

Corvette Central

C1

*53-62 PARTS AND ACCESSORIES
CATALOG 1H*

Be sure you have the catalog that's right for you... let us know the year of your Corvette.

Who we are...

Corvette Central has been a leading manufacturer and distributor of Corvette parts and accessories since 1975. In 2001, we moved into our current facility which included the implementation of an automated order picking system. This allows us to better control inventory and to pull orders efficiently. In 2004, we added on a new manufacturing facility where we produce 3,000 of the over 40,000 parts we sell.

Corvette Central is proud to offer the most comprehensive and detailed parts catalogs on the market today and produces a different catalog for each Corvette generation. All catalogs are also online with full search and order features. From Blue Flame 6 to C6, only Corvette Central has it all.

WAYS TO ORDER

ORDERING IS EASY

FOREIGN 269-426-8833

By Fax

Order seven days a week, 24 hours a day.

By Mail

Simply complete the order form found at the back of this catalog. Refer to shipping charges on the back of the order form.

We offer a wholesale program that is second to none. Based on the simple theory . . . the more you buy, the larger the discount.

To qualify for our wholesale program, you must be an auto related business with a current sales tax license from the state in which you do business. Call or fax for an application. As you review our catalogs you will see why professional restorers worldwide choose Corvette Central as their supplier of Corvette parts.

Private individuals doing complete restorations should ask about our "Start To Finish" plan.

If your order is over \$750.00* — Save 5%
 Based on current list prices, if your order meets the above listed requirement, you will automatically receive discount pricing on that order.

* = Except (ND) Items

Corvette Central will match any Corvette competitor's current advertised price on an identical product. Simply send us a copy of the competitor's catalog or ad showing the current advertised price. Product must be from same source or vendor. Note: This does not include sale prices or web specials. Cannot be combined with any other discount or special offer.

SHIPPING INFORMATION

Small packages are sent by U.S. Postal Service Priority or First Class Mail. This service is the fastest and most economical for this size of package. The U.S.P.S. delivers to the continental United States, as well as Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands, and military addresses (APO/FPO) Monday through Saturday. Larger packages will be shipped regular ground service by UPS. Ground service delivers to a large section of the U.S. within 3 days from our location.

Corvette Central offers Next Day, 2 Day, and 3 Day air delivery services. Saturday delivery service is only available with Next Day air charges plus an additional \$15.00.

Note: Air shipping charges are determined by dimensional weight.

There is an additional delivery fee on shipments to residential areas.

INTERNATIONAL ORDERS

We have shipped Corvette parts to every corner of the globe — from one small part, to large wholesale orders.

Since arrangements vary depending on size of order, location and timing, please contact us for the most efficient and economical means of shipping your order.

International orders phone 269-426-8833.

Please allow 7-10 business days to receive your order.

BACK ORDERS

Due to the wide variety of parts we distribute, back orders are unavoidable in some cases. Normally back orders are shipped in 7 to 10 business days. We automatically ship back orders or, if you wish to cancel your back order, please call for a cancellation number.

RUSH SERVICE

If you need your order processed and shipped the same day, we offer "RUSH" service. For an additional \$3.95, any order received before 3:00 PM ET will be processed and shipped that same day. Orders received after 3:00 will ship the following business day using the "RUSH" service.

See our WEBSITE for a complete list of Policies and Procedures.

IMPORTANT

TRUCK FREIGHT

Parts in this catalog noted with "+" for Truck Ship and any other item exceeding carrier size or weight limits will be shipped by truck. All items being Truck Shipped must be prepaid or charged to a credit card.

Corvette Central ships to Canada via UPS exclusively. We have entered into an arrangement to act as an agent of the Canadian government in order to collect all duties, taxes and brokerage when your order is processed. We will then remit all collected monies to the appropriate government entities. This allows you to know the total cost of your order to be delivered to your door, at the time your order is placed. There are no hidden charges! The exception to this program is Prince Edward Island. Orders shipping to this province will be processed through a Canadian brokerage house as in past, except Truck Ship items.

HANDLING AND INSURANCE

A \$2.95 Handling Charge is included in the Shipping Charge on all orders. We feel this is the fairest way to cover a variety of increasing costs without arbitrarily raising parts prices. For protection against loss or damage of your purchase, all shipments are insured. Insurance costs are included in shipping charges.

INSPECT ALL PACKAGES IMMEDIATELY!!!

All damages, shortages, or errors must be reported within 7 days of receipt of package. Please have invoice ready when you call.

DAMAGED GOODS — SHIPPING RELATED

- If there appears to be any external damage, i.e. crushed or dented side or corner, any tears or holes in package, immediately inspect contents of package for parts damage. If damage is found, **DO NOT CONTACT THE CARRIER. IMMEDIATELY CALL CORVETTE CENTRAL AT (800) 345-4122** to report any damages.
- Do not destroy the package or box that the item shipped in. Please save it for inspection by the carrier.
- Have the package and invoice with you when you call.
- If a claim is filed, arrangements will be made for pickup of package with entire contents.

DAMAGED GOODS — NON SHIPPING RELATED

- Call us at **800-345-4122** immediately with description of damage and we will process a replacement and make arrangements for pickup of damaged item.

SHORTAGES AND MISTAKES

- Call us at **800-345-4122** immediately and we will process an exchange or replacement as required.

RETURNS

- **There is no need to call for authorization.** Fill out the return slip enclosed with your shipment, and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. **Items must be returned in the original packaging for credit.**
- All returns must be made within 30 days of invoice date. After 30 days a restock fee will be charged.
- No returns on electrical products or tools.
- Items that have been installed, altered, damaged or are otherwise not in a condition to be resold will be returned to the customer at their expense.

REFUSED SHIPMENTS

Shipping and handling charges on refused shipments are the responsibility of the customer.

See our WEBSITE for a full list of Policies.

Shipping & Packaging Charges

Pertaining to orders shipped within the continental USA:
Ground service freight charges for your entire order will be charged at the time of the first shipment. Any backorders shipped after the initial shipment will not incur any additional shipping charges. For phone and FAX orders, the shipping fee is based on the calculated weight of the parts ordered and the destination zip code according to current UPS and USPS shipping rates. For mailed in and internet orders, the shipping fee is based on the shipping chart located on the order form.

"The Bible of Corvette Restoration and Repair"

56-62 Assembly Instruction Manuals

Designed for conscientious owners and restorers, these manuals enable you to know what is stock, what is original, what is right! Reprinted through the courtesy of Chevrolet Motor Division, manuals are accurate reprints of the manuals used on the Corvette assembly lines! Actual "on-line" notations remain so that the information is factory original and correct. All parts, part numbers, and available options are included with original diagrams. Page numbers and indexes have been added to provide quick reference. All manuals are original size and loose-leaf, three-ring binder style — actually better than the originals.

58-60 Restoration Handbook

• All the Things That the Judges Are Looking For

This is a 500 page photographic essay of very detailed, color photos of the "small details that are often overlooked which make for a great restoration as opposed to just a good one." It's designed as a companion to other Corvette books-NOT a replacement. This book is written by long-time NCRS members, Bob Baird and Tom Howey who are NCRS Master Level® Judges.

508 pages, over 800 detailed full color photos - many of original parts. Spiral Bound.

111213 Book (ND).... 79.95

111077 CD (ND) 39.95

53-72 Chassis Restoration Guide

A complete guide to restoration for the rolling chassis

This guide covers frame, stenciling, serial numbers, shims, suspension, springs, drive shaft, rebound straps, and much more. Nearly 150 black and white photos. Even an index of bolt markings. Don't restore your Corvette without this excellent guide. Softbound, 95 pages.

Corvette: American Legend

Each book features hundreds of black and white photos from GM's archives!

Noted Corvette historian Noland Adams follows the planning and development of the '53 Corvette through eight years of model changes, engineering advances, and racing heritage. This rich Corvette history is chronicled in 5 hardbound books, each a great addition to the libraries of Corvette enthusiasts. Every volume is filled with design and production details pertaining to specific model years. Each book is over 200 pages and features hundreds of black and white photos from GM's archives.

Corvette by the Numbers

This essential Corvette parts reference tells you how to identify all Corvette drivetrain parts for 55-82. Author Alan Colvin identifies and verifies by casting number, the correct engine and drivetrain components for your exact model of Corvette. GM materials consist of engineering blue prints, technical service bulletins and build sheets. Included is information such as Delco starters, radios, LOF glass codes and year-by-year model changes. Whether you are new to the Corvette hobby or a seasoned Corvette judge, this book is a valuable reference. Softbound, B&W 570 pages.

Genuine Lambskin Jacket With Embroidered Emblem

Small front logo
Large back logo

Nothing says "you've arrived" better than our buttery-soft lambskin bomber. Among the softest of leathers, lambskin is soft and lightweight yet supple and durable. Attention to detail makes this jacket a must have: generous bomber cut flatters any body shape, antique silver zippers and snaps, adjustable lambskin cuffs, double welt front pockets for extra strength and a comfy-fit covered elastic waistband. A full color emblem is brought to life through smooth embroidery on left chest and back. Fully lined in satin. Black. Imported.

Specify size: S (38-40), M (42-44), L (46-48)
XL (50-52), XXL (54-56), XXXL.

Car Protection & Storage

WARNING

Do not use harsh detergents when washing car covers.

Mosom Plus
Best for
Outdoor Use

Mosom Plus

Mosom Plus™ is a four layer material. The outer two layers are Spunbond Polypropylene, the middle layer is a special micro-porus film and the inside layer is super-soft fabric. The middle layer is an excellent rain barrier, while allowing for vapors to pass through. The special cotton flock inner layer pampers the most delicate paint finish. It is a great choice for all-around car cover use, suggested for most conditions except extreme sun, snow or ice. Mosom Plus™ is a non-woven material, so in the unlikely event a rip occurs in the material, it will not run.

111509 53-62

ONLY

\$149.95

EACH

Custom Fit

Stretch Satin™ Custom Car Cover

Coverking's Stretch Custom Car Covers are made for vehicles parked indoors (it will fade if exposed to extended sun, and is not water resistant), and for owners who want nothing but the best for their vehicle. Satin Stretch is the SOFTEST fabric available. The material has Lycra fibers for stretch in both directions, mirroring every perfect contour of your vehicle. And the inner liner is the softest fleece you will find-specially designed not to rub off on convertible tops. It is available in solid color designs, including Black, Steel Gray, Dark Blue, Yellow and Red. Blind stitching results in invisible seams-this is a SEXY car cover.

Specify color: -01 Black, -02 Gray, -03 Red, -04 Dark Blue, -05 Yellow

Indoor Use

Gray Flannel Lined

- Softest Indoor Protection
- Brushed Lining Guards Your Corvette's Precious Paint
- Treated to Resist Rot and Mildew Damage
- Custom Fit with Front and Rear Elastic Hems

Traditional Flannel Car Covers are a top choice for Corvette owners who store their car indoors. Heavy Gray Flannel keeps finish clean and protects from minor bumps and scrapes. Features no-scratch tie down grommets.

101118 53-62

ONLY

\$129.95

EACH

The Lower

Cost Alternative

Triguard

Coverking has comprised Triguard out of three layers and each layer is treated with UV retardant to ensure your Corvette is protected against the sun's rays. The middle layer of polypropylene goes through a melt-blown procedure, which means that it is heated and rolled so that it is water-resistant. The middle layer is then inserted between two layers of Spunbond fabric, which means it is compressed in a way to allow breathability in return preventing mildew and rot build up. Triguard's material is easy to clean, store and even though it is light weight, it will not make your wallet light.

111536 53-62

In & Out Spray

Watch your faded and dull trim go from boring to brilliant with a single treatment of one of our all time best products.

An aerosol spray dry to the touch within moments and still capable of restoring your faded and dull plastic, rubber, and vinyl trim to like new condition with just a single spray. Use this amazing product on all the hardest to reach areas, like air conditioning vents, wiper cowls, grilles, and even under the hood to dress your engine compartment.

