-rings to ensure a positive, leak-free seal from the filter to your fuel lines.

EFI AND CARBURETED APPLICATIONS

ARO3204 ARO3101

AEROMOTIVE MADE IN THE USA

1967-90 A1000 Bypass Fuel Pressure Regulators
Made of anodized billet aluminum, these fuel pressure regulators from Aeromotive are the best on the market. Available for both electronic fuel injected or carbureted applications, the Aeromotive A1000 bypass fuel pressure regulators are meant for medium to high horsepower applications to control fuel pressure to an optimum level. These regulators can be used in either gasoline or alcohol configurations as well as supercharged or turbocharged engines. Each bypass fuel pressure regulator comes with easy to follow instructions to ensure you have the system set up correctly.

Electronic fuel injected regulator: Base pressure adjustable from 40-75 psi, 1/8" NPT gauge port, (2) ORB-10 inlet ports, (1) ORB-06 return port, 1:1 boost/vacuum rise ratio.

Carbureted regulator: Base pressure adjustable from 3-15 psi, 1/8" NPT gauge port, (1) ORB-10 inlet port, (1) ORB-08 return port, (2) ORB-06 outlet ports, 1:1 boost/vacuum rise ratio.

OPEN STYLE OR 4-HOLE SPACERS AVAILABLE

AFR Air Flow Research

NEW! Carburetor Spacers
Air Flow Research 1" carburetor spacers are manufactured from phenolic plastic and can be installed on any 4150 style carburetors, both spacers are to improve your engines output and air/fuel distribution by lengthening the intake mixture column. Both versions act as a heat barrier between the manifold and carburetor to keep the fuel in the float bowls cooler, as well as the actual carburetor's body itself. Which results in cooler, denser air/fuel induction charge for increased HP. Both have a clover leaf design reducing some of the turbulent air directly under the carburetor base making them more efficient. The open spacer is to increase high-RPM power, while the tapered 4-hole spacer helps increase mid-range torque. They fit the AFR line of composite intake manifolds perfectly but can be used on most aftermarket manifolds as well.

PREMIUM FUEL-INJECTION CONVERSIONS

MSD

1967-90 Atomic EFI
Adding fuel-injection to your classic car just got easier with the Atomic EFI from MSD. The Atomic EFI is the fastest way to quicker starts, smoother idle and immediate throttle response. Available in several configurations as complete kits, each throttle body injection unit is packed with features designed to enhance performance and reliability. An internal fuel rail reduces leaks and provides a sleek appearance. Annular rings improve fuel atomization and ensure the best air/fuel mixture is delivered to each cylinder. The square-bore design features large 1.75" diameter throttle blades that are riding on precision roller bearings for a smooth pedal transition. The self-calibrating throttle position sensor and four 80-lb injectors ensure that fuel is delivered at the correct rate. Wiring is reduced by integrating the ECU and most sensors into the throttle body. The only sensors you'll need to connect are the O2 and coolant temperature. The compact power module is a simple plug-in device that can control the electric fuel pump and two electric fans. A hand-held programmer provides a hassle-free way to custom-tailor the EFI to your engine and monitors all of the vitals during operation.

- Master Kit: Throttle body, power module, wide band O2 sensor, hand-held monitor, fuel pump, filter, brackets, high-pressure hose and clamps.
- Standard Kit: Throttle body, power module, wide band O2 sensor, hand-held monitor.

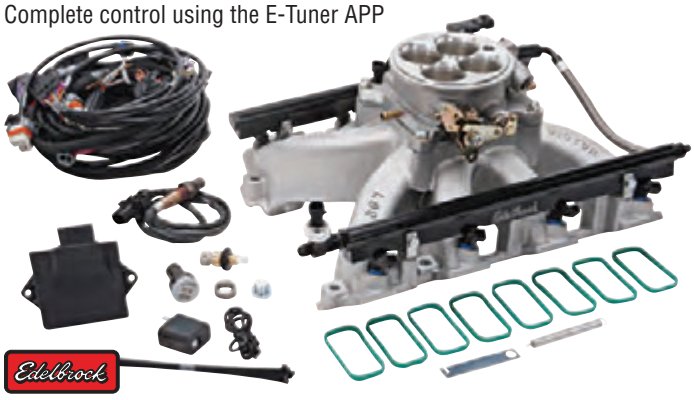
MAXIMIZE PERFORMANCE

Complete control using the E-Tuner APP



NEW! Pro-Flo 4150-Style EFI Kits

Edelbrock's Pro-Flo 4 EFI 4150 set comes with a complete intake manifold, which also includes a plug and play single connection distributor designed to work specifically with Pro-Flo 4 and is made in the USA. Fully terminated high-quality harness with clearly labeled connections for a hassle-free installation. It also has an upgraded Bluetooth chip that is faster, more reliable and will not drop connection. Edelbrock has added more features for the advanced tuner giving you control over air-fuel ratios, ignition curve, idle speed, acceleration fuel, coolant fans, Rev limiter while retaining the simplicity Pro-Flo is known for. Edelbrock's E-Tuner 4 app is free and exclusive for Android and IOS based smart phone or tablet.

Components included: Assembled 4150 Style Intake Manifold, Pro-Flo ECU, Distributor(Not included w LS applications), Oxygen Sensor(o2), Fuel Pressure Sensor(-6AN Male), Throttle Position Sensor(TPS), Coolant Temp Sensor(Not included on LS applications), Idle Air Control Valve(IAC), and Manifold Absolute Pressure(MAP), Two full time 3/8 PCV Ports(1 for Brake Booster), Dual aluminum Fuel Rail, Low Impedance Fuel Injectors, Gaskets and Hardware, Main Engine, Coil, and Injector/Sensor Harnesses w/ Pre-terminated Connectors and Labeled Connections.

USE WITH ANY GAUGE

Fuel Link Gauge Adapter

Whether you are using an aftermarket fuel gauge or have installed a fuel injection tank with a different sending unit than the original, this unit will correct the signal difference and allow any gauge to work with any fuel sending unit. Its compact size and labeled wire terminals make the Fuel Link from Classic Instruments easy to install while the pushbutton programmability with LED readout allows for simple use. Extra features include signal dampening to prevent unnecessary needle movement as well as the option to trigger a low fuel warning light at 1/8 tank (light not included). A simple solution to inaccurate fuel gauges.

PERFORMANCE

1961-77 SuperMatic 4L65E 4-Speed Automatic Transmission

CH33197

Chevrolet Performance 4L65E Four-Speed Automatic Transmission is similar in design to the 4L60E. This remanufactured 4L60E electronically controlled four-speed overdrive transmission features five-pinion gearsets, heat-treated stator shaft splines, induction-hardened turbine shaft, seven-plate 3.4 clutch. The 4L65E can handle up to 430 lb.-ft. torque, with gear ratios: 1st: 3.06, 2nd: 1.62, 3rd: 1.00, 4th: 0.70. Use SuperMatic™ converter for direct bolt up to Gen I and Gen II engines. Torque converter not include. Use with electronic controller P/N CH33199 with Chevrolet Performance LS fuel injected applications. Chevrolet Performance has you covered with a 12 month Warranty.

TREMEC

MADE IN THE USA

Tremec TKX 5-Speed Transmissions

Tech Specs: -26-spline input shaft. -31 spline output.

All gears and shafts made from special grade steel (ASTM 4615) 600ft-lb Constant Load Rated TKX 5-Speed Manual Transmission Features and Benefits

- Capable of engine speeds of 8,000 RPMs with shifts at 7,500 RPMs.
- Designed for multiple applications with three shifter locations. Compact, end-loaded design provides clearance in most transmission tunnels without floor modifications.
- Increased case strength with three-piece aluminum housing provides outstanding structural stiffness (includes main case, intermediate plate and rear extension). Gaskets at all flanges simplifies installation and eliminates fluid leaks.
- Superior shift-ability through use of multi-cone synchronizers and hybrid synchronizer rings made of sintered bronze and carbon.
- Noise, vibration and harshness (NVH) minimized with gear layout to best control stress levels. All gears supported by caged needle bearings to reduce end play on the gears.
- All gears and shafts made from special grade steel (ASTM 4615) providing increased torque carrying capacity.
- Equipped with a high-performance short-throw billet aluminum shifter that isolates road noise, while providing clean, crisp shifts.
- Robust design with internal three-rail shift system and steel shift forks.
- Wide gear width increases gear life and torque capacity.
- Built-in reverse light switch and cruise control safety switch.

NEW! Tremec T-56 Magnum Manual Transmissions

The kingpin of TREMEC's high performance line-up, the Magnum double-overdrive 6-speed transmission takes the very best from TREMEC's current OEM technologies and pairs it with the most popular features of the TKO 5-speed. Able to withstand a massive 700 lb-ft. of torque while providing unbelievably crisp shifts, no other manual transmission on the planet offers as much combined strength, versatility, and general ease-of-use as the Magnum. Known in its original equipment form as the 'TR-6060', the Magnum is an aftermarket version of the same transmission found in many of today's most celebrated factory muscle cars. Multiple shifter locations, giving you refinement where you want it and strength where it counts. Can be combined with any GM engine; big block, small block, or LS when using the correct bell housing.

1936-90 Go-Shift Transmission Controller

FiTech Go-Shift stand-alone electronic transmission control is the perfect solution when it comes to managing your GM 4L60/65/80/85E transmission. The Go-Shift is designed to be easy to install, affordable and simple to program. In fact, all of the transmission settings, including shift points, firmness and converter lock-up can be adjusted through the supplied handheld monitor!

A harness, complete with OEM style sealed connectors, makes installation a plug 'n play affair while the compact ECU easily mounts out of the way. After setting up the trans, you can disconnect the monitor or keep it plugged in to view transmission data.

- Easily adjust the rpm points and firmness of each shift
- Direct plug-in harness for ease of installation
- Speedometer calibration and output
- Compatible with paddle shift inputs
- Control the torque converter clutch lock-up

COLUMN OR FLOOR SHIFT

Fits several GM transmissions

Universal Shift Linkage Kit

These kits will fit any TH-350, TH-400, 700-R4, 2004R and many other GM transmissions. This universal shift linkage kit features a billet shift arm and 2 heim joints that make shifting smooth as silk as they are able to get a perfect stress free angle. The kit also includes the zinc plated shift rod which can be cut to the perfect length and the kit comes with all the mounting hardware you will need.

NEW! 1976-79 Hyper Flex Transmission Mount Sets

These transmission mounts from Energy Suspension are made with their HYPER FLEX performance polyurethane, soft enough to absorb vibrations on the street, while being rugged enough for the most demanding tracks. Their "safety interlock" design provides added strength in comparison to solid mounts. They are resistant towards vehicle chemicals, and road contamination. Energy offers these with a zinc finish and the choice of their red or black bushings. Factory mounts tend to crack and distort over time, while these mounts will keep your motor and transmission property aligned.

AMERICAN POWERTRAIN

MADE IN THE USA

NEW! 1936-93 Aluminum Bellhousing
American Powertrain is offering direct bolt-on bellhousings that properly mount your GM or aftermarket transmission. Cast from A356 aluminum which include a high titanium content that resists torque stress, the bellhousings also feature extra-thick walls for added rigidity and are individually CNC machined for a precise fit. The housings are lighter than cast iron, making it a cost effective solution for builders who are not needing SFI certification. All hardware needed for installation is included. Compatible with OE mechanical linkage or hydraulics and 160/166t flywheel. Bellhousings and adapters are 100% manufactured in the USA.

Battery Relocation Mounts

Detroit Speed battery relocation kit is a great way to reduce underhood clutter and improve weight distribution. This CNC machined aluminum battery mount is designed around the optima battery (GROUP 34 /78 batteries). The entire battery mount is machined from 6061 billet aluminum. Three countersunk stainless steel bolts secure the top of the battery mount to the support rods. The base of the mount is mounted to your vehicle with no visible bolts from the top. It is a simple, strong way to hold your Optima battery anywhere. There are six drilled and tapped holes on the underside of the base. Although fewer attachment locations will securely mount your battery, provide six mounting holes to give you added flexibility. A mounting hole template is provided to assist you in locating the holes. These kits are available without cables or as a set with 18' red/black 2 gauge battery cable, 2 bulkheads (1 positive, 1 negative), 1 pair top post battery terminals and 4 crimp/solder rings for 2 gauge battery cables. The mounts are shipped in a natural finish. The dimensions of the battery mount are 11 1/2" x 8 1/2" x 7 1/2" tall.

KEEPS YOUR 12-VOLT BATTERY FULLY CHARGED WITHOUT OVER CHARGING

12V Automatic Float Charger

This float charger is designed to prevent the normal discharging of a battery that is not used for weeks, months or years. By keeping the charge up, the tender extends the life of batteries rated for 5-125 amp-hours. The tender can do this by providing a constant, minimum current, regulated output, which is great for long-term use. The float charger works on all 12-volt batteries for cars, trucks, motorcycles and boats. It comes with a 1-year limited warranty.

PROTECT YOUR VEHICLE FROM THEFT

Disable the ignition by grounding out the coil

Performance Distributors

MADE IN THE USA

Kill Switch

Protect your vehicle from theft with this simple, easy to install kill switch. The DUI Kill Switch is designed to disable the ignition by grounding out the coil which will prevent the engine from starting. The system is easy to install with the included hardware. Just mount the toggle switch in an inconspicuous area, connect one side of the switch to the negative side of the coil and the other side to a ground. This effective and low cost anti-theft device will ensure that your hot rod will remain where you park it without the fear of some knucklehead driving off with it. The kill switch works with all DUI and HEI style distributors. Comes with all items pictured and easy to follow instructions.

