Car Covers

Our car covers "breath" so well that you'll never have to worry about your paint...they're even mold and mildew resistant! They Offer excellent sun protection (second only to your garage) while preventing your interior and dash from fading and cracking. Our covers are custom fit for a specific make and model. This feature alone places them at the top of the line. Each cover is elasticized, front and rear, and has side tie-down grommets padded for your car's protection.

Multi-bond Fabric

Three-layer Sentrex fabric. The only mid-priced vehicle cover fabric that resists moisture while still providing breathability. Sentrex fabric has added UV stability to fight cover damage caused by ultraviolet rays. 2-year manufacturer's limited warranty.

Seat Upholstery

Our seat covers are manufactured in the original colors and materials. Professionally made from the finest quality materials available, with special attention given to the authenticity and quality of workmanship, these upholstery kits are preferred by many trim shops. The vinyl used for our seat covers is the correct weight, grain and color as original. Upholstered backs are included with correct stitching (where applicable). The front seats come in a pair for buckets or one front bench seat. A complete set includes the front bench or bucket seats and the rear seats. The bench seat covers include upholstery for the center armrest.

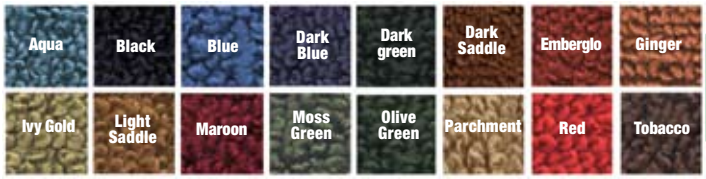
Carpets

Do you miss that "new car" look and smell? Let ACC help you to restore it. We can make a big impact on your auto's interior - for relatively little money. No interior restoration project is complete without an ACC carpet. Our carpet is two-piece press-molded with 1/2" jute backing and color-matched heel and toe pad (where correct). Carpet for '65-68 is available in Raylon loop or 100% nylon. '69-73 is 100% nylon loop. Simply fill in the body style code you need, then fill in the color code.

For example: 105CARP, would be a coupe body style carpet in moss green.

200CARP



Example: 1 01 CARP
body style color specific carpet

'64-1/2

'64-1/2 had a unique carpet which did not have a toe pad or cover the side of the rocker panel up to the sill plates.

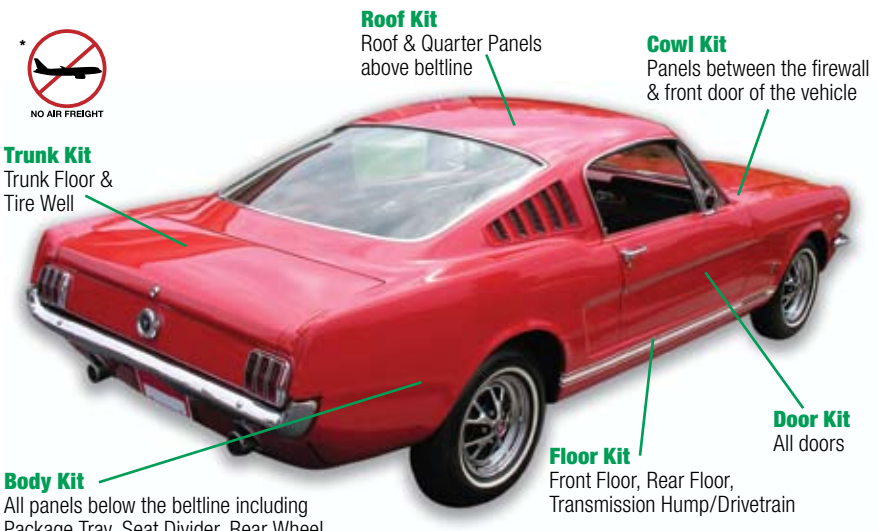
Acoustic Barriers & Heat Shields

AcoustiSHIELD *by Quiet Ride Solutions*

Multi-stage, automotive insulation & sound damping system gives the quiet riding comfort found in newer vehicles. Insulates and controls the noise, vibration & heat in the passenger cabin. Reduces road & mechanical noise, exhaust harmonics, body panel & audio system vibration & radiated & reflected heat.



Stage 1 Sound Damper Pads

The first stage consists of pre-trimmed, self-adhesive, Sound Damper Pads, bonded to strategically located trouble spots on the floor pan and roof of the vehicle to control body panel vibration and noise. These spots are mapped and labeled in detailed instructions which are included in the kit.

Stage 2 Heat Absorber/ Panels

The second stage uses a high-tech absorber/barrier material, bonded to the body panels, to both sound deaden and insulate the vehicle from radiant heat penetration from the engine and road. Each absorber panel is cut to the correct shape and contour and is mapped and labeled in the detailed instructions.