In & Out Spray wipes easily and cleanly away from surfaces like glass and paint so there's no need to stress about over-spray getting into areas you don't want. One swipe of a plush microfiber towel and the over-spray residue is gone!! There's never been an easier way to dress your trim than In & Out Spray guaranteed to impress you every time you use it.

102606 Aerosol 14.95

Detail Spray

This "Best of Show" winner is a favorite at car shows. Use as a waterless wash, a clay bar lubricant, or to enhance the depth and clarity of paint, chrome, plastic, aluminum, and glass. Specially formulated lubricants gently remove dirt, smudges, and grime, leaving surfaces with a smooth, ultra-high gloss finish. Use in the sun or shade, and in hot or cool temperatures.

Paints And Chemicals

Interior Vinyl Dye — See Page 104

Corvette Central has tested and used a variety of detailing and restoration paints. As a result, we have chosen paints that we believe work the best and produce the most accurate finish.

All paints are 12 oz. aerosol.
Hazardous and aerosol materials such as paint cannot be shipped by air or overseas.

Cast Blast Paint

An ideal choice if you want to restore that cast iron gray appearance. Protects cast iron parts and maintains their sandblast factory appearance. Use on drive train yokes, spindles, pittman arm, tie rods, idler arm, etc. Cast Blast (not for exhaust) is fast drying and provides excellent adhesion and protection.

101020 11.95

Cast Blast Hi-Temp Paint

A 1200° heat resistant SS coating ideal for exhaust manifolds. This spray will not burn off or discolor.

101021 11.95

Alumi-Blast Paint

Restores a new aluminum look to alternators, intake manifolds, transmission housings, etc. Non-smudge formula protects and will not rub off.

101019 9.95

Engine Paints

Fast dries to an extremely rugged, high heat-resistant finish. Repeated exposure to engine heat up to 500° F. will fuse the enamel to the surface. Resistant to oil and gasoline, will not crack, lift or peel and it can be recoated at any time. Colors are exact matches to original engine manufacturer standards.

111644 57-74 Orange Engine Paint - POR-15 - Pint 25.95

101024 Chevrolet Engine Hi-Temp Orange Paint - 12 oz.

(Used from 57-62) 9.95

Synthetic Zinc Chromate Primer

This paint duplicates the olive green zinc chromate primer that the factory used, but performs much better. Prevents rust and provides a smooth tough surface for top coatings. Use on body "birdcage" metal components and more.

101139 11.95

Stainless Steel Paint

Works great for the look of raw steel, especially on drive shafts and 1/2 shafts. 100% 316L stainless steel pigment. Rust proof. 13 oz. aerosol.

101795 10.95

Bonding Adhesive & Filler — See Page 72
Exhaust Paints and Coatings — See Page 60
Frame Paints — See Page 72

Low Gloss Black Paint

For the factory look on various underhood and chassis components.

Uses include:

- Wheel Wells
- Under Car Blackout
- Contrasting Glosses
- T-Top Frames
- Interior Blackout

103536 12 oz. 8.95

Medium Gloss Black Paint

For the factory look on various underhood and chassis components.

Uses include:

- Engine Pulleys
- Radiator Support
- Bumper, Engine and Frame Brackets
- Clutch and Brake Pedals
- Power Steering Pump and Pulley
- Oil Filter Canister
- Underhood Blackout
- Starter and Generator
- Battery Tray

102012 12 oz. 9.95

101540 Rubberized Coating-16 oz. Aerosol.....11.95

Hot Spot Hi-Heat Resistant Spray Paint

A special formulation designed to withstand temperatures up to 1200°F (648°C) on a continuous basis. Must be heat cured at a minimum temperature of 400°F for two hours. More than one coat may be required for full hide. **DO NOT** use a primer.

301187 Black Hi-Temp Paint -12 oz. Aerosol 11.95

Engine Gloss Black Paint

Works great for repainting your air cleaner or any other gloss black items on engine or exhaust where a hi-temp paint is required. 300° heat resistant. Gas and oil resistant.

102053 9.95

Diamond Clear™ Gloss Finish For Bare Metal

Protect metal parts with a crystal clear, tough, flexible coating that will keep brass, aluminum, steel, die-cast, even cast iron looking great. This special self-leveling formulation when properly applied will not chip, crack, fade, or yellow. Resistant to fuels and temperatures up to 300°F, this product is ideal for underhood applications (except exhaust manifolds). Great for polished mag wheels, aluminum valve covers.

102019 13.95

Radiator And Air Conditioning Condensor Black Paint

This product will actually help radiator cooling efficiency and give the right factory look to radiators.

102018 15.95

The Look of Cad Plating In An Aerosol

This easy-to-apply, single-step aerosol system has been specially formulated to recreate the look of actual silver cadmium plating. Not merely silver paint, Silver Cad faithfully recreates the bluish-silver tint of the original. Perfect for alternator pulleys, carburetor and transmission linkage rods, and much, much more! Acrylic lacquer withstands up to 250° F.

101512 15.95

Brake Gray Paint

- Brake Fluid Resistant
- Heat Resistant to 400F
- Unmatched Corrosion Protection

• Contains Pure 316L Stainless Steel • Color Matches Cast Metal
102692 13 oz. 19.95

Metal Rescue Rust Remover

Metal Rescue is an acid-free, non-hazardous and safe rust-removing liquid. It is water-based, biodegradable, non-toxic and environmentally friendly. No messy acids or creams needed, with Metal Rescue simply soak, check and rinse/dry. Metal Rescue is a clean, safe and easy option for any home improvement enthusiast looking to remove rust from metals.

102894 Gallon 24.95

Rust Preventative Paint

Stop rust permanently with POR-15®. Unlike ordinary "paints", POR-15® is designed to be coated right onto rusty surfaces, leaving a beautiful, rock-hard finish that won't crack, chip or peel. Use it to coat a rusty frame, floor pans, farm equipment, underwater marine items, or even a heavily corroded battery tray, and stop rust permanently in its tracks! The secret lies in the POR-15® curing process.

Unlike "paint", POR-15® cures by drawing moisture from the atmosphere. Paint, on the other hand, cures through the process of solvent evaporation through pores (that's why you can smell a paint job for weeks). Those same pores allow microscopic amounts of air and moisture to gradually reach the surface of the painted metal.

101537 POR-15® Quart (Gloss Black) 45.95

102712 POR-15® Blackcote - 14 oz. Aerosol (Gloss Black)... 21.95

POR-15® Starter Kit

Includes POR-15®, Metal Ready™, Marine Clean™ Paint Brushes, Latex Gloves. Enough to cover 12 square feet.

101566..... 19.95

POR-15® Tie Coat Primer

A special interlocking primer for painting over the top of POR-15® with any type or color of paint you choose.

101574 Quart..... 29.95

Marine Clean

Cleans and degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete because Marine-Clean can be diluted with water up to 10 times its volume while remaining more potent than other cleaners. Removes grease, oil, mildew, musty odors, and wax. Use it to clean canvas, vinyl, nylon, auto parts and more!

101849 Marine Clean-Gallon, ea. 21.95

POR-15® Metal Ready-Neutralizer

Provides the best adhesion on any surface, including aluminum and shiny polished metal surfaces. The simple one-step process gently etches metal, creating an ideal anchor pattern for coating such as POR-15, while simultaneously leaving a zinc phosphate film to promote chemical bonding of paint and steel. Avoid "rust conversion" products, which may leave harmful residues that prevent proper adhesion of POR-15 or other coatings. After thoroughly degreasing your work piece, apply environmentally safe, Metal-Ready to both neutralize any rust, and etch any clean bare metal. This will allow better adhesion of POR-1 or any paint or coating. Metal-Ready is not caustic, corrosive, toxic or flammable.

101842 Por-15 Metal Ready-Neutralizer - Quart, ea. 15.95

Exterior Touch Up Paint

Heal the nicks and seal the scratches. Our Exterior Touch Up Paint matches original colors. Includes a brush for precise application. 1 oz. bottle.

Specify Color

331312..... 19.95

Paint Chip Repair Kit

Finally! A solution for repairing paint chips and scratches. Just apply your color matching touch up paint. Let dry for 2 hours up to 4 days (or longer), and then remove the Blob in 15-30 seconds with the

Blob Eliminator leaving the paint inside the chip or scratch without affecting your original paint.

101857.....39.95

Metal And Plastic Buffing Kit

Kit Contains:

- 1 Bar-#82 Black Emery Cake
- 1 Bar-#22 Brown Tripoli
- 1 Bar-#42 White Rouge
- 1 Bar-#62 Red Rouge
- 1-6" Dia.x 1"x 1"x 1/2" Circle Sewed 80 Ply Muslin Buff
- 1-6" Dia.x 1"x 1" Loose Sewed 80 Ply Muslin Buff
- 1-6" Dia.x 1"x 1/2" Circled Sowed Interplied Sisal/Cloth Combination Buff
- 3-3 Piece-Telescoping Bushings

This kit is packaged especially for the industrial/commercial and workshop trade that requires a handy ready-to-use buffing wheel and polishing compound kit, for immediate or occasional use. Shelf life storage is indefinite.

101843 Metal & Plastic Buffing Kit 64.95

Plastex Plastic Repair Kit

Plastex has created a plastic-repair kit that not only allows you to fix cracked and damaged parts, but also re-create parts with missing pieces. The Plastex kit is available in three different colors of plastic powder material (white, black, and clear), the trigger material, applicators, quick release pads, and even fiberglass fabric for repairs requiring structural support. For cracked areas, repairs can be made in a matter of minutes, with plastic hardening taking two to three minutes. Best of all, the new Plastex material is tougher than the surrounding plastic.

- 102713 Black (High strength and heat resistant)**
103854 White (Best adhesion for general repair)
104948 Clear (Transparent for general repair)

Rust Encapsulator Black Paint

- Epoxy-fortified for better adhesion and topcoat compatibility.
- Penetrates deeper to prevent rust from spreading or forming, even in hard-to-reach areas.

2pc. Race Ramps

101875 or 101917 Ramps

101907 Roll Ups

Race Ramps

These race ramps are unique in their design. They are made for low ground clearance performance vehicles with a gross weight handling of 1200 pounds per ramp or 2400 pounds per set. They are specially designed for the Corvette enthusiast, allowing you to get under your car quickly, safely and without any frustrating hassles. Constructed in one solid piece, Race Ramps will not slide across your garage floor, dig into your asphalt driveway, or scratch or otherwise damage your cement or painted floors. They can be used to raise your car up eight inches. You get all of this in an unbelievable lightweight of 20 pounds a pair. Most ramps can only accommodate a tire width of six to eight inches. Race Ramps are not hollow in the center or made with questionable reinforcements. They are 100% solid on all sides and constructed in one solid piece - giving you the non-skid support that you need. The ramps come complete with straps for easy carrying, and you can also use them to hang the ramps on the wall when you're done.

Antenna

Corvette Central is pleased to introduce correct push-down antennas for C1 Corvettes, available in three versions: 56-58 Early (No rings on mast), 58 Late-60 (Features rings on mast) and 61-62. Our new assemblies not only reflect the attention to detail that judges are looking for during shows, but our dedication to producing the highest quality parts possible. As an example, the antenna tips on three versions of our C1 antennas are identical to factory specifications.

56-60 Fully extended, the mast is 45 inches. Normal height, not extended, is 11.5 inches. The mast pushes down into the antenna approximately 2 inches. 61-62 Fully extended the mast is 26.5 inches. Normal height, not extended is 15 inches. The mast pushes down into the antenna approximately 5.5 inches as they did from the factory.

Hide-Away Antenna

For the best AM/FM reception, nothing works better than a 31" vertically mounted antenna mast. Recognizing that application is impossible on some vehicles, this amplified antenna is the next best thing. Note radio signals cannot penetrate metal. Do not attempt to hide under the dash. Requires 12 volts.