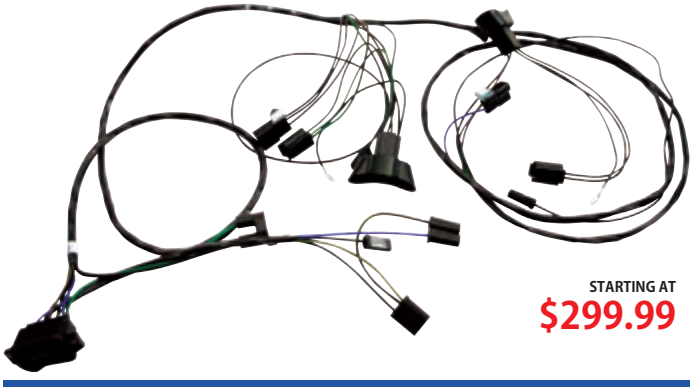
STARTING AT ENGINE HARNESS $173.99

This harness is one of two (the other being the forward lamp harness) located in the engine compartment. It includes the wiring for the solenoid, motor, heater blower, coil, tachometer (1968 and up), wiper motor, oil pressure light, brake warning lights and idle stop solenoid (1969 only).



STARTING AT
$299.99

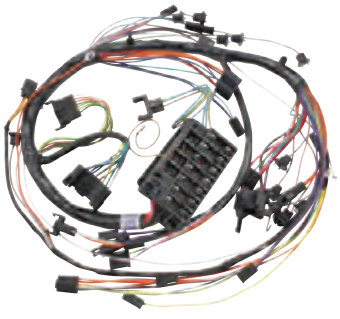
FORWARD LAMP HARNESS

This harness is located in the engine compartment and covers the wiring for the headlights, battery, park lights, side marker lights, horn, alternator, temperature, sensor and amp gauge.

REAR LIGHT

This harness is found inside the trunk. It carries the operations for the back-up lights, tail lights and back-up light harness.

STARTING AT
$154.99



DASH HARNESS

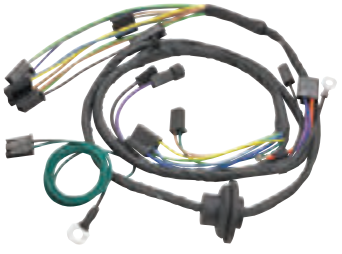
This complete assembly provides wiring for all instrumentation and underdash functional wiring. Fuse block, heater control, interior console lighting (if applicable), steering column controls and air conditioning controls where applicable.

STARTING AT
$599.99

CONSOLE

Reproduction wiring harnesses are available for automatic or manual transmission models. Each harness is identical to original equipment and features factory color-coded wire as well as the correct plugs and sockets.

STARTING AT
$29.99



AC HARNESS

This harness provides wiring for air conditioning relays and a compressor in the engine compartment.

STARTING AT
$138.99

BATTERY CABLES

Finally, authentic, original spring ring cables with all the correct markings!
These are identical to the original and produced in the USA for OPGI.
Priced per each cable.

STARTING AT
$69.99

CH30753 CH30754

PREMIUM SPARK PLUG WIRES!

Heat resistant ceramic boots!

PRT15HT

PRT24HT

Ceramic Boot Spark Plug Wires

These are the answer to your burnt wire blues. Each wire is constructed from two layers of ultra-high temperature silicone and rated up to 600° F. The ceramic spark plug boot acts as the primary protection to direct heat withstanding up to 2000° F.
•Two current paths for reliability and redundancy. -Primary path: Carbon impregnated fiberglass center core.
-Secondary path: Spiral wound stainless steel alloy
•Low 500 ohm per foot resistance.
•8mm Silicone jacket to resist high temperatures, moisture, oil and chemicals.
•EPDM (Ethylene Propylene Diene Methylene) inner insulation for superior heat resistance and prevention of arcing and voltage leaks.
•Fiberglass reinforcing braid for added strength and flexibility.
•Available with 45°, 90° & 180° boots.

10.4 mm 409 Spiro Pro Spark Plug Wire Sets

Taylor's .409-inch, 10.4mm diameter high performance ignition wires in a "Race-Fit" series are available for both street and track applications. "409" ignition wires provide continuous heat protection up to 600-degrees Fahrenheit and 102,000 volts dielectric strength and are recommended for extreme under hood temperatures. Features a Spiral-Wound core with 350 ohms per foot resistance for EMI and RFI suppression delivering maximum fire power without radio interference and recommended for use with multiple-spark discharge and electronic ignition systems. Available in three color choices; Black, Red, and Blue, with color coordinated low profile 100% silicone PRO BOOTS featuring vibration proof double spring locking spark plug terminals.
COLORS AVAILABLE: Black, red or blue.
RACE FIT LENGTHS AVAILABLE: 14" or 16".

Our Customers Say...

"Lots of knowledge, helpful staff. Fast shipping."
Randy — Mapels, MN

WORKS WITH ALL IGNITION SYSTEMS

8.2 mm Thundervolt Spark Plug Wire Sets

Taylor's "Thundervolt" spark plug wire sets were developed and dyno-tested to deliver more power and spark energy, while producing a smoother idle and improved fuel efficiency. The Ferrite spiral-wound core is coated with an exclusive copper/nickel alloy bonded by a conductive acrylic cover. The special dual Zimplex silicone outer jacketing protects up to 600 degrees and provides extreme durability. The 100% silicone spark plug boots feature a double spring-locking plug terminal for a positive contact. LT1/LS/Vortec applications are pre-fit/"plug and play"; other V8 applications may require cut and fit.

COLORS AVAILABLE: Black, red or blue.

MADE IN THE USA

1954-88 Street Thunder Spark Plug Wires

Taylor's 8mm Street Thunder wires feature a 500-Ohm per foot resistance Kevlar helically Spiro wound core conductor for greater strength and durability that suppresses Electro Magnetic (EMI) and Radio Frequency Interference (RFI). Wrapped in durable Synthetic silicone double layer jacketing that resists heat, oil and abrasion. Delivers greater spark energy while improving power, idle and fuel efficiency. Works in conjunction with most ignition systems, on board computers and electronic components. Matching black silicone boots protect against high exhaust temperatures. Double locking spring terminals for secure vibration proof connections. These wires are cut to fit.

MADE IN THE USA

1954-88 Spiro Pro Spark Plug Wires

Spiral wound with a stainless steel wire for more power through the wire and to the plug. Two layers of 100 percent pure silicone eliminates radio frequency interference, 350 Ohm per foot resistance, provides more fire power to the spark plugs. Two layers of 100% silicone on the outside with a temperature rating of 600 degrees without additional sleeving—the highest on the market. The spark plug boots are low profile and have double spring lock spark plug terminals.

CH24970

8.5 mm Super Conductor Spark Plug Wire Set

The 8.5 mm "Super Conductor Wire Sets" are designed specifically to fit race engines equipped with headers or an MSD distributor. They are custom-made to be routed behind the block, under the headers and to the spark plug, giving the engine an extra clean appearance as well as protecting the wires from making contact with the headers. Set includes terminals for engines with early and late-type distributor caps. Terminals are factory-installed on one end.

COLORS AVILABLE: Black or red.

HEAVY-DUTY 8 MM WIRE

Kevlar core for increased strength and durability

Street Fire Spark Plug Wires

Street Fire spark plug wires have been designed with 500 OHM per foot resistance for improved spark delivery and power. Wires feature a helically wound conductor to suppress electro and radio noise and the Kevlar core adds strength and durability. Thick 8 mm silicone jacket resists heat and abrasion while heavy-duty terminals provide a secure connection. Spark plug wires are sold in complete sets and available in a variety of end configurations.

HIGH QUALITY, 7 MM KEVLAR SPIRAL CORE SPARK PLUG WIRES

MADE IN THE USA

LS Extra Long Spark Plug Wire Set

These high quality, 7 mm, Kevlar spiral core spark plug wires include high-temp silicone boots. The wires are 9' long with 40 ohms of resistance per foot, giving you all the length and performance you need to remote mount your coils, out of sight and out of mind. The LS Classic Spark Plug Wire Kit includes the plug wires with pre-installed 90 degree coil boots, straight unterminated spark plug boots (plug wire crimpers are needed to complete the installation), 90 degree distributor boots and terminals.

SETS READY TO INSTALL

Numbered for each cylinder

MADE IN THE USA

LiveWires Spark Plug Wires

Performance Distributors LiveWires are a high quality, low resistance set of spark plug wires designed to deliver all of the spark energy from the coil to the plugs. LiveWires are built with a high temperature sleeve that protects the plug wire from the extreme under hood temperatures. The sleeving is made from a non-flammable heat treated glass braid, much like the type that is used on today's ovens. This unique sleeving provides heat protection up to +1400° F and offers excellent resistance to moisture and chemicals. Inside this high temperature sleeve is an 8mm spiral core wire with a durable and lasting silicone jacket. The spiral core consists of a stainless steel wire wrapped around a magnetic core. This offers an extremely low resistance value of 300 – 350 Ohms per foot for optimum spark travel. Spiral core wire is also radio suppression, so there is no electronic interference with the radio and they work great with delay boxes and stutter boxes. Unlike universal plug wires sets, LiveWires do not require any assembly. All sets are custom fit and numbered on both ends for the correct cylinder making installation, removal and re-installation quick and easy. No cutting, splicing or crimping is required! All sets include a tube of dielectric grease that is applied to the plug boots to prevent voltage leakage and boots and terminals from sticking to the plug.

DON'T CHEAT YOUR ENGINE OUT OF ANY FIREPOWER AVAILABLE

Built with brass terminals for maximum conductivity

MADE IN THE USA

NEW! DUI / HEI Cap and Rotor

Don't cheat your engine out of any firepower available! The DUI cap and rotor is the finest quality made today. This kit offers up to 50% higher dielectric strength and can handle all of the voltage available from the coil. Built with Brass Terminals for maximum conductivity with an improved design in the rotor for eliminating burn-through. The material used in this kit has proven to be the ideal resin for caps and rotors for DUI and HEI distributors. Nylon rotor screws are included and eliminate a "ground" for the voltage to jump at high RPM's. Fits all V8 DUI Distributors.

1968-78 Pro-Billet Distributor

This top-of-the-line distributor from MSD contains a variety of features that are designed to keep your Cadillac operating at peak performance levels. Each housing begins as a billet of 6061-T6 aluminum before being CNC-machined to precise dimensions for any 368, 425, 472 and 500 cid engine. The sturdy, flex-free housing is fitted with a sealed ball-bearing and long sintered bushing for high-rpm accuracy. The race proven magnetic pick-up ensures timing accuracy within one degree at any rpm and the adjustable mechanical advance is supplied with different springs and stop bushings, which allow you to customize your advance curve. For street cruising economy, each distributor is also equipped with a vacuum advance canister.

1968-84 Max-Fire Distributor

Max-Fire distributor for 1968-84 Cadillac 425, 368, 472 & 500 V-8 engines is ready to run right out-of-the-box and are the perfect upgrade for your ignition system. They're ideal for replacing or upgrading from a points triggered distributor. They feature precision machining for a perfect fit along with a simple three wire hook up for an easy installation with no need to run an external ignition control box. The centerless ground shaft utilizes an upper sealed roller bearing with an extra-long lower bronze Oil-Lite bushing for smooth operation. The high output magnetic pickup and large paddle wheel reluctor deliver a strong trigger signal at high RPM for maximum performance. All of these features allow Max-Fire distributors to provide unrivaled voltage to the coil, ensuring that you're getting maximum performance from your engine. Each distributor includes a cap, rotor, retainer and mechanical advance curve kit. FEATURES AND BENEFITS: • CNC machined from 6061-T6 aluminum with O-ring grooves for use in a fully machined engine block • Cap and rotor are molded in high quality 30% glass filled polyester for durability and carbon tracking resistance • Features brass contacts and a stainless steel rotor spring for maximum conductivity • Hardened iron drive gear ensures long service life • Fully adjustable mechanical and vacuum advance for increased mileage potential

HAND BUILT TO EXACT TOLERANCES

No add-on spark box needed

Street / Strip Distributors

Add some serious firepower to your engine! The DUI (Davis Unified Ignition) has everything you need for the ignition in one simple unit. No external coils or spark boxes are needed. Just one 12 volt hot wire hooked up to the DUI sends 50,000 volts of pure spark energy to the plugs for a cleaner, crisper, more powerful running engine! Part of the DUI's performance comes from the custom calibrated advance curve. A special weight and spring assembly is hand fitted and dialed-in using a Sun Distributor Machine for a precise timing curve that will match the specifications of your engine and vehicle. The super smooth advance provides instant throttle response and maximum power throughout the rpm range with no pre-detonation. Vacuum advance is provided for improved fuel economy and cleaner spark plugs. The DUI's high output spark comes from our 50,000 volt coil and Dyna-Module. The high voltage coil allows spark plug gaps to be opened up to a massive .055"! The dwell in our Dyna-Module has been increased electronically to allow the coil to produce a longer duration spark. The combination of the larger gap and longer duration spark provides the most complete combustion of the fuel mixture possible for increased horsepower and torque. Additional benefits include quicker starting, smoother idle and better fuel economy! All DUI caps have the brass terminals for optimum conductivity and superior resistance to corrosion.

