EcklersCorvette.com

Welcome Corvette Owners!

You now have the world's largest supply of 1963–67 Corvette parts and accessories at your fingertips, as well as a team of enthusiasts and experts at your disposal who can offer technical assistance and practical advice pertaining to your particular car. We sincerely appreciate your business, and look forward to working with you on your version of America's Sports Car!

Lowest Price Guarantee

Eckler's Guarantee is simple: You always get the best quality parts at the lowest price! Show us the identical item advertised in any current magazine, catalog, or website and we'll match our competitor's current price, guaranteed! This offer is available only at the time of purchase and applies to in-stock merchandise only. We can't combine this with any other offer. Tires, restoration services, kits, window glass, cores, reproduction batteries, certain engines, transmissions, used parts, special order parts, and shipping and handling charges are excluded.

Eckler's Gift Certificates

The perfect gift when you just can't decide. Available in many different amounts, from \$25 right up through \$1,000. Easy to ship, too!

The Best Parts at the Best Price

This is not just a slogan! Eckler's is committed to providing the highest quality parts at the most competitive prices. We source and select all of our parts exclusively from the world's leading brand name manufacturers using our massive buying power. This means you get the best there is, at the best prices on the market today.

100% Satisfaction Guaranteed

Our commitment to you: If for any reason you are not 100% satisfied with any of our products, simply return it for a full refund, credit or exchange—your choice.

Follow all the Eckler's Automotive Parts Companies on Facebook and Twitter!

3 Easy Ways to Order!

• Call toll-free

1-800-327-4868

(U.S., Canada, Puerto Rico, Virgin Islands)

Full Service Sales Hours

More Than 50 Years of Innovation

In the early 1960s, Ralph Eckler's vision began by manufacturing fiberglass replacement parts for Corvettes out of his small shop in Illinois. As the Corvette grew in popularity, so did the restoration/aftermarket business. In the early 1970s, Eckler's relocated to central Florida, and the company flourished into a multimillion dollar business. Today, Eckler's employs more than 200 people and provides the classic car industry with more than 130,000 parts for classic Chevrolet, Ford, Porsche, and Mercedes-Benz.

Eckler's Corporate Headquarters in Titusville, Florida

ECKLER'S

Leading the Corvette Parts Industry in Fiberglass Body Components!

We offer you two types of fiberglass body parts and two types of bumpers—all of which have slightly different benefits. Choose what's right for you.

Hand Laminated Body Parts

Used on all Eckler's manufactured fiberglass since 1965. Three layer, hand-rolled process eliminates all bubbles, providing a strong, uniform surface. Gel coat finish ensures smooth, easy sanding. Less time consuming and less costly to fit to your car and to prepare for paint. Ability to produce large body panels with compound curves with no bonding strips required

Press Molded Body Parts

Formed in a large hydraulic press similar to the factory original parts. Smooth finish on both interior and exterior sides of your part. Slightly higher cost but closely resembles factory panels

Hand Laminated (Flex-Fit) Fiberglass Bumpers

Combines the flexibility of urethane with the cost advantages of fiberglass. Allows seamless integration of bumper with front body panels for better appearance and easier painting

Injection Molded Urethane Bumpers

Factory original appearance. More resistance to crash impact than standard fiberglass.

1963-67 Front Ends (Door to Door)

- Hand Laminated Fiberglass Construction

1963-67 Front Spoiler

- Hand Laminated Fiberglass Construction

1963-67 Outer Door Skins

These are just a few examples of our premium quality fiberglass offerings. See our huge Exterior Section for ordering information, product details, and more.

When you see the Eckler's Exclusive logo, know you're buying the best in the industry. Proudly manufactured in the USA! Thank you for shopping with Eckler's Corvette!

1963-67 Analog Radio Upgrade Service

- *Upgrades Radio To Modern Circuitry*
- *22 Watts*
- *Stereo Face And Functions Remain Stock Appearing*

Let Eckler's upgrade your radio to modern circuitry and listen to great sounding radio. Our service eliminates old fashioned tubes, transformers, obsolete transistors and vibrators - yet it maintains the analog system. All stereo receivers are made CD ready with direct inputs. Send your stereo prepaid and insured to Eckler's Radio Service, 242 S. Washington Blvd. PMB 268, Sarasota, FL 34236 along with a completed order blank. Allow 3-4 weeks turnaround time once we receive the radio. All work guaranteed for one year from date of purchase.

25-249877

Secretaudio SST is the third generation Custom Autosound's hideaway audio system. The SST LCD display unit can be mounted almost anywhere and be controlled by RF wireless remote from up to 40 feet away. This car audio system offers great flexibility for mounting in any type of vehicle. The main receiver/amplifier unit is usually hidden under the seat, or behind the dash. Mount it in an ashtray, glove box, under dash or flush mount it with the included bezel. This system will control an optional Sirius satellite tuner and give you all the information on the LCD screen.

1965-67 Power Slot Brake Rotors

- *Exclusive Vac-U-Slot Design "Wipes" Pads Clean, Evacuates Gasses And Sheds Heat*
- *Silver Cadmium Plating Provides Superior Corrosion*

Rotors will provide quicker stops, less fade and extended pad and rotor life. Power Slots, because of their super quality castings, deliver optimum rotor wear, balance and reliability.

25-128625	Front, Left	109.99 ea.
25-128624	Front, Right	109.99 ea.
25-128622	Rear, Left	119.99 ea.
25-128623	Rear, Right	119.99 ea.

1965-67 High Performance Brake Rotors

- *Cryo-Slotted/Drilled*
- *Bolt-On Installation*

Cryogenic tempering is a one-time stress relief process that permanently improves the performance and service life of all metals. Cryo-treatment delays the formation of heat checks on the braking surface and gives the rotor an extra level of protection against warping.

Hydroboost Brake Power Systems

- CNC Machined T6 Billet Aluminum Direct Fit Firewall Mounting Plate Design

- Adjustable Brake Pedal Rod To Allow For A Range Of Brake Pedal Height Adjustments

- Requires Power Steering Pump

- No Firewall Modifications Required To Install

- Clears Big Block Tall Valve Covers

Traditional power brake boosters function by robbing vacuum from the engine to decrease brake pedal effort. If you have a high-lift camshaft in your car, you may not have enough vacuum to allow the brake booster to function. Hydroboost runs off of your existing power steering pump to provide rugged, reliable and trouble free service.

1965-67 Stainless Steel Parking Brake Rebuild Kit

- Eliminates Parking Brake Freeze-Ups

All interfaces are stainless steel, including the springs and retaining clips. Once corrosion-free parts are installed in the parking brake, freeze-ups are eliminated. All components can be installed without pulling the axle shafts. Shoes and backing plates are not included. One kit rebuilds both wheels.

1966-1968 Big Block, High Efficiency Aluminum Radiator

- **3- and 4- Rows of 5/8 inch**
Tubes (600-800+ Horsepower
Cooling Capacity)
- **High Efficiency 14-16 Louvered Fins Per Inch And**
3/8" Spaced Tubes
- **100% TIG Welded Seams, Brazed Core, No Epoxy**
- **Includes 16 Lb. Radiator Cap, Brass Petcock Valve,**
And Auto Trans. Cooler (1/2-20 Straight Thread G1/4)
- **Driver In (1 1/2"), Passenger Out (1 3/4"), Factory**
Mounting Positions, Saddle Mount
- **Overall Dimensions 19 1/4 (H) X 29 (W), Core**
Dimensions 17"x22 1/2"
- **Limited Manufacturer Warranty**

Your 1966-1968 Corvette big block can get hot...really hot. Idling in traffic, 90+ summer days, and just driving can add up. The factory brass radiators were barely satisfactory at transferring heat which is why Corvettes will overheat. And, it's when you least expect it. Why take chances with your valuable Corvette's engine and step up to Champion Aluminum Radiators.

1963-67 Be Cool® Radiator Module Systems

- The Ultimate Cooling System
- Module System Is Capable Of Cooling 500 - 600 Cu. In. Or 300-400 H.P.
- Bolt-In Installation

When you combine a Be Cool®, Dual-Core, Direct-Fit Aluminum Radiator with a high-torque, European style electric fan(s) you can cool just about anything you can put in a Corvette. These bolt-in units also include the electric fan mounting brackets, electric fan wiring harness, a coolant recovery tank and a billet Be Cool® radiator cap (used on radiators 25-129634 and 25-114963 and used on the expansion tank for 42137). All are supplied with a single 16" fan.

1965-67 Dual Electric Fan System

The Flex-A-Lite Dual Electric Fan System is the most powerful system on the market today. It pulls 2500 CFM and totally eliminates the need for the stock fan and shroud. The dual 12" fans fit compactly in a shroud area and measures only 2-5/8" in depth, 26-1/4" across and 15-1/2" high. With these measurements, it will fit almost all Corvettes (please measure your radiator core before ordering) and can be mounted either on the radiator core support with supplied brackets or through the radiator using mounting straps. This system allows you the flexibility of operating both fans thermostatically or one on continuous run and one thermostatically. All mounting hardware and instructions are supplied.

25-104006

439.99 kit

1963-67 GMP Dual Fan Control Wiring Harness Kit

This kit allows you to turn on the fans at a preselected temperature. Either both or separately can be controlled thermostatically or continually. You set the temperature and the fans do the work. Some wiring to factory harness is required.

1965-67 Finned Aluminum Big Block Valve Covers Without Power Brake

- *Strong Sand-Cast Aluminum Construction*
- *3/8" Taller For Rocker Arm Clearance • Made In USA*
- *Classic Appearance With Raised Corvette Script And Fins*
- *Thick Machined Gasket Flange For Secure Fit*
- *Clean Inside For Maximum Clearance*

These PML valve covers feature raised CHEVROLET script and fins. They are taller than stock and fit Chevy™ big block engines. The valve covers have PCV and oil fill/breather holes and baffles cast into the covers to prevent oil leaks. These covers are 3/8" taller than our standard height covers to fit over most roller rockers, such as Jesel. The covers use stock grommets and gaskets (not included).