161128..... 31.95

HELPER

Antenna Cables

Antenna cables contain a series capacitor, which reduces the antenna system's capacitance. This causes the antenna system capacity to fall within a range acceptable to the Delco radio receiver.

Caution: Do not pass any current through the antenna cable, as you may short out the capacitor, leaving the cable inoperative! (Continuity must be checked with an instrument that measures capacity, not an Ohmmeter.) Once the cable is installed, removal may cause the female contact to become disengaged from the cable. If this occurs, carefully tuck the conductor wire and contact back in place. Do not be alarmed by extra conductor wire, some slack is normally provided to allow for cables that are stretched during installation.

56-62 Sealed, Maintenance Free Battery

Value Regulated Non Spillable Design!

No more smudged, dirty battery tops! Now available is Poly-Tar™, a new shiny black compound that has a hard surface that will not soften under summer driving conditions. If dust and dirt settle on the battery, it can be easily cleaned to a like-new appearance.

- Value Regulated, Sealed Maintenance Free Design
- 1 Year Full Warranty, 4 Years Prorated
- Genuine Hard Rubber Case; Exact Detailing
- 720 Cranking Amps
- 120 Minutes of Reserve Capacity
- GM Restoration Parts Approved

HELPER

“Maintenance Free” Meaning

Maintenance free means “no fluid” is needed. It does not mean that it can sit and not be charged. These are an active unit when the batteries are received. Even though they do not need charged every 30 days, such as a lead acid, they now need to be checked with a volt meter and kept in the top 50%. If monitored properly they should last 7-10 years.

Delco® Or Exide® “Tar Topper” Battery Cover

- Provides Vintage Appearance Yet Allows Use Of Modern Delco® Or Exide® Group 24 Batteries
- Molded Polymer Replica Top Cover Of Original Tar Top Style Batteries

Notice: When installing the Tar Topper on the most recent version of the Delco group 24 battery, it may be necessary to slightly trim the Tar Topper or battery case for a perfect fit. The Exide and Napa Batteries are not affected.

Power Brake Booster / Master Cylinder Combo

191099 589.00
191132 Chrome .. 899.00

Watch out for imitations! Our kit includes residual valves, and pre-bent brake lines. There is also a difference 56-57 vs. 56-62. There are kits that cost less, but beware of the difference.

Front Disc Brake Conversion Kit

- Does Both Sides • Corvette Central Improved Design • Works with Stock 15" Rims

If you're building an early Corvette to drive, and not for points, then you really need better brakes. This is an easy, bolt-on kit that works with your stock spindles. Includes 11" rotors, single piston rebuilt calipers, hoses and bearings.

191113 699.00

Better Value

Front Disc Brake Conversion w/Dual Master Cylinder and Brake Line Kit.

191167 53-57 1099.00
191214 58-62 1099.00

Dual Master Cylinder w/Brake Line Kit

- Will not fit 58-61 cars with fuel injection. Master cylinder will hit FI air cleaner
- Stainless Steel Brake Lines

NOTE: Not for 4-wheel drum use. Used for front disk/rear drum set-up.

Corvette Central is now offering a dual master cylinder with brake lines kit. The main feature of this kit is a special adapter that mounts a manual dual master cylinder without modifying the firewall or hood. Also included are custom bent brake lines, a residual valve and a metering block for precise front and rear brake control. This kit is "designed by Corvette people for Corvette people," not a generic hot rod kit.

191189 53-57 529.00
191226 58-62 529.00
191155 56-62 w/Jim Meyers Front Suspension.. 519.00

Brake lines and valves are included with the above kits, but can also be purchased separate.

191126 Disc Brake Line Kit w/Valves.....279.00
191208 Disc Brake Line Kit w/Valves-
Jim Meyers Front Suspension279.00

Brake Lines

All brake lines are steel tubing (unless otherwise listed) with double inverted flares, prebent to original shape. Spiral armor is included where applicable.

Brake Bleeder Bottle

- Drain back fitting
- Magnet on side of bottle for mounting

191106..... 53.95

Speed Bleeder® Brake Bleeder Valves

Simplify brake bleeding with Speed Bleeders®. Brake bleeding becomes a one person task when you permanently replace your original bleeders with Speed Bleeders®. A corrosion resistant stainless steel check ball and a patented thread sealing system prevent air from being pulled back into the system during bleeding. Dust protection caps are included with each bleeder zinc plated steel screw. (3/8 x 24 thread)

191038 Pair..... 13.95

Wilwood Hi-Temp 570 Racing Brake Fluid

Wilwood's specially formulated High-Temp° 570 Racing Brake Fluid has a minimum 570° F dry boiling point to withstand the severe heat requirements of automotive racing. Hi-Temp° 570's low viscosity allows easy bleeding of your brake system, eliminating aeration of the brake fluid caused by foaming due to excessive pumping of the pedal.

191069 12 oz. 7.95

GM/Delco Supreme II Brake Fluid

GM Delco Supreme II Brake Fluid is recommended for all vehicles that require DOT 3 brake fluid. It contains enhanced corrosion inhibitors to prevent premature wear, and retains its boiling point properties longer than conventional DOT 3 brake fluids. It is also compatible with disc and drum brake systems. Cannot be shipped by air or overseas.

191064 16 oz. 12.95

Silicone Compound

For lubricating metal, rubber, and plastic parts.

Keeps parts looking new. Odorless, non-volatile. Resists moisture, air, and alkalines.

101232 3 oz. Tube 11.95

Adjustable Brake Proportioning Valve

Fine tune your braking system with the ultimate front to rear brake pressure control valve. Highest pressure reduction available, 60% reduction over the full pressure range, sure grip knob for fine tuned adjustment, billet aluminum construction.

FDL Pro-Series Kits offer complete disc brake upgrade solutions for OEM drum brake spindle applications. Based on the venerable forged billet 4-piston Dynalite caliper and 11.00" x .81 rotors, these versatile kits are easily optioned to suit the braking requirements and style preferences for a daily driver, serious competition, or the most discriminating show enthusiast. This kit requires no modifications for installation, and provides plenty of clearance inside most popular 15" wheels. This kit will also work with aftermarket 14" disc brake steel wheels available from other vendors. FDL Pro-Series Kits can be used with either manual or power boost master cylinders.

191228 Front Black Caliper, Undrilled Rotor Kit 799.00

Power Bleeder™

- One Person Can Use
- Will Not Work With Replacement Master Cylinders
- Includes 1 1/4" Cap Adaptor

Now you can bleed hydraulic braking and clutch systems like the pros with a Motive Products POWER BLEEDER™. The POWER BLEEDER™ operates just like the professional mechanics' tool-at a fraction of the cost.

The POWER BLEEDER™ uses pressurized brake fluid to force air and contamination out of your lines and cylinders, so you'll get all the air out of your system the first time you bleed. No more bleeding and re-bleeding to get an air-free system.

191122 Power Bleeder..... 72.95

191111 53-62 Brake Power Bleeder 1 5/8" Master
Cylinder Cap Adapter..... 37.95

CORRECT REPRO.
ALUMINUM RADIATOR

- Correct
- Dated, Painted and Detailed
- Specify Date When Ordering
- 5 Year Manufacturers Warranty

Our correct aluminum 61-62 radiators (241055, 241061, 241062) are manufactured by Dewitts and licensed by GM Restoration Parts. They are a 100% correct reproduction radiator with the GM part number and date. We also offer direct fit replacement radiators (241000, 241003), manufactured by Dewitt Radiator. This radiator will give you original design on the top face and correct necks with 90's technology in the tank area. You will notice that we don't list a brass radiator for 61-62 Corvettes. Aluminum radiators work best in the Corvette because you gain almost 50% more heat transfer over inadequate brass replacements. This must be why GM used aluminum radiators in Corvettes!

241224 60-61 • Top Tank Aluminum Radiator GM #3147516 -Exact Reproduction Dated (Specify Car Serial Number and HP)995.00

Very early 1961's (to approx. serial # 1500) may appear with either '60 style copper radiator or '60 style top tank aluminum radiator.

- = This must be used with the 60-61 hood. This hood has clearance for the top tank.

241055 61 Aluminum Radiator - Exact Reproduction-Dated (Specify Car Serial Number and HP) (ND)879.00

61 Radiators With 60 Date are Unpainted, 61 Dated Radiators are Painted.

241061 62E Aluminum Radiator - Exact Reproduction Before Serial #9000-Dated (Specify Car Serial Number and HP) (ND)879.00

241062 62L Aluminum Radiator - Exact Reproduction After Serial #9000-Dated (Specify Car Serial Number and HP) (ND)879.00

Top neck on the '61 radiator has a small hump, '62 is smooth. '61 to mid-production radiators are unpainted, the rest were painted.

61's & 62's to approx. serial #5000-9000 uses a date coded aluminum plate. Late 62's have date code and part # stamped directly on the radiator. 61-62 Radiators are GM #3150916.

When ordering dated parts, please specify car serial number and horsepower.

- = This must be used with the 60-61 hood. This hood has clearance for the top tank.

Direct Fit Replacement Aluminum Radiators

- Cools Better Than Stock Copper/Brass Radiator
- Direct Fit/No Modifications Required to Install
- 2 Year Manufacturers Warranty

These "Direct Fit" aluminum radiators feature two rows of 1" tubes and press formed end tanks. This doubles the cooling capacity of the original single row units. This design eliminates failures due to cracked plastic end tanks and/or gasket leaks.

241000 56-61E Direct Fit Aluminum Replacement Radiator..615.00

241076 56-61E Direct Fit Aluminum Radiator w/Internal Automatic Trans Cooler625.00

241021 60-61 • Top Tank Aluminum Replacement Radiator..679.00

241003 61-62 Direct Fit Aluminum Replacement Radiator..559.00

- = This must be used with the 60-61 hood. This hood has clearance for the top tank.

Direct Fit Radiators are shipped unpainted aluminum. If you would like the radiator black painted, specify-BLK to part number and add 35.00.

Example: 241000-BLK \$650.00

61-62 Fan Clutch Eliminator

For those who want more cooling than even a new fan clutch can offer, we have available a spacer that positions the fan properly and eliminates the fan clutch. Keep in mind that, because the fan blades will be turning faster, you will experience more fan noise.

Water Wetter

A unique wetting agent which reduces cooling system temperatures up to 30° F. Helps provide rust and corrosion protection and improves heat transfer properties of plain water, ethylene, and propylene glycol cooling systems. Use with aluminum, cast iron, brass, and bronze components. Bottle does up to a 20 quart system.

Factory Dated Expansion Tanks are now available.

Dates Available:

- A = January
- C = March
- E = May
- G = July
- J = September
- L = November

Ordering Example:

241302 - 62E = May 62 Dated Expansion Tank

Expansion Tanks

241302	61-62	• Expansion Tank - Pressed in tubes w/Correct Date (GM #3151016).....	184.00
241301	61-62	Expansion Tank (welded in tube replacement-no date).....	155.00
241304	61-62	Expansion Tank Alum. Tube Set (3 pcs.).....	23.00

• = When ordering dated parts, please specify car serial number.

The radiator surge tanks produced from 1961 through 1964 used tubes that were pressed in and lightly welded from the inside only. These fittings are very fragile and will break off with only a small amount of side force when installing or removing a hose. To address this problem, GM improved the tanks in 1965 and later by adding a fillet weld around the tube on the outside. Special care must be taken when working with these parts. Any fittings that are broken off during installation or service are not considered a defect or covered under warranty.

Expansion Tank Decals — See Page 42

To relocate the 61-62 expansion tank to the inner fender you can use #242130 Bracket and #242129 Straps

Decals and Labels

Most of the decals are "peel and stick" — peel off backing and stick in place. Valve cover horsepower decals are water soluble — soak lightly in pan of lukewarm water and decal will slide off paper backing.

H.E.I. Tach Drive Distributor

Will Not Fit 62 340 HP Intake.