LS Distributor & Plug Wire Set

If you want to top off your vintage appearing LS swap then look no further than Lokar's distributor and plug wire set. Uses a set of high quality, 7 mm, Kevlar spiral core spark plug wires with high-temp silicone boots. The wires are 9' long with 40 ohms of resistance per foot, giving you all the length and performance you need to remote mount your coils, out of sight and out of mind. The plug wires first connect to the coils and then pass through the hollow cast aluminum distributor body that is bolted to the engine's valley plate, and then on to the spark plugs for an authentic nostalgic look. The LS Classic Distributor kit includes the plug wires with pre-installed 90 degree coil boots, straight unterminated spark plug boots (plug wire crimpers are needed to complete the installation), 90 degree distributor boots, distributor housing, cap, and terminals.

	Part#	Desc.	UOM	Price
4	CH34266	.....	set	724.99

NOTE: Check firewall clearance to ensure fit. Distributor is designed to bolt to the back two bolts of LS Classic Valley Plates (they will NOT clear valley plates with raised ribs or oil pressure sender boss).

FLAME-THROWER I, II, III

Great for 6 or 8-cylinder engines

PERTRONIX PERFORMANCE PRODUCTS

1961-77 High-Performance Coils

The "Flame-Thrower I" high-performance coil delivers 15% more spark, which allows for larger spark plug gap for added power, smoother response and better fuel economy. Delivers a full 40,000 volts.
The "Flame-Thrower II" coils maximize energy and reliability over the full rpm range, enable larger plug gaps for greater fuel economy and increased power levels and they're 50-state legal. These coils are rated at 45,000 volts and are intended for use with the "Ignitor II" ignition system.
The "Flame-Thrower III", 45,000 volts, 50 state legal, oil filled, 0.32 ohms primary resistance, compatible with most C.D. ignition systems.

Ignition Coil

Electronic oil filled ignition canister style coil with red or chrome finish for hi-performance vehicles that have been converted to an electronic breaker less distributor, where a traditional oil filled can-style coil is preferred for the correct classic appearance. Designed with optimized winding for use with ready-to-run distributors and 6 Series CD ignition control boxes. Engineered for high output resulting in quicker starts, improved throttle response and more power at higher RPM Universal High Output Dome Style Ignition Coil with Red Finish, designed to work specifically with the high output inductive storage ignition module in the ready to run distributors. It features heavy gauge windings that are engineered to ensure maximum power at higher RPM levels. A molded housing of glass reinforced polyester and high temperature epoxy encapsulation resists shock and vibration while providing excellent thermal conductivity. The brass contacts ensure maximum conductivity, while the male tower offers superior boot/terminal retention and protecting from arch over. This is compatible for use with 6 Series CD ignition systems.

MSD82858

LS Series Pro Power Coils

MSD's engineering tram has been working diligently to improve their Multiple Spark Coils for the GM LS-engine platform. MSD Pro Power coils fit in place of the OEM coils yet are capable of delivering higher spark energy to the plugs and multiple sparks at idle rpm. Increased spark energy and voltage, along with multiple spark capabilities, help improve the combustion process of the fuel mixture to create an efficient burn. This results in improved throttle response, smooth idle and quick starts, plus increased high rpm performance!

CH33798

MADE IN THE USA

Inferno Coil

Add some serious firepower to your ignition system with the Inferno coil! The Inferno and Inferno 2 Coils were designed to outperform all stock and other aftermarket coils. Both Inferno Coils are universal and will work with most any ignition system except for HEI and our DUI Distributors. The coils have been tested to withstand engine heat and extremely high temperatures. If you currently have a tachometer or later install one, all the necessary hardware to complete the installation is included. The higher voltage output of the Inferno coils will allow spark plug gaps to be opened up .010" larger than the factory plug gap. In some applications the gap can be opened up as much as .055". The Inferno coil will mount in a factory coil bracket and the Inferno 2 coil can be easily mounted anywhere in the engine compartment.

INCREASES PERFORMANCE AND EFFICIENCY

Extend plug gaps to .065"

MADE IN THE USA

Sultans of Spark Coil

Boost ignition performance with our SOS (Sultans Of Spark) Coils for 1997-2019 General Motors LS/VORTEC engines. These hotter coils are packed with more voltage over the stock coils to help produce increased power, better throttle response, quicker starting and smoother idle! The LS SOS Coils have 7000 more volts per coil over stock and this additional spark energy will fire plug gaps up to .065". Extended plug gaps expose a larger spark kernel in the combustion chamber for an increased burn of the fuel mixture, thus giving your LS extra performance and better fuel efficiency. Our design team has used the latest technology to enhance the coil windings for higher output, yet maintained the original size so the coils will mount in the OEM bracket and retain the factory wiring. LS SOS Coils are fully compatible with flash devices and programmers. Superior thermal epoxy leads to improved heat transfer and vibration resistance. Brass terminals are utilized for improved conduction and resistance to corrosion. LS SOS Coils have a one year warranty from date of purchase.

NEW! Street / Strip Coil Kit

Our 50,000 volt DUI (Davis Unified Ignition) Street/Strip Coil Kit is designed for a maximum output of 7000 RPM's! The high voltage coil allows spark plug gaps to be opened up to .055". The wider plug gap provides a more complete burn of the fuel mixture for more power & better fuel economy. Brass terminals in the cap provide greater conductivity and resists corrosion longer. The kit includes the coil, cap, rotor & nylon retaining screws. The Street/Strip Coil Kit has a one year warranty from date of purchase.

FiTech Fuel Injection

Go-Spark CD Ignition

The FiTech Go-Spark capacitive discharge ignition is a high output ignition system that delivers full energy sparks from idle through high rpm to enhance the performance of fuel injected or carbureted engines! High output multi-spark technology

- Optimized for EFI or carburetors
- Designed and assembled in the USA
- One sealed connector for a clean installation
- Complete combustion = improved driveability

Performance Distributors DUI

Ignition Module

For a crisper, smoother running engine, replace your stock HEI module with the Dyna-Module. The Dyna-Module has more electronic dwell in it to provide more coil saturation time. The additional saturation time allows the coil to produce a more intense spark, improving throttle response and low end power! Installation is easy as the Dyna-Module mounts in the stock location of an HEI module with no modifications. Fits all V8 & 6 Cylinder DUI / HEI Distributors. Also fits Performance Distributors GM Tri-Power Ignition Systems.

Performance Distributors DUI

MADE IN THE USA

Rev Limiter

Protect your engine from over revving with the DUI Rev Limiter! This soft touch Rev Limiter uses sophisticated computer circuitry to drop spark one cylinder at a time, until your engine is at or below its maximum rpm. Those cylinders are then fired on the next cycle, to prevent them from loading up with fuel. The result is smooth rev limiting action that prevents backfires and possible engine damage. RPM limits are set with plug-in modules. A 6000, 7000 and 8000 RPM module is included with the rev limiter but other RPM limiting modules are available in separate kits. Works with all HEI and DUI Distributors.

	Part#	Desc.	UOM	Price

NEW! Mini-VIP Voltage Step-Up Regulator

The new 18 volt Mini-VIP (Voltage Intensive Power) steps up your charging systems 14 volts to 18 volts, which is sent specifically to your ignition system in order to provide your engine with the ultimate spark for improved combustion. The 18 volt Mini-VIP is truly a revolutionary product that leads to "Chargition". "Chargition" is what Performance Distributors defines as the science that bridges the gap between your charging system and your ignition system. It emphasizes how a maximum performing charging system leads to a maximum performing ignition system. The 18 volts produced by the Mini-VIP enables you to open up your spark plug gaps to a whopping .070". The larger gap and hotter spark will burn the fuel more completely on each piston stroke. Voltage drop, which occurs when you have your accessories running, is eliminated as the Mini-VIP isolates the 18 volts to your ignition system only! In the long run, your plugs will stay cleaner. Some applications will also be able to run a richer fuel mixture due to the additional spark intensity. The unit is a simple three wire installation. The Mini-VIP is true to its name as it is small enough to mount anywhere and only weighs one pound.

MORE POWERFUL SPARK

PERTRONIX PERFORMANCE PRODUCTS

FREE SHIPPING ON THIS ITEM

Second Strike Ignition Box

Pertronix has combined the two with its "Second Strike" ignition supplement that uses your stock ignition as the primary spark producer and follows it with a second spark—anywhere from 2-18 crank degrees later—from its Second Strike CD box. This assures you of complete burning of the air/fuel mixture in the combustion chamber. It means you can get more power, better combustion efficiency and reduced plug fouling. The Second Strike also has a built-in rev limiter that randomly cuts out a spark from different cylinders to reduce plug fouling when you over-rev your engine. This ignition supplement works with most OEM and aftermarket non-CD ignitions and is compatible with most modern tachs without an interface.

6AL-2 Ignition Control

Featuring a new housing, digital controls and more power in a sleek package. Advanced micro-controller that manages the timing and rpm of the ignition as well as maintaining a spark output of 535-volts. In order to ensure complete combustion, the multiple sparks burn inside the cylinder for 20° of crankshaft rotation. Two other benefits are the rev-limiting controls: one for high-end over rev and the other can be set to activate off a clutch or trans-brake to set a launch limit. Rev limiters are controlled via rotary dials providing easy adjustments at any time. Ignition boxes are sold per each and include wiring, vibration mounts and complete instructions.

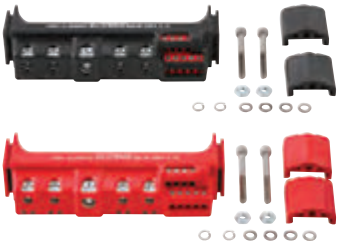
NEW SOLID STATE RELAYS!



MADE IN THE USA

NEW! Solid State Relay Block

Clean up your wiring with an MSD Solid State Relay Block. This module takes the place of 4 standard relays and eliminates unsightly wiring. Four independent channels can be activated using either power or ground. This 4 channel relay block is available with 200 or 400 amps of momentary and 80 or 140 amps of constant combined power. You can easily control electric fans, water pumps, nitrous solenoids, auxiliary lighting, and any other electrical accessories that would normally require a relay. LED status indicators ensure proper wiring and operation of each channel. Should a problem arise, the relay block has built-in automatic over-temp, short circuit, and overload protection. The block can easily be mounted using the supplied hardware and mounting tabs that can be rotated 90° to accommodate various mounting locations. Its compact and clean design will make your wiring project a breeze.

FEATURES:

Operates from 7-Volt to 20-Volt supply
Channels can be run in parallel for devices requiring more than the single-channel rating
Clean, easy install with minimum wiring
Over-temp, short circuit, and overload protection
Diagnostic LEDs and status indicators
Single wire activation by switching power or ground
A PWM signal can be used in the Solid-State Relay Module with a maximum frequency of 150 hertz and a duty cycle range from 50% to 90%.
Available in red or black.

3 CONNECT & CRUISE POWERTRAIN SYSTEM

Each Connect & Cruise kit delivers a brand-new, fully assembled crate engine, an electronically controlled overdrive transmission, electronic control modules for both, and the engine control hardware to get it all running in your project vehicle – including the mass airflow sensor, oxygen sensors and even the special throttle pedal for the engine's electronic throttle bodies. Chevrolet Performance engineers matched the engines with their respective transmission, ensuring it was up to the task of channeling big power with absolute dependability. The engine controller is specially calibrated to run the engine without some of the production-vehicle features that aren't required in an older vehicle. That means no "trouble" codes and no need for third-party tuning. Better still, the system's unique SuperMatic transmission controller is designed to work with the engine controller for a seamless, "plug and play" installation that is quick, easy and intuitive. Detailed instructions outline all the necessary steps. Chevrolet Performance has you covered with a 24-month/50,000-mile limited warranty.

Lokar's Classic Crate Engines start with a brand new GM 495 horse power LS3 right out of the box. It is then painted Chevrolet orange. Lokar then begins the assembly process using your desired components until they have the perfect crate engine for your project. Once completely assembled Lokar puts the engine on their in-house run stand, load your Holley EFI ECU with a start-up tune, and run your engine to check for leaks and oil pressure. After they are satisfied that your engine will operate with no issues, they put it back in the original GM crate and ship it. Once you receive your engine it is as simple as installing it, terminating a couple of power and ground wires on the harness and putting fuel pressure to the engine.

TRI-POWER STYLE LS REPLICATES ONE OF GM'S MOST ICONIC ENGINES

BB style valve covers in your choice of finish

LS Tri-Power Style Crate Engine

LS Classic Series Tri-Power Style crate engines are designed to give your LS the look of one of GM's most iconic big blocks, while using modern technology for ultimate performance. These crate engines start with a brand new, GM 495 horsepower "Hot Cam" LS3 right out of the box, with your choice of the engine being painted orange or left unpainted. The LS Classic Series Tri-Power Style engines are assembled with a specially modified single plane, dual carb aluminum intake manifold topped with a Tri-Power style air cleaner assembly. Includes your choice of cast, chrome or orange painted block style valve covers. These crate engines come with coils, coil harness, valley plate, Intake system w/ throttle body, valve covers, Corvette style balancer, exhaust manifolds, spark plugs, 4L60E/4L80E flexplate and Holley ECU with engine harness. Once completely assembled, Lokar puts the engine on an in-house run stand, loads the Holley EFI ECU with a start-up tune and runs the engine to check for leaks and correct oil pressure. After they are satisfied that your engine will operate with no issues, it is put back in the original GM crate and shipped directly to you or your builder.