Ultra-Seal™ Valve Cover Gaskets

- *Unique Gasket Material Swells To Control Leaks*

Ultra-Seal™ material provides a positive seal through controlled swelling of the gasket once exposed to hot engine oil. The polymers used in Ultra-20™ also insure gaskets will not harden and fall apart like others can. Gaskets are coated with an easy release material which helps prevent tearing when the valve covers are removed.

1963-67 Bronze Replacement Cross Coupling And Gear

Coupling is made of bearing bronze material that ensures better wear than the original. The gear shaft bearing contact surface length has been increased for more support and longer wear. Gear included.

25-103226

59.99 ea.

1963-67 Tach Cross Gear Kit

- **Eliminates Tachometer Failure**
- **Won't Destroy Mainshaft Gears**
- **Stainless Steel Or Bronze Construction**

Before your stock tachometer drive gear destroys the distributor mainshaft, replace it with our Tachometer Cross Gear Assembly. The factory tachometer drive gear doesn't get adequate lubrication causing metal to metal friction between it and the coupler. Then the drive gear seizes, shearing the teeth off the distributor mainshaft. Our gear assembly eliminates this problem because we put needle bearings between the gear and coupler. The bearings won't wear out and stay lubricated for a lifetime. Installation of the assembly takes about 5 minutes with regular hand tools.

1963-67 Competition Cams' Magnum Roller Tip Rocker Arms

- **Dyno Proven 20 Horsepower Gains**
- **Reduce Valve Stem And Guide Wear**

Competition Cams' unique forge-cast roller tip design reduces friction. As a result it has been dyno tested to produce 15-20 horsepower increases and it makes valve stems and guides last longer. Magnum Rockers fit all 63-67 small block engines (1.52 rocker ratio) and all 65-67 big block engines (1.70 ratio). Each rocker is supplied with a rocker ball and lock nut. Set of 16.

25-248981	Small Block	221.99 set
25-122371	Big Block	201.99 set

1963-67 Competition Cams' High Energy Cams, Lifters And Springs

As the one component in your engine that has the greatest effect on power, torque and mileage, Competition Cams' has designed 2 unique camshafts. They have the 260 And 268 series for 63-67 small block Corvettes. Each camshaft, lifters, and springs are described below.

260 High Energy Cam (Small Block): This cam is perfect for Corvette owners who want more power without affecting driveability. The 260 is very responsive and is an ideal replacement cam in base engines. The 260 produces up to 10 horsepower over the stock engine and is used on Corvettes with a 3.08 or greater rear axle ratio. Specifications are .446" lift intake and exhaust, 260 degrees duration at .006" lift, 212 degrees duration at .050" lift with 110 degree lobe centers.

268 High Energy Cam (Small Block): This cam is for the high performance enthusiast. The 268 produces up to 15 horsepower over the stock engine. This cam has a slight lobe at idle but does not affect power accessories. The 268 will idle down to 600 RPM and still pull strong past 6,000 RPM. The 268 is an ideal replacement in performance engines. Specifications are .460" lift intake and exhaust, 268 degrees duration at .006" lift, 218 degrees duration at .050" lift with 110 degree lobe centers.

High Energy Lifters: When installing a new cam, installation of new lifters is a must! Use of old lifters voids the cam warranty. **High Energy Valve Springs:** When installing a 260 small block cam, use stock valve springs if they still maintain their like-new pressures. In cases where the stock springs have lost their tension or for all other cam installations, use Competition Cams' High Energy Valve Springs.

Note: Check your state and local laws on emission standards.

1965-67 Big Block March Underdrive Aluminum Pulley System

- Adds Up To 20 Horsepower
- Ideal For Everyday Use

Features an undersized crankshaft pulley that turns the belt driven accessories 25% slower, preventing horsepower losses to the air conditioner and power steering pump. The kit's oversized alternator and water pump pulleys give a 25% and 17% increase over factory pulleys to keep those two accessories turning at their proper speeds. 2-groove set used without A.I.R. pump. Kit comes with 3-groove crank pulley.

25-111077 With 2 Groove Water Pump Pulley **284.99 set**

1963-67 HEI Distributor Conversion

- **Converts Dated Ignition Systems To Modern HEI Technology**
- **Easy To Install**
- **Improves Engine Performance**

Now with a simple distributor swap you can get all the benefits of HEI technology plus performance enhancements on top of the original HEI. For example the original HEI had a 38,000 volt module, pickup and coil, this unit provides 50,000 power packed volts! The original system had bushings in the housing, this model has needle bearings for smoother operation and longer life. Plus, this one-piece distributor has a 4340 hardened steel cam gear for use with all roller cams and brass terminals in the distributor for greater conductivity than the stock aluminum terminals. So when you compare this tach drive distributor to what your car came with you're getting a tremendous hi-performance distributor that eliminates the points and coil and gives you all the firepower you need for your Corvette's ignition. This unit simply bolts into place, all you have to do is run a 12 volt power lead to the distributor and add upgrades.

25-161505

159.99 ea.

Note: Use P/N 25-188970 plug wire set

25-120619

1963-67 Tachometer Drive Distributors

1963-67 HEI Distributor Conversion

- **Converts Pre-1975 Vettes To HEI Ignition**
- **2-Year Warranty**

Each distributor is actually spun on a distributor machine with a super smooth advance curve. Buying an uncurved distributor is like buying an unground camshaft. A smooth curve insures maximum power and mileage while eliminating engine damaging detonation. The D.U.I. distributor produces a longer duration spark which allows you to open up your plug gaps to a whopping .055". The Dyna-Module and 50,000 Volt D.U.I. coil work together to give your engine the ultimate spark. A wider gap and a hotter spark leads to more complete combustion. NO add-on spark box is needed. Each D.U.I. distributor is hand-built not mass produced and is individually prepped. Housings are polished and lubed appropriately. Shaft plates are welded for durability. Gears are wire brushed and end play is adjusted with a feeler gauge.

25-103350

529.99 ea.

Note: Use 25-188970 Plug Wire Set

1963-67 MSD Tach Drive Distributor

- **Convert To Electronic Ignition**
- **Retains Original Tach Drive**

Replace your worn out, outdated points distributor with MSD's electronic, magnetic pickup unit. CNC machined from 6061-T6 billet aluminum this distributor features ballbearings and sintered steel bushing shaft supports for long lasting performance. The mechanical advance is fully adjustable allowing for customized spark curves. Its magnetic pickup never needs adjusting and plugs directly into MSD's high performance ignition boxes. The vacuum advance feature is maintained for driveability and full economy, and its tach drive accepts the factory tachometer cable. An optimized spark curve combined with a stronger more consistent spark results in improved fuel economy, increased reliability, and smoother more powerful engine performance. Must be used in conjunction with a MSD ignition box.

25-105764

489.99 ea.

1963-67 Mallory Unilite Electronic Ignition Distributor

- **Maintenance Free Operation**

The Mallory Unilite Electronic Ignition Distributor is now considered the industry standard. The device is triggered by a photo optic infrared LED that never wears out for dependable, accurate timing. This unit replaces the original distributor with a simple three-wire connection. Self-lubricating bushings provide long shaft life, while the high dielectric strength cap and rotor/shutter wheel combination prevent voltage leakage. An adjustable advance curve allows you to tune for performance. Tach drive connection. Not legal in California on pollution controlled vehicles. Also available as a points style distributor.

1963-67 Breakerless Electronic Ignition Conversion Kit

- Single Wire Hook-Up Makes Distributor Look 100% Stock
- Eliminates Points

Convert any 1963 to 1967 GM V8 breaker point type distributor with a windowed type distributor cap to

a reliable solid-state electronic ignition, utilizing a fully integrated trigger and power module that fits completely inside the distributor. Unlike competitive systems, no additional wires protrude from the distributor, only the original points wire. The result is a state-of-the-art ignition with an absolutely stock appearance. Emissions legal in all 50 states. No distributor modification, disassembly or removal is required for installation. 3-year warranty.

25-113682

169.99 kit

1963-67 Pertronix Ignitor Electronic Ignition System

- Replaces Points And Condenser With Modern Electronic Ignition
- Huge Dwell Accuracy Improvement
- Bolts In Place Of Points And Has Simple Two Wire Hook-Up • Never Requires Adjustment
- Use With P/N 25-126558 Or 25-126559 Pertronix Ignitor Coil

There's absolutely no need to contend with the technology of the 60's and earlier, when you can bolt-in today's electronic timing benefits in the form of the Ignitor!

25-126566

89.99 kit

1963-67 Petronix Ignitor III Electronic Ignition Conversion

- Replaces Points And Condenser With Modern Electronic Ignition
- Completely Hidden Inside Your Stock Distributor
- Includes Adjustable Rev Limiter
- HEI Gives Improved Mileage And Horsepower
- Huge Dwell Accuracy Improvement
- Magnetic Type Sensor Never Requires Adjustment
- Must Use Flame Thrower Coil P/N 25-126559 or 25-126558
- Simple Two Wire Hook-up

There's absolutely no need to contend with the technology of the 60's and before, when you can bolt-in today's electronic timing benefits in the form of the Ignitor! This system gives you a huge improvement in your ignition dwell. Plus the whole conversion remains under the stock cap so for restorers the car appears dead stock. Technically speaking, this ignition has rotating cobalt magnets which trigger an electronic switching module commonly referred to as a "Hall" effect integrated circuit. Practically speaking, this means you'll always have perfect dwell regardless of how high you operate in the RPM band.