- Built-in Performance Curve Kit
- Fully Adjustable Vacuum Advance
- 64,000-Volt Coil
- High-Performance Ignition Module

Keep your 62-74 Corvette's original factory mechanical tachometer and move up to a high-energy ignition system. This New Mechanical Tach-Drive H.E.I. Distributor has a high-performance module and 64,000-Volt Internal Coil. Direct replacement for the OE unit, however the stock distributor shielding must be removed. Features built-in performance advance curve. Comes with high-performance cap and rotor with solid terminals for maximum conductivity. Requires 75-81 H.E.I. type spark plug wires.

272136	149.95
---------------------	---------------

Cable Drive Adapter

No more premature failure of tachometer or speedometer cables due to excessively sharp bends. This 90° Transducer offers a sensible solution to problems attaching tach and speedometer cables in confined spaces, without affecting the accuracy of your gauges.

272110	39.95
---------------------	--------------

Important

Electrical components such as Distributors & Related, etc. are

NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

Pertronix H.E.I. Distributor

Produces 67% more energy in the coil with a 45% faster spark time. Flame-Thrower Distributors have a hi-performance coil and module that work together to operate without misfires up to 7500 RPM, while delivering twice the spark energy of a stock H.E.I. The distributors include: brass terminated cap and rotor, nylon rotor screws, two extra sets of advanced hardened distributor gear, center less ground shaft with bronze bushings and an A384 alloy housing. "No tach cable hookup" - H.E.I. with Tach Cable Hookup use Part #272020.

271079 234.95

Spark Plug Wires—See Page 52-53

Spark Plug Wire Supports and Brackets — See Page 95

Dielectric Grease

Prevents fusing of spark wires to spark plugs, boot tears, corrosion and arcing. For distributor caps, battery cables, battery posts and terminals, light bulb sockets. Prevents corrosion and related problems.

271015 .33 oz..... 3.95

"Ignitor" Breakerless Ignition

• Use With Flamethrower Coil

The Ignitor solid-state electronic ignition system uses rotating cobalt magnets mounted on the distributor shaft to trigger an electric switching module for higher output up to 35,000 volts. Ignitor eliminates the points and condenser and promotes increased plug life, better fuel economy and stable timing. And, for a stock look, it fits entirely inside your stock distributor. This system eliminates the need for an after market distributor and you can use a stock distributor cap. Ignitor systems are backed by a 30 month warranty.

Ignitor II takes it a step further by adding a powerful new microcontroller, that controls the dwell period, for the best possible spark over the entire RPM range and enhanced performance levels only found in more expensive "box type" ignition systems.

Ignitor III

- 20% more spark energy than Ignitor II...Increased Burn Time
- Multi-spark thru the entire RPM range...Improved Combustion, more HP
- Rev limit set by user...Accurate to +/- 50 RPM

271057 • Ignitor - Single Point 92.95
 271080 • Ignitor - Dual Point 103.95
 271090 • Ignitor "II" 119.95
 271059 • Ignitor "III" 139.95

- = Single Point w/Vacuum Advance
- • = Mechanical Vacuum Advance

Hi-Performance Ignitor, Coil, Spark Plug Wire Kit — See Page 57

Doors

Now Available!

Correct Corvette only door handles — not passenger car replacements as sold by many vendors. What's the difference? Notice the thickness and angle of the pushbutton area at the bottom of the handles.

LARGE
BEAD

CORRECT
WHITE
STITCH

Save time and eliminate frustration with CC manufactured window felts. Our inner and outer window felts are pre-bent with the correct large bead to fit over our front window runs as original. The front window runs also have the mounting holes pre-punched.

Better Value

Purchase kit #281018 and get white stitched front runs, large bead inner and outer felts w/mounting hardware along with rear channel liners.

281018	56-62	Window Run and Felt Set w/White Stitched Front Window Run (includes #281006, 281019, 281008 & Mount Kits).....	182.95
281003	56-58	Deluxe Window Felt & Door Reveal/Garnish Moulding Set	429.00
281004	59-62	Deluxe Window Felt & Door Reveal/Garnish Moulding Set	429.00

281008	56-62	Rear Window Runs Liners, pr.	12.00

Door Glass — See Page 84

HELPER

When installing inner and outer window felts, you may experience a tight fit in the curve of the felt to the window frame. When the felt is curved, it causes the felt to bulge. This can be fixed by "crushing" the felt back down in a vise. This problem has been seen in felts from different vendors.

281106	53-55	Outer Door Reveal Moulding Mount Kit - Top of Door (Set of 8)	35.00

Sand-Cast Aluminum Valve Covers

- Strong sand-cast aluminum construction • .160" thick wall
- Precision-machined gasket flange to provide uniform clamping force on the gasket – much less prone to leak than stock covers which are typically made of .035" stamped steel.
- Available in several finishes: as-cast aluminum, orange powder coated, or high gloss polish. These are sand cast parts and there will be some porosity.

•Tired of dealing with your messy canister style filter? Eliminate your troubles. Replace your canister style filter with a standard PF-25 or PF-35 by using 301220 Filter conversion kit. This kit comes complete with new bolts, spacer and gaskets. Filter and 301216 bypass valve must be ordered separately.

- Increased levels of "zinc" (zinc dialkyldithiophosphate) provide outstanding anti-wear protection for engines with either "flat tappet" or roller type cams.
- Penn Grade base oils provide excellent film strength while synthetic stocks enhance performance over a wide range of operation temperatures and conditions.
- Oxidation and foam inhibitors offer protection against thermal degradation and air entrainment.

A truly versatile oil suitable for engines used both on the street and/or the track. The multi-viscosity grade and synthetic components facilitate cold starting and quicker engine warm-up while insuring adequate engine protection during competition.

Reproduction Spark Plug Wires:
Replacement Spark Wire Sets Correct Wires and Ends - Non Dated
301002 58-62 Spark Plug Wire Set (Replacement - Non Dated). 39.95

High Performance Spark Plug Wires

- Low 500 ohm per foot resistance
- Silicone jackets to resist high temperatures, moisture, oil and chemicals

Stock appearing 7.0 mm black wire sets are custom built for a perfect fit - no cutting, crimping or splicing. Each low resistance wire has an outer silicone jacket to resist high temperatures, moisture and oil. EPDM inner insulation provides superior heat resistance and prevents arcing and voltage leaks. Fiberglass reinforcing braid adds strength and flexibility. Wire sets carry a lifetime warranty.

Important

Electrical components such as Starters, Spark Plugs, Wires, Coils and Senders, etc. are

NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

Correct Spark Plug Wires

RECOMMENDED SPARK PLUG WIRE DATES

YEAR	SERIAL NUMBER	DATE
1961	100001 thru 105966 . Not Dated 105967 thru 110939 . . . 1Q61	
1962	100001 thru 107585 . . . 3Q61 107586 thru 114531 . . . 1Q62	

Reproduction Spark Plug Wires:

Correct Spark Plug Wires contain the correct factory script and dates as well as the correct spark plug boots. Order by Date. Cars built before January '61 did not use dated wires.

301257	53-55	Spark Plug Wire Set (6 Cyl.)	57.95

High Energy Coil

- These are slightly larger in diameter than stock (2-3/16" vs. 2-1/8"). Some adjustment of the coil bracket may be necessary.

Flame Thrower high energy coil delivers an average of 15% more spark energy and voltage. More volts enables larger plug gaps for greater fuel efficiency and more power. Coils fit existing stock brackets.

301189	Black	40,000 Volt Output- 1.5 ohm	34.95

True 3/8" belts ride very deep in wide groove pulleys. The additional pulley depth helps keep the belt on the pulley at high RPM.

GM 3837810 380X3440 3T MV884025

ORIGINAL BELTS

Cloth wrapped to give the belt more durability and a more original appearance. All belts have GM logo, part number, and vendor I.D. hot stamp embossed just like the original.

REMINDER Before You Order...

Remember to carefully check all pulleys for correct O.D. when ordering fan belts. Our belt lengths are per G.M. specs, and will not fit properly if any of your existing pulleys are incorrect. Please be sure before ordering a specific belt.

Exhaust

The originators of
aluminized mufflers and
exhaust systems for
your Corvette.

- You will notice that our exhaust section does not list any stainless steel (SS) pipes. Our previous catalogs listed SS systems, but we have always promoted aluminized systems for the following reasons:
- SS retains heat which makes the pipes run hotter. This heat is radiated through the floor of the car.
- Customers that purchase SS for its appearance will be soon disappointed because the SS pipes turn blue near the manifold and yellow back to the mufflers.
- The heat retained by the SS will cause your exhaust system to grow in length as the car warms up. Customers have measured this growth at as much as 1 1/2". This change is enough to make even properly fitting pipes rattle.
- The stiffness of the SS causes inconsistencies in bending and also clamping difficulties.

At half of the cost, we feel that aluminized exhaust systems are the way to go. The aluminized coating on the I.D. and O.D. of the pipe allows for proper cooling. SS has many good applications for restoration parts on your car, but we do not feel quality exhaust systems are one of them.

Aluminized Pipes Sets (Includes Both Sides)

321638	56	2-Bolt Front Exh. Pipe Set.....	INQUIRE

Magnaflow Mufflers by Corvette Central

The answer for Corvette owners looking for more power, smooth deep sound and good looks. The aluminized, all welded straight-through design delivers improved performance, reduced resonance, extended durability and a smooth deep tone. There are no chambers, no baffles and no louvers to restrict exhaust flow. Stainless steel case with aluminized pipes. You get wide open performance from Magnaflow. It doesn't flow any better than this.

321001	56-62	Magnaflow Round Muffler, Pair	249.00
--------	-------	-------------------------------------	--------

Note: The 56-62 exhaust system has an extra clamp near the center hanger on one side. This clamp is included in our sets.

Speednut Fastening Tool

Tool tightens or loosens both 1/8" and 3/16" winged style speednuts.

341001 11.95

Moulding Polishing Kit

This kit is packaged especially for the industrial/commercial and workshop trade that requires a handy ready-to-use buffing wheel and polishing compound kit, for immediate or occasional use. Shelf life storage is indefinite. Each K-402 kit contains three (3) different type buffing wheels and (4) different grades of buffing compound. Each wheel is 6 inch (6") in diameter and approximately one inch (1") thick to provide wide wheel units, and is supplied with it's own telescoping removable bushing. This permits mounting on spindle shafts of 1", 3/4", 5/8", and 1/2" diameters.

HELPER Fiberglass Terms

HL = Hand Layup parts are manufactured by hand laminating pattern cut fiberglass mat and fiberglass resin into a precision mold. This method produces high strength panels with uniform thick-ness and a smooth surface only on 1 side.

PM = Press moulded parts are formed under pressure in matched moulds as original. This assures a high strength part with a smooth surface on both sides.

+ = Truck Ship Items are shipped freight prepaid direct from our supplier, and orders must be prepaid.

*** = Dropship** only. Order must be prepaid.

NOTE: There may be a crating charge on fiberglass items. Some items require a special box to insure that you receive the items undamaged.

REMINDER LEFT OR RIGHT

Always specify left or right when ordering (L or R) parts (Left = driver's side, Right = passenger's side).

Concept 57

THE ULTIMATE REPRODUCTION BODY

The Concept body maintains a total stock appearance from any vantage point — under hood, interior, exterior and underside and bolts directly to your original frame using stock body mounts. Concept 57 bodies come with an ivory gel-coat and are ready for preparation and finish paint. They are designed to use all original and reproduction parts. This includes engine compartment hardware, interior and exterior trim pieces, trunk and floor pan hardware.

If you like to combine classic design with improved drivability, we also offer a complete high tech rolling chassis. For a detailed description of the chassis, the body, additional options, call or write for a complete information packet.

**BUYER BEWARE
OF IMITATIONS**

CC Industries has brought a timeless body style into the new millennium. The Concept 57 body is a faithful reproduction of the original 57 Corvette body with quality, accuracy and durability never before available.