Kits Include:
- **Stage 1** Pre-Sized Sound Damper Pads
- **Stage 2** Pre-Trimmed Heat Absorber / Barrier Panels, Spray Adhesive and Sealing Tape
- **Complete Illustrated Installation Instruction**

LLOYD MATS

Premium Quality Lloyd Custom Logo Trunk Mats are available for every Mustang that rolled off the assembly line from 1965 to present model year. Choose from several officially licensed logos, the iconic galloping horse and Cobra Snake, to the renowned Shelby American, GT350 and GT500 logos.

These Classic loop trunk mats are made from stain resistant 20oz. yarn that is tuffed into a dense loop construction. This makes each mat both wear and crush resistant while allowing for easy cleaning.

All mats are backed with Lloyd's slip resistant, waterproof TractionBac!™ .

Interior Paint & Vinyl Dye

641809

Restore the vinyl and interior trim on your Mustang to the original color with our formulated finishes exact to OEM specifications. Each 12 ounce can features a Davern Fanspray nozzle which produces a professional finish on any surface. Use the paint for metal and plastic and the vinyl dye for soft flexible parts like your dash. All vinyl dye is semi-gloss.

We suggest using vinyl prep first before using dye.

Custom Gauge Clusters

Billet Instrument Bezels

CNC machined from billet aluminum. Bolts right in place of a stock bezel. Use with Wiring Harness, #WH1 to hook up to the stock harness.

IB11

This unique instrument bezel will allow you to install four 2-5/8" gauges of your choice, along with a 3-3/8" speedometer. Allows the use of the original rally pack gauges if your car is so equipped. Made of T6061 aluminum.

'65-66 No tach with 3-3/8" speedo and 2-5/8" gauge mounts* ..... **IB11** ..... **$474.95 ea**

**You must choose black, woodgrain or brushed aluminum face finish.*

50838W

This unique instrument bezel will allow you to install four 2-1/16" gauges of your choice, along with 3-3/8" speedometer and tachometer. Similar in design to the Shelby GT350 R cluster. With four gauge holes measuring 2" and two measuring 3-5/16".

Universal Aluminum Breather Tank

Managing internal crankcase pressure is important in high performance applications, and this remote mounted breather tank is a good way to do so. The internally baffled tank allows for crankcase ventilation while working as an air/oil separator. Tank includes two 3/8" NPT bungs mounted 180 degrees apart, as well as a drain petcock valve, a remote mounting bracket and cylindrical filter element.

Cylinder Heads

Ford RACING PERFORMANCE PARTS

CNC Ported "Z304"

This is a bare cylinder head with high-flow ports.

- Cast from A356 T6 aluminum
- 63cc CNC'd combustion chamber
- Intake port volume as cast 204cc
- Exhaust port volume as cast 85cc
- Steel alloy intake & exhaust valve seats installed (no valve job)
- Manganese-bronze valve guides installed w/ semi-finished ID
- Suggested valve size 2.02" intake & 1.60" exhaust
- Raised exhaust port exit, custom headers may be required
- Requires competition valve job & bowl blending
- Requires screw-in rocker studs & roller rockers

Cylinder Heads

Trick Flow® Fast-As-Cast

The intake and exhaust valves are moved closer to the center of the cylinder bore for better combustion. These assembled heads can be used with most intake and exhaust manifolds, and with camshafts up to 290° duration. Fast-As-Cast flows like CNC-ported heads right out of the box.

Track Heat 170 Cylinder Heads

Track Heat heads offer larger rocker studs & head bolt holes, than the Twisted Wedge heads. Designed for hydraulic roller camshafts. Trick Flow twisted wedge pistons are required for use with these heads to allow for piston to valve clearance with camshafts over .550 in. lift.

- 61cc CNC-profiled combustion chamber
- 2.02" Intake / 1.60" Exhaust Valves
- 170cc Intake runners & 66cc exhaust runners
- 1.460" O.D. Dual valve springs w/ dampers
- Maximum camshaft lift: 0.600"
- 10° Chromoly retainers & locks
- 7/16"-20 Rocker studs
- 5/16" Guideplates • No heat crossover
- 1/2" Head bolt holes
- Assembled with screw-in studs, guideplates & springs

289/302/351W Aluminum Heads

Cast aluminum fully assembled with:

- 185cc intake port • 60cc chambers
- 2.02" & 1.60" stainless valves
- .550" lift springs • Steel retainers
- 3/8" rocker studs • Guide Plates

Pistons may need notching for cams over 220 duration and/or .480" lift. Uses 351W 1/2" studs/bolts, 289/302 use reducer bushings, #TFS514419 and requires hardened pushrods.