1964-67 Replacement Transistor Ignition Amp Module

• *Fits Inside Amplifier*
• *Solid State*
• *Simple Screw In Replacement*

Transistorized Ignitions (TI) also known as Delcotron Transistor Control Magnetic Pulse Ignition Systems were available from the factory under RPO K66 in 1964-1971 both small and big blocks. After, these system could be bought as an over the counter part from your local GM dealership. These special transistor controlled ignition systems were developed for high performance and racing use to replace the traditional point-fired ignition system that came standard on most vehicles. Later to be replaced with the HEI optional distributors in 1975; these transistorized ignition systems were used as the standard duty high performance Chevrolet ignition systems.

1963-67 High Torque Starters

- **Out Performs Stock Starters**
- **Resistant To High Heat**
- **Made For High Performance Engines**

This High Torque starter has been reengineered to produce higher torque while all other internal components have been redesigned to reduce current draw and increase battery life.

1963-67 Gear Reduction Starters

- **Eliminates Hard Starting Problems**
- **Ideal For High Compression Or High-Performance Engines**
- **Lighter And Smaller Than Stock Starter**

Far more powerful than any stock starter plus it's lighter and smaller than the stock unit to make header clearance a thing of the past. And because the Power Master starter does not act as a heat sink it is unaffected by high header heat or high underhood temperatures. It has a billet aluminum adapter block and mounting bolts are included for easy installation.

1963-67 Chrome Gear Reduction Starter

- **Fits 168 Or 153 Tooth Flywheel**
- **Auto Or Manual**

For the chrome that gets you home, this Tuff Stuff 1.9hp gear reduction starter has twice the torque of the original starter

making hot start problems a thing of the past. Manufactured with all new parts, it accepts 153 or 168 tooth flywheels and features an adjustable drive-end frame for added oil pan and header clearance. The triple chrome plated body adds a sharp dress-up touch to the engine compartment. New mounting bolts and necessary shims are included.

25-286916

199.99 ea.

1963-67 Starter Heat Shield

- **Insulates Starter From Heat**
- **Prolongs Starter Life**

Designed with a layer of high temperature heat-insulating material sandwiched between two sheets of aluminum.

Note: Use only with Delco style starter.

25-102710

1963-67 MSD 6AL-2 Multiple Spark Discharge Ignition

- **Provides More Power And Faster Starts**
- **Built-In 2-Step Rev Control (No RPM Modules)**

The new MSD 6AL-2 (Multiple Spark Discharge Ignition) is designed to improve the performance of daily drivers and weekend warrior vehicles. It features an all new housing, digital circuits for higher spark output and a built-in 2-step rev control for street/strip vehicles. It works on any vehicle with a 12 to 18 volt electrical system. MSD-6AL-2 can be triggered using breaker points, magnetic pickup or electronic amplifier outputs.

1963-67 Moroso High Performance Spark Plug Wires

- *For Use With Headers*
- *Custom-Fit For Corvettes*

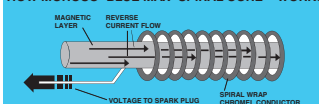

Moroso's "Blue Max" Spiral Core Spark Plug Wires should be used whenever headers are installed. We've selected the Moroso brand for three very good reasons. First, they are made of the finest high temperature silicone available to withstand the extreme temperatures headers produce. Secondly, Moroso's unique 8mm "Spiral Core" design delivers the voltage carrying capability of a metal conductor with the radio noise suppression benefits of the stock wires, and these wires are routed just like the factory wires.

1963-67 90° Tach Or Speedo Cable Adapter

- *Insures Smooth, Accurate Gauge Readings*
- *Increases Cable Life*

For Corvettes with severe tachometer cable binding, install our 90 Degree Tachometer/Speedometer Cable Adapter. It allows you to run the cable straight into the adapter eliminating problems created by cable binding. The adapter attaches to either the stock tach drive coupler on the distributor or the transmission and requires no modifications to install. A grease fitting is built into the adapter to lubricate the adapter and grease the tach drive gear.

-----------	-----------

1963-67 Hooker Sidemount Small Block Chrome Headers

- **Premium Chrome Plating**
- **Decrease Back Pressure & Increase Horsepower**

NOTE: These headers do not work with the A.I.R. system and are not legal in states that require pollution devices to be removed. Check with your local authorities regarding the law in your state. Hooker Small Block Sidemount Headers feature four-in-one styling which culminates into a 4" collector. The small block headers have 1 7/8" primary pipes. Hooker sidemounts fit any combination of air conditioning, power brakes or steering, and manual or automatic transmissions. For 1963-66 small block applications, order P/N's 26752, 25-113964 (alternator brackets) and P/N 25-102907 air conditioning bracket (if so equipped).

25-249879	▲▲	1299.99 pr.
-----------	----	-------------

1963-66 Hedman Small Block Headers

- **Improve Horsepower & Torque**

Hedman small block headers have 1 5/8" primary tubes and 3" collectors. They are painted with hi-temperature black paint. Also included are header gaskets, instructions, and all street hook-ups. For small block Corvettes P/N 25-102906 alternator bracket and A/C bracket P/N 25-102907 should be used if your Corvette is so equipped.

1963-67 Exhaust Pipes

• Replacement Systems Aluminized Or Stainless

Replace your Corvette's rusted-out exhaust system with our aluminized coated steel or stainless steel exhaust pipes. The aluminized coated steel pipes will last 3 times longer than the stock exhaust system and our stainless steel pipes are backed by a manufacturer's limited lifetime warranty. We have direct replacement exhaust pipe systems and mufflers. Our direct replacement systems are bent to factory specifications and all 1963-67 systems are available in either aluminized or stainless steel. The aluminized components are made of carbon steel and coated inside and out for long life. The 2" stainless steel components are made from 409 stainless. All components are supplied with installation hardware including all necessary pipes, clamps, flanges, donut gaskets and donut gasket inserts. Does not include hangers.

1963-67 Exhaust Pipes (Small Block)

Description	Aluminized/Price	Stainless Steel/Price

1964-67 Chambered Exhaust Kits

- **Replaces Original Under Car Exhaust System**
- **Sounds Like Original Side Pipes**
- **Easy Bolt-On Installation Limited Lifetime Warranty**

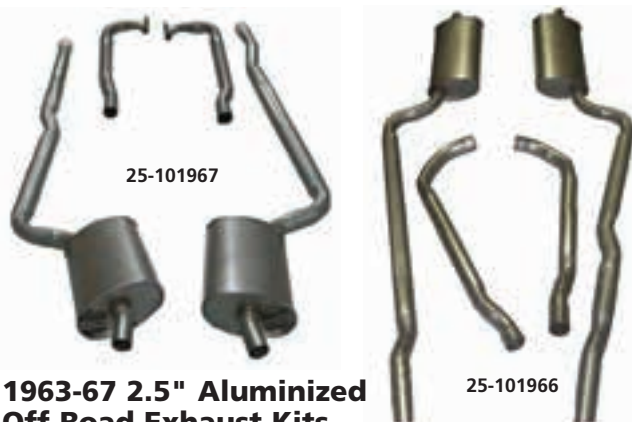

One of the sweetest sounds ever produced was heard on Corvettes with factory equipped, chambered side exhaust. Now you can enjoy the perfect exhaust note without the expense of the side pipe covers. These dual exhaust kits bolt on to the stock manifolds and route just like the stock manifolds and route just like the stock system. No modifications to the car are required. Kits include stainless steel exhaust tips. Not only will you get great sound, you'll also get improved performance plus a limited lifetime warranty on the chambered muffler. And unlike other less expensive kits, our kit features heavy-duty, 14 gauge pipes. All necessary installation hardware is included. Available in aluminized or stainless steel. Specify manual or automatic transmission.

1963-67 DynoMax Super Turbo Mufflers

- **Straightpipe Performance**
- **Quiet Like A Muffler**

The DynoMax Super Turbo Muffler produces more horsepower and torque in all driving ranges and

operating conditions. Its oversized flow tubes and patented flow directors reduce exhaust turbulence, and eliminates back pressure for improved exhaust flow and maximum power.

ECKLER'S Offers you two types of fiberglass body parts, and two types of bumpers—all of which have slightly different benefits. Choose what's right for you...

Body Parts - Hand Laminated

- Used on all Eckler's manufactured fiberglass since 1965
- Three layer, hand-rolled process eliminates all bubbles, providing a strong, uniform surface
- Gel coat finish ensures smooth, easy sanding
- Less time consuming and less costly to fit to your car—and to prepare for paint
- Ability to produce large body panels with compound curves with no bonding strips required

Body Parts - Press Molded

- Formed in a large hydraulic press similar to the factory original parts
- Smooth finish on both interior and exterior sides of your part
- Slightly higher cost but closely resembles factory panels

Fiberglass Bumpers - Hand Laminated (Flex-Fit)

- Combines the flexibility of urethane with the cost advantages of fiberglass
- Allows seamless integration of bumper with front body panels for better appearance and easier painting

Urethane Bumpers - Injection Molded

- Factory original appearance
- More resistance to crash impact than standard fiberglass

Hand Laminated Fiberglass Parts

Installed In All Eckler's 1963-67 Front Ends

Factory design steel headlamp end plates and header bar are jig-fit for uniform headlamp installation.

ECKLER'S

1963-67 Press Molded Front Ends

- Smooth, Pressed Finish Front And Back
- Resin Pigmented To Original Factory Colors

Manufactured to the most stringent tolerances, these parts are indistinguishable from factory parts in color, configuration, uniformity and fit.

While the majority of the Corvettes produced in 1963 and 1964 were white pigmented fiberglass and 1965 and 1966 were gray, some 1964 models were gray and some 1965 models were white. On special order, all 1964 parts are also available in gray and all 1965 in white pigmented fiberglass.