If you are restoring an original '56 or '57 Corvette, you can save hundreds of hours and thousands of dollars with this brand new state of the art body. The Concept 57 uses all factory or reproduction parts, enabling you to use all of your original parts or go for new and reproduction parts.

141133	56-57	Upper Door Hinge Reinforcement - Metal, pr.	32.00

Important Note:

All fiberglass replacement parts are considered collision parts and should be fit to the car before final finishing.

It is normal for these parts to have chips, scratches, and even minor cracks when received. This is considered to be normal and is not a reason for parts replacement.

HELPER Epoxy Repair Kit

A rigid setting epoxy repair compound for the auto body shop which sets in 6-8 minutes. It is extremely strong yet not brittle. It cures rapidly in any thickness, has excellent paintability and is chemical resistant. Repairs fiberglass and bonds metal to fiberglass. Use as filler, sealer, or glue.

141061 Hard Setting Epoxy Repair33.95

+ = Truck Ship Items are shipped freight prepaid direct from our supplier, and orders must be prepaid.

Fiberglass Repair Kit

Permanently repairs holes and cracks on fiberglass fixtures, shrouds and housings in minutes. Kit includes clear epoxy, sandpaper, fiberglass reinforcement cloth and application brush.

Pre-assembled Press Molded Front End

Front ends include upper dash and inner skirts. All bonding strips are pre-installed with correct color polyester putty.

+141057	58-61	Pre-Assembled Front End (PM) (ND)	5549.00
+141124	62	Pre-Assembled Front End (PM) (ND)	5695.00

There is an additional \$50.00 crating charge on preassembled front ends. Allow 3 week lead time to ship.

When installing custom fiberglass panels, be aware that all Corvettes do not come from the factory with exact identical body dimensions. Therefore when replacing or adding any custom fiberglass parts to your Corvette, it is recommended that you fit these parts to the body before you begin painting. This will help assure a quality appearance to your restyling job and avoid installation problems after painting.

The same procedure is also recommended when using factory replacement panels such as bumpers, hood etc.

Frame

Asphalt-Based Frame & Chassis Paint

This asphalt-based paint is from the original supplier and was specified by OEMs for frame painting and blackout operations, particularly prior to the 1970s. Asphalt-based paint was often used by frame manufacturers such as A.O. Smith, Inc. to coat and protect the frames. This product is supplied for restorers who demand authenticity in their restorations and won't settle for less. Because it is asphalt-based, it is susceptible to gasoline spills.

181011 Quart.....19.95

Note: 2 quarts is usually enough to do one frame.

Cannot be shipped by air or overseas.

HELPER FRAME PAINT

**Por-15 Rust
Preventative Paint-
See Page 20**

Chassis Coat Black Coating- Por-15

Chassis Coat Black is a permanent black coating developed for application over painted and unpainted surfaces. Apply over POR-15 Rust Preventive Paint for the toughest, most permanent protection against rust and corrosion ever developed.

Chassis Coat Black is non-porous and will not crack, chip, or peel when properly applied according to directions. It has amazing scratch and abrasion resistance and is similar in strength to regular POR-15 Rust Preventive Coatings.

NOS Octane Booster

NOS Street Formula Octane Booster is the product of choice to increase fuel octane ratings. Just pour the contents of one can into one tankful of fuel and it will raise the octane level as much as 3 points. Octane Booster comes packaged in a recyclable 12 oz. can with a convenient screw-on pour spout. Added benefits include: • Eliminates knocks and pings • Restores lost power due to pre-ignition • Cleans injectors and combustion chambers • Safe for leaded or unleaded fuel engines • Safe for oxygen sensors and catalytic converters • Increases fuel efficiency • EPA registered.

351136 12 oz. 8.95
Cannot be shipped by air or overseas.

Red Line Lead Substitute

Prevent valve seat recession in vehicles designed to use leaded fuels. Red Line Lead Substitute prolongs the useful life of these engines and cleans carburetor deposits. 1 oz. treats 10 gallons.

351094 12 oz. 9.95

Gas Tank

53-62 Steel Gas Tank

• Includes Correct OLA Logo

One of the most common problems with early model Corvettes is leaking gas tanks or tanks that are full of rust and fuel deposits that are almost impossible to remove. The solution is Corvette Central's 53-62 reproduction steel gas tanks.

Note: You will notice that we list the 57-62 gas tank with a baffle, which was not actually used by GM until May 1960. This is an improvement made by GM that all early car owners should take advantage of.

361026 53-55 Steel Gas Tank INQUIRE
361017 56 Steel Gas Tank No Baffles -

Non Vented 199.00

Some early 57's may have used a non vented gas tank. This changed approximately 11/15/56.

361004 57-62 Steel Gas Tank-Vented w/Baffle..... 199.00

56-62 Deluxe Gas Tank Kit

• Includes Correct OLA Logo

Includes everything you need to put a new gas tank in your 56-62; tank, meter, neck, hose, straps, pads and all hardware, even includes a new gas cap, gas neck grommet, and vent hose.

361027 56

Gas Tank Helpers

Tank Tone Paint

Not to be mistaken for ordinary silver paint, this coating actually contains zinc to protect your gas tank from rust. Many gas tanks came from the factory with a similar coating. Works well over minor surface rust and helps stop its spread. Two cans required for the average tank.

361023 13 oz..... 15.95

POR-15 Fuel Tank Repair Kit

Kit includes:

- Marine Clean: to remove gum, sludge, and varnish from tank
- Prep and Ready: to remove rust and prepare tank for sealer
- U.S. Standard Fuel Tank Sealer: to permanently seal tank
- Fuel Preservative and Stabilizer: to keep your fuel and fuel system trouble free

361024 69.95

Early 61's use a brass connector fitting on the top tank gas line to connect to the frame line and to the meter. Late 61 and 62's use a rubber connector hose at these locations.

58-62 Dakota Digital VHX Instruments

The new VHX Systems fit directly into the stock instrument pods of your 58-62 Corvette without modification, adding a wealth of features to this iconic vehicle. Chrome triple-plated machined aluminum gauge bezels round out this package.

Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which sets the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback.

KIT

Digital Instrument Kit

Experience high tech, high quality instrumentation from Dakota Digital.

Kit Includes: • Digital gauge set with bezels • Control box specifically designed for your particular Corvette model • New sending units compatible with digital gauges • All necessary wiring and hardware • Complete installation instructions.

Features: Bright clear read-outs in blue against black background • Adjustable brightness of read-outs from control box • Factory wiring plugs into control box • Speedometer reads to 255 mph and tachometer reads to 9900 rpm

• Speedometer and odometer calibrations can be made at dash for infinite accuracy, regardless of tire size or gear ratios • Demo mode to demonstrate gauge system without starting vehicle • Lifetime warranty against factory defects.

391200	53-57	Speedometers (plus parts).....Approx.	159.00
391205	58-62	Speedometers (plus parts).....Approx.	139.00

Service includes disassembly, clean, restore case, repair or replace internal mechanism and calibrate. Specify if new bezel is desired.

59-62 Speedometer Refacing.....Call For Price

391210	53-57	Tachometers (plus parts).....Approx.	125.00
391220	58-62	Tachometers (plus parts).....Approx.	139.00

Service includes disassembly, clean, restore case, replace internal mechanisms and calibrate. Specify if new bezel is desired.

59-62 Tachometer Refacing, ea.....Call For Price

391240	53-57	Small Gauges -Clean & Calibrate....Approx.	99.00
391260	58-62	Small Gauges -Clean & Calibrate....Approx.	65.00

Service includes clean, restore cases, test, and reassembly. Parts extra. Extra charges may apply to units requiring additional cosmetics.

Odometer is not replaced.

It is common for extra parts to be required to complete a rebuild that are not included in the listed rebuild charges. The prices on these extra parts vary. If it is less than \$35.00, you will be billed for the extra parts and the rebuild service will be completed. If the extra cost is more than \$35.00, we will contact you for approval before the rebuild service is performed. Note: If you refuse the extra cost, you will still be charged \$25.00 for the time spent to disassemble the part and diagnose the problem

Parts and facing are extra.

Electrical components such as Generators are
NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

PowerGEN - Alternator/Generator

- Output is 75 amps; with a whopping 60 amps at idle
- Will not accept a tach drive unit
- Works with Corvette Central #401115 Generator Mount Bracket

PowerGEN provides the looks of a generator with the output and reliability of an alternator, and offers one-wire operation. Engineered from the ground up to be completely brand new, and high-tech materials are used throughout.

Grille

- 421029 53-57 Complete Grille and Oval Kit 1649.00
(Includes 421017, 421005 and 421008)
- 421017 53-57 Grille Oval-Stamped Brass/Chrome.....1299.00
This grille oval is stamped brass and chrome plated.
The brass does have advantages, as it is more flexible
than the diecast ovals. It is also repairable in case of
damage and can be replated, where the diecast is
more difficult to repair or replate. **Made in America.**

Electric Hardtop Hoist/Garage Organizer

A new four-point hoist system is now available that will take all of the physical labor out of lifting those irregular size hardtops. This motorized system works with the touch of a button and mounts into any ceiling with ease. By simply securing the lifting straps into the ceiling first, the system can be turned on and it'll raise itself in place. Then you can bolt it into position. For extra lifting support, Glassworks has developed retainer cups and a tension strap to hold the object you're lifting firmly and eliminate unwanted pulling and slipping. It works by wireless remote that looks like a keyless entry to your car. It can be plugged in, but also has a battery; the hoist is equipped with a 1.1 HP motor and is rated at 500 pounds.

441024 60-62 12 pc. Kit - Includes T-3 Bulbs, Cups & Rings 219.95

Dim Lamps

Do you have an old T-3 headlight that burns very dim? Well, it's not getting full voltage, due to a high resistance connection. Most likely the plug on the back of the lamp is the problem. To fix, remove the lamp and clean the contacts with emery cloth, sandpaper, or a small fine file. Anything to clean the brass contacts for a good connection. You might want to use CC #271015 dielectric grease or vaseline jelly on the contacts before reinstallation.

Halogen Headlight Bulbs

• European Lead Crystal Lens • Precision Photometrics
 • "E" Mark Certified • Protective Rubber Boot
 • Set Includes: 2 Headlamp Replacements; 2 H4 60/55 Watt Halogen Bulbs; and 2 Protective Rubber Boots

441115 Lo-Beam (Set of 2) 99.95
441036 High-Beam (Set of 2) 99.95

When installing Halogen Bulbs you may encounter difficulty with fitting your Delta Headlamp in the old light bucket. This may happen when the bucket is not deep enough to allow free entry of protective rubber boot in the old bucket. You will need to drill a 2 1/2" hole to make room for the rubber boot. Also, note that your Delta High Beam Headlamps are equipped with H4, which have three prongs, while your existing headlamp plugs have only room for two prongs, leaving your middle bulb prong, (low beam), unused. Adapters are included.

Gen IV SureFit System

Complete Kit Includes: Evaporator, condenser, drier, compressor, compressor bracket, hose kit and binary safety switch.

- Fully electronic operation - No cables or vacuum controls
- Kit includes individual Rotary Electronic Controls for electronic operation
- Micro-processor controlled coil temperature monitor. No capillary tube to install!
- Separate high capacity heat and cool coils
- Aluminum plate/fin A/C coil (most efficient evaporator design available)
- Copper/brass parallel flow heater coil
- Blend air door for instant temperature adjustment
- Infinite dash/floor air blend (in most applications)
- Infinite defrost / floor air blend with dedicated defrost option
- Steel firewall cover plate
- All Gen IV Systems allow for optional smooth firewall configuration (must use modified hose kit)
- Positive shut off solenoid operated heater control valve in max A/C

The Gen IV™ is Vintage Air's most powerful and intelligent climate control system. Gen IV Systems utilize an exclusive fully electronic microprocessor control servomotor drives to eliminate cables or vacuum connections. Separate high capacity copper parallel-flow heat coil and aluminum plate and fin cooling coils provide outstanding performance and instant temperature adjustments. Additional features include variable blower speed and dash/floor/defrost blend. SureFit Systems are engineered specifically for each vehicle application and require minimal alteration to the vehicle for installation.