Cylinder Heads

Air Flow Research cylinder heads feature CNC-machined aluminum construction. The thick 3/4" deck makes them great for blower/nitrous applications. All heads are fully assembled with screw-in studs, guideplates and valve springs. Sold as a pair.

NOTE: '86 5.0L MUST have pistons notched for valve clearance. All others should check piston/valve clearance to prevent damage, particularly with 2.02" or larger valves.

1-Requires screw-in studs & guide plates.
2-Requires machining on cylinder heads.
3-Timing set does NOT fit 250 engines.
7-Stock springs cannot be used, use with recommended CompCams springs only.
33-Pre '72 engines use part CC3220.
36-'62-69 use part #CC7632
37-Adjustable valve train required.
56-'63-67 with non-rail rockers or if equipped with studs and guide plates use part #CC1442.

Camshaft components are listed on the following two pages.

Nostalgia -The latest and advanced camshaft technology gives you the sound and excitement of the muscle car era, with additional power you can feel.
High Energy -High torque cams that work great on the street. You may notice an increase in your gas mileage when switching from a stock cam.
Xtreme Energy -These are COMP Cams newest in hydraulic and hydraulic roller cams. Their aggressive lobe design produces greater throttle response and top end horsepower while delivering increased engine vacuum.

CONCEPTONE PULLEY SYSTEMS

Engine Accessory Kits

CONCEPTONE Engine Accessory Kit w/ Serpentine Drive. Available in machined or polished finish.
Kits Include:

- 100 amp alternator, fan & pulley cover
- Tensioner w/ cover, Goodyear serpentine belt
- Billet crank, water pump, alternator & tensioner pulleys
- Bracket set for alternator & tensioner
- Chrome plated nuts, bolts & washers

Depending on your particular application your kit may also contain some or all of the following:

- A/C compressor w/hard lines & nose cover
- A/C compressor bracket
- Power steering pump w/billet mini reservoir
- P/S pump bracket

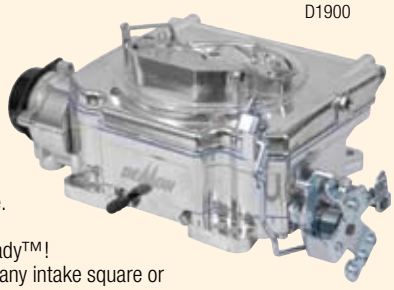
STREET DEMON™



D1900

The Street Demon offers enthusiasts a straightforward carburetor designed to deliver a stable idle, amazingly crisp throttle response and smooth performance. Its optimized calibration and dual mounting pattern make it Run–Ready™!

- Dual mounting bolt pattern - fits any intake square or spread bore
- Electric choke for easy cold starts
- Single fuel inlet
- Integrated fuel bowl/main body design with gasket above fuel level & no plugged passages to eliminate potential leak paths
- 1-3/8" primaries with Triple-Stack™ boosters deliver amazingly crisp throttle response & driveability, superior fuel atomization & improved fuel economy
- GVS™ makes total air flow 625 CFM while maintaining the crisp throttle response delivered by small primary bores
- Secondary air valve control - torsion spring valve for seamless primary to secondary throttle response regardless of the throttle opening rate
- 2 stage metering rods control easily accessible without carburetor disassembly
- Optional sets of metering rods available to refine calibration
- 4 optional vacuum step-up springs available to dial in hi-end performance
- Ford A/T kickdown (does not work with AOD transmissions)
- Aerospace composite fuel bowl version, #D1901) keeps fuel up to 20º cooler over aluminum for optimum performance with modern fuels

5-Speed Transmission Conversion Parts

T-5 Conversion Kits

This kit will help swap in a T-5 transmission with minimal changes to the car. It adapts as much of the stock pieces as possible to minimize modifications. There are two types of kits: one for those using original bellhousing and one for those using a late-model T-5 bellhousing. Kits include: adapter plate, crossmember, transmission mount, and slip yoke. Kits designed for T-5 bellhousings include fulcrum/spacer kit and no adapter plate.