CLASSIC FUEL INJECTION LOOKS WITH MODERN TECHNOLOGY & PERFORMANCE

Works with rectangular or cathedral port LS cylinder heads

CH34252 LS3

CH34254 LS3

MADE IN THE USA

LS Fuelie Style Intake Systems

LS Classic Series Fuelie Intake Systems are designed to give your LS engine the look of GM's iconic powerplants of the 50's and 60's while using modern technology for ultimate performance. Lokar's Fuelie Style Intake Systems are based on a cast aluminum, two-piece manifold, like the originals. They are also made in the USA, and kits include billet aluminum fuel rails, all mounting hardware, and gaskets. These systems utilize GM LS3 OEM fuel injectors and GM four bolt, 92mm, drive-by-wire throttle body (not included) and are compatible with GM and aftermarket ECU's and harnesses that support both drive-by-wire and speed density tuning. Manifold kits are available to work with your choice of rectangular or cathedral port LS cylinder heads.

THE PERFECT LOOK FOR A RESTO-MOD MUSCLE CAR

Uses modern technology for ultimate performance

LS 14" Classic Intake Kit

The LS Classic Series 14" Classic Intake Kit is designed to pay respect to the classic muscle cars and trucks of the 60's and 70's while using modern technology for ultimate performance. The intake kits include a single plane aluminum intake manifold, billet aluminum fuel rails, 14" chrome round air cleaner, 4150 carb adapter plate, all mounting hardware, and gaskets. The systems utilize GM LS3 OEM fuel injectors and GM four bolt, 92mm, drive-by-wire throttle body (not included) and are compatible with GM and aftermarket ECU's and harnesses that support both drive-by-wire and speed density tuning. Manifolds are available to work with rectangular and cathedral port LS cylinder heads.

ULTIMATE RETRO MULTI-CARB LOOK FOR YOUR LS

Modern fuel injection performance

LS Tri-Power Style Intake Kit

Designed to pay tribute to the baddest big block Corvettes of the late 60's while using modern technology for ultimate performance. The intake kits are built around a modified single plane, dual carb aluminum intake manifold that utilizes dual 92mm, GM LS3, four bolt, throttle bodies and fuel injectors (not included) and accepts Lokar's Tri-Power style, chrome, triangular air cleaner. The kit also includes 4150 carb adapter plates, throttle body to air cleaner clamp assemblies, mounting fasteners, and cotton gauze air cleaner. The Tri-Power kit requires the use of Holley Dominator (or equivalent) ECU and harness that supports the dual drive-by-wire throttle bodies. Manifolds are available to work with rectangular and cathedral port LS cylinder heads.

Custom Hardware Tools and Accessories

Doing the job right requires special tools, & these pieces from Notchead are a must-have! The custom Polishing Grip is perfect for polishing bolts & assorted small parts. The soft aluminum jaws grip the threads of your bolt firmly, but will not cause damage. This allows you to polish quickly & efficiently. The special pin-drive sockets are necessary when installing or removing your Notchead bolts. These replacements can be used with your choice of combination wrench or socket wrench.

Polishing Grip - features two collets (1/4"-3/8" and #4 screw-1/4")
Large Collet - Adjust from 1/2" to 7/16"
Nut Polishing Attachment - Includes 4 sizes of coarse & fine thread adjustments (#10, 1/4", 5/16", 3/8")
Sockets available in several sizes depending on your bolt size.

MADE IN THE USA

Cast Aluminum "Cadillac" Valve Covers

These heavy-duty valve covers for Cadillac 368, 425, 472 & 500 engines feature an open interior that clears roller rockers and stud girdles. These covers feature the flat top style with large CADILLAC script raised on the top. Available in natural, polished, or powder coated finishes, the script is cast-in to the covers and is shaved for the powder coat finishes. Covers do not come with holes, but bosses are cast into the mold so that holes can be machined if needed. These can be used for PCV, breather, or oil fill and the holes do not interfere with the script.

Lucas Heavy-Duty Oil Stabilizer
This is the number-one heavy-duty and high-performance oil supplement in the U.S. It eliminates dry starts and resists thermal breakdown for total protection in new motors. It stops smoking, knocking and oil consumption in worn engines. It raises oil pressure and adds lubricity for more mpg. It lowers oil temperatures and stops leaks. One-quart bottle.

CLASSIC '57 FUELIE AIR CLEANER ASSEMBLY
Adapted to fit an LS3 throttle body

MADE IN THE USA

LS '57 Chevy Style Air Cleaner Assembly
LS Classic Series '57 Chevy Air Cleaner is designed to give the appearance of an original '57 Chevy fuel injected engine. Lokar started with a reproduction air cleaner and designed an adapter to fit on an LS3 throttle body. The air cleaner works seamlessly with Lokar's '57 Fuelie intake to top off any Tri-5 engine swap. The kit includes a white paper filter and mounting fasteners and will also work with stock OEM GM 1957 Chevy Fuelie intake manifolds.

FOR OPEN OR CLOSED ELEMENT AIR CLEANERS
Guaranteed to function and fit just like the originals

1936-93 Air Filter Element
Premium RESTOPARTS air filters are identical to original equipment for a variety of 4-barrel applications; both open element, or enclosed housings with single or dual snorkel intakes. Each filter features a fine particle paper mesh that will stop dirt and debris while maintaining ample air flow. The molded rubber ends feature minimal wicking and add rigidity to the filter, allowing a positive fit into your air cleaner housing.

AGGRESSIVE STYLING

Pre-oiled cotton gauze element

Edelbrock

1936-93 Pro-Flo Cotton Air Cleaners

This new line of air cleaner was created to perfectly match Edelbrocks popular classic aluminum finned valve covers. The included medical grade, pre-oiled cotton gauze elements are sure to increase airflow & breathability to your engine resulting in added horsepower. Available in several styles to suit your taste, these air cleaners fit any 5-1/8" carb & some for dual-quad applications where listed. Round cleaners are available with a deep flange which have knock-outs in the air cleaner base for use with Edelbrock crank case ventilation adapter. Heights of the air cleaners are measured from the gasket flange to the top of the supplied retaining nut. The filter elements are washable & re-oilable eliminating the need for purchasing replacement elements.

MADE IN THE USA

Performance Alternators

Keep your battery voltage up with a Performance Distributors GM One-Wire Alternator. This alternator has a high tech appearance and provides a simple and clean installation in your vehicle's engine bay. The all new (not re-manufactured) alternator is built with high quality bearings, diodes and copper windings to provide years of dependable and reliable performance. Easily installs with factory GM brackets and one wire is all that is required for hookup. Connection can be made at the starter solenoid or directly to the positive side of the battery. Features an internal voltage regulator and high tech billet pulley and fan. This is a direct replacement alternator for pre-fuel injected GM vehicles.

R-Terminal Starter Wiring Harness

When installing a high-torque starter on your classic muscle car, this diode wiring harness may be necessary. This harness is for use with original points ignition or systems that utilize a ballast resistor. The diode is shrink wrapped for extreme conditions and pre-terminated for straightforward installation. This is the ideal solution for connecting the "R" terminal wire from your existing harness to your new starter.

U.S. Radiator
THE DIFFERENCE IS IN THE TOOLING

MADE IN THE USA

- **Original Style Radiators**
  Stock Appearance - Fits Factory Fan Shroud
- **Aluminum Desert Cooler Radiators**
  100% Aluminum Construction - Superior Cooling

1954-56 Original Style Radiator

Keep your Cadillac cool with this reproduction radiator from OPGI. Manufactured to factory specifications using brass and copper, the radiator features an 18-1/4" x 19-1/4" x 2-1/2" core for effective cooling. The stamped steel tanks feature the correct inlet and outlet locations, while the mounting brackets are integrated for hassle-free mounting. The copper overflow tank and included petcock make this the perfect solution for your vehicle. Each radiator come with a 3-year warranty.

Part#	Year	Desc.	UOM	Price
CE05514	54-56		each	465.99

NOTE1: Drain petcock is located at the right rear, which is correct for earlier models, but will work without any interference. NOTE2: Does not include radiator cap or internal transmission cooler.

1959-78 Original Style Radiators

These top-quality radiators are reproduced to OEM specifications utilizing brass and copper construction for superior cooling. Each radiator is application specific and features the correct mount brackets where necessary as well as the properly located filler neck and radiator hose connections. All automatic radiators feature a built-in transmission cooler and each radiator is finished in durable black enamel. Radiators feature a 1-year limited warranty from the manufacturer.

Desert Cooler Radiators

These heavy-duty, 4-row radiators are a direct bolt-in and offer better cooling than a standard capacity radiator. The additional core capacity and extra-large tanks allow more coolant storage, which keeps temperatures to a minimum. Keeping with the factory design allows the use of an OEM fan shroud. Sold per each.

CHAMPION COOLING SYSTEMS

TWO STYLES TO CHOOSE FROM

- **Champion Series Radiators**
  Limited Lifetime Warranty
- **American Eagle Series Radiators**
  100% Aluminum Construction w/brazed core

Champion Cooling Systems

100% welded aluminum construction with a brazed core and no epoxy, these radiators are manufactured to install with limited or no modifications using your original mounts and fan shroud giving you the cooling system confidence you desire. The American Eagle series consist of two rows using 1" tubes capable of cooling up to 800hp and the Champion series are available in tube sizes up to 3/4" and up to four rows capable of cooling up to 1000hp. The built-in oil cooler can be utilized for automatic transmission applications, or disregarded for manual transmission cars. Each radiator includes a new cap and a T-style brass drain petcock. Radiators feature a limited lifetime warranty.

Dewitt's Cooling Systems

THE FINEST ALUMINUM RADIATORS AVAILABLE

DeWitts

MADE IN THE USA

Direct Fit Aluminum Radiator & Fan Combos

DeWitts aluminum radiators are made right here in the USA and they control 100% of the manufacturing process. Why is this important? Well, this allows them to produce the finest aluminum radiators on the market! They feature factory style tanks dual 1" row core and serpentine fins. These aluminum radiators will provide 30% more cooling than the stock copper unit but will also save half of the weight compared to an original radiator. DeWitts Direct Fit aluminum radiators will fit into the stock core support and use original factory hoses. Available in a natural or Black Ice finish for automatic or manual transmissions, as well as combination units that come complete with dual 11" electric fans, a one-wire harness and temperature switch. DeWitts radiators include a limited lifetime warranty.

Griffin RADIATOR

BEAT THE HEAT

• **COMBO RADIATORS** RADIATOR, FAN AND SHROUD COMBO

NEW! ExactFit Aluminum Radiators

Griffin is proud to introduce the all new ExactFit series of aluminum radiators. These new products feature exact OEM fitment, OEM style stamped tanks, and mounting previsions for all factory equipment to ensure a seamless installation without any cutting, bending, or special tools. Optimal performance is achieved by the use of two rows of Griffin exclusive MegaCool 1.25" tubing which creates a greater amount of surface area in the same amount of space. This allows the product to far exceed the performance of the common two row 1" radiators. Constructed of only the best AA3003 aluminum, these new products are a step above the rest in both purity and design. Backed by the industries best two year warranty and no special coolant requirements, the new ExactFit radiators are the top of the line. This new series is made in the USA at their facility in Piedmont, SC.

NEW! PerformanceFit Aluminum Radiators

The wait is finally over; the all new Griffin PerformanceFit aluminum radiators are here! The new series offers superior performance cooling at an affordable cost. Featuring Griffin exclusive MegaCool 1.25" induction welded tubing, these products are capable of cooling some extreme horsepower with their two row crossflow configuration. Modern style, universal, welded tanks provide high performance and DIY (do-it-yourself) style mounting brackets make installation a snap. Backed by the industries best two year warranty and no special coolant requirements, the new PerformanceFit radiators are at the top of their class.

NEW! ExactFit Radiator Combos

A simple solution to a complicated situation; Griffin Combo Units are the perfect combination of an aluminum radiator and electric fans. These products are constructed with Griffin 1.25 inch MegaCool tubing, a hand formed, all aluminum shroud, and high performance electric fans. The Combo Unit series has been created by Griffin engineering to take all of the confusing guess work out of switching to electric fans. The best fan for the radiator has been selected, the shroud and fans have been mounted to the radiator, and the wiring harness has been provided. The end result is affordable performance cooling straight out of the box. Griffin Combo Units feature slim line fans.
Two 1.25" rows.

NEW! PerformanceFit Radiator Combos

Griffin PerformanceFit Combo radiators may be the item for you! Featuring an exclusive MegaCool core that features two rows of oversized 1.25-inch-wide tubes that offer an astounding 25 percent increase in cooling power. The added tube size is capable of cooling moderate to heavily modified engines. Carefully designed to work with various makes and models. The best fan for the radiator has been selected, the shroud and fans have been mounted to the radiator, and the wiring harness has been provided. The end result is affordable performance cooling straight out of the box. Griffin Combo Units feature slim line fans. Griffin products are 100% American. Made in Piedmont, South Carolina.

Milodon

1959-88 High Flow Thermostats
High Flow Thermostats aid the proper functioning of a high performance cooling system. Engineered to warm the engine to a proper operating temperature without allowing it to run hot enough to lose power. The "Balanced Sleeve" design is essential for use with High Volume water pumps as it equals the pressure exerted on the thermostat so its operation is solely regulated by coolant temperature. On other thermostat designs, the increased flow generated by High Volume water pumps can actually attempt to hold the thermostat closed.