• =Reproduction seat bottom cushion frames assembled with original style springs and retainers. Does not include covers or foam.

•• =53-62 seat spring bottom assemblies: 6 different diameter springs — just like the originals!

HELPER Seat Cover Installation

Detailed step-by-step instructions on how to install new seat covers, including tips on springs, frames, and padding. Follow the complete demonstration from start to finish to get your seats standing tall.

See Our WEBSITE

56-62 Seat Cover Installation Service

Let us take the hassle out of recovering your worn and dirty seats! Send them to us, and we'll install new seat covers for you. You must purchase new seat covers, seat foam, and installation kit from Corvette Central. The entire process takes about 4 weeks and the workmanship is guaranteed for 1 full year. Price includes labor charge; any parts or repairs are additional. This service must be prepaid or on a credit card, as the finished seats cannot be returned C.O.D.

131002		Hog Ring Pliers-One time use	9.95
131012		Seat Cover Mounting Hog Ring Kit (25 pcs.)	1.75

A typical set of 56-62 seats require 100 Hog Rings.

Attention 56-57 Owners!

Correct waffle pattern seat covers, door panels, and kick panels now available for 56-57's.

Attention 58 Owners!

Correct charcoal (not black) color interiors is available for 58's. (Charcoal was the original color, black is replacement).

Carpet Sets

The 56-59 replacement Daytona weave listed is the correct pattern and color. Not 100% correct for N.C.R.S. type show cars, but very high quality replacement for the cost. The 56-59 original type Daytona weave carpet is NCRS correct. 59 usually uses the low-loop Daytona carpet as in 58. Some random examples of Tuxedo-style carpet have been found in a few 59 models. All 60-62 cars used the Tuxedo-style carpet. Tuxedo carpet is also known as Salt & Pepper.

Carpet - Sets w/Foam Backing

131155	53-55	Low Loop (ND)	349.00

HELPER

Help us so we can help you

When looking for technical help, there are several things to keep in mind. First of all, it is very difficult to help customers with indepth technical problems if they aren't well informed. Please review your service or assembly manuals before you call — this will make solving the problem much easier.

Window Felts (Inner & Outer) — See Page 46

Window Cranks — See Page 108

Mount Hole Repair Kit

Works great for kick panel mounting!

Fix oversized holes in fiberglass. Simply spot plate over oversized hole, rivet to fiberglass using included rivets, and then drill your screw holes into metal for a permanent fix.

Seat Belt Assembly With Mount Brackets

• Does Both Seats

We now offer an affordable replacement 56-62 seat belt for everyday use. These belts are available with correct color belting using a '63 style buckle and are supplied with original hambones and tighteners.

481410	56-62	Metal Buckle	134.95
481023	56-62	Color Buckle	134.00

56-58 Gray
Use -102

Note: Seat belts were a dealer installed option in 56-57. If installed, the NCRS does not deduct points, as it is a safety item.

A majority of the 1958 Seat Belts appear to use gray material. Buckles through early 62 are painted interior color.

Correct Remanufactured Seat Belt Assemblies

• Does Both Seats

Now available! 58-62 correct remanufactured seat belt assemblies — Includes correct buckle, webbing and labels installed. Hambone and tighteners (#481420) must be purchased separately.

L.E.D. Tail Lamps

A Bright Idea for Your C1

Tail lights feature L.E.D. bulbs that are much brighter than the factory units and have multiple light sources around the housing as well as in the center of the lens. These taillights fit C1 models and easily plug into the factory wiring harness and bolt in place. It's an easy way to upgrade your Corvette's appearance while adding a measure of increased safety.

491010	56-57	L.E.D. Red Tail Lights (Set of 2)	55.95
491055	58-62	L.E.D. Red Tail Lights (Set of 2)	55.95

Radio Rebuild Service

If you want to keep your stock radio totally original, and have it perform better than new, this rebuild service is for you.

Complete rebuild includes:

- Replacement of all capacitors
- Replacement of any out of tolerance resistors
- Vibrator replacement with solid state vibrator
- Rectifier replacement with solid state rectifier
- Alignment of RF and IF circuits
- Cleaning, lubrication and alignment of the tuner and pushbuttons
- Repair or replacement of pots, switches, coils and transformers as needed.
- Replacement of all dial bulbs

All replacement components typically have higher ratings than original parts and all radios carry a two year parts and labor guarantee.

521300	55-57 (ND)	499.00
521319	58-62 (ND)	419.00

CC suggests you order a new radio face kit and have it installed when the radio is rebuilt

RediRad Radio Adapter

• Designed for Simple
Out-of-Sight
Installation

At last, you can listen to music from your CD player, iPod®, satellite radio or cassette player without modifying the car's original radio.

Offering a real solution to an ongoing dilemma, the all-new RediRad™ allows you to retain your Corvette's factory radio and enjoy music from any portable music player!

Music is seamlessly routed from your CD, cassette, MP3 player or even a satellite radio unit into your AM or AM/FM radio without any vehicle modifications or the need for cumbersome, theft-prone aftermarket equipment!

101968	AM Radio Adapter	129.95
102771	FM Radio Adapter (ND)	129.95

• = Will not work with digital radios.

AM/FM Wonderbar Stereo Radio

- Fits your dash without any modifications • Uses original antenna
- Chrome plated die cast nose piece; Wonderbar and pushbuttons look original • Correct knobs • Wonderbar seeks on AM or FM • Wonderbar duplicates action of original (seeks UP, then rapidly returns to bottom of dial and starts over) • 10 presets (5 AM, 5 FM) • 4 x 45 watts RMS output allows up to 180 watts of audio power • AM dial scale in foreground looks original-FM dial scale in background • Analog controls look and feel like original radio • All controls easily accessible. Volume, Bass, Treble, Balance, Fader and Tuning from original-looking controls • CD or XM (satellite) inputs included • LED dial lights will never need replacing • Digitally tuned AM/FM/Stereo front end provides stable, high quality reception
- 1/2" shafts on controls for mounting (same size and thread as original shafts) • Memory retention for pushbuttons.

521339	61-62 (ND)	639.00

Solid State FM Stereo Conversions

• Send in your original Wonderbar radio for an upgrade

Features: The AM/FM can be configured for 1, 2, 3 or 4 speakers with a maximum output of 180 watts RMS (45 watts x 4 channels, 4 ohm speaker impedance, 14.4 volts input). There are several unique options for balance and fader controls including one that does not require additional controls! When practical, the original factory front/rear fader controls can be assigned to either the balance or fader function. Where the original radio did not provide for balance or fader controls, they can be programmed using the tone control.

How does that work?

Tune in an FM station and listen to it for a few seconds until you're familiar with how it sounds. Now quickly tune the extreme bottom of the dial. The station you were just listening to will begin playing again! At this point, the tone control becomes the balance control. Tune the radio to the top of the dial. The last station you listened to will again start playing here. Now the tone control is the front/rear fader! When you tune away from the top of the dial normal tone operation will resume, and your fader and balance settings will be permanently stored!

How Do You Tell A T-10 From A Muncie?

One way is to look at the side cover shape.

All 56-62 4-speed cars originally had BW transmissions. If you have a 63-82 Muncie, there are two styles: 63-68 uses a stud with a nut, 69-82 uses a bolt to attach the shifter levers to the transmission.

Complete Transmission Rebuild Kits

If your transmission is making noise or shifts hard, now is the time to rebuild it before serious damage occurs. These kits are assembled by one of the country's top transmission rebuilders and contain the following: front and rear main bearings, synchro rings, gaskets, seals, springs, needle bearings, snap rings, thrust washers, main drive nut, and a new countershaft. Many of these parts are hard to find, especially when you need them! Order a kit today and get your transmission back into top condition.

HELPER
Help us so we can help you

When looking for technical help, there are several things to keep in mind. First of all, it is very difficult to help customers with indepth technical problems if they aren't well informed. Please review your service or assembly manuals before you call — this will make solving the problem much easier.

HELPER
Powerglide Transmission
Rebuild DVD

Does your transmission leak oil or does it slip when making a right hand turn? Does it shift and respond as smoothly as it should?

If you have ever wanted to understand the inner working of the Powerglide transmission, you will want to add this valuable 2 hour video to your library. It will take you through a step-by-step explanation of each working part and explain what to look for, what to replace, and how to get your car back on the road.

531313 57-62 Speedo Gear Fitting Retainer w/Bolt.....5.50

Note: If your speedometer reads too high, a drive gear with one more tooth will slow it down approximately 5 MPH.

Speedometer Cable Drive Adapter

No more premature failure of tachometer or speedometer cables due to excessively sharp bends. This 90° Adapter offers a sensible solution to problems attaching tach and speedo cables in confined spaces, without affecting the accuracy of your gauges.

Used when installing a R7004 Transmission in older Corvettes.

GM Syncromesh Transmission Fluid

- Excellent as a lubricant • Withstands high temperature
- Specifically for use in GM manual transmissions
- Excellent as a lubricant

Dexron III is being phased out as a product name. It is being renamed Manual Transmission Fluid. DO NOT use Dexron VI in place of manual transmission fluid in any manual transmissions or transfer cases that specify Dexron III, as a failure may result.

Note: This is a hazardous item and cannot be shipped by air or outside the Continental U.S.A.

M21 — Close Ratio 4 Speed M35 — Powerglide Automatic

1955-1962 CORVETTE 5 SPEED OVERDRIVE

Preferred by the Finest Corvette Builders Nationwide

Engineered, bolt-in replacement for Muncie and Borg Warner T10 based on the TKO 5 speed Custom Engineered Tail Housing provides the only true internal shifter offset and correct fit profile for your 1955-1962 Corvette for a perfect factory look.

Pro Fit

**EASY INSTALL - NO ENGINE REMOVAL
ORIGINAL SHIFTER POSITION**

Billit, short throw, shift tower installs from inside the car for an easy installation

Protect your investment with 100% reversible process, you can even use factory boot/trim ring

Looks like a factory install. Maintenance is easy, but rarely required

• **Pro Fit** – Retrofitted with completely new smooth, short throw and symmetrical shifter mechanism tailhousing. Our exclusive design places the shifter offset and low, as original, with MINIMAL ALTERATION to the ashtray pocket. Guaranteed correct driveline angle. Attaches directly to GM bellhousing, and works with original clutch linkage.

Modified, Blueprinted, Leak Tested and Bench Tested for Ultimate Durability.

• **LOW RPM CRUISING 5th GEAR** – Overdriven 5th Gear Ratios of .68 (TKO 500) and choice of .82 or .64 (TKO 600) provide comfortable highway driving, improved fuel economy, reduced wear and tear on engine and accessories.

• **KEEP YOUR CAR IN ITS POWERBAND WITH YOUR CHOICE OF:**

TKO 500 Standard Ratio: 3.27, 1.98, 1.34, 1.0, .68

TKO 600 Close Ratio: 2.87, 1.89, 1.28, 1.0, .64 or .82

• **LIGHTWEIGHT & HIGH STRENGTH MODERN TECHNOLOGY** – Only 99 LB weight, tapered roller bearings, chromoly steel shafts and gears, 1 piece countershaft.

Our Pro Fit kit Includes:

1. **TRANSMISSION** – Custom Engineered NEW TREMEC TKO 500 (550HP) or TKO 600 (650HP)
 2. **PILOT BEARING** – Needle Roller Bearing for long life and high capacity
 3. **CROSSMEMBER MOUNT** – Heavy Duty formed steel, TIG welded, powder coated
 4. **ISOLATOR** – Heavy duty rubber isolator
 5. **BACK-UP LIGHT WIRING HARNESS** – Easy coupling to factory wiring
 6. **NEUTRAL SAFETY START SWITCH** – For automatic to 5-speed conversion
 7. **SPEEDOMETER OUTPUT** – Mechanical speedometer cable and correct driven gear PLUS integrated 2-wire electronic output included
 8. **DRIVE SHAFT** – Chromoly steel balanced with premium Spicer U-joints
 9. **SHIFT NAMEPLATE** – Matches original style and size
 10. **HARDWARE** – High strength fasteners
 11. **MANUAL** – Easy to understand installation instructions
- WARRANTY** – 6 months from installation, 2 years from purchase.

