OUR 'CUSTOMER FIRST' APPROACH...

There are many options out there, but when you shop OPGI, there is a huge difference in the level of service before, during and after the sale. Our integrity, expertise, and attention to detail are unrivaled in the industry.

IN-STOCK SELECTION, UNMATCHED IN THE INDUSTRY

Whether it is a faithfully reproduced factory part, an aftermarket add-on, or a high-performance item, we offer a broader In-Stock inventory selection than any other competitor.

EXCEPTIONAL SERVICE & SUPPORT

Here at OPGI, we aren't content to just sell you on our product line and service. Our team is dedicated to resolving the technical issues that can arise from installation to performance. We are there for you every step of the way.

Our parts have been featured on numerous award-winning vehicles and TV shows – they've become the first choice for many of the nation's top automotive builders.

CARFIX · DETROIT MUSCLE · WRENCH'D · All Girls Garage · Bitchin' Rides · SPEED IS THE NEW BLACK · Sam's Garage · Rust Valley RESTORERS · Barrett-Jackson · MECUM AUCTIONS · JUNKYARD EMPIRE · THE RIDE THAT GOT AWAY

"I was able to restore my 1972 Pontiac Luxury LeMans thanks to finding most of the quality reproduction parts I needed at OPGI. Being able to find the OEM colors and parts that meet or exceed OEM form/fit/function was one key factor in my decision to purchase from OPGI. Also, their customer service made it easy to get information about parts and place orders to ensure I was ordering the correct items. By purchasing from OPGI, I also qualified to earn points from every purchase and was able to get a very nice discount on my last order. All in all, I am happy OPGI is a one-stop-shop location for most classic car restorations."

- Cesar & Jackie Hernandez Tucson, AZ
1972 Pontiac Luxury LeMans

INSTANT ONLINE PRICE MATCH GUARANTEE

No gimmicks, no nonsense! We will quickly match any advertised price from any competitor site or catalog for any identical product.

(See our policy in the back of this catalog for full details.)

THE CUSTOMER IS KING!

Whether you are a long time customer of Original Parts Group or are new to the OPGI family, we know that you have a choice. We want to thank you for choosing OPGI for your restoration needs. Please don't hesitate to contact us if you have any questions or concerns. We are happy to help in any way we can before, during and after the sale.

41 YEARS OF EXCELLENCE

MANUFACTURING
PREMIUM RESTORATION PARTS
SINCE 1982

MANUFACTURING PREMIUM RESTORATION PARTS SINCE 1982

41 YEARS OF EXCELLENCE

For over 4 decades we've provided the classic car enthusiast with exceptional quality restoration, aftermarket and high performance parts. We take great pride to ensure that every part and accessory we stock and sell are of the highest quality standards. It's how we have built our reputation. Our vision remains: To provide you with the absolute best quality and service anywhere, period. Our goal is that your OPGI buying experience is remarkable in every way!

BUSINESS OF THE YEAR

Original Parts Group had the honor of accepting ARMO's coveted Business of the Year award twice at the SEMA Show. This award is presented to the company that has demonstrated exceptional service, integrity and business ethics, as well as made a commendable contribution to the restoration industry.

Original Parts Group also received General Motors "Best Restored GM Vehicle" award at SEMA four out of six years – for vehicles restored entirely with OPGI restoration parts.

PREMIUM BRAND PERFORMANCE BY ORIGINAL PARTS GROUP

LENSES

RESTOPARTS® lenses are manufactured to exact GM specifications to ensure a perfect fit and appearance. Each lens features factory-correct color, details, trim and GUIDE markings where applicable.

MOLDINGS

RESTOPARTS® stainless steel and anodized aluminum moldings are formed to factory specifications and polished to a brilliant finish. Of course, we test fit all parts on our own vehicles first, ensuring an exact fit.

MANUFACTURED RESTOPARTS BY ORIGINAL PARTS GROUP

STAMPINGS

RESTOPARTS® non-corrosive and high resistance stampings are precision manufactured on new tool and die surface forms to ensure dimensional accuracy and a consistent surface finish.

DIE CASTINGS / CHROME

RESTOPARTS® case-hardened steel tooling and die-casting process ensure parts are stamped to perfection and exceed original GM specifications for overall quality.

MORE WAYS TO SAVE

Fast, FREE Shipping
Free Standard Ground Shipping on orders over $299 shipped within the continental U.S. Excludes oversize and overweight items. See page 336 for details.

Volume Discounts
When we aren't already running a promotion you can still take advantage of our volume discounts. Be sure to sign up for email promotions online for the best deals. We offer volume discounts on orders that exceed $499 qualify for a 5% discount, and orders that exceed $999 qualify for a 10% discount. See page 338 for details.