1963-67 Jig-Fit Assembled Front Ends

- Precisely Assembled In A Fixture -- Ready To Install
- Original Factory Adhesive Color And Texture
- Includes Factory Style Headlamp End Plates And Header Bar Reinforcement

Completely assembled front ends include inner skirts. A bonding strip is installed along top of inner skirt on 1963 models and an upper seal is used on 1964-67. Header bar is assembled with original style rivets to a bonding strip prior to bonding into front end. Price includes crating charge. Allow five weeks for assembly.

Eckler's Fiberglass Repair Materials

Eckler's Repair Materials will work on all fiberglass types used on 1963-67 Corvettes. These repair materials are not formulated to work on 1973 and later Corvettes with SMC body panels.

Shelf Life Note: Eckler's repair materials, except for spray gelcoat, have an approximate shelf life of six months, depending upon usage and storage conditions. Eckler's Spray Gelcoat should be used within 90 days for best results.

Spray Gelcoat

The only product available that will permanently seal errant fiberglass strands. Spray gelcoat's unmatched sealing qualities also prevents body fillers from bleeding through. MEKP hardener included. Usage is approximately two gallons for an entire Corvette.

25-100208 * Gallon 109.99 gl.

25-100207 * Quart 29.99 qt.

Bonding Adhesive

Eckler's "Original" bonding adhesive is specially formulated to provide unsurpassed adhesion when bonding or repairing fiberglass. Easy to mix cream hardener is included. Adhesive cannot be used as a surface filler.

25-100202 * Gallon 117.99 gl.

25-100201 * Quart 42.99 qt.

Epoxy Bonding Adhesive Kit

Manufactured by Lord Corp., Fusor Epoxy is ideal for general repair and bonding of SMC fiberglass. Two-part mixture.

25-103227 139.99 kit

Body Filler

Eckler's body filler is formulated to virtually eliminate intolerable shrinkage, pinholing and bleed-through found in other fillers. Cream hardener included.

25-100203 * Quart 42.99 qt.

Repair Material Return Notice: This product must be returned within 30 days of ship date in order to return or receive a refund.

No exceptions.

Restoration Formula Panel Bonding Adhesive

Same color, consistency and texture of the material originally used at the factory (thru the 1972 model). Excellent bonding and finishing characteristics.

Adheres to all press molded and hand laminated fiberglass. MEKP hardener included.

25-107915 * Gallon 199.99 gl.

Hardener

Needed in colder climates to accelerate curing of materials.

25-100212 MEKP * 11cc tube 6.99 ea.

25-100200 Cream * 4oz. 11.99 ea.

Fiberglass Mat

1-1/2 oz. mat is for use with Eckler's resin.

25-100209 50" x 36" 10.99 ea.

25-100210 50" x 108" 19.99 ea.

Sprra-Strip Paint Remover

Quickly and easily removes paint without affecting the factory gelcoat (when properly used). Sprra-Strip works well on the following paint finishes: lacquer, enamel, iron, acrylic, epoxy and polyurethanes. Supplied in a one gallon can. Spray bottle included.

25-253284 *

39.99 ea.

* Cannot be sold to California or Canadian customers

Roller

25-100211 1/2" x 3" Roller

9.99 ea.

Power Hardtop Hoist With Remote

- *Used To Store Hardtop*
- *Easy One Person Job*
- *DC Powered*
- *Soft Hooks*
- *Safety Shut Off*
- *Holds Up To 500 lbs*
- *Complete Installation Kit Including Instructions*

No more back breaking lifting, getting someone to help or storage issue. This DC Powered hardtop hoist solves all these problems. With a simply push of a button, your hardtop goes up or down. Once set up, you simply place the cushioned hooks in place at the front and rear of the hardtop, push the button and the top goes up out of the way for you to enjoy a day of driving in your convertible. You can leave it up for storage or reinstall it on the car. Unit is powered by DC which works through a Battery Tender and DC Battery (supplied) so if your power goes out you still can operate your hoist.

Laser Shield® License Cover

- **Diffuses Incoming Laser Beams**
- **Does Not Obstruct View Of License Numbers**

Laser guns emit a laser beam which is bounced off a flat, perpendicular, metallic, reflective surface on your vehicle. This specially designed cover works to absorb and diffuse the incoming laser beam. Significantly shortens the effective distance of laser guns. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

25-253600 24.99 ea.

Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

The Super Protector® License Plate Cover

- **Protects Your Privacy**
- **Blurs Numbers From Side View And Overhead**
- **Numbers Visible From Straight On View**

How does "The Protector" work? Photo-radar and photo-laser operate at known angles to the direction of traffic flow. Using a passive, state-of-the-art light-bending lens, the camera is unable to see the plate numbers, and identify your vehicle. The license plate is still readable from straight on. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

600 CFM Performance Carburetors

- **Great Combo With "Performer" Intake**

Our 600 CFM Carburetors outperform the stock QuadraJet and provide better mileage. These carburetors work with or without an EGR valve and accept the Corvette stock throttle linkage and transmission kickdown mechanism. In addition, they have a universal 12 volt electric choke, vacuum/weight operated secondaries, vacuum advance connection, and PCV fitting. These carburetors have a single fuel inlet which requires a new fuel feed line, but the fuel filter and carburetor gasket are included. Use on an Edelbrock manifold requires the purchase of the carburetor base plate listed below. Used for small block application only. Note: When ordering, please remember that these Carburetors will not fit a stock QuadraJet manifold and some early small bore 63-64 manifolds.

Holley Performance Carburetor

- **Performance Option For "Performer" Intake Manifold**

The Holley 600 CFM performance carburetor is a universal fit carburetor for non-EGR equipped Corvettes. It features vacuum secondaries, single inlet fuel bowls with side-pivot floats, adjustable needle and seat, electric choke, PCV and distributor vacuum connections. Not legal for sale or use on pollution controlled vehicles.

1963-67 Edelbrock "Performer" Intake Manifold

• *Improves Off-Idle Response, Dramatic Increase In Torque*

The Edelbrock "Performer" is an ideal performance replacement for Corvettes with stock small blocks with performance cams and/or headers. The "Performer" dramatically improves off idle response and low end torque and extends all the way to 5,500 RPM. The QuadraJet carburetor bolts directly to the "Performer" utilizing all stock brackets, fittings and cables. Rejetting of the carburetor or other modifications are not required. Gasket is not included.

25-122275		199.99 ea.
25-122276	Intake Manifold To Carb Adapter (Use For All Carbs Except Stock QuadraJet)	9.99 ea.

* Check Hood Clearance Before Installing Intake

1963-67 Edelbrock "Performer EPS" Intake Manifold Without EGR Valve

• *Improves Off-Idle Response*
• *Dramatic Increase In Torque* • *Dual Plane*
• *EnduraShine Finish*

The Edelbrock "Performer EPS" is an ideal performance replacement for stock Corvettes or for small blocks that have performance cams and/or headers. The "Performer EPS" dramatically improves off-idle response & low end torque and the power extends all the way up to 5,500 RPM. The Holley carburetor bolts directly to the "Performer EPS" utilizing all stock brackets, fittings & cables. Rejetting of the carburetor or other modifications are not required and the manifold fits under all stock hoods. For 1963-67 327 engines, 1969 & later valve covers must be used. In addition to performance, this manifold provides the show-quality EnduraShine finish that won't oxidize, fade or turn blue and as an added bonus it cleans easily.

25-191594		249.99 ea.
-----------	--	------------

1963-67 Power+Plus Intake Manifold

• *Dual Plane 180° Design Provides Outstanding Power From Idle To 5500 rpm*

• *For 327 Or 350 Engines Fully Show Polished*

The Power+Plus Manifold is a replacement for the stock manifold on 1963-67 Corvette. Use a Quadra-Jet carb or a 500 to 650 cfm vacuum secondary carburetor. Kit includes adapter plate to permit use of popular square bore carburetors. Power+Plus manifolds are cast from steel molds, not from sand molds. Permanent molds provide a tighter grain casting thereby reducing the occurrence of porosity which can mar the polished finish. Additionally, each Power+Plus manifold is 100% pressure tested for leaks to eliminate any installation problems. This manifold accepts late model choke, waterneck, AC, alternator, and HEI. Has no provision to add oil filler tube. For 1963-68 327 engines, 1969 or later valve covers must be used.

25-111722	For Non EGR	279.99 ea.
-----------	-------------	------------

* Check Hood Clearance Before Installing Intake

Torque Plus Intake Manifold Gasket

• *Better Fuel Efficiency*
• *More Throttle Response*

Applies racetrack technology to your everyday driving. Economical device will improve your 1963-67 vehicle's fuel efficiency by 15% and low end torque by 7 ft. lbs.

Spray Trim Adhesive

- Ideal For Bonding Carpet, Jute Padding And Interior Trim 18.1 Ounce
- Yields A Clear, High-Strength Bond

25-253632 3M 28.99 ea.

Cannot ship by air

1963-67 Interior Dye

- Exact Match In Color
- Long Lasting-Out Lasts Paint
- 12 Oz. Aerosol Spray

Formulated and mixed to match our leather or vinyl interiors. This new dye normally requires only one coat if primer P/N 25-168625 or 25-168624 is used first. Made to last and retain color fastness, this dye will make your restoration or just interior upgrade perfect. This spray can will cover most jobs unless changing interior colors.

25-243685 12 oz Spray 18.99 ea.

25-245871 Quart, cannot ship by air 64.99 ea.

Interior Dye Prep and Clear Coats

Formulated to complement the interior dye for a professional and lasting appearance. Cannot ship by air

Primer

Spray primer on any part that the color is being changed from dark to light.

25-168625 12 oz. Spray 17.99 ea.

25-168624 Quart 64.99 ea.

Adhesive Promoter

Use the promoter after the spray prep. Promoter will create a bonding surface for the primer to adhere.

25-257059 12 oz. Spray 16.99 ea.

Surface Prep

Along with the specifically formulated adhesive promoter, spray prep is highly recommended to give long wear and tear to your newly dyed interior.