NOTE:
Does not include clutch- Must be ordered separately

When Ordering Transmission Kits – Specify Overdrive

- .64**
- Gear Ratios: 2.87 1st, 1.89 2nd, 1.28 3rd, 1.00 4th, .64 5th; 2.56 reverse.
 - Low RPM Cruising - 36% drop in engine RPM in 5th gear
- .68**
- Gear Ratios: 3.27 1st, 1.98 2nd, 1.34 3rd, 1.00 4th, .68 5th; 3.00 reverse.
 - Low RPM Cruising - 32% drop in engine RPM in 5th gear
- .82**
- Gear Ratios: 2.87 1st, 1.89 2nd, 1.28 3rd, 1.00 4th, .82 5th; 3.00 reverse.
 - Low RPM Cruising - 18% drop in engine RPM in 5th gear

SO = Special Order-Not Returnable

- 531160 55-57 TKO-500 (Manual to Manual) 3795.00

53-62 Original Type Convertible Top

SPECIFY COLOR

53-62 original equipment tops match the original factory convertible tops in every detail, and they are a must for the Corvette owner wanting exacting quality and originality right down to the washing instructions tag. All of our tops are crafted from the finest quality 40 oz. heavyweight vinyl material (where applicable) with black mildew-resistant fabric backing. The crystal clear, heavy-gauge rear window is sewn in for 56-59, and heat sealed in 60-62 as original.

Kit includes top, pads, straps, cord, finish strip with tips, warning tag, and instructions.

SET

HELPER Soft Top Latching

The 56-62 rear soft top latches on deck lid can break if not properly latched. General Motors recommended that the rear latch be latched first. The following is from your owner's manual. Please note:

1. Hook the latches to the windshield header, but leave loose.
2. Latch the rear bow to the body.
3. Lock the windshield header latches.

Convertible Top Window Pillow

- Eliminates friction scratches and pinch folds to the vinyl (glass) on the convertible rear window when the top is retractable and folded into the top storage compartment.
- The window pillow casing is made of durable but soft (no scratch) poly cotton twill, and filled with treated Dacron 808 to retain pillow shape and contour.
- One size fits all retractable tops with permanent rear vinyl windows.

Steering Column Overhaul Kit

It's common knowledge that when you are working with worn gears, you replace them as a matched set. Using our new gears makes it unnecessary to send your column out for rebuild. Simply install these new parts using a 53-62 Shop Manual found on page 6 for reference.

Steering Column Overhaul Kit Includes steering column shaft with worm gear, sector roller with roller shaft bolt, upper bearing, small bearing and seal kit.

15" Steering Wheels

- Available in Leather Wrapped or Painted
- Steering with style and comfort.**

The ultimate steering wheel for 56-62 Corvette owners. This new wheel allows much easier entry and exit from the driver's seat and provides a more comfortable grip as well.

No more trying to squeeze past a cumbersome 17" diameter factory wheel and then trying to grip an uncomfortable hard surface. This wheel's overall diameter is reduced by 2". Design and appearance of the spokes and center hub is exactly as the factory wheel and it uses a stock hub and horn button. Wheels are available in all factory colors and a selection of custom colors.

Turn into real cruising comfort with Corvette Central's custom steering wheel!

Join the fun!

The Solid Axle Corvette Club invites you to share their enthusiasm and dedication to the Solid Axle Corvettes. The Solid Axle Corvette Club (SACC) is a non-profit organization dedicated to the preservation, care, history, and enjoyment of the 1953 to 1962 Corvettes. SACC is a family oriented club with membership benefits that your whole family can enjoy.

Ownership is NOT a requirement to become a member, or attend any SACC event. If you want to become a member of the Solid Axle Corvette Club, visit and print our Membership application at:

www.solidaxle.org

Highlands, CA 95660-8288

Shocks

KYB Gas Shock Absorber

KYB high pressure gas charged shocks are an excellent choice for solid axle Corvettes. KYB's provide high performance at a reasonable cost. Even under the most demanding driving conditions, KYB's mono-tube design eliminates cavitation and decreases heat build-up. They are backed by a limited lifetime warranty. **Cannot be shipped by air or overseas.**

571089	Front, ea.....	49.95
581071	Rear, ea.	53.95
571107	Set of 4 (ND).....	189.95

Delco Gas Shock Absorber

A premium quality shock that provides excellent ride control. Gas cushioned shocks have an encapsulated gas cell which helps prevent the mixing of oil and air (shock lag). Performer shocks will deliver optimum ride comfort with a wider range of control than standard non-gas shock absorbers. Limited lifetime performance warranty. **Cannot be shipped by air or overseas.**

Covers upper shock mount access holes in fiberglass.

Shown painted red for photographic purposes.

53-62 Corvette Bolt-In IFS

Up-grade your stock suspension and old drum brakes with an easy-to-bolt-in front suspension unit. The new 1-inch narrower IFS bolts directly to the frame in place of the original suspension, using these same holes. Since the original suspension was also bolted-in, minimum effort is needed for removal. The new bolt-in crossmember (with upper towers welded-in position) holds tubular upper-and-lower A-arms (7/8-inch X .156-inch wall upper-arms and 1-inch diameter X .156-inch wall lower-arms). The new components feature over-the-counter GM parts. They include '70-81 Camaro spindles, ball joints, 11-inch vented-rotors, and Camaro calipers. The quick-turn rack for our '53-62 Corvette IFS kits features 3-turns lock-to-lock. With this installation, stock-column modifications are necessary. With fully adjustable upper A-arms, this new IFS unit can be tuned by any alignment shop. Optional features available include 1-inch diameter sway bar, adjustable shocks, and steering-linkage kit. Works with original motor mounts.

571216	Standard (ND).....	3499.00
571091	With Sway Bar (ND).....	3699.00
571134	With Sway Bar and Adjustable Shocks (ND).....	4299.00

• We do not offer this kit with Power Steering. Changing to Rack and Pinion Steering will greatly improve your steering.

When purchasing the bolt on in IFS, you will also need to purchase the following products separately:

561124	53-62 Steering Column with U-Joint and Shaft – For Jim Meyer Suspension	659.00
---------------	---	--------

- Side Engine Mounts (#301235). See Page 56.

- Dual Master Cylinder with Brake Line Kit (#191155) See Page 27.

Corvette Central will Purchase Your Stock Front Suspension – Call.

Bilstein Gas Shock Absorbers

- High Pressure Gas Shock
- Our Best Performance Shock
- Limited Lifetime Warranty

Bilstein high pressure gas shock absorbers offer all the advantages of a gas shock, plus construction and performance features that are incomparable. Bilstein shocks feature a seamless, monotube construction for fast heat dissipation and finely machined components to yield the most sensitive valving available today. **Cannot be shipped overseas or by air.**

53-62 C1 Corvette Steeroids™

Power Rack and Pinion Steering Conversion Kit

Speed Direct is announcing the NEW Steeroids™

Rack and Pinion steering conversion kit for 53-62 Corvettes which will update the 1940's steering design on these classics to 21st century standards. This is a true bolt-on kit that can be power assisted, something never offered on C1's from the factory! Steeroids™ do not require any drilling, cutting or welding on the vehicle. Tighter, more responsive steering feel and lighter weight are all advantages to this system. Steeroids™ rack and pinion kits include an exciting quick ratio rack yielding approximately 2.5 turns lock-to-lock at the wheel. Steeroids™ kits also include adjustable tie rod ends to effectively eliminate bump steer so that your car not only steers better, it actually handles better! Both power and manual kits are available. Power kits include new steering column and power steering pump. Steeroids™ kits are completely bolt-on so an owner can return to the stock steering at any time, but why would you?

561127 Power Steering with Column 1849.00

561084 Manual Steering with Column..... 1659.00

If your car has Headers you will also need our Mount Kit. When ordering add - HDR to the Part Number and add \$250. to the price of the Steeroid Kit. For cars with V8 engine.

56-62 Composite Monoleaf Rear Springs

Your 53-62 Corvette!**

Computer Designed Chassis

It's important to note that the suspension of the Morrison GT Sport chassis has been engineered using special software and the frame is designed using contemporary CAD/CAM technology. Accordingly, the vehicle performance and manufacturing accuracy are far superior to what was available over 50 years ago, when the original "C1" Corvette was built.

C6 A-Arm Requires a 17" or 18" wheel.

C6 A-Arms

BARE CHASSIS: Includes welded bumper-to-bumper profile 2' x 4' frame, body mounts, bumper mounts, center frame, exhaust holes, core support, engine mount towers, and trans x-member brackets.

+181021 (ND) 8039.00

CHASSIS WITH SUSPENSION: Includes bare chassis, upper and lower control arms and spindles, power rack & pinion, front and rear sway bars, 9" housing triangulated 4-bar links, and Strange adjustable front and rear shocks with springs.

+181057 C6 A-Arms (ND) 14200.00

COMPLETE CHASSIS: Includes chassis with suspension, 13" front disc brake kit, SVO rear disc brake kit, Strange 31-spine axles, center section mounting kit, Strange nodular-iron center section with posi-traction and trans crossmember. Everything you need for a rolling chassis, less tires and wheels.

+181034 C6 A-Arms (ND) 17500.00

Important

Electrical components such as Switches, Regulators, Relays and Horns are

NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

We've Got The Right Stuff!

For years, the 56-62 Door Auxiliary Weatherstrip was made of conventional rubber. The part looked nice but was too hard. We now have the same part molded in soft foam like the original. This will eliminate some very frustrating problems for solid axle owners.

• = Weatherstrip clip sets include clips, wire retainers, and screws. Our clips were designed to add the correct look to the reproduction door weatherstrips. Yes, the original clips did have a "Fish Hook" barb, but that was to hook the clip to the reinforcement wire which was molded into the original door weatherstrips. The reproduction door weatherstrips do not have this wire.

Correct

CORRECT!
59-62 TRUNK AND DECK LID WEATHERSTRIP
WITH 3 LONGITUDINAL RIBS AS ORIGINAL

Corvette Central now offers the correct trunk and decklid weatherstrips for '59-62. It has the 3 longitudinal ribs as described in the NCRS Judging Manual.

We now have the correct weatherstripping as specified in the NCRS Judging Manual. The new '61-62 deck lid weatherstrip has molded ends and three ribs identical to factory original weatherstripping. If you want to be correct, this is the right stuff.

Correct Trunk and Deck Lid Weatherstrips

631602	53-58	Trunk Lid Weatherstrip.....	17.95
631605	59-62	Trunk Lid Weatherstrip - Tubular (Correct! With Ribs)	24.00
631202	53-58	Deck Lid Weatherstrip.....	12.95
631210	59-60	Deck Lid Weatherstrip - Tubular (61-62 Replacement) (Correct! With Ribs)	14.95
631215	61-62	Deck Lid Weatherstrip w/Molded Ends (2 pcs. as original w/Ribs)	49.00

#631210 Weatherstrip is 59-60 type with no molded ends. Can be used as a replacement for 61-62 without molded ends.

Hood

631401	53-57	Hood Ledge Weatherstrip	10.95
631405	58-62	Hood Ledge Weatherstrip	9.95
631410	59-60	Hood Front Rubber Seal (Air Dam).....	28.00

#631410 weatherstrip was added to the front of the hood 12-8-59 approx. serial #1600. With the hood closed, the 631410 seal closed the gap between the hood and the radiator.