Evans Waterless Coolants

Evans Coolant and Prep Fluids are engineered specifically for use in a waterless cooling system. Evans high performance waterless coolant is for all gasoline and light duty diesel engines used in classic to modern production cars. This coolant offers unbeatable protection against corrosion, electrolysis and protection for the life of your engine. It protects up to -40° as well as a boiling point of 375°, will not vaporize which eliminates boil-over and will generate very low vapor pressures reducing stress on engine cooling systems. When converting to a waterless cooling system the Prep Fluid is designed to purge the cooling system of water-based antifreeze after draining the cooling system, and before installing new waterless coolant. Prep Fluid should be used when block drains are unavailable or cannot be removed. It is not a substitute for thoroughly draining the cooling system and related components. Prep Fluid is NOT intended to be a stand-alone operating coolant, but as a flush fluid only. Evans also offers a cooling Refractometer that is deigned to accurately test for residual water content. By determining the water content you'll be able to safely set up your cooling system with Evans Cooling products. A fast, simple optical method that requires only one drop of coolant to compare the optical reading to water content chart. Evans Refractometer is pre-calibrated for accuracy and consistency.

Intellitronix Intelligent Electronics

MADE IN THE USA

1936-93 Variable-Speed Fan Controller
Turns your electric fan on and off at your desired temperature. Fans turn on at 60-percent power and fan speed increases as the temperature rises. You can easily adjust the activation temperature between approximately 160-240 degrees Fahrenheit. This fan controller also has a fuse to protect the controller from accidental shorts or a bad fan. This allows greater control over engine temperature, which helps to reduce charging spikes and current load on the charging system. 3 LED status indicators let you know that you have wired it up properly and that everything is functioning according to plan. The fan controller comes with a 1/8" NPT thread-in temperature sensor with bushing adapter. It features variable fan speed and a 40 amp rating. It works on 12-volt systems only. The fan controller comes with a Lifetime Guarantee and is made in the USA!

CE15711

1959-62 Heater Hoses

Get your heating system working properly with these original style molded heater hoses. After decades of being installed, originals are commonly cracked or brittle and sometimes universal straight hose is in place. These original style hoses will add a nice touch to your classic restoration and aid in leaving your engine compartment how it was meant to look from the factory. Hose clamps sold separately.

Part#	Desc.	UOM	Price
1959

1959-62			
CE15711	htr outlet fitting to water pump...	each	69.99

NOTE: Heater hoses are made with extra length and must be trimmed to fit.

Heater/AC Control Valves

Revitalize your heater with new control valves from OPGI. Each valve is modeled after original equipment and available in gold cadmium-plated steel for corrosion resistance. Valves feature a 5/8" inlet and outlet for water flow as well as a vacuum line to control the operation of the valve itself. Factory-correct hose connections make installation a breeze.

1962-72 "Pro6Ten" Air Conditioning Compressors

The Pro6Ten Compressor is a 10-cylinder bolt-in replacement for the original GM Frigidaire/ Harrison A-6 compressor. This new design is specifically engineered to fit original A-6 mounting brackets and AC hose assemblies. This highly efficient compressor offers smooth and quiet operation, which results in less vibration and engine drag for improved performance and mileage. Sold per each, the compressors are available in either natural or polished finish and include the single pulley and clutch assembly.

Valuable update for original valves

1962-65 Suction Throttling Valve Update Kit

Our STV update kit is the perfect solution for updating original equipment to a more modern cycling clutch system found on later GM vehicles. This kit maintains the original valve appearance while eliminating common problems associated with original equipment such as sticking pistons and leaking diaphragms. Compatible with R-12 and R-134-A, this kit comes complete with the switch, wiring, clamps, sealant, O-rings, bolts, ball bearing and diaphragm.

NOTE1: Due to tooling restraints, some of the tailpipes may have a welded joint located above the rear axle. Once installed, this joint will be hidden and will not affect performance. NOTE2: This item is SPECIAL ORDER and will be drop-shipped from the manufacturer.

PYPES

Stainless Steel Mufflers

Pypes mufflers are some of the best sounding and best performing mufflers on the market. In order of quietest to loudest; Turbo Pro; features flow control channels that eliminate drone, resonance, and flow turbulence while maintaining a steady flow of exhaust gasses that mimics the CFM of a straight pipe. Expect a quiet mellow tone with a true performance sound. Race Pro; provides the greatest flow out of any muffler in the Pypes line. The Race Pro features a straight through design wrapped with packing to give you a great sound with minimal airflow resistance. The sound is calm at idle and low RPM cruising, but open the throttle and the sound is unleashed! Street Pro; a great street/strip muffler that will maintain its rich sound qualities for the life of the muffler. The chambered type Street Pro muffler is recommended for stock to medium modified vehicles looking for an aggressive, but not too noticeable sound. Violator; provides the most aggressive sound out of any muffler in the Pypes line. It features a 3" internal louvered tube with small sound deflector chambers to achieve the aggressive sound. The sound at idle is unique, but once the throttle is opened, the exhaust becomes incredibly loud and noticeable.

black widow EXHAUST

Performance Mufflers

Black Widow performance mufflers feature a unique internal hourglass design to provide straight through airflow. The design combines an ideal balance of exhaust velocity and exhaust volume with acoustic sound wave deflection to create a distinctive sound unlike any other muffler on the market today. Mufflers feature a fully-welded outer casing manufactured in durable 14-gauge 430 stainless steel and feature a brushed finish as well as an embossed Black Widow logo on one side. Mufflers are bi-directional and can be mounted upside down or backwards without affecting flow or sound. All mufflers are manufactured in the USA and are backed by a lifetime warranty.

Neighborhater - The loudest and least restrictive of the Black Widow line. These mufflers feature a 6" x 5" diameter round body. Available for 2-1/2", 3", or 3-1/2" pipe diameters. Widowmaker - Almost identical to the Neighborhater, but with a 10" x 5" diameter body offering a slightly quieter sound without restricting airflow. Available for 2-1/2", 3", or 3-1/2" pipe diameters. Angry Housewife - The loudest of the oval Venom Series mufflers, the Angry Housewife features a 6" x 9" x 4" body. Great flow without the drone. Race Venom - The second loudest of the oval shaped mufflers from Black Widow. Features a 9" x 9" x 4" body. All Venom series mufflers are available in several sizes and inlet/outlet configurations. Venom 250 - Nearly identical to the Race Venom, but with a 14" x 9" x 4" body. Slightly quieter with a longer body, while still possessing great airflow qualities. Venom 300 - A match to the Venom 250 mufflers, but with an 18" x 9" x 4" body. The quietest of the Black Widow line, but still with great airflow qualities thanks to the internal hourglass design in all Black Widow mufflers.

1964-72 Electric Exhaust Cutouts
These new electric cutout kits from Doug's Headers allow you to uncork your exhaust system with the flip of a switch. The new and improved design features compact, pre-wired, high-torque DC motors, which allows for greater installation options in tight spaces. Cutouts and Y-pipe connectors are manufactured using durable 304 stainless steel and feature a self-adjusting, self-cleaning gate, which is designed to provide a leak-proof seal for years to come. Sold per set, the cutouts include all of the necessary hardware and wiring for a hassle-free installation.

LED Wheel Rings

Oracle Lighting illuminated LED wheel rings are an easy and effective way to light up the wheels on your car or truck! This head-turning lighting product consists of a set of (4) LED illuminated aluminum rings which install around the brake rotor and attaches to the brake dust shield. These can also be mounted to older vehicles with drum brakes. The effect is a large ring of light which accents custom wheels and stands out at events. Oversized 16.5" diameter is the largest on the market and fits oversized brakes. The ColorShift option lets you use any of the various colors combined, allowing you to choose from a wide variety of colors!

Harmonic Balancer Puller

This puller is designed to remove balancers, vibration dampers, pulleys and gears with tapped holes. The four slots in the yoke allow use of this tool in either two-hole or three-hole applications. The removable floating swivel prevents damage to shaft ends. Included are the necessary size screws with washers; three 3/8"-24 x 2", three 5/16"-18 x 2", two 3/8"-16 x 4", three M8 x 1.25 x 80 mm. Forged from alloy steel and packaged in a plastic pouch.

Part#	Desc.	UOM	Price
CVT0189	.....	each	26.99

Engine-Rotating Tool

Our engine-rotating tool bolts onto the harmonic balancer & has provisions for a 1/2" drive ratchet or breaker bar and a 1" socket. Constructed of 17-4 stainless steel, this tool also comes in handy when degreeing your cam with the balancer installed.

Part#	Desc.	UOM	Price
CH25812	.....	each	45.99

Piston Ring Compressor

This professional quality piston ring compressor will work on almost any engine. The 7 piece set includes an all metal fine tooth ratcheting plier-type handle that works both vertically and horizontally and 6 different bands to accommodate pistons from 3-1/8" to 4-3/4" in diameter. A must-have for any engine assembly project.

Part#	Desc.	UOM	Price
CV10953	.....	set	69.99

Pitman Arm Puller

This is a heavy-duty design that does not require the use of a hammer when working on your suspension. Fast and easy and works great in tight-fitting areas.

Part#	Desc.	UOM	Price

NEW! California Gold Carnauba Wash & Wax

Used between regular waxing, Carnauba Wash & Wax easily dissolves and removes stubborn road grime and dirt, all while boosting your existing wax—giving you that "just waxed" look and feel. Powerful, super-sudsy, biodegradable and pH balanced, this wash & wax has it all, making the perfect addition to a well-maintained finish.

Part#	Desc.	UOM	Price
CH35202	16-oz	each	6.99
CH35195	64-oz	each	13.99

NEW! California Gold Water Spot Remover For Glass

Mothers Water Spot Remover For Glass removes stubborn hard water spots and stains from any exterior glass surface. Powerful mineral-dissolving agents scrub away sunbaked sediments, salt spray, tree sap, road grime, bugs and paint overspray. Mothers Water Spot Remover is for exterior glass windshields and windows.

Part#	Desc.	UOM	Price
CH35200	12-oz	each	10.99

NEW! California Gold Waterless Wash & Wax

When washing your car with a hose is not an option, turn to Mothers "California Gold Waterless Wash & Wax". The ultra-slick formula dissolves and encapsulates dirt and grime allowing it to be safely wiped away just as they would with the suds of a traditional car wash. Safe for any exterior vehicle surface, just spray, wipe and buff your way to a beautifully washed and waxed finish.

Part#	Desc.	UOM	Price
CH31303	24-oz	each	11.99

NEW! Triple Action Foam Wash

Mothers Triple Action Foam Wash is a powerhouse, suds-inspired shampoo, delivering unmatched lubricity and scratch protection thanks to its penetrating polymer surfactant foam blend that safely dissolves, lifts and suspends dulling contaminants. This versatile formula increases in strength—and foam—based on your needs, yet remains safe and effective on every exterior surface. Whether you're looking for a quick, all-purpose super-sudsing shampoo, or an insane foam concentrate to use in your favorite foam cannon or gun, you'll be left with a perfectly clean, streak-free shine. And best of all, it won't strip waxes, sealants or ceramic coatings, regardless of strength because of its dilution-optimized pH balanced and environmentally friendly formula.

Part#	Desc.	UOM	Price
CH35201	16-oz	each	6.99

NEW! Ultimate Hybrid Ceramic Detailer & Bead Booster

Mothers Ultimate Hybrid™ Ceramic Detailer & Bead Booster is the effortless way back to that "just coated" super-hydrophobic, liquidy-gloss appearance! Featuring a balanced blend of advanced science and traditional car care, this formula seamlessly unites the trusted and time-tested natural protection of carnauba wax with the cutting-edge nano-quartz ceramic technology of today. Ultimate Hybrid™ Ceramic Detailer is a true instant detailer, effortlessly clearing away dust, fingerprints and smudges, while simultaneously enhancing the protective, hydrophobic beading characteristics of any finish. It can be used over your existing ceramic coating, sealant or wax, or even as a stand-alone bead booster on uncoated vehicles. Just spray on and wipe off, it's that easy!

Part#	Desc.	UOM	Price
CH35205	24-oz	each	13.99

NEW! Ultimate Hybrid Ceramic Spray Wax

Mothers Ultimate Hybrid™ Ceramic Spray Wax combines the simplicity of a spray wax with the benefits of a ceramic spray coating. Featuring a balanced blend of advanced science and traditional car care, this formula seamlessly unites the trusted and time-tested natural protection of carnauba wax with the cutting-edge nano-quartz ceramic technology of today. From greasy fingerprints and smudges to road grime and dust, Ultimate Hybrid™ Ceramic Spray Wax's ultra-slick formula lubricates while it cleans, leaving you with a scratch-free, SiO2 protected, liquidy-gloss appearance that repels water and contaminants with ease. Use as a stand-alone product, or as a booster over your existing ceramic coating, sealant or wax. Apply in layers for increased depth, durability and protection.

Part#	Desc.	UOM	Price
CH35203	24-oz	each	14.99

NEW! Ultimate Hybrid 1-Step Ceramic Clay & Coat Kit

Mothers Ultimate Hybrid™ 1-Step Ceramic Clay & Coat is an all-in-one surface prep and preservation system. Featuring a balanced blend of advanced science and traditional car care, this combination seamlessly unites trusted and time-tested methods and the natural protection of carnauba wax, with the cutting-edge nano-quartz ceramic technology of today. Regardless of where you live, your car's finish is exposed to a variety of potentially damaging contaminants. Paint overspray, water spots, fresh tree sap, rail dust, bird droppings, light oxidation and brake dust may seem harmless, but left alone, these particles can cause molecular breakdown of your paint, leaving the finish dull and vulnerable to further deterioration. Ultimate Hybrid™ 1-Step Ceramic Clay & Coat will stop this damage, restore brilliance, and leave a "just coated" super-hydrophobic, liquidy-gloss appearance to your car's paint, chrome, glass, and smooth plastics. Clay & Coat in 1-Step. It's that easy!