Slides the 3rd and 4th gears back and forth to actuate them when needed.
'65-73 ..... **723018** ..... **$134.95 ea**

19. Reverse Gear Shift Fork
This small, odd-shaped lever/arm is what slides the reverse gear back and forth to actuate the reverse function.
'65-73 ..... **723019** ..... **$48.95 ea**

20. Shift Fork Set Screws
One set screw is used in each shift fork--the 1-2, 3-4, and reverse shift forks to retain the forks to the shifter cam and shaft. This is a set of 3, one set needed per transmission.
'65-73 ..... **723020** ..... **$19.95 set**

21. 1-2 Shift Rail
Slides back and forth with the shift forks to move the 1st and 2nd gears in and out of engagement.
'65-73 ..... **724021** ..... **$55.95 ea**

22. 3-4 Shift Rail
Slides back and forth with the shift forks to move the 3rd and 4th gears in and out of engagement.
'65-73 ..... **724022** ..... **$59.95 ea**

23. Reverse Shift Rail
Slides back and forth with the shift forks to move the reverse gear in and out of engagement.
'65-73 ..... **724023** ..... **$53.95 ea**

24. Shift Rail Detent, Round
Spring tensioned to slide in and out of a notch on each shift rail to keep them from moving when they shouldn't.
'65-73 ..... **7C31624** ..... **$11.95 ea**

25. Shift Rail Detent, Hatchet Head Shaped
Shift rail detent keeps shift rails from moving when they shouldn't. The hatchet head detent is only used with certain styles of shift rails. Check your originals prior to ordering.
'65-73 ..... **7C31625** ..... **$11.95 ea**

Detent Spring
With time and wear, the shifter rail detent springs can break or lose their tension, allowing unwanted movement of the shifter rails.

Clutch Kits

Stock Replacement

HP Series

The disc included in the HP series kits put the power of Kevlar on both sides of the disc. This allows you room for serious cam, intake, exhaust, and cylinder head modifications with the added benefit of outlasting a stock clutch. Kevlar gives you the coefficient of friction and anti-wear characteristics of ceramic w/o the extremely harsh engagement and flywheel scarring.

9-Plus 3rd Member Assemblies

The heavy-duty 9-Plus case is strategically reinforced, and precision machined far beyond OEM tolerances. Currie's nodular iron 9-Plus case holds a completely loaded, all-new, 31-spline differential with side gears, 4 pinion gears, shafts, thrust washers and hardware.
NOTE: Please specify 3.00, 3.25, 3.50, 3.75, 3.80, 4.11, 4.30, 4.57, 4.86, or 5.14 gear ratio when ordering.

w/ Spool Differential

Precision machined and heat treated, the Spool locks both axles together, eliminating spider gears. It delivers maximum torque to the drive wheels.
31-spline 9" ..... **CE9SP** ..... **$1,259.64 ea**

w/ Open Differential

An open differential, just like a stock member.
31-spline 9" ..... **CE9OD** ..... **$1,379.64 ea**

w/ Trac Lock Differential

Trac Lock allows transfer of power to both wheels while enabling limited slip at the inside wheel to negotiate corners without binding.
31-spline 9" ..... **CE9TL** ..... **$1,599.64 ea**

w/ True-Trac Differential

The True-Trac replaces the Trac-Lock's clutch mechanism with durable helical (worm) gears that are maintenance free. This limited slip design provides quiet performance and excellent traction.
31-spline 9" ..... **CE9TT** ..... **$1,649.64 ea**

9-Plus Friction Modifier

Friction modifier is for all Ford traction lock differentials used in Ford 8", 9", or rear ends w/clutch disc type traction locks.

ME9DL

3rd Member

Moser's heat-treated and stress relieved nodular case is strategically reinforced, & machined to hold a completely loaded, all-new, 31-spline differential with side gears, 4 pinion gears, shafts, thrust washers and hardware.
NOTE: Please specify 3.50, 3.70, 3.89, or 4.11 gear ratio when ordering.

w/ Trac-Lock Differential

Trac Lock allows transfer of power to both wheels while enabling limited slip at the inside wheel to negotiate corners without binding.
31-spline 9" ..... **ME9TL** ..... **$1,679.64 ea**
NOTE: Customer must choose from 28 or 31 spline when ordering.

w/ Detroit Locker Differential

A Detroit Locker maximizes the available traction by delivering 100% of the torque and power to both drive wheels. It is engineered to keep both wheels in a constant drive mode, yet has the ability to unlock to permit the wheel to turn at different speeds if necessary.
31-spline 9" ..... **ME9DL** ..... **$1,799.64 ea**
NOTE: Customer must choose from 31 or 35 spline when ordering.

Moser 9" Bolt-In Heavy Duty Rear End Housing

Features reinforced stress-point areas, 3" dia tubing is 1/4" thick, all new thicker, high-strength stamped brackets, newly forged housing ends, & new bushings. Specify model year when ordering.

K-Code Style 9" Rear Axle Housings

The K-Code 289 was the HiPo V8 rated at 271 HP. Along with a long option list, the 9" rear end was in place to handle the extra torque. This rear axle housing appears all original with tapered axle tubes for a perfect restoration. Conversion from an 8" rear end is possible by shortening the driveshaft 2-1/4" overall.