461090	53-62	Hood Rubber Bumpers, pr. (Correct w/Indent On Top As Original)	5.50

641104 56-58.....629.95 set

641107 59-62.....629.95 set

Set includes 4 hubcaps & 4 spinners w/retainers and screws.

HUBCAPS - THE CHOICE IS YOURS

Our policy has always been to sell American whenever possible. In this case we feel our customers should make their own choice. Both hubcaps we offer vary slightly from an original. We feel that the overall quality of the U.S. made hubcap is better.

Please consider this: In the course of restoring your car you may have already purchased some imported parts without even knowing it. Some of those parts are inferior and most are not a good value. We consider the imported hubcap to be a good value, and feel you should be the judge.

641111 56-62 HUBCAP SPINNER

Made in America

Valve Stem

Note: When the spinner is mounted to your hubcap, the words "Chevrolet Corvette" are readable when tire valve stem is down.

641009 56-62 15 x 5 New Rim (Welded).....129.00

These new rims have the nubs to hold on your wheel covers. They are also manufactured so they can be used with tubeless tires and have extra back clearance for use with single piston disc brakes.

These wheels are 5" and use the full hubcap. The 5 1/2" wheel was designed for use with the RPO "Dog Dish" hubcaps.

Welded rims were originally used on Corvettes.

Corvette
Central

Due to the manufacturing process of the
reproduction tires, they may not fit the spare
tire storage well. They may also cause the
spare tire board to not sit flush. This prob-
lem can often be resolved by under inflating
your spare tire.

**Classic Wide
White Wall
Radial
Tires**

Owners of Corvettes have long asked for a tire with a classic wide-white-
wall in radial construction. Classic radials are for you! These are not
retreads or the ground-in painted-on gimmicks. These are the real thing!
"State of the art" polyester and steel belts are used in the construction
of Classic radials offering excellent mileage, radial handling and superb
performance. An aggressive all-season tread design offers performance
in any weather condition.

Flat Stoppers

Parking your car for long periods of time on any flat surface can produce flat spots on most any tire. It is very common when a car is parked for winter storage. Most car enthusiasts know about the "thumping, whap, whap" that flat spotting causes when you first drive the car again. However, few know what other problems can occur. Flat spotting can decrease tire life and generate dry cracks in the sidewall of the tire. Steel belted radials which are left cooling and warming on concrete on a daily basis can also cause a decreased tire life, and this is even more likely when the tire is under-inflated.

101923 Set of 4 259.00

Crossflag Logo Valve Stem Caps

Logo Caps™ are precision made of an impact resistant ABS material and chrome plated. Each is fitted with a Buna N O-ring for proper sealing, and the end is recessed to accommodate a Lexan covered logo. Wheel and Tire Cleaners

Whitewall Cleaner

- Quick One Step Cleaning
- Bleach Free! Safe on the Whitewall Tires
- No Brush, Bucket or Gloves Needed
- Works Great on Raised White Letter Tires Too!

102694 7" x 8" Wipes 6.95
111550 23 oz. Spray 9.95

California Micro Fiber Wheel Duster

Micro Fibers effectively trap dust and dirt

- The "fork" easily spreads when pushed on an object for true one-handed convenience
- It "clamps" around the object to clean both sides at the same time
- Can also be used as a conventional duster on any surface
- Easily cleaned to allow repeated use time after time

Use to remove annoying brake dust and much more! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.

101948 8.95

Adam's Green Wheel Cleaner

- Eco-Friendly Wheel Cleaner
- Tough on Dirt, Gentle on Wheels
- Safely Cleans Wheels and Tires Too
- No Harmful Acids Butyl, Butyl Ethers or Petroleum Distillates

You can safely use it on most types of wheels including clear coated, painted, coated and anodized aluminum. This is not a spray-on, hose-off cleaner. Adam's Green Wheel Cleaner requires agitation with a brush, sponge, or wah mitt to break the initial bond between the dirt and the wheel. Spray-on, hose-off type cleaners are harsh, acid based cleaners that damage wheels over time.

111598 16 oz. 12.95

See Our WEBSITE For More Adam's Products

Adam's Deep Wheel Cleaner

- Changes Colors As It Works!
- pH Neutral and Safe for All Wheel Finishes
- Dissolves Stubborn Metallic Contamination
- Great for Cleaning Brake Dust from Modern Sport Brakes

Deep Wheel Cleaner is safe for all wheel finishes. So whether you have factory clear coated wheels, aluminum, powder coat, or paint the highly effective cleaning solution will remove the stubborn brake dust, but will never harm your wheels.

111628 16 oz. Bottle 29.95

Wheel Detail Brush

Conforms to any wheel including wire wheels. Gets dirt out of tight spaces.

101228 5.95

Forever Black® Tire Gel

- Black pigmented color
- Water based
- Silicone & oil free
- Environmentally safe
- Does not attract dust
- Fast drying
- Does not sling off tires
- Protects against UV damage

Unlike all other tire dressings on the market, Forever Black is a black pigmented polymer. This environmentally friendly product will restore the faded bronze look of your tires to their original appearance. The hand held applicator eliminates the mess of oversprays. One easy application will protect and restore your tires.

101816 8 oz. 13.95

Meguiar's® Hot Shine Tire Foam

New foam technology breaks clear on the tire (with no milky mess) leaving a deep black, rich shine. In one easy step, the thick, luxurious foam coats the tire, quickly penetrates, lifts and releases dirt and road grime leaving behind an even, rich shine.

102556 19 oz. 6.95

Turbo Stick Wheel Cleaning Tool

The Adam's Turbo Stick Wheel Cleaning Tool is the most innovative wheel cleaning tool ever invented. Plus, it's every guys dream...it works with one of your power tools! Connect the Adam's Turbo Stick Wheel Cleaning Tool to your cordless drill and let it do all the hard work. It does an amazing job, and it can't harm your wheels!

102798 (ND) 39.95

Mothers® Chrome Polish

Designed to provide extra sparkle and protection to wheels, bumpers, and all chrome accessories. Both mild and effective, it cleans, polishes, and protects in one easy application – It's great on mirrors and glass too!

101568 12 oz. 6.95

Windshield Wiper & Washer

53-62 Wiper Upgrade Kit

Finally, a replacement wiper system that provides smooth trouble-free wipers for 53-62 Corvettes. No more hard-to-adjust cables or aggravating switches. Kit contains all necessary components including external chrome spacers to convert your old system to a 2 speed intermittent system. All components including motor mount under the dash. Note: This is a Vette Rod upgrade kit and may require modification, and is not direct fit.

56-62 Wiper Motor Rebuild Service

Rebuild and restoration services are available for your 56-62 wiper motor. Additional parts or repairs are extra on all motors.

Our Show Car Specialty! Complete rebuild including cadmium plating on originally plated parts. Detailed like you wouldn't imagine - a must for that correct car!

Includes complete disassembly, cleaning, testing, service switch, armature, pump assembly, etc. Reassemble with new hardware. Aluminum surfaces restored to original appearance. New foam firewall seat installed. Allow 4 weeks for service.

651160 Average Cost.....199.00

Rebuild Prices are figured when the work is completed, so prices will vary. Prices are plus parts or repair labor beyond normal services.

Windshield Washers were an option for 56-60, but were standard equipment on 61-62.

Important

Electrical components such as wire harness, bulbs and fuses are
NON-RETURNABLE PARTS

Always refer to a factory service manual when diagnosing engine service problems. You can damage electrical components if the proper procedures are not followed. Be sure you are replacing the correct part.

CUSTOM UPDATE SERIES™

DESIGNED FOR TODAY - WIRE IT YOUR WAY!

**DESIGNED
SPECIFICALLY FOR
'53-62
CORVETTES**

What is Our Custom Updated Series Wiring System?

In basic terms, it's the simplest way to update your classic vehicle's wiring with the customized upgrade you want installed. (Upgrades may include: newer steering column, H.E.I., alternator, aftermarket heater & A/C system, reproduction tail light assembly, upgraded gauges, etc.).

Tailored to the needs of the resto-rod builder, and designed with the foresight, engineering, and flexibility to bring your 1953-62 Corvette's electrical system up to date. This is not a generic wiring kit that fits everything from street rods to dune buggys. This headlight-to-tail light system was designed specifically for C1 Corvettes! You choose the routing of the wiring to fit your needs and to accommodate all of the most popular custom/aftermarket and reproduction/original accessories available! This 12 volt system also includes many of the Corvette's basic electrical devices, and detailed installation instructions.

661084	53-62 Complete Custom Update Kit	795.00
661092	53-57 Optional Emergency Brake Warning Lamp Kit	

Contains the wiring and replacement flasher that will require use of an original emergency brake warning light switch and emergency brake warning light socket and lense assembly.

661117	58-62 Optional Emergency Brake Warning Lamp Kit	49.95
661123	61-62 Optional 6 Tail Light Kit	49.95

Contains the wiring and a replacement flasher that will require use of an original emergency brake warning light switch.

661130	61-62 Optional Backup Lamp Wiring Kit.	35.00
	Contains the wiring for the addition of 2 more tail lights and will work with original tail light assemblies.	35.00
	Contains the wiring for the addition of backup lights. Will work whether changing the inner tail lights to backup lights, adding 2 more light assemblies as backup lights, or using the 1967 backup light assembly.	35.00

Wire Terminal Quick Change Crimp Tool

Features:

- Quick Change Dies
- No Tools Required
- Crimps Terminal Types: Non Insulated, Insulated, D-sub, Open Barrel, and Spark Plug
- Hardened Die Sets are Zinc-Plated Chrome-Moly for long life

This 6-piece Quick Change Crimp Tool Kit includes 5 dies that crimp the most common automotive solderless terminal types, a carbon steel ratchet crimp tool with black oxide finish and ergonomic non-slip rubber grip, and a plastic storage case.

102864 92.95

Wire Crimper and Cutting Tool

Kronus crimper and cutter is ideal for installing terminals, connectors and spade lugs.

- Ideal for solderless terminals on 14-22 gauge wire
- Cuts 14-22 gauge wire
- Durable, rust-resistant steel construction
- Comfortable double-dipped cushion-crip handles
- Heat-treated for additional strength

Our primary product is your satisfaction

Customer satisfaction has always been one of our main objectives. We aren't talking about a no hassle return policy here – everyone offers that. We are talking about remedies for products that don't seem to fit or work right.

At our end, we have over 25 years experience in the manufacturing and sales of Corvette parts. This unparalleled background assures Corvette Central customers that the products they purchase are the best available, and if a problem should arise, we know how to help.

Product assistance hours: Monday thru Friday, 8:00 to 5:30.

When looking for product assistance, there are a couple of things to keep in mind. First of all, it is very difficult to help customers with indepth technical problems if they aren't well informed. Please review your service and assembly manuals before you call --- this will make solving the problem much easier.

Last but not least, whether you are doing the work or having it done . . . be sure to call us at the first sign of trouble. It's very hard to resolve a problem after the part in question has been damaged, no matter who's at fault. Let's be fair, everyone makes mistakes. The important thing is working together to resolve them.

Owning your Corvette can be a very rewarding experience. We also understand how frustrating it can be when things aren't going smoothly and there's no one to assist you. We are here to help.

Guarantee

Our one-year guarantee lets you put any Corvette Central product to the test. We will repair or replace the item, at our discretion, for a full year from the date of purchase. In addition, if for any reason you are not satisfied, simply return it within 30 days of purchase and we'll replace it or refund the cost of the item, no questions asked.

LIMITED WARRANTY

This company will not be responsible for any damage or loss caused by delays, failure, or any consequential damage arising from any cause whatsoever, nor for labor, transportation, or any other charges incurred in the replacement or repair of a defective item. This warranty to replace is the only warranty expressed, implied or statutory on which the buyer purchases the company's products.

There are no expressed warranties or implied warranties including, but not limited to merchantability and fitness for a particular purpose. Warranty will not be in force for any merchandise that has not been paid for in full or that has been altered in any manner.