Part#	Desc.	UOM	Price
CH35204		each	29.99

NEW! Ultimate Hybrid Ceramic Wax

Mothers Ultimate Hybrid™ Ceramic Wax isn't your father's car wax. Featuring a balanced blend of advanced science and traditional car care, this formula seamlessly unites the trusted and time-tested natural protection of #1 yellow carnauba wax with the cutting-edge nano-quartz ceramic technology of today. Ultra-fine polishes remove minor imperfections and oxidation, promoting proper adhesion and paving the way for a long lasting, Si02 fortified shine that repels water and contaminants with ease.

Part#	Desc.	UOM	Price
CH35206	16-oz	each	22.99

Back-To-Black

As your ride's exterior ages, rubber, plastic and vinyl exterior hardware of all colors will dry, crack, flake and deteriorate. This oxidation can be stopped and reversed with Mothers "Back-to-Black", our favorite auto-care concoction. This trim treatment is great for all sorts of exterior hardware in all colors-bumpers, molding, louvers, window trim, vents, seals, skirts, door handles, wiper arms—anything that's plastic, rubber or vinyl. Apply "Back-to-Black" to sunburnt plastic, rubber and vinyl to revive the factory-new sheen, then re-treat that exterior hardware regularly. Choose from the 12-oz. wipe-on formula, or the one step spray on 10-oz. aerosol can.

Part#	Desc.	UOM	Price
CH23863	12-oz.....	each	12.99
CH31301	10-oz.....	each	12.99

NOTE: Aerosol item must be shipped ground.

Leather Cleaner

The ultimate leather cleaner. High-traffic leather interiors, convertibles with leather and essentially every other leather should be bathed regularly—it's a natural skin and needs care. The chemists at Mothers created "Leather Cleaner," a pH-balanced formula that safely lifts impregnated dirt, grime and stains from your precious leather interior. Meanwhile, when you use our Leather Cleaner you're preparing that material for Mothers "Leather Conditioner," which will ensure a long, supple life.

Part#	Desc.	UOM	Price
CH23856	8-oz.....	each	9.99

Leather Conditioner

Mothers "Leather Conditioner" will preserve your smooth leather. You've cleaned it, rubbed out stains, spills and the dirt. You don't want to leave that freshly cleansed skin open to new indiscretion. Seal it with Mothers Leather—it's formulated with lanolin and neat's foot oil to preserve the natural oils lost with age. It leaves a protective barrier that helps seal out the detrimental effects of the sun, time and abuse.

Part#	Desc.	UOM	Price
CH23857	8-oz.....	each	10.99

All-In-One Leather Care

Dissolves and lifts away dirt and debris from deep within your leather while premium grade conditioners rejuvenate and replenish the natural oils lost to heat and sunlight over time. When applied regularly, your finished leather will be left non-greasy and with a new-leather sheen.

Part#	Desc.	UOM	Price
CH31302	12-oz.....	each	9.99

Plastic Polish

This is a true polish—you can buff out hairline scratches, smudges, flaws and little nicks as well as clean away yellowing and stains from your plastic convertible window. Mothers Plastic Polish doesn't stop there! It protects your plastics from the sun, smog, water stains and airborne contaminants with a tough layer of polymers. For those tough jobs, try it with our PowerBall.

Part#	Desc.	UOM	Price
CH23862	8-oz.....	each	9.99

California Gold Clay Bar System

Created to remove the particulate debris and contaminants that washing and polishing can't, this exclusive "Clay Bar System" will remove embedded grains of metal, tree sap, airborne environmental deposits and paint overspray. Better yet, our clay bar isn't hazardous to your paint—it's just firm enough to pick up the bad stuff without being too aggressive. Use Mothers "Clay Bar" to get rid of paint fouling grime and pave the way for a complete waxing.

Trunk Spatter Paint
Authentic trunk restoration paint is a must for any vehicle. This genuine spatter paint is available direct from General Motors or in an affordable aftermarket version. Depending on your vehicle, we offer the correct paint in gray and white or black and aqua. Clear topcoat is also available and recommended to seal and protect your investment.

Part#	Desc.	UOM	Price
PZ51498	GM, gray/white - 13-oz.....	each	18.99
PZ51499	GM, black/aqua - 13-oz.....	each	13.99
CH28879	gray/white - 11-oz	each	16.99

NOTE1: Gray and white spatter paint is correct for all pre-1967 vehicles, while black and aqua paint is correct for all 1967-later vehicles. NOTE2: Spatter paint is water-based and requires a clear coat to prevent wear from water.

High-Temperature Engine & Drivetrain Paint
Superior heat and chemical resistance and durability are what put VHT engine enamels at the forefront of paint technology. The unique blend of urethane resins creates a tough, long-lasting finish that is perfect for engines and all of the surrounding components. Choose from a factory color or VHT "NU Cast" engine enamels for a cast-iron or aluminum appearance.

Part#	Desc.	UOM	Price

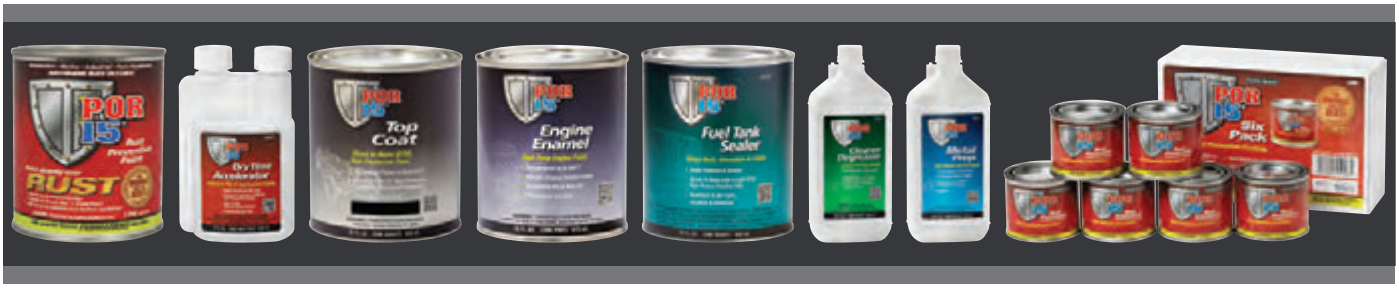
POR-15 PAINT PRODUCTS AND ACCESSORIES

RUST PREVENTIVE COATING - FUEL TANK SEALERS - METAL-PREP - ENGINE PAINT



Rust Preventive Coating

Stop rust permanently with POR-15. Unlike ordinary paints, POR-15 is designed to be coated right onto rusty surfaces leaving a beautiful, rock-hard finish that won't crack, chip or peel. Eliminate stone chips while you're at it. POR-15 is so tough that some folks describe it as, "Powder coat in a can". Furthermore, POR-15 is very flexible and can withstand twisting and bending without cracking. Use POR-15 on anything you want to protect permanently from rust, stone chips or other common paint failures. Sold each.

COLORS AVAILABLE:
Black, clear, gray, semi-gloss black or silver

Part#	Desc.	UOM	Price
C2258	1-pint.....	each	39.99
C2259	1-quart.....	each	59.99
CH417	1-gallon.....	each	185.99

Dry Time Accelerator

Add this accelerator to your rust preventative coating to reduce drying times by up to fifty percent. One 8 oz. bottle is enough for 32 quarts or 8 gallons of POR-15 Rust Preventative Coating.

Part#	Desc.	UOM	Price
C220228	8-oz.....	each	30.99

Top Coat

A permanent glossy black coating designed for application over painted or unpainted metallic surfaces. Non-sensitive to UV light, highly flexible and non-porous. Extremely scratch- and chip-resistant and strengthened by exposure to moisture.

Part#	Desc.	UOM	Price
C220224	1-pint.....	each	29.99
C220225	1-quart.....	each	41.99

Engine Paint Enamel

Available in an array of colors, POR-15 "Engine Enamels" will add a great look to any engine. The single component paint is chip-resistant, flexible and able to withstand the heat of any muscle car engine. Engine enamel is available in 1-pint containers, which is enough to cover one engine.

COLORS AVAILABLE:
Black, or orange

C220206	black - 1-pint.....	each	28.99

Six Pack Of Rust Preventive Paint

Get maximum convenience and efficiency with a POR-15 six pack. Package contains six 4-oz. cans so you'll only open small amounts as you need them with no waste. Each can cover 12 square feet. Available in black only.

Part#	Desc.	UOM	Price
CH245	black only.....	each	64.99

POR 15 Fuel Tank Sealer

"U.S. Standard Fuel Tank Sealer" was formulated & developed due to a demand for a high-tech sealer impervious to all fuels, including the Stage II fuels that have higher alcohol content. It has superior strength & fuel resistance & does not contain Methyl Ethyl Ketone, a highly flammable & deadly carcinogen.

Part#	Desc.	UOM	Price
C220198	1-pint tank sealer..	each	29.99
C220199	1-quart tank sealer	each	51.99

Cleaner Degreaser

"Cleaner Degreaser" degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete because Cleaner Degreaser diluted with water three, four, five and even ten times its volume will remain even more potent than other cleaners. "Cleaner Degreaser" eliminates grease, oil, mildew, algae, musty odors, soap films and wax. Before applying any rust preventative paint or coating, you must remove any oily film or residue.

APPLICATIONS: Engines, fuel tanks, frames, floor pans, suspension components, transmissions, rubber, nylon, vinyl, grease, etc.

Part#	Desc.	UOM	Price
C220217	1-quart.....	each	15.99
C220216	1-gallon.....	each	29.99

Metal Prep

"Metal Prep" provides the best adhesion to any surface, including aluminum and shiny polished metal surfaces. The simple one-step process gently etches metal, creating an ideal anchor pattern for coatings such as POR-15, while simultaneously leaving a zinc phosphate film to promote chemical bonding of paint and steel. After thoroughly degreasing your work piece, apply environmentally safe "Metal Prep" to both neutralize any rust and etch clean bare metal. This will allow better adhesion of POR-15 or any other paint or coating. "Metal Prep" is not caustic, corrosive, toxic or flammable.

APPLICATIONS: Removes surface rust in minutes, ensures perfect paint adhesion, coats metal with zinc phosphate, provides a perfect base for all paints, gives better welding conductivity without harmful residues and is reusable.

Part#	Desc.	UOM	Price
C220219	32-oz.....	each	21.99
C220220	1-gallon.....	each	41.99

AP120 Metal Prep

Now achieve the ultimate clear finish on brightly polished metal. Designed exclusively for use with the super-tough, super-clear "Glisten PC" coating. "AP120" eliminates impurities and films that may be present, especially on chrome or polished aluminum finishes. Get the toughest, most beautiful clear coat available with "AP120" and "Glisten PC."

Part#	Desc.	UOM	Price
C220107	20-oz.....	each	12.99

NOTE: Not intended for use inside of the vehicle.

Fuel Tank Repair Kit

"Fuel Tank Repair Kit" is more than just pouring in a quart of sealer and sloshing it around. If gum, varnish, sludge or fuel is inside, they must be removed first. Our "Fuel Tank Sealer," like all other sealers, will not work in a contaminated tank. Find out what the pros already know and get this "Fuel Tank Repair Kit" with everything you need to do the job right.

FEATURES: "Cleaner Degreaser" to remove gum, sludge and varnish. "Metal Prep" to remove rust and prepare tank for sealer. "Fuel Tank Sealer" to permanently seal tank. Detailed instructions included.

Part#	Desc.	UOM	Price
C220241	.....	each	99.99

Super Starter Kit

You'll get a 4-oz. can of POR-15 (enough to cover 12 sq. ft.), a 1/2-pint of "Cleaner Degreaser" a 1/2-pint of "Metal Prep" two wooden handle paint brushes and a pair of special high-dexterity surgical latex gloves. Available in black only.

Part#	Desc.	UOM	Price
C2257	black only.....	each	27.99

Brake Caliper Paint Kit

Make your calipers shine with this do-it-yourself paint kit from POR-15. Available in black or silver, this kit will add a beautiful appearance to your brake calipers. Complete kits include all the necessary cleaners and paints to add new life to old calipers.

COLORS AVAILABLE: Black, red or silver

Part#	Desc.	UOM	Price
G2441	.....	each	40.99

Power Mesh Reinforcing Fabric

It's perfect for repairing holes in steel, fiberglass, wood or even many plastics. Use it to bridge holes in floors, trunk pans or even quarter panels. It's unbeatable when combined with POR-15 and POR "Epoxy Putty."

Part#	Desc.	UOM	Price
C220202	1 square yard....	each	11.99

Epoxy Putty

FEATURES: Mixes like clay, hardens like steel, easy-to-use, cures in water, no measuring or weighing, stays in place & doesn't slump or sag. Great insulator, malleable consistency, fill in anywhere, can be sanded, drilled, machined, sawed & painted.