Markal Paint Sticks

As Fords were assembled, body panels, chassis, drivetrain and numerous components were marked with these crayons, denoting the completion of that part of the job or "Paint OK" or simply with hashmarks that meant something to an inspector down the line. When doing a complete restoration and looking to maintain concours points, it's this attention to detail that keeps you in the running.

'65-66 E2 Body Kits

The name "Eleanor" was made famous in two fun chase movies. The original was a '73 Sportsroof and the popular remake a '67 fastback. Now you can give the movie treatment to your 1965-1966 Mustang.

This fiberglass kit contains:

- Headlight buckets
- Lower nose
- Side exhaust skirts
- Lower side scoops
- Spoiler trunk lid w/end caps
- Your choice of different style hoods
- Upper nose
- Front fender flares
- Rear fender flares
- Upper side scoops

Kits with accessories includes all of the above along with:

- (2) Cobra fender emblems
- 2.5" halogen blue lights
- Billet gas cap (Choose: Cobra, Running Horse, GT or Plain)
- Billet taillight bezels
- Tri-Bar headlights

NOTE: We recommend this kit be installed by an experienced body shop, as many parts must be modified, shaved and bonded to the body.

A word about wheel & tire packages: The largest tire for the front of a '65-66 is 215. With a 15" wheel, even 215 may not fit if it's a 65 or 70 series tire. Use of a 225 or 235* will usually require the "Shelby mod" and/or fender rolling.
**235/60R15 will not fit due to overall diameter.*
In the rear, 225 to 235 is about the max & 235 may still rub on some cars.

Billet Aluminum Magnum 500s

If you want the advantages of an aluminum wheel, but want to retain as original an appearance as possible, these are the wheels for you. These wheels are CNC machined from billet aluminum for high quality, strength, and dramatically lower weight. Lower weight can provide better ride, handling & acceleration. Since they are machined and not cast, they can more closely resemble the originals. For example, the wheel lip is much closer to the appearance of a stock Magnum than a cast wheel can be.

OEM-Style Tires

BFGoodrich Tires

These tires are exact replacements manufactured on the original molds here in the U.S.A. As such, they duplicate the originals exactly. Radial tires are great, particularly when building a driver, but they just don't cut it when a correct restoration is your goal. Remember these tires are accurate reproductions both in style and function. We generally do not recommend bias-ply tires for street use, and suggest that for your garaged show-car that appropriate storage measures be taken.

Category 5 Front Disc Brake Kits

GW49134

This brake kit is specially designed to keep the load on the spindle, just like the factory. The hubs/hats are offset specifically for the 1-1/4" wide rotors.
11.75" kits will require 15" or larger wheels, 12.20" kits 16" or larger, and 13" kits 17" or larger. '69 owners will need to identify which spindle they have, in mid '69 Ford changed to larger diameter bearings and spindles (0.865").

- Billet aluminum hubs with 1- 1/2" long X 1/2" dia. studs
- Aluminum hats
- Bearing/seals
- Brake pads
- Vented 1-1/4" thick rotors
- 4 or 6 piston calipers
- Braided Steel Lines

POWER SLOT

Front Disc Brake Rotors

Vac-U-Slots machined into the rotor wipe brake pads clean, evacuate gases, and shed heat. This reduces the boundary layer of gases that builds up between the pad and rotor to inhibit performance. Manufactured to high tolerances, slotting, unlike drilling, doesn't cause stress points that can lead to cracking. Cadmium plated to minimize corrosion.

Master Cylinder Rebuild Kits

If originality is important, it may be possible to rebuild your original master cylinder.
• Piston • Seals
• Other small parts needed to do just that.
NOTE: Depending on the condition of the cylinder bore, it may need to be honed. Please note that depending on condition cylinders cannot always be rebuilt.

Steering & Suspension

Upper Control Arm Relocation Kits

Relocates your upper control arms like the '65 Shelby GT350. Lowers control arm 1"- 1-3/4" to greatly improve handling and change the camber to maintain contact patch. This is possibly your best handling value per dollar. Includes steel templates for drilling new bolt holes into shock tower, (2) aluminum wedges mount under the stock ball joints to prevent ball joint bind, and mounting bolts.

ADDCO

Gas-a-Just Excel-G

These kits come with everything you need to make your Mustang handle like a dream. Includes Grab-A-Track coil springs, Grab-A-Track leaf springs, front and rear shocks (Gas-A-Just or Excel-G), Addco front and rear sway bar kits, urethane coil spring insulators, and leaf spring shackle kit w/ rubber bushings. Repositioning the spring eye allows you to lower the car without the use of lowering blocks. Reverse-eye lowers the car about 1-1/2", Mid-eye about 1", and Standard maintains the stock ride height.