25-257051 12 oz. Spray 20.99 ea.

Clear Coat

When high metallic color or just putting dye on hard plastic, use the clear coat to protect against scratches or running.

25-255883 12 oz. Spray 17.99 ea.

1963-64 Original Foam Back Loop Carpet

Original foam back loop carpet sets have an impregnated gray latex foam backing for an accurate restoration. Carpet insulation kits or heat barrier kits may also be utilized for additional noise and heat reduction. Features include the correct binding, heel pad and dimmer switch grommet. 1964 coupe carpet sets include the power vent carpet section.

1964-67 Glove Box Door Restoration Service

- *New Aluminum Insert*
- *Renew Front Face*
- *Renew Rear Of Glove Box Door*

Fully restore your glove box door to like-new condition (Emblem extra if required). We'll replace your old aluminum insert with a shiny new face, strip the paint off the front face and paint it with the correct color and texture of paint as well as refinishing the rear of the face to like-new condition and finish by replacing all rivets. This service is for door only. Please see website or call 1-800-327-4868 for complete details regarding processing of our restoration service.

25-125090 219.99 ea.

1963-67 Clock Restoration Service

Standard Movement

- Step 1: Outer cases are glass beaded, inside and out.
- Step 2: Inside is repainted.
- Step 3: Outside is sprayed with a rust preventative sealant-not a paint. Retains the original finish.
- Step 4: Bezels, lens retainers and pointers are repainted their factory colors.
- Step 5: Clock movements are cleaned, inspected, worn parts are replaced, oiled and calibrated for proper time keeping.
- Step 6: Clock faces are cleaned and polished.
- Step 7: Clock lenses are buffed or replaced. Clocks are then reassembled and tested for accuracy and reliability.

Quartz Conversions

Same procedure as above apply except for installation of a new U.S. Made quartz movement.

1963-67 Classic Instruments Upgrade Gauge System

- **Modern Gauges For Your Classic C2 Corvette Stingray**
- **Direct Fit Machined Panel Bolts Directly To Original Dash Bezel**
- **4 5/8" 140MPH Speedometer and 8,000 RPM Tachometer**
- **2 1/8" Fuel (0-90 ohms), Oil Temp, and Volt Gauges**
- **Fits OE or Modern EFI Powertrain Combinations**
- **Low Step Polished Bezels, Flat Glass, & Cutouts For Your Original Warning Lights**
- **Gauges Are Pre-Wired, Mounted, & All Includes All Necessary Sending Units**
- **Additional Warning Light In Place of Trip Odometer**
- **Includes Detailed Instructions & All Necessary Hardware**
- **5-Year Limited Manufacturer's Warranty & Made In The USA**

Factory original C2 Corvette mechanical gauges can be highly inaccurate, faded, and even cease to function...leaving you not knowing what the vital functions of your engine are really doing. But, you can do something about that by modernizing with this Classic Instruments gauge upgrade kit. Engineered as a complete, direct-fit solution, this upgrade gauge kit includes everything you need to get your Stingray Corvette into the 21st century. A

precision machined panel houses accurate pre-wired electronic gauges from Classic instruments. This package features a 4 5/8" 140 MPH speedometer, and 8,000 RPM tachometer, a 2 1/8" fuel gauge (0-90 ohms), oil pressure, water temperature, and volt gauges. You'll appreciate their retro appearance as well as their precision accuracy. And, they work with your OE or modern powertrain options including those running EFI and an ECU. The system is designed to use the original warning and indicator light locations and includes an additional warning light in place of the trip odometer. All necessary sending units and detailed instructions are included.

1963-67 Dakota Digital VHX Guage System

NEW

- Carbon Fiber Style Face
- Micro-Controlled Precision Stepper Motors
- Solid State Sensors For Unparalleled Accuracy
- Fully Lit Needles, Backlit Faces
- Visible LCD Message Centers
- User-Customizable Display Feedback
- Blue LCD Display

The new VHX Systems fit directly into the stock instrument housing of a 1963-67 Chevy Corvette without modification, adding a wealth of features to this iconic vehicle. Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback

1963-67 Steeroids Rack And Pinion Conversion Kits

- **Completely Bolt-On Installation**
- **30 Year Leap Forward In Steering Technology**

The Steeroids system completely replaces the original steering system with an up-to-date rack and pinion. The difference between even a brand new stock C2 and a rack and pinion system is remarkable. And best of all the conversion is completely bolt-on and requires no permanent modification to your Corvette. The kit includes a remanufactured GM rack and pinion, all necessary mounting hardware, fasteners, adapters and hoses. The only item not included is the power steering pump which we assume you have. All steel components in the kit are black powder coated and the aluminum components are anodized.

* Replaces Factory Power Steering Control Valve. Note: Non power steering requires purchase of pump And all brackets (See Page 121).

1963-67 Steering Box Rebuild Kits

- **Great For Do-It-Yourselfers**
- **Allows You To Keep Original Casting**
- **Provides "Quick Design" 16:1 Ratio For Improved Response**
- **Unlike Other Kits This One Doesn't Make You Recycle Old Components**

For the Corvette enthusiast who would prefer to keep the original GM casting, we offer a parts kit to rebuild your own box. Most rebuild boxes on the market only have new bearings, races and seals installed. This kit enables you to remanufacture your own steering box with ALL NEW components including: Worm and Nut 16:1 Ratio Sector Shaft, Bushing Kit and Bearing And Seal Kit. Note: Remanufacturing your own steering box requires some technical expertise and some machining may be necessary (i.e. bushings).

1963-67 Stage I Steering Parts Kit

- Improves Steering Prolongs Tire Wear
- Maintain Alignment

Return tight, accurate steering to 1963-67 Corvettes with Eckler's I Stage Steering Kit. These components are built to a closer tolerance for less play and provide grease fittings for extended wear. Heavy duty steering parts maintain alignment settings better for reduced tire wear and improved steering. Included in this kit are heavy duty inner And outer tie rod ends, upper And lower ball joints and a heavy duty idler arm. Installation requires average mechanical skills and basic hand tools. Once installed, an alignment is recommended.

25-159754	129.99 ea.

1963-67 Suspension Package

• Complete Engineered Kit

This specially designed package improves both ride and handling at a very affordable price. Balanced anti-sway bars assure flat, neutral steering. New springs restore ride height and lifetime gas shocks smooth and control the car.

Kit includes: 1-1/8" Front Anti-Sway Bar Kit, 3/4" Rear Anti-Sway Bar Kit, 460 Lbs./Inch Powder Coated Front Coil Springs, KYB GR2 Gas Shock Absorbers, 9-Leaf Rear Steel Spring, Rear Spring Urethane Mounting Hardware Kit

25-111628 ■■ Steel Spring

599.99 kit

25-112986

1963-67 Max Performance Suspension Package

Kit Includes: Heavy Duty Upper A-Arms, Stainless Steel Trailing Arm Shim Kit, Polyurethane Trailing Arm Bushings, Crossmember Reinforcement Kit, Polyurethane Differential Bushing Kit

Fully adjustable front and rear spring systems to fine tune spring rates. Smart struts® for maximum rear camber control ideally balanced sway bars (1 1/8" front/ 3/4" rear) to complement the Bilstein digressively valved gas shocks. In addition to the MIG welded upper control arms you get a complete polyurethane front end rebuild kit plus the following parts.

25-112986 ■■

2699.99 kit

1963-67 Advanced Street And Slalom Suspension Package

• Ideal For Serious Street Performance

• A Marked Improvement Over Factory F-41 Suspension

This system, using the composite rear monospring rated at 330 Lbs. will provide not only a better ride but much better reaction than the stock steel spring. The 550 lb./in. front powder coated coil springs are a big step above stock springs. When you combine this with the modern technology of Bilstein Sport Gas Shocks, beefier sway bars and polyurethane suspension bushings you get a complete suspension makeover at a very economical price.

Kit includes: Front Coil Springs And Sport Rear Composite Monospring, With Mounting Hardware, Front And Rear Bilstein Sport Gas Shocks, Polyurethane Shock Mount Grommets, Addco 1.125" Front And .750" Rear Sway Bars, Polyurethane, Adjustable Smart Struts

25-127854 ■■

1109.99 kit

1963-67 Performance Suspension Package

Designed for more aggressive driving, this package is a step above the famous F-41 option. Composite monospring rides better than a steel spring, Bilstein gas shocks dampen better and adjustable strut rods lock down the rear end.

Kit includes: 1-1/8" Front Anti-Sway Bar Kit, 3/4" Rear Anti-Sway Bar Kit, 550 lbs./Inch Powder Coated Front Coil Springs, Bilstein Shock Absorbers (Yellow), Adjustable Strut Rods And Brackets, 330 lb. Sport Composite Rear Monospring

25-111635 ■■

1109.99 kit

1963-67 Suspension Package With Composite Rear Monospring

- Also Available With 9-Leaf Rear Steel Spring (P/N 38629) • Complete Engineered Kit

This specially designed package improves both ride and handling at a very affordable price. Balanced anti-sway bars assure flat, neutral steering. New springs restore ride height and lifetime gas shocks smooth and control the car.

Kit Includes: 1-1/8" Front Anti-Sway Bar Kit, 3/4" Rear Anti-Sway Bar Kit, 460 lbs./Inch Powder Coated Front Coil Springs, KYB GR2 Gas Shock Absorbers (Different Appearance Than Pictured), 340 lb. Composite Rear Monospring, Rear Spring Mounting Hardware Kit With Urethane

1963-67 Stage 1 Handling Kit

- An Immediate Re-Connection To The Road
- Cost Effective Parts To Refresh Handling
- Easy Installation

25-159753 ▲

249.99 kit

1963-67 Stage III Handling Kit With Steel Spring

- Improved Front Spring Design Improves Handling And Ride
- Rear Spring Replacement Refreshes Ride And Handling

Springs like other components wear so gradually most drivers don't realize they are bad until they notice the car is sagging or sitting uneven. Restore ride height and reduce unwanted suspension movement with new springs. In this kit we recommend upgrading the front springs to an easier to install, higher spring rate (550lbs.) spring. Its unique design lowers the front end 1/2 to 1 inch for improved handling and the higher rate reduces unwanted nose dive under braking. Refreshing the rear spring greatly improves ride quality by retaining the factory arch design and retains factory spring rate. Installation is easy with average mechanical ability and basic hand tools.