Part#	Desc.	UOM	Price
C220203	1-lb.....	each	38.99

Self-Etching Primer

The primer gently etches the glossy surface providing an excellent bond with the paint of your choice. "Self-Etching Primer" is not a high-build primer and is designed to work specifically with POR-15, but will work on bare metal also.

Part#	Desc.	UOM	Price
L240311	15-oz.....	each	36.99

NOTE: This aerosol item must be shipped ground. No Overnight, 2-Day or 3-Day shipping.

POR-Patch

"POR-Patch" is quite literally POR-15 in a tube. Like POR-15 it dries as hard as a rock, remains flexible and once dry, it is totally impervious to fuels and solvents. It's so tough it may actually add strength to weakened metal. It won't absorb moisture and swell like conventional body fillers. Try it, it's incredible.

USE IT TO: Permanently seal seams, patch holes in steel, wood or plastic. Fix holes in fuel tanks.

Frame Coater Kit

The KBS Frame Coater Kit contains everything you need to clean, prep, & apply two coats of RustSeal on up to a 50 square foot area. This 3-STEP SYSTEM is the most effective rust and corrosion prevention system available today. RustSeal chemically bonds to bare metal forming a permanent, moisture resistant finish that is flexible yet won't crack, chip, or peel. Because RustSeal is moisture-cured, this superior coating is made even stronger by continued exposure to moisture. RustSeal is also highly resistant to some of the most aggressive chemicals such as acids, alkalis, salts, abrasive materials, fertilizers, coal dusts, solvents, oils, and other refined petroleum products. Each Frame Coater Kit includes: 1 Quart - KBS Klean, 1 Quart – RustBlast, 1 Quart – RustSeal, black nitrile gloves, two brushes, stir stick, complete & detailed Instructions. A variety of topcoat colors are available.

Part#	Desc.	UOM	Price
KB57000	.....	each	69.99

KB06000	1 gallon.....	each	40.99

BlackTop Chassis Paint

BlackTop is a permanent, moisture-cured, UV stable coating primarily used for topcoating surfaces previously sealed with RustSeal or any other paint/primer application. BlackTop is a high performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but it will not offer the ultimate rust protection unless it is used in combination with RustSeal. For the best stop rust & ultraviolet protection, first apply RustSeal to permanently seal the surface and then topcoat with BlackTop for an incredibly tough and professional looking finish. Available in Gloss Black, OEM Satin Black & Flat Black. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs and light weight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is now available in a convenient Aerosol Spray Can! Satisfaction guaranteed!

1964-72 Cavity Coater Rust Preventative

Cavity Coater is the Perfect Solution for hard to reach areas that are prone to rusting! Cavity Coater is a single step, super-penetrating corrosion inhibiting coating designed for long term protection on all metal surfaces. Cavity Coater provides a self-healing film which renders over 4000+ hours salt spray protection...over 4 times the protection of conventional cavity waxes. Use Cavity Coater with a KBS Cavity Wand to give long lasting protection for those hard to reach enclosed cavities such as rocker panels, boxed frames, inside doors & fenders, deck lids, tailgates & more. Available in a variety of sizes for use with your own spray equipment or brushes as well as in a convenient aerosol with or without a spray wand.
Spray wand also sold separately.

Diamond Finish Clear Coat

DiamondFinish is a durable and tough water clear coat that can be applied direct-to-metal or over other coatings. The high-gloss coating remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking or peeling. Featuring permanent high solids (over 60%) and low VOC's, this clear is a moisture cured urethane that does not require additives. The advanced coating technology offers durability, flexibility, corrosion and chemical resistance. The self-leveling clear can be applied with a brush without leaving any brush marks, a roller or a conventional spray gun. DiamondFinish ClearCoat will cure without heat or UV lights in temperatures from 50° to 86° Fahrenheit. The clear is able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, Fertilizers, and Acetone. Because of its chemical resistance, graffiti will not stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300° Fahrenheit. Available in several conventional sizes as well as in an easy to use aerosol.

Dry Air Spray Gun Filter

Each disposable filter will absorb up to one (1) fluid ounce of moisture and insure a perfectly dry system from start to finish every time. It absorbs oil aerosols, condensed moisture, and contaminants as small as 0.01 microns. It attaches directly to the air inlet of your spray gun and, as air passes between the filter's compressed layers, particles and moisture are trapped. This incredible filtration is accomplished at a true 30 CFM to the spray gun, with minimal pressure drop at the optimum flow rate.

Strip Paint Remover

KBS Strip is a heavy-duty paint, stain & varnish remover developed for use on wood, metal, masonry surfaces and the inside of tanks. KBS Strip is a penetrating semi-gel formula that clings to vertical surfaces and removes even the toughest finishes easily. The spray bottle applicator promotes even sealing coverage & deep penetrating power for removing stubborn layers of finishes even in hard to reach places! KBS Strip features an evaporation sealant which drastically lowers the amount of odor. KBS Strip can be easily washed off with water or solvent without leaving a residue.

1964-72 Rubberized Undercoating

KBS UnderCoat is a superior rubberized paintable undercoating that provides protection in wheel wells, gas tanks, frames, and floor pans. The coating produces a very tough, yet flexible film with excellent adhesion, and helps prevent road salt from eating away at your car's metal and fiberglass while offering excellent adhesion to metal or painted surfaces. KBS UnderCoat also provides sound deadening by reducing road noise and vibration. Note: Not for use on surfaces that will come in direct contact with heat or high temperatures such as mufflers or exhaust components.

RustBlast Rust Remover

RustBlast is a powerful rust remover, zinc phosphate pre-primer, and metal etch that effectively dissolves rust, corrosion, metal oxides, and tarnishing from most metal surfaces. Ideal for removing rust from chrome surfaces, this easy to use product can be sprayed on or brushed on. Apply RustBlast full strength to a clean surface keeping it wet for at least 30 minutes or more and watch rust, corrosion, metal oxides, and tarnishing vanish before your eyes! RustBlast will gently etch the surface and leave a zinc phosphate coating to ensure a strong bond with any paint. Available in a variety of sizes for every project.

System Sampler Kit Rust Preventative

The KBS System Sampler Kit contains everything you need to clean, prep, & apply two coats of RustSeal on up to a 12.5 square foot area. RustSeal acts as a total rust inhibitor and preventive with a paint type consistency and excellent spreadability. RustSeal chemically bonds to rusted steel to form a rock-hard, non-porous coating that won't crack chip, or peel. It works by isolating metal from moisture. Without moisture present, steel can't rust. This non-porous, flexible coating is incredibly tough and extremely resistant to abrasion and impact. RustSeal is highly surface tolerant and capable of adhering to almost any prepared substrate. Each System Sampler Kit includes 8oz - KBS Klean, 8oz RustBlast, 8oz RustSeal (any color), black nitrile gloves, two brushes, stir stick, complete & detailed instructions.

COLORS AVAILABLE: cat yellow, galvanized steel, gloss black, grey, guardian green, off-white, oxide red, safety blue, satin black, silver

XTC High Temperature Zinc Primer

XTC Silicone Zinc Primer prevents corrosion of metal surfaces exposed to high heat, high humidity, condensation and salt air. The primer has similar properties to galvanizing as it locks itself to bare metal surfaces leaving a perfect primed surface for top coating. Primer can be finished in the topcoat of your choice, or it can be used as a standalone finish. Available in gray only, the XTC primer withstands temps in excess of 1200°F (648°C), and is free of fluorocarbons, lead, and chromates.

XTC High Temperature Paints

XTC is a high temperature/ heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500° F to 1500° F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock-resistance throughout this entire temperature range, and is guaranteed not to burn off! XTC is ideal for exterior applications because it resists rust when primed with XTC Primer. Available in a variety of colors and sizes to suit your needs.

Classic California License Plates

Nothing embodies cool, classic car spirit than the California "Black & Yellow" Plates of the mid-to-late 1960's. These plates are cherished by car buyers everywhere as the plates are synonymous with rust-free and original classic cars in all makes and models. These are a must-have for every garage and Man Cave no matter what state you live in. Were you or a loved one born in 1968? Were you married in 1965? Was you first car a 1967? Does your 1966 car wish it was in California versus the frigid North? All great reasons to buy one. These are real stamped (replica) aluminum license plates with raised numbers and letters. Do not confuse these with flat, economy vanity plates that are simply silkscreened.

ORDERING & SHIPPING INFORMATION

HOW TO ORDER:

Online Orders

Shop for our complete line of parts and accessories any time at opgi.com. You'll also find our current sale specials, new product introductions, technical articles and our entertaining blogs. Our site uses SSL encryption technology for a fully secure shopping experience.

Phone Orders

Call us toll-free at 1-800-243-8355 from anywhere in the U.S. or Canada. Our customer service representatives are here to take your order and assist you with any questions you may have regarding your car's restoration.

Our call center hours are 8:00am – 4:30pm Monday – Friday, and 10:00am – 3:00pm Saturdays. All times Pacific Standard. Our call center is closed on Sundays and the following U.S. Federal holidays:

Monday, May 29, 2023 – Memorial Day
Tuesday, July 4, 2023 – Independence Day
Monday, September 4, 2023 - Labor Day
Thursday, November 23, 2023 – Thanksgiving
Monday, December 25, 2023 – Christmas Day
Monday, January 1, 2024 – New Year's Day

International Orders

From outside the U.S. and Canada, dial the international access code then 1-562-594-1000.

METHODS OF PAYMENT:

Credit Cards / Debit Cards

We accept Visa, MasterCard, American Express and Discover credit cards as well as Visa and MasterCard debit cards. When placing your order either online or over the phone, please include your name as it appears on the card, the entire card number, the date of expiration, and the security code located on the back of your Visa, MasterCard or Discover. The security code appears on the front of American Express cards. Please note, we must be able to verify the shipping address as the credit card holder's. Minimum credit card purchase is $20.00.

PayPal

We accept PayPal for all online orders that are shipped UPS Ground within the continental U.S.

Affirm

Affirm payment subject to credit check and approval. Down payment may be required. Affirm is only available on orders over $400. Affirm loans are made by Cross River Bank, a New Jersey State Chartered Commercial Bank, Member FDIC.

See https://www.affirm.com/help/ for details.

Money Orders & Cashier's Checks

Money Orders, Cashier's Checks and certified checks are accepted. Please be advised that for mailed or faxed orders, we hold these types of checks until funds are cleared by our bank.

Personal Checks / Business Checks (EFT)

To use a personal or business check on pre-paid orders, the name, address and check number must be pre-printed on the check. We can only accept first party checks. Original Parts Group, Inc. processes all checks using electronic fund transfers (EFT), which converts funds electronically to our bank.

All transactions are governed by NACHA Operating Rules. (National Automated Clearing House Association.)

Collect On Delivery Policy (C.O.D.)

Your C.O.D. order must be shipped to a residential or business street address. Sorry, we cannot ship C.O.D. to a Post Office box or APO-FPO. Someone must be present during normal business hours to accept the C.O.D. package. If no one is there to accept the order, we will be obligated to pay UPS Ground for the freight charges – both ways. We will no longer be able to accept your C.O.D. orders until we are reimbursed for the freight charges and a 20% restocking fee. We only accept C.O.D. orders by phone, so please call us at 800-243-8355 when you're ready to place your order. C.O.D. orders do not qualify for free freight. Original Parts Group, Inc. accepts C.O.D. orders up to $500.00 only. A UPS Ground C.O.D. collection charge of $49.95 per box will be added to all C.O.D. shipments.

SHIPPING:

Ground Shipments Within The Continental U.S.

Most of our merchandise is shipped throughout North America via UPS Ground. Our standard ground delivery rates are calculated during your checkout based on the size, weight, and shipping zone of your order. We use multiple shipping partners in an effort to provide cost effective shipping services.

Here are estimated transit times for UPS Ground from the time your order leaves OPGI. These rates are current at time of printing. These are shipping times only and do not include the time to process your order.

Estimated transit times from the time your order leaves OPGI. Times may vary.

Free Shipping Over $299

FREE SHIPPING ON ALL ORDERS OVER $299

We offer free standard ground shipping on orders over $299 after any and all discounts have been applied. Free standard ground shipping applies to orders within the continental United States only. Alaska, Hawaii, Puerto Rico, Canada, and international orders are not eligible for this offer. Some items may be excluded from free shipping due to size and/or weight restrictions, and may incur additional fees. Collect on Delivery (C.O.D.) orders are excluded from free shipping offers.

Additional Handling Surcharge

Any package that measures over 48" in length, and/or 30" in width is subject to an additional handling surcharge of $15.95 per package. Unusually shaped packages such as cylinders or drums are also subject to this charge, as are unusual exterior packaging materials such as plastic or cloth.

Items That Require Truck Freight Delivery

Products that require truck freight delivery are items too large to be shipped via UPS Ground. These are items such as fenders, hoods, etc. All truck freight orders must be prepaid. Rates begin at $120.00 and vary based on weight. Please contact our customer service department for accurate freight charges or visit our website at opgi.com. Freight carriers and charges are subject to change.

Drop Ship

All drop-shipped orders must be prepaid. Rates vary depending upon weight.

Delivery by the next business days by morning, noon, or evening.

International Shipping Options:

We use UPS International Economy, UPS International Priority, and USPS Priority Mail.

SHIPPING & GENERAL INFORMATION

GENERAL INFORMATION:

Prices

The prices in this catalog were current at the time of printing, and supersede all prices in any previous OPGI publication. OPGI reserves the right to change prices without notice. Availability of all parts and accessories in this catalog are subject to change without notice. OPGI reserves the right to discontinue products and services without notice. Please see OPGI.COM for current pricing.