Shock Choice: KYB Excel-G or Gas-A-Just
Front Sway Bar Choice: 1" or 1-1/8" thick, all rear sway bars are 3/4"
Leaf Spring Rate: 4 leaf (street), 4-1/2 leaf (street/strip), 5 leaf (race)
Leaf Spring Eye: standard eye, mid-eye, and reverse eye

BORGESON
Steering You Forward

The Borgeson Universal Company has been manufacturing steering universal joints and components for the industrial, automotive, military, and aerospace markets since 1914. Purchased by the present owners in 1982, Borgeson continued to develop and refine their original needle bearing universal joint into the finest and strongest joint available.

Power Steering Conversion Kits

Eliminates the factory control valve & slave cylinder which provides modern steering feel & feedback with a quick 16:1 ratio. No modifications required to the shock tower, bolts in to the factory location & works with the stock pitman arm, idler arm & tie rod ends. Center link adapter or new center link provided where needed. Kits to convert from manual steering include a modern Saginaw style pump with brackets, kits for cars already with power steering are designed to work with your original Ford pump, but the optional Saginaw pump is needed for proper feel & assist at low rpms.

NOTE: Will not fit factory Z-Bar clutch linkage. Late 1965-Early 1967 cars with non-collapsible column will need to trim the bottom of the tube. Late 1967-1970 cars with collapsible column, the column must be collapsed about 2" for clearance.

Shelby/Cobra Steering Wheels

This 15-1/4" diameter wheel was originally used on 1965 Shelbys, but fits any '65-67 Mustang. It features a mahogany hand grip with 9 rivets. Made by the original supplier in England, it is the most accurate wheel on the market. This wheel has no provision for a conventional horn button. 1965 Shelbys used a toggle switch on the dash, a good solution for other cars too.

Note: '65 Shelbys had a toggle switch on the dash for the horn and the turn signal lever was bent slightly for clearance.

MSD

Street Fire Plug Wire Sets

These plug wires are made of a heat and abrasion resistant 8mm silicone jacket around a spiral wound conductor and durable Kevlar core. The spiral wind on the conductor suppresses electromagnetic interference (EMI) for clear radio signal. Black silicone boots & sheath, secure heavy-duty terminals & a low, 500 ohms per foot resistance for an exceptional spark path make this the wire set to have!

PC9003

Pro-Billet 9000 Distributors

CNC machined from 6061-T6 aluminum with wide cap & brass "spark plug" style terminals for secure wire attachment and protection against crossfire. Magnetic pickup never needs adjustment. Has easy-to-adjust mechanical advance assembly. Precision weights glide on nylon for smooth advancement & different springs are available so a variety of advance curves can be tuned. 1/2" steel shaft spins on a sealed ball bearing. This adds up to stable timing signals & spark delivery at any RPM. *Requires ignition box.

- Cast iron gears are compatible with cast iron camshafts (hydraulic or solid flat tappet type).
- Steel gears are compatible with billet steel camshafts (hydraulic roller tappet type).
- Bronze gears can be used with either cast iron or billet steel camshafts. They are usually recommended by manufacturers of billet steel solid roller camshafts.
- Bronze gears are softer than cast iron and steel, and will wear at a faster rate.
- Polymer gears are compatible with all camshafts.

Ignition Control Systems

Ignition Control Modules

The MSD control modules produce a series of sparks during every firing of the spark plugs (production ignition produces only one spark). This improved design ensures complete ignition of the air/fuel mixture in each cylinder thus producing more power, easier starting, reduced plug fouling and better fuel economy. MSD performance modules produce power up 10,000 rpm. Available in classic analog style and new digital style. Fits most 4/6/8 cylinder engines with 12-18 electrical system and a distributor.

6425

Digital

New digital technology offers higher output with 530 primary volts and 135 135 millijoules of spark energy. All units have a built-in LED for system checks and all wires exit the same side through a locked, sealed connector. 6-AL with rev control now features two rotary dials to set the RPM limit with a soft touch rev control, no more RPM "pills". For most 4/6/8-Cylinder Engines with 12-18V Electrical System & a Distributor.

Boost Timing Master

Allows you to adjust the amount of ignition retard from 1-degree per pound of boost to 3-degrees per pound with a maximum of 15-degrees retard. It has a boost pressure port to connect to your manifold. Must be used with MSD 6, 7, 8, or 10.

..... **8762** ..... **$305.95 ea**

Digital-6 Plus CD Ignition

Built-in features include two rotary switch adjustable rev limiters, a single-stage timing retard, a start-up timing retard, an LED fault display, EMI protection, and much more! The 15 MHz micro-controller can analyze up to 15,000,000 critical instructions per second! Every spark is packed with 135 millijoules of spark energy and 535v of power.