25-159750 ▲

199.99 kit

1963-67 Super Street Handling Kit

- Revives Sports Car Like Handling
- Restores Ride
- Upgrades Sway Bars For Improved Handling
- Upgrades Rubber Bushings To Polyurethane

Eckler's Stage IV Super Street Handling Kit combines our Stage I, II And III into one, more comprehensive kit for the 1963-67 Corvettes. In addition, the Stage IV Kit upgrades the factory rubber upper and lower control arm bushings to polyurethane, upgrades the factory rear strut rods to HD polyurethane adjustable strut rods and HD steering rods. These additions complement handling and greatly improve durability of your suspension for years of crisp, responsive handling and ride. Installation is slightly more in depth but can be accomplished with above average mechanical ability and basic hand tools.

1963-67 Adjustment Coilover Suspension Kits

Kit Includes: QA-1 Shocks, 550# or 450# Hyperco Coil, Springs, 4 Light Weight, Tubular A-Arms With Ball, Joints, 2 Upper Shock, Mounting Brackets, Spanner Adjustment Wrenches

Upgrade your Corvettes suspension with coilover system. You can make adjustments to fit your driving. This kit will lower your front end approx +/- 1" depending on the condition of your current springs. Complete with Chromoly Steel tubular A-Arms with Delrin bushings and new ball joints, this kit will reduce the Corvette weight. They are black powder coated for years of service. The upper A-Arms have a 6 degree positive caster for improved highway stability. Combined with one of the rear systems, you will have control to make any adjustments to fit your driving.

2299.99 kit

1963-67 Front Monospring Kit

Upgrade your ride and handling on 1963-67 Corvettes with the installation of C4 composite spring technology. In less than

4 hours you can bolt in a transverse mounted composite spring using your factory parts. This kit includes mounting brackets, composite spring, hardware and instructions. Installation requires drilling 4 holes and can be accomplished by any competent do-it-yourselfer. Once completed, the ride and steering of your 1963-67 response will be greatly improved.

1963-67 Grand Touring And Gymkhana Front Coil Springs

- **Powder Coated Grand Touring Springs**

Better handling than stock, but less harsh than Gymkhana springs, is the best way to describe the performance of these springs. They are rated at 460 lbs/inch and fit all 1963-67 Corvettes.

Gymkhana (F-41) Springs

These springs are rated at 550 lbs/inch.

25-122753 Grand Touring 79.99 pr.

25-122752 Gymkhana (F-41) 79.99 pr.

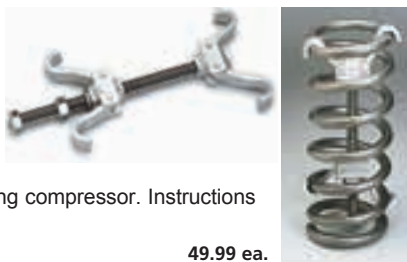

25-122753

Note: Ride height may vary, depending on the type and condition of your original Corvette springs.

1963-67 Coil Spring Compressor Tool

Make replacing coil springs a quick and safe job with a coil spring compressor. Instructions included.

25-253267 49.99 ea.

1963-67 Coil Spring Spacer

Hard rubber coil spring spacers fit in lower control arm spring pocket. Will increase ride height approximately 1 inch.

25-114646 18.99 ea.

1963-67 Complete Front Monospring System

Kit replaces the conventional front coil springs with a composite mono leaf spring, allowing you to realize the technological advances of the transverse design. You'll feel an amazing improvement in both ride comfort and handling! The kit installs in approximately 5 hours and requires no modifications or welding. Included are pre-assembled, powder coated control arms, with smooth riding polyurethane bushings, new heavy duty ball joints, composite spring and hardware. In addition, this kit offers ride height adjustment and adjustable spring rate.

25-122903 Lower 1199.99 kit

1963-67 Rebuilt Upper Or Lower Control Arms

Completely disassembled, inspected and powder coated or painted. Reassembled with new ball joints, and bushings. Available with rubber or polyurethane bushings. Add \$100.00 core charge, refunded upon receipt of rebuildable core. (Rebuildable cores must not be bent, excessively rusted, and must have round bushing holes and end link tabs intact). Please return cores to Eckler's at 12285 West Steet, Clearwater, FL 25-107501 along with a copy of your invoice.

1963-67 Heavy Duty Upper Control Arms With Ball Joints

Custom made upper control arms are stronger than stock because of the squared-tubing design and MIG welding. These arms bolt on to all 1963-67 Corvettes without modification yet allow additional caster setting. They feature heavy duty offset shafts and polyurethane bushings and new ball joints. Powder coated.

1963-67 Sway Bar Handling Kit Stage II

- Sway Bar Upgrade Reduces Body Roll
- Provides Improved Cornering With Larger Sway Bars
- Prolongs Tire Wear Via Better Tire Contact
- Improves Driver Confidence With A More Predictable Handling Corvette

Eckler's Stage II Handling Kit up-sizes the factory sway bars to 1-1/8" in the front and 7/8" in the rear for a marked improvement in handling. Shown in gold, comes in black powder coat.

25-159752  269.99 kit

25-122804 Includes Urethane Bushings

Shown In Silver, Bars All Come Black Powder Coated

1963-67 Sway Bar Systems

Significantly reduce unwanted body roll with larger diameter anti-sway bars. Easily bolted to your chassis, the sway bars can be adjusted to suit your specifications. You decide just how much reaction you want out of the bars. Kits include the bar, two center brackets and urethane bushings, plus outer link kits with urethane bushings, springs and hardware.

1963-67 Off-Set Trailing Arm Rear Sway Bar Kit

- Must Be Used With Off Set Trailing Arms Only
- 5/8" Bar All Hardware Included
- Black Powder Coated For Protection

This kit restores handling lost to the lack of a rear sway bar when using a deep back spaced wheel. The new fitment is now with in the confines of the chassis's frame and is designed to attach only to an Off Set Trailing Arm. The bar is designed to provide torsional roll resistance between the 5/8" and 3/4" OE style bar. Included in this kit is a black powder coated chromoly bar, polyurethane bushings, powder coated brackets, end links and needed hardware. The manufacturer warrants this bar against defects for as long as you own the car.

1963-67 Smart Struts And Performance Camber Rod Kit

- **Increases Rear Wheel Traction**
- **Reduces Uneven Tire Wear**

Give your Corvette's rear suspension the competitive edge. Smart Struts increased adjustability and rigidity improves suspension geometry, eliminating camber change during suspension travel. This keeps more of the tires contact patch on the ground at all times. The result is improved traction and stability during hard cornering, as well as more off the line traction. Its heavy duty construction will also maintain alignment settings better than the factory components under aggressive driving maneuvers. Kit comes complete with: heavy duty upper strut rod mounting bracket, custom poly-adjustable struts, all hardware and instructions.

1963-67 Bilstein Gas Shock Absorbers

- **High Pressure Gas Shock**
- **Our Best Performance Shock**
- **Available In Both Heavy Duty & Sport Versions**
- **Limited Lifetime Warranty**

Bilstein high pressure gas shock absorbers offer all the advantages of a gas shock, plus construction and performance features that are incomparable. Bilstein shocks feature a seamless, mono-tube construction for fast heat dissipation and finely machined components to yield the most sensitive valving available today. Can not ship by air.

Bilstein heavy duty shocks are made for street driving but provide a little extra for performance type driving.

1963-67 Stainless Steel Trailing Arm Alignment Kit

Unlike GM adjustment shims these parts won't rust, making rear end alignment much, much easier. This kit costs less than the price of buying the shims separately and includes (enough for both arms): 24 stainless steel alignment shims (in 4 sizes), grade 5 pivot bolts, cotter pins, castle nuts and 4-1/2" long cotter pins. Instructions included.

1963-67 Dual Mount Rear Composite Monospring Kits

Dual Mount Monospring Kit can be set for a soft ride or high performance handling by simply changing the mounting block adjustment points. You can also adjust the ride height up or down 1" using the adjustable spring bolts. This kit will work with any front spring setup and rate (from stock to 860 lbs./in.) and is ideally matched to front monospring kits. Installation is all bolt-on with the exception of 4 holes which must be drilled into differential crossmember for bolting on the kit's two mounting brackets for 63-67 Corvettes. The kit includes a specially made rear monospring, adjustable long spring bolts with polyurethane cushions, mounting brackets, blocks and plates and all necessary hardware and installation instructions.

25-122871	▲▲	639.99 kit
-----------	----	------------

25-122862

1963-67 Composite Replacement Rear Monospring Kits

Composite monospring restores lost ride height, eliminates leaf spring squeaking, and provides a smooth, comfortable ride without sacrificing performance, and best of all - it never wears out. Weighing only 8 lbs., the monospring reduces unwanted, unsprung weight while improving handling performance at the same time. The spring is supplied with complete, step-by-step instructions, differential mounting kit, heat shield and 7-1/4" adjustable long spring bolts with new rubber cushions.