Back Orders

Many items in our comprehensive inventory move quickly, and rarely are we out of stock on any items for any length of time. Typically, products that are out of stock at the time you place your original order are back in stock within 10 days or less. OPGI's sophisticated back order tracking system automatically processes any items due to you the moment they become available. Back order items normally take as little as a few days to receive, but can sometimes take longer. For an estimated time of arrival, please call our customer service department at 1-800-243-8355.

Sales Tax Information

Orders from outside California are exempt from California State Sales Tax at the time of this printing except for residents of: Colorado, Georgia, Iowa, Idaho, Illinois, Indiana, Massachusetts, Michigan, Minnesota, North Carolina, New Jersey, Nevada, New York, Texas and Wisconsin. California residents are required to pay sales tax on all orders. Due to unforeseen changes in the California Sales Tax and Federal Interstate Tax System, rates are subject to change. The current California State/Region Sales Tax at the time of this printing is 8.75%.

Merchandise Return Policy

If you are unsatisfied with a product or purchase and would like a refund or store credit please visit us at opgi.com/help/return-policy to submit your return through our online returns process. We accept returns or exchanges within 60 days from the date of purchase. All merchandise we offer is guaranteed against defects in workmanship and materials for 60 days from the date you received it. Liability of OPGI is limited to the replacement of defective parts. Returns may be subject to a 20% restocking fee. Each returned product must be in its original, unused condition. Merchandise that has been painted or altered is non-returnable. Returns may be subject to shipping charges. Original GM products and all Branded performance products (example Edelbrock, Holley, Wilwood) must be in their original packaging.

The following products are not returnable under any circumstances:

- Instruction and informative books or manuals
- Special orders
- Items requiring Truck Freight delivery
- Wiring harnesses
- All electrical parts
- Engines and moving internal engine parts
- Interior components that have been installed incorrectly

Please note exchanges cannot be processed online. If you would like to exchange an item, please contact our customer service team at 1-800-243-8355 for further assistance.

Incomplete Orders

Upon receiving your order, be sure to check the contents of your delivery to ensure all parts were received. If you are missing any items, first check your invoice to be sure the parts were not back ordered. If a shortage has occurred, please contact our customer service department within 3 days of receipt of shipment to ensure a prompt replacement.

Damage Claims

Please inspect the merchandise in the presence of the carrier at the time of the delivery. It is the responsibility of the delivering service (UPS Ground, etc.) to deliver the merchandise in good condition. In the unlikely event that you receive a package that has been opened or damaged, it is imperative that the driver documents this on their delivery sheet. Please report any and all damaged goods in shipments within 3 days of receipt. OPGI cannot be held responsible for damaged or missing parts without documentation on the delivery sheet and without contacting the delivering company directly.

Please promptly call OPGI customer service so we may assist you with Damage Claims.

COMPLIANCE WARNINGS:

Prop 65 Compliance Statement

Products in this catalog can expose you to chemicals including but not limited to lead, sulfur, nickel, chromium, vanadium, titanium, polyvinyl chloride and/or 4,4'-methylenebis (2-chloroaniline) which are known to the state of California to cause cancer or birth defects or other reproductive harm.

For more information, visit www.P65Warnings.ca.gov

Emissions Regulations

Emissions-related parts are regulated under our nation's clean air laws and are primarily enforced by two government agencies: the U.S. Environmental Protection Agency (EPA) and the California Air Resources Board (CARB).

Please visit www.opgi.com/help/emission-regulations for more details.

1 This product is covered under a CARB EO and is legal for sale and use in all 50 states. Please see opgi.com for EO numbers.

Products that have completed the CARB EO process belong in this category. EPA recognizes the CARB EO as a reasonable basis demonstration, therefore products can be considered legal by both CARB and EPA.

Aftermarket Parts that may require an EO Number:
Air Cleaners, Cams, Carburetors, Catalytic Converters, Coils & Ignition Wires, Computer Chips, Electronic Ignitions, Distributors, Fuel Injection, Fuel Tanks, Headers, Intake Manifolds, Internal Engine Parts, Replacement Engines

2 This product has met EPA's reasonable basis requirements and is legal for sale and use within the jurisdiction of the federal EPA.

This category includes products that have demonstrated a reasonable basis emissions compliance either through engineering evaluation or testing, but do NOT have a CARB EO.

There are a few reasons that a product might including (but not limited to):

- Testing has been completed and paperwork submitted to CARB but the EO has not yet been issued.
- The product meets the reasonable basis standard but may not meet CARB's criteria for an EO.
- The Manufacturer has performed testing but has decided not to pursue a CARB EO.

3 This product is not legal for street use on an emissions-controlled vehicle. It may be used on dedicated competition or pre-pollution controlled vehicles only.

Some products can never be legal for use on pollution-controlled vehicles (both for use on the road and off-road), but they do have a legitimate use on racing vehicles and vehicles that predate emissions regulations. Pre-pollution controlled vehicles are 1965 and older domestic vehicles in California, 1967 imports in California and both domestic and imports under EPA jurisdiction.

4 This product does not require an EO in California. By nature of its design, it is legal for sale and use in all 50 states. Replacement parts included.

This category includes products that have little or no impact on emissions, such as drop-in air filters or exhaust components downstream of the last emissions component (such as the catalytic converter, DPF or exhaust gas sensors). Also included are devices that plug into the OBD port to monitor information, but do not alter the vehicle's electronics.

MORE WAYS TO SAVE WITH OPGI

FREQUENT BUYER REWARDS

Your loyalty just paid off!

As a way of thanking you, our loyal customers, we have a Frequent Buyer Rewards Program which lets you earn points for every dollar you spend on parts.

Here's how it works:

- Earn 1 point for every $1 spent on parts. See chart for reward tiers.
- Points can be redeemed on parts, accessories and gift cards only.
- Points have no cash value.
- Points expire within one year of first purchase.
- Points are available to use upon shipment of each order.

How to use your points:

- Call 1-800-243-8355 and ask a customer representative about using your points, or visit our showroom when you're ready to place an order.
- At this time, Frequent Buyer Points are not currently redeemable online.

250 POINTS.... FREE OPGI T-SHIRT	3000 POINTS....$195 FREE PARTS
500 POINTS.....$10 FREE PARTS	5000 POINTS....$420 FREE PARTS
750 POINTS.....$35 FREE PARTS	8000 POINTS....$850 FREE PARTS
1500 POINTS.....$90 FREE PARTS	12000 POINTS..$1400 FREE PARTS

*Size of order unlimited to qualify. Valid for U.S. ground shipping only. Excludes oversized and truck freight items.

Terms & Conditions

Original Parts Group, Inc. reserves the right to cancel, modify or restrict the Frequent Buyer Rewards Program at any time without notice. Points are not transferrable. Accounts cannot be combined. Any abuse of the program or failure to follow the terms and conditions may cause a revocation of Frequent Buyer Points. In the event of refunds, checks returned for insufficient funds or disputed credit card charges, points will be deducted from your account at a rate equal to those accrued in the original transaction. Any Frequent Buyer Rewards accounts that have no purchases for a period longer than one year will be considered inactive and all points accumulated on that account will be terminated. Points are not awarded for shipping charges. Other restrictions may apply.

VOLUME DISCOUNTS ON RESTORATION PARTS

When we aren't already running a promotion you can still take advantage of our volume discounts. Be sure to sign up for email promotions online for the best deals. We offer volume discounts on restoration parts orders over $499. To qualify for a Volume Discount your order must exceed $499 to receive a 5% discount or $999 to receive a 10% discount. This offer cannot be combined with other discounts or promotions. All parts must be ordered at one time, on one invoice. All accepted payment types qualify for the discounts with the exception of Collect on Delivery (C.O.D.). All products on the OPGI website or in catalogs listed as "On Sale", "Discounted Kit", "No Further Discount Available" as well as "High Performance" and "Aftermarket" items, are not eligible for Volume Discounts. All discounts are applied at the time of payment, or at checkout for online orders. Volume Discounts qualify for Free Shipping per our Free Shipping Policies, please reference the Free Shipping policy for details. Orders must consist wholly of restoration parts, some exclusions apply. Other restrictions may apply.

CUSTOMER SATISFACTION GUARANTEE

If you are unsatisfied with a product or purchase and would like a refund or store credit please visit us at opgi.com/help/return-policy to submit your return through our online returns process. We accept returns or exchanges within 60 days from the date of purchase. Please note exchanges cannot be processed online. If you would like to exchange an item, please contact our customer service team at 1-800-243-8355 for further assistance.

Please see "Merchandise Return Policy" for complete details.

NEED AN INTERIOR KIT, BUT NOT EVERYTHING IN THE KIT?

Mix and match, or even delete items, and still enjoy the great kit savings!

Here's an example:

Let's say you want a Stage III Interior Kit, but don't need everything that comes with it, need a different color combination than what's offered, or would like a few other items not offered in the kit. We'll let you mix and match as you see fit, plus you'll still get the full kit discount.

- Change out items and retain the kit discount on the remaining products, for example, get premium Essex Carpet instead of the standard 80/20.
- Delete items off the kit that you don't need, or add items to a kit. We'll still honor the discount on the remaining items.
- Once you've decided what you need, give us a call and we'll assist you.

This Kit Swap is a special service that we have implemented to serve you. To take advantage of Kit Swap Savings, the final Kit components you buy must retain a portion of the original kit price. Call for details.

INSTANT ONLINE PRICE MATCH GUARANTEE

We will not be undersold! It is unlikely you will find a lower price on identical products elsewhere, but in case you do Original Parts Group, Inc. will match any competitor's current advertised price for an identical product. Price matches can be submitted directly on our website on eligible product web pages. Simply provide us with the competitor's current advertised price and we will match it. Price matching is available for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to OPGI competitors within the restoration parts industry. Competitors' sale pricing, inventory reductions, closeouts, special promotional offers, etc. may be exempt from this program.

This program is subject to the terms and conditions of OPGI's current policies. Engines and all performance parts are exempt from the Price Matching policy. Price matching supersedes all other promotional offers and current OPGI, "On Sale" pricing at the time of comparison. (Guarantee cannot be combined with any other OPGI "Sale" offer). If OPGI matches a price from a competitor, additional discounts on that product or products may not apply. Important: If the standard retail price of an OPGI product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, then the "now" discounted or sale pricing will apply. OPGI reserves the right to change or revoke this offer at any time without notice.

Please see opgi.com/company/price-match-guarantee for more details.

RESTOPARTS® PRODUCT WARRANTY

All premium brand RESTOPARTS ® manufactured products are backed by a full 12-month warranty and are guaranteed to meet or exceed OEM specifications in fit, finish, and quality. This warranty protects against defects in workmanship from the date of purchase for the original purchaser only. This guarantee is limited to the replacement of the original product only. OPGI assumes no responsibility for improper installation including but not limited to installation on a vehicle that the product is not intended for (incorrect year and/or model), or misuse resulting in damage to the part and/or expenses related to, beyond the replacement value of the original purchase.

Notes:

OPEN 24/7 OPGI.COM

SAFE, SECURE AND INFORMATIVE.
SHOP WITH EASE FROM YOUR MOBILE OR DESKTOP.

SHOP ONLINE ANYTIME

Visit opgi.com where you will find everything you see in our catalog as well as useful information to help with your restoration project. Check out our tech articles, installation tips and videos, and in-depth product reviews.

You can visit and order from your computer, tablet, or smartphone anytime!

CUSTOM EXPERIENCE

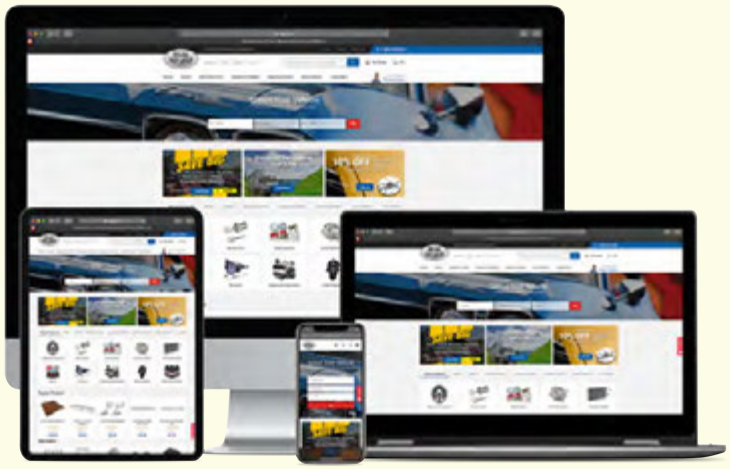
When you visit opgi.com, you can select your specific car model and year and be served with a comprehensive listing of parts and accessories for your car. Each time you visit our website, you'll see products and content that are relevant to your car and shopping needs.

MANAGE YOUR ACCOUNT

Your online account will store information about your specific car so we can ensure you get the right parts every time. You can also track your orders and review your order history, and create a "Wish List" of parts for future orders.

FULLY SECURE

Our website uses SSL encryption technology for a fully secure shopping experience.



RATINGS & REVIEWS

Learn what others are saying about the products we offer and provide your own assessment of parts you've purchased from OPGI.

FREE CATALOGS

Head over to opgi.com/catalogs to order or download your copy of our additional full-color catalogs. Our 2023 catalogs are packed with thousands of restoration and performance parts for your GM classic.