..... **6520** ..... **$357.95 ea**

Three Stage Retard Controller

Allows you to retard your ignition timing in three different stages. An optional starting function retards the timing 20° while cranking the engine. It can also be used as a single or dual retard to increase mph at the end of the drag strip. Works with points, crank triggers or magnetic pickup distributors and must be used with an MSD 6, 7, or 8 Series Ignition.

Battery Mat

Battery acid is nasty stuff. It can destroy not just your battery tray, but also the sheetmetal underneath. Not to mention the toxic vapors. This battery mat traps & neutralizes battery acid. It is easily trimmed to fit most common size batteries such as 24F & 27F
Features:
- Recyclable
- Protects the Enviroment
- Inexpensive
- Easy to Install
- Completely Safe to Handle Before & After Installation
- Protects Against Corrosion

Rear Speaker Grilles

On the rear package tray was mounted a single 6" x 9" speaker for the AM radio. Stereo came later and if you have upgraded your system, you may want to install two speakers but retain the period look. This grille is correct with a heavy cast metal frame and the proper expanded metal grille. Works fine for all year and model cars with a flat package tray. Hardware included.

REDLINE LUMITRONIX

'65-73 Halo LED Custom Headlight Kits

H-4 headlight conversion with built-in halo ring features 18 LEDs (multi-color ring) or 42 LEDs (white color ring) & 55/60 watt H-4 bulbs. LED rings can be wired into an independent switch or the parking lamps to be used as daytime running lights. Multi-color version projects 16 different colors and is user adjustable by included RF controller from inside or outside of the car.

**The use of a Headlight Enhancer Relay Kit, #500403 is recommended for an H-4 conversion & it is usually necessary to modify the opening in the back of headlight bucket for clearance.*

Convertible Top Frame Assembly

Black EDP coated steel frame for power convertible tops. Bad frames make top installation very difficult, prevent weatherstrip from sealing properly and can even bind when being raised or lowered, prematurely causing the hydraulics to fail. In addition to the frame we have many other needed components like latches, weatherstrip, pumps, springs and more to complete the restoration of your top.

Returns & Exchanges

At Mustangs Unlimited, we try to make returns and exchanges as easy as possible. All returns must be made within 90 days of receipt, in "new" condition and in its original packaging. Sorry, there are no returns on special orders, electrical items, literature or DVD/videotapes. For more information, see "Ordering Information and Policies" on the back of your order form.

Core Deposit & Refund Policy

All remanufactured parts, unless noted, require a core deposit. Core deposit must be the same year and type of the one you are purchasing, (e.g. - purchase of a 1966 power steering pump must be exchanged with a 1966 power steering pump). The core deposit will be charged on all appropriate orders and the refund will be issued after the core has been inspected and approved by the manufacturer.

A qualified core deposit must be: In its original box! • Rebuildable • Complete • Assembled
Any cores not meeting the refund specifications will be returned to the customer upon request at the customers expense.
Note: C.O.D. returns will not be accepted. Prepaid freight only.

Ordering Information & Policies

At Mustangs Unlimited we want to make everything as easy as possible for our customers. Please read the ordering information carefully & thoroughly. If you have any questions, call our Connecticut @ 860-647-1965 or Georgia @ 770-446-1965 locations.

Our Promise

Mustangs Unlimited wants you to be completely satisfied with everything you purchase from us. If, within 90 days of purchase, you are not completely satisfied with a part, simply call us. We will take all possible steps to correct the problem. See our return policy for complete instructions.

Ordering

Ordering is easy! You may place your order by:

- Phone our helpful and friendly sales representatives.
- FAX 24/7 to **Connecticut (860) 649-1260 or Georgia (770) 446-3055.**
- Mail by using forms located in the back of the book (additional forms can be downloaded from our website).
- Online at www.mustangsunlimited.com.

If mailing or faxing your orders, fill out the order form completely to allow your order to be processed more efficiently. If ordering by phone, please have your part numbers & payment method ready when you call.

- **SPECIAL ORDERS:** Thousands of parts not listed in our catalogs are available. Allow 2-4 weeks delivery on these items.
- Color samples - On items like headliners or carpet, to ensure the correct style and/or color, please send a small sample so we can match the item as closely as possible.

Backorders

Backorders automatically ship as inventory is received unless otherwise specified at time of order. Any mailed-in prepaid orders stating "No Backorders" will be promptly credited. **Credit card orders are not charged until shipment is made.** Backorders may be cancelled after 60 days, depending on availability, & a refund will be issued if due.