25-122862 ▲ 315 lbs-For SB Engines w/Std. Susp.* **389.99 kit**

25-108659

5 Year Warranty

1963-67 Composite Replacement Rear Monospring

Eliminate your Corvette's choppy ride, restore lost ride height and eliminate unearthly squeaks and moans, all by replacing your worn out steel leaf spring with a composite monospring. A composite monospring will give you a smooth, comfortable ride and will do so without sacrificing performance. Another benefit of the monospring is it never wears out. Weighing only 8 lbs., the composite monospring also reduces unwanted, unsprung weight while improving handling performance at the same time. Direct replacement for 1963-67 Corvettes and is available in four spring rates —

300 lb. Composite Monospring Usage

Replaces a 9-leaf stock and rides VERY soft. Suggested for use only on 1963-67 small blocks

25-122796 ▲ **369.99 ea.**

330 lb. Composite Monospring Usage

Our most popular spring. Can be used on any 1963-67 small block car. Not as harsh as a Gymkhana 7-leaf stock steel spring. Rides and handles great. Ideal when combined with Grand Touring front coil springs.

25-108659 ▲ **369.99 ea.**

25-122797

360 lb. Composite Monospring Usage

The Street/Slalom spring. Recommended for all big block cars and those wanting greatly enhanced handling. This high performance spring gives better ride than a 7-leaf with far superior handling. Ideal spring to use with Gymkhana (F-41) front coils (550 lbs./inch) or the Front Transverse Leaf Spring Kit.

25-122797 ▲ **369.99 ea.**

25-112787

420 lb. Composite Monospring Usage

Increased stiffness. Racers and drag racing. Direct substitute for Daytona Steel spring (400 lbs./inch).

25-112787 ▲ **369.99 ea.**

1963-67 Replacement Rear Leaf Springs

Our stock replacement rear leaf springs are available in both the standard 9-leaf and 7-leaf Gymkhana (F-41) Design.

25-122826 ▲ Standard 9-Leaf 2 1/4" wide **149.99 ea.**

25-122827 ▲ Gymkhana 7-Leaf 2 1/4" wide **159.99 ea.**

1963-82 Aluminum Shark Bite Suspension Spreader Bar

New Shark Bite Suspension Spreader Bar for small block Corvettes equipped with Sharkbite control arms. With this important accessory it is now possible to stabilize and stiffen the cross member. The C2 and C3 cross member is notorious for the flimsy vertical attachment on the cross member where the upper a-arm bolts on. This weak point allows the upright to settle and flex inward, adversely changing the suspension geometry. With this new kit owners can spread the sagging vertical mounts back to their proper upright position in minutes and dramatically improve & stabilize the suspension geometry. Installation takes about ten minutes with normal hand tools. The kit comes complete with durable black powder coated left and right fittings, mounting hardware and aluminum spreader bar with spherical rod ends. Fits all small block equipped Corvettes from 1963-82

25-112780		36.99 ea.
-----------	--	-----------

1963-67 Richmond 5-Speed Transmission

Install a 4 + 1, 5-Speed Transmission and get the effect of a new rear axle ratio without the gas mileage penalty. The first four gears in the transmission (3.27, 2.13, 1.57 and 1.23) give the bullet-like acceleration while the 1 to 1 ratio of the fifth gear (the same as stock) lets you retain your normal cruising RPM's and mileage. In addition to the performance improvements, the transmission, housed in a lightweight aluminum case, also has stronger gears than the stock transmission. The 4 + 1 will bolt directly to the bell housing of all 1963-67 4-speed Corvettes.

1963-67 Ram Premium Clutch Kits

- Upgrade Over Original Equipment
- Pressure Plate, Disc And Throwout Bearing

Clutch Kits are matched pressure plate, clutch disc and throwout bearing sets that have been designed for engines that have been mechanically upgraded over stock. These sets are direct replacements for stock assemblies and require no additional effort in driving. The additional torque capacity of these clutches is the result of a much improved clutch disc friction material that can withstand the added power output and aggressive driving style of today's mildly modified street combinations. Each set includes a pilot tool to make alignment of the disc a snap.

25-110088	▲ 1965-67 11" Small And Big Block (10 Spline)	183.99 kit

1963-67 Centerforce II Clutch Sets

- Reduces Pedal Pressure
- Greater Holding Capacity

The Dual Friction System Kit includes the clutch plate and disc, and generates up to 90% more holding capacity over stock systems. Designed for use in engines producing high horsepower and torque output. The Centerforce II System, comprised of a clutch plate and disc (purchased separately) generates up to 60% greater holding capacity over stock systems and is designed for mildly modified vehicles used for street and strip driving.

1964-67 Eaton® Posi-Traction Differential Carbon Fiber Clutch Pack

- Ideal Upgrade For High Horsepower Cars
- Carbon Fiber Clutches Are Virtually Indestructible & Thrive On Repeated Harsh Engagements
- Carbon Fiber Also Eliminates Annoying Clutch Chatter During Turns • Do Not Use Synthetic Lube

To eliminate posi-traction clutch slippage and to assure smooth, quiet operation, Eaton's Carbon Fiber Clutch Pack should be your first choice for a stock rebuild or hi-performance upgrade. In addition to more grip, you'll also get greater clutch life with Eaton's carbon fiber technology.

25-106650

1963-67 Differential Remanufactured Side Yokes

- Eliminate Unnecessary Repair Expenses
- Lifetime Warranty Against Wear Or Failure

The stock side yoke ends wear down depositing damaging metal into the rear end. Worn yokes cause rear wheel camber problems which causes tire wear. Our retrofitted side yokes are made from original GM yokes. Once reconditioned, precision machined 0-1 tool steel button inserts are installed in the ends. The button insert itself is hardened and press fit into the yoke. Core charge added.

Core Charge

25-122873	Yoke For Use w/U-Bolt Attachment	111.99 ea.	25.00
25-122874	Yoke For Use w/Threaded Cap Attachment	111.99 ea.	25.00

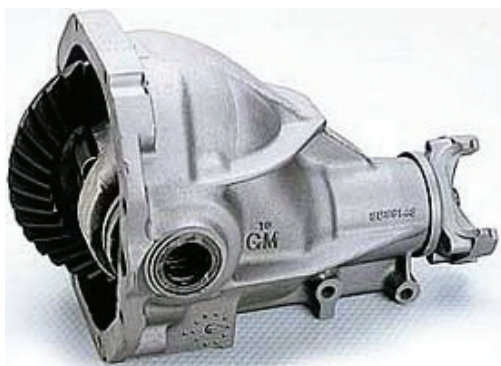

Note: Please return cores to Eckler's at 5225 South Washington Ave., Titusville, FL 32780 along with a copy of your invoice.

25-122887	Seal	7.99 ea.
25-249550	Snap Ring	4.99 ea.

1965-67 Rebuilt Differentials

- Professionally Rebuilt
- Gears Set To Factory Specs
- 1 Year Unlimited Mileage Warranty

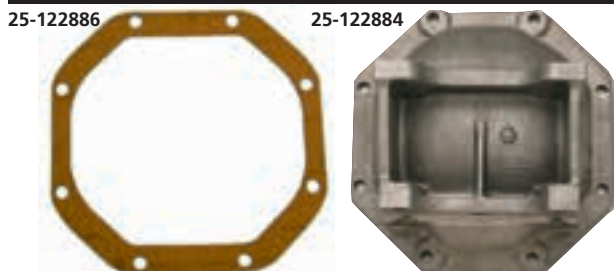

Each unit is equipped with new Timken bearings, races and seals. In addition, you receive a new positraction clutch pack. As specified below the differentials are rebuilt with all new gear sets. A \$450 core deposit will be added to the price of the differential. The core deposit will be refunded upon receipt and inspection of a rebuildable core. A deduction on the core will apply for cracked cases, egg-shaped pinion shaft holes, broken ring gear bolts and broken gears. Please specify front yoke diameter (3.75" or 4.25 OL). Note: Cores must be returned within three weeks of invoice date in order to qualify for any refund. Sorry, no exceptions.

1963-66 Original Style Knock-Off Wheels And 1963-66 Direct-Bolt Knock-Off Wheels

- *Reproduction Of Original*
- *Completely Retooled*
- *Correct Mounting Hardware*
- *All inclusive Sets - Wheels And Hardware*

If you want the look of original knock-off wheels but the convenience of bolting the wheels to the hub, choose our direct-bolt knock-off wheels. the only different is the hardware and direct-bolt are virtually indistinguishable from functional knock-offs.

1953-14 Corvette Black Book

NEW

Engineers and designers left nothing untouched in the 2014 Corvette, the first model of the icon's seventh generation. Corvette Black Book presents 2014 data in the clear, concise, accurate and easy-to-read style that has made it the best-selling Corvette title ever. The book also wraps up sixth-generation 2013 coverage with production quantity stats for models, colors and options. The 2013 was both the last of the sixth-generation, and the Corvette's 60th year, dual milestones honored with special commemorative models including the Z06-powered 427 Convertible, the fastest soft top in Corvette history. 160 pages, softbound, 4.375" x 10" vertical, 67 b/w photos, uncountable facts.

1963-67 Ferguson Cockpit Cover

NEW

- Sun Protection
- Easy Install • Custom Fit
- Best Grade Marine Vinyl Available
- Quality Mounting Hardware
- Manufactured By True Craftsman In the USA

The Ferguson Cockpit Cover keeps your Corvette interior cooler and protects from harmful UV rays. Its right fit also keeps out the dust and the rain. It requires no modifications to install and will not scratch the paint. Made of heavy duty, fire retardant, denim backed water-proof vinyl.

25-121935 179.99 ea.
25-257004 Sunjacket Cover 209.99 ea.

1963-13 Cool Cap™ Cockpit Reflector Cover

- Reduces Heat Of Interior Compartment
- Light Weight & Easy To Store Inside • Easy To Install

The Cool Cap™ works by covering the roof and windows of a vehicle – stopping the heat from getting into the car's interior. In their testing, they have recorded temperatures as high as 210°F on the dashboards of vehicles on 90°F and hotter days. In the same conditions, cars covered with the Cool Cap™ remain over 90°F cooler. Made from Reflectionite fabric.