Payment

Orders may be paid with Discover, Mastercard, Visa, American Express, Money Order, Bank Draft, or PayPal

Shipping & Handling (Summary)

- All packages shipped within Connecticut or Georgia are subject to state/local sales tax.
- Most orders can be shipped via UPS, USPS or FedEx. *NOTE: UPS may turn over delivery to USPS in remote areas.*

FREE ground shipping in the lower 48 U.S. states. Truck freight charges still apply (see below).

- Items too large for USPS, UPS or FedEx will be shipped by truck freight. NOTE: A symbol of a truck is used to denote freight shipments.
- International orders should contact us to confirm shipping charges before ordering.

Rush Service

Most orders are shipped Ground Service. In stock parts normally ship the day order is placed, Monday through Friday, if the order is received by 3:00 p.m. EST. We also offer "Next Business Day", "2nd Business Day", & "3 Day Select". "3 Day Select" is a service which will guarantee delivery within three business days, (ideal for west coast deliveries). Charges are calculated by weight & size at time of shipment. Saturday delivery is available for most locations (additional $15.00).

Truck Shipments

The truck freight symbol tells you that an item is too large for UPS, USPS or FedEx to handle and must be shipped by a truck line. All truck freight orders must be prepaid. We've negotiated very competitive shipping rates based on the large volume of packages we ship. To determine the amount of freight you will be charged on a truck freight item, locate the zone you're in on the chart below and compare the shipping charges listed. **Residential delivery will add $30.00 to your shipping charge.** To be considered a commercial address there must be a shipping dock able to receive truck deliveries. Delivery signature required.

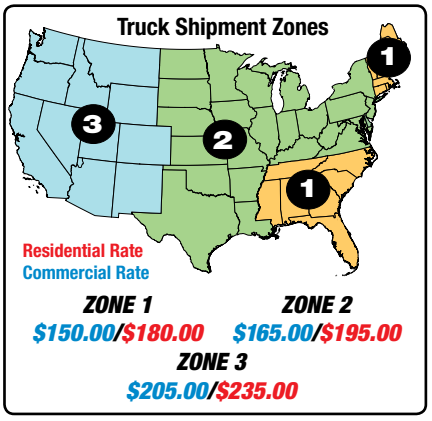
All rates are subject to change at any time, so please confirm the shipping charges with your sales representative when you place your order. ***Mustangs Unlimited will not be responsible for freight charges on any refused truck shipments. Important, please see damages.***

Inspect Your Orders

Please inspect all your merchandise immediately upon delivery. Notify us of any discrepancies within 3 days of receipt. We do not allow claims after 3 days. ***Important, please see DAMAGES.***

Puerto Rico, Alaska and Hawaii

Orders may be paid with Discover, Mastercard, Visa, American Express, Money Order, or Bank Draft. We ship by USPS or UPS blue label, unless too large for USPS or UPS, in which case we use Air Freight. Shipping charges are calculated by size and weight of order. Mail-in orders should add 35% of total for shipping charges, (not less than $15.00). If there are additional shipping charges, you will be notified. Any over-paid shipping will be credited or refunded. Credit card orders will be billed, for shipping, directly to the card. All orders must include a daytime telephone number.



Canadian Orders

Orders must be paid by credit card or money order paid in U.S. funds drawn on a U.S. bank. We ship by USPS or UPS to all Canada. On mail-in orders, include 25% of the order total for shipping ($15.00). If any additional shipping charges you will be notified. Any over-paid shipping will be credited or refunded. Credit card orders will be billed for shipping directly to the credit card. Duty or brokerage charges are calculated in Canada, and will be collected by the carrier.

International Orders

Must be paid by credit card, Money Order in U.S. funds, or Wire Transfer (add $30.00 for wire transfer charges). Include a daytime telephone number for delivery notification. We ship Air Freight & Air Parcel Post, specify preferred ship method. Size limits for Air Parcel Post are 42 inches length or 79 inches (length plus girth). Maximum weight is 44 lbs. Shipping charges bill to your credit card separately. Customer bears responsibility for any taxes, duties, or brokerage fees. Note: paints, dyes & some chemical products are not shippable overseas.

Shipments To APO's & FPO's

The maximum size parcel can not exceed 108 inches in length and girth or 70 pounds in weight. Include 10% of order total for shipping. ($8.95 minimum)

Returns / Exchanges

Call 1-800-243-7278 to obtain a RETURN AUTHORIZATION NUMBER. The return number must be clearly marked on the outside of the package near your return address. Packages will not be accepted without prior authorization. Please have invoice available when calling. All returns must include a copy of the original invoice and return shipping must be prepaid. We do not pay for return shipping. C.O.D.s are not accepted. All items returned must be in perfect "new" condition and in original packaging. Returns must be made within 90 days of receipt. No returns on special orders, electrical items, literature, DVDs, videotapes or computer software.