1963-67 Cleartastic Invisible Paint Protectors

- Rear Of Each Wheel
- Protects Paint From Stone Chips
- Removable & Reusable, Adheres By Static Cling

Cleartastic is a great way to protect your paint without drilling or adhesives. Precut and shaped to fit beautifully on your Corvette. The ultra clear film lets the body color show through. Once applied, they are almost invisible. Easy to apply.

25-127405 24.99 pr.

Padded, bendable ears are part of what makes the Covercraft masks easy to install.

All nose mask edges are bound with sun-fast black cotton tape to prevent scratches.

1963-67 Nose Mask

- Allow Lights And Hood To Open

Covercraft's nose masks combine superb protection and great looks. Aerodynamically designed not to flap or lift, the mask installs without tools. All masks allow hood and headlights to open and close freely. Seams are overlapped and stitched for long-lasting durability. Covercraft masks are easily cleaned with a damp cloth.

25-118208 139.99 ea.

Covercraft's super soft, flannel-napped cotton lining ensures your Corvette's fine finish will never get scratched.

1963-67 Covercraft Ultra-Violet Sun Shield

Battery Tender

- **Safe, Reliable, Trouble Free Battery Care**
- **Developed To Maintain Batteries Not In Constant Use Or Storage**

Automatically switches off after fully charging to storage charge constantly monitors the battery without the damaging effects of trickle charging. The initial charge cycle of the Battery Tender brings a battery to a full charge at approximately 14.4 volts about 1.25 amps. After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts. Although there is a constant voltage of 13.6 volts being applied to the battery, it is doing so at very little or no current. What this means to the user is safe, reliable, trouble free battery care. Equipped with 6' power cord, and 6' output cord with clamps, 5 year warranty.

Battery Tender Waterproof 800 Charger

- **Charges Battery And Maintains Proper Storage Voltage Without Damaging Effects Caused By Trickle Chargers**

The Battery Tender Waterproof 800 is perfect for outdoor use. Its circuitry is epoxy encapsulated so it will perform even while submerged under water. The unit packs 800 milliamps of pure charging power yet it is no larger than the size of a standard computer mouse. You can use Battery Tender anywhere in the world (100-240VAC 50/60 Hz) and the unit is reverse polarity protected, spark proof and it complies to international safety standards (UL/CSA/CE). Like all Battery Tenders, it has a microprocessor (brain) that controls the charging of each battery so that your battery doesn't get "cooked" the way conventional chargers can do. This lightweight unit weighs only 1 lb. and carries a manufacturers' 2 year warranty.

25-253879

49.99 ea.

12 Volt Automatic Battery Storage Float Charger

- **Keeps 12V Battery Fully Charged Without Overcharging For Long Term Storage**
- **1 Year Warranty**
- **Provides Constant, Regulated Current To Keep Battery At Peak Capacity**

25-253257

18.99 ea.

Battery Mat

Mats absorb battery acid to protect the battery, holder and surroundings from corrosion. Mats are 8" x 12", trim to fit.

25-253883

6.99 ea.

Battery Tender 2 Bank Charger 12 Volt

- **2 Independent Charging Stations**
- **Developed To Maintain Batteries Not In Constant Use Or In Storage**
- **Fully Automatic Charger**
- **12 Volts @ 1.25 Amps Per Station • 100-240 VAC 50/60 Hz.**
- **Operates anywhere In The World! Reverse Polarity Protection To Ensure User Safety**
- **Microprocessor Controlled Constant Current Charging • 2 Year Warranty**

25-313686

129.99 ea.

Priority Start

- **Guarantees Battery Power For Starting**
- **Simple Installation 3 Easy Connections**

Detects excess voltage drain due to lights left on, door ajar, radio on, even short circuits, and it automatically disconnects the load. When the key is turned on, it automatically reconnects the battery and your car starts. Priority Start is easy to install and is backed by a 3-year warranty. Priority Start fits both side post and top post batteries, hardware included.

25-285771

112.99 ea.

Battery Quick Disconnect Switches

- **Avoid Short Circuits And Battery Drain**

Just twist the handy knob and cut off current at the battery. Simple switch installs in minutes and easily removes to return to original condition. Purchase bypass wire to eliminate hassle of resetting stereo and other ECM functions.

25-253920 Top Post Battery 9.99 ea.

25-253491 Side Post Battery 9.99 ea.

25-253658 Bypass Circuit for ECM/Radio Memory (Top Post) 3.99 ea.

25-253656 Bypass Circuit for ECM/Radio Memory (Side Post) 3.99 ea.

Side Terminal Battery Wrench

Ratcheting box wrench features an insulated handle and nickel plating for faster, safer disconnection.

25-253303

5.99 ea.

OPTIMA® Batteries

- **Great For High Watt Demand Electrical Systems**
- **Won't Leak Like Stock Batteries**
- **Spiralcell® Technology**
- **750 Cold Cranking Amps**

Black Satin Jacket With C2 Logos

- Embroidered Front & Rear Logos
- Snap Front Closures
- Knit Collar, Cuffs & Waistband
- Soft Felt Inner Lining Imported Sizes S-XXL

Get in the game with this luxurious solid black satin Corvette jacket from Eckler's. Superbly made from heavyweight Pro-Satin nylon, this full-cut coach's style satin jacket with set-in sleeves is warmly lined with Kasha, a soft flannel-like material that allows great freedom of movement. Inviting comfort features on this satin jacket include a stretch nylon knit collar and cuffs to keep out the chilling wind and a matching knit waistband to give a form-fitting, neat appearance.

Knit Blankets

- Measures 63" x 53"
- Special Acrylic Yard
- Highly Resistant To Fade, Abrasion and Pilling
- Machine Washable
- Made In USA

Enjoy the warm comfort of this Corvette C1 logo blanket. Take it to car shows, ball games or just sitting around watching TV. This custom knit stadium blanket has a special grade acrylic yarn for a soft lush feel that is also highly resistant to fade, abrasion and pilling. The logo is knit into the blanket for superior wear unlike those that are silk screened. It is machine washable and measures 63" x 53".

Eckler's Family of Automotive
Parts Companies also includes
MAC's Auto Parts, Automation, and
Rick's Camaro.

Ordering is Easy!

We accept credit and debit cards, checks, and money orders, as well as first party, preprinted checks from U.S. banks with your order.

There will be a \$25.00 charge for all checks returned for insufficient funds.

Returns

We understand that from time to time, parts might not meet your expectations. You may return most parts for a full refund. Product must be received within 30 days of the date of the invoice to be eligible for a full refund. Items received from 31-60 days after invoice are subject to a 25% restocking fee. When returning an item, please enclose a copy of the original sales invoice and package the item in its original packaging. All returns must be unused, in original packaging, and prepaid. Allow up to 3 weeks from the date of shipment for processing, refunds, credits, and exchanges. Unfortunately, not all items are eligible for return. Date-coded (stamped) items, personalized items, custom carpet and floor mats, and custom clothing are some of the items that cannot be returned.

Shipping and Handling Rates

Once we package your order, we choose the fastest, most economical way to ship the packages from our facility to you. Depending on the weight and size of the package(s) in your order, we utilize services that offer package tracking. Items that are oversized (denoted by ) or exceed shipping limits, are sent to you via truck.

Rates apply to ground service shipping within the 48 contiguous states. Truck-shipped parts and rates for Alaska, Hawaii and Puerto Rico might vary.

 denotes items that ship via truck.

 denotes oversized dimensions or weight. An additional \$9.99 is added to the shipping and handling charges for each symbol shown.

Shipping Table

These costs include Eckler's exclusive Package Protection Plan.

Orders up to \$50.00	add \$9.99
\$50.01 to \$100.00	add \$16.99
\$100.01 to \$200.00	add \$22.99
\$200.01 to \$400.00	add \$30.99
\$400.01 to \$600.00	add \$38.99
\$600.01 to \$800.00	add \$44.99
\$800.01 to \$1,000.00	add \$50.99
Over \$1,000.00	add \$55.99

We Will Be Closed On These Days:

Memorial Day	Monday, May 25, 2015
Independence Day	Friday, July 3, 2015
Labor Day	Monday, September 7, 2015
Thanksgiving	Thursday, November 26, 2015 Friday November 27, 2015
Christmas	Thursday, December 24 Friday, December 25, 2015
New Year's Day	Friday, January 1, 2016

International Orders

We are International shipping experts. Many of our customers live internationally. With very few exceptions, all items are available to purchase either on the web or via phone or fax. Need an interpreter to place your order? Simply ask your sales agent and we'll assist you. We select the best carrier to ship parts to you most efficiently. Canadian and International shipping will be determined by your country, product dimensions, and product weight. We would be happy to give you an estimate over the phone or via email.

Need it Fast?

Have your order delivered within 1 or 2 business days by using Express Shipping! Express shipping is limited to in-stock, non-oversized items weighing less than 20 pounds. Orders must be placed Monday–Friday before 1:00 p.m. EST.

- Add \$19.99 to your shipping and handling rates for two-day delivery.
- Add \$29.99 to your shipping and handling rates for one-day delivery.
- For next day delivery of oversized or heavier items, please call our sales team for rates.

Same-Day Processing

Our standard U.S. order processing time for in-stock items is 24 hours. If you need your order processed the same day, simply call us M-F before 1:00 pm EST and request same day-processing. For \$3.95, we'll provide special processing of all in-stock parts through the warehouse the same day.

Prices in this Catalog

Eckler's is not responsible for pricing changes, errors, or omissions in this catalog or online.

Limited Warranty

Eckler's will not be responsible for any damage or loss caused by delays, failures, or other consequential damage, nor for labor, transportation, or any other charges incurred in the replacement or repair of a defective item. Eckler's is not responsible of any consequences resulting from the installation of any parts.

Gift Certificates

Gift certificates are available in any denomination and are redeemable for any items we sell.