Frequent Buyer Rewards
If you have ever made a purchase or requested a catalog in your name, you are already enrolled in our Frequent Buyer Rewards program. By placing orders for parts, you'll be well on your way to earning future discounts. See page 338 for details.

60-Day Guarantee
We want you to be completely satisfied with the parts you receive. Items purchased from OPGI may be returned within 60 days from date of purchase for any reason. Simply return the item in its original, unused condition along with its original packaging. See page 338 for details.

Kit Swap Savings
Need an interior kit, but not every item in the kit? Mix and match, or even delete items, and you'll still get the full kit discount. See page 338 for details.

Ratings & Reviews
Your opinion is important to not only us, but to everyone who visits our website as well. Make your voice heard. Post a comment, ask a question, or look at what others are saying about the parts we offer at opgi.com.

Instant Online Price Match Guarantee
Original Parts Group, Inc. will match any competitor's current advertised retail price for an identical product. Simply provide us with a copy of the competitor's current advertised price from a catalog, ad, or website. The price match guarantee is available at the time the order is placed and is available for in-stock merchandise only. See page 338 for details.

Award Winning
Several OPGI vehicles have won the GM/SEMA Award for Best Restored Vehicle over the many other show vehicles at the Specialty Equipment Marketing Association (SEMA) industry convention held each year in Las Vegas, NV.

See our policies on pages 336-338 for complete details of our value added programs. Prices and shipping rates are subject to change without notice. Printed March 2023, all prices current at the time of printing, please check opgi.com or call during normal business hours for our most current pricing and the most up-to-date information.

ICON REFERENCES

Premium reproductions manufactured by RESTOPARTS®

Our latest in-house PERFORMANCE brand.

We have added many new products for 2023, from interior parts to quality steel reproductions and everything in between. Just look for the NEW symbol!

As Original Parts Group continues to grow year after year, we can take advantage of special volume pricing on hundreds of parts that manufacturers offer companies of our size. This means that we can offer the same high quality parts but at a substantial discount for you, our customer.

Every time you see this symbol, it indicates that we have assembled a complete kit of those products for your convenience. But there's more: most kits in this catalog are attractively discounted from our regular prices.

Free Standard Ground Shipping on this item within the continental U.S.

Our "Made in the USA" icon speaks for itself... American-manufactured products, of course!

When you see this Original GM logo, you are assured that the parts you are purchasing are Genuine General Motors parts.

In this catalog, the GM Restoration Parts logo indicates that a product is officially licensed to Original Parts Group Incorporated by General Motors.

Please take note of the following abbreviations:

ABBREVIATIONS USED THROUGHOUT THIS CATALOG:

AT/AUTO = Automatic transmission
BCKT = Bucket seat
CC = Commercial chassis
CI = Cubic inches
CPE = Coupe
CYL = Cylinder (6 or 8)
DR = Door (as in 2- or 4-doors)
HP = High-performance
HT = Hard top
LH = Left, Driver's side of vehicle
µm = mu micron
OEM = Original Equipment Manufacturer (usually General Motors)
OM = Original Manufacturer
PS = Power steering
REPRO = Aftermarket reproduction designed to original GM part specification
RH = Right, Passenger side of vehicle
RR = Rear
SB = Small-block engine
STD = Standard (non high-performance)

OPGI'S AWARD WINNING MULTI-STAGE INTERIOR KITS

What makes our interiors so special? From the start, we made sure our reproduction interior products were 100% factory accurate. We worked with many of the premier interior manufacturing companies, actively participating in research and development, ensuring only the highest quality components for our customers. The tools and dies that created factory look-alike patterns for seat upholstery, door panels, headliners, dash pads and molded carpet are considered to be the finest quality and most original to this day!

Year after year, our complete interiors have been featured in our GM A-Body vehicles at the SEMA show, which is attended by well over 100,000 automotive industry professionals annually. We have taken the "Best Restored GM Vehicle" award numerous times at SEMA, winning this over hundreds of other cars at the show. Not only is this the industry's ultimate compliment, it confirms our commitment to excellence.

Multi-Stage Interior Kits deliver all the parts you need in one bundle at the best possible price. Whether you chose the "base" Stage I Kit, or opt for the progressively more comprehensive Stage II, III or IV Kits, you'll save plenty of time and money with these bundled packages. Every Multi-Stage Kit represents the biggest major savings on a wide range of our most in-demand interior components.

NEED AN INTERIOR KIT, BUT NOT EVERYTHING IN THE KIT?

Mix and match, or even delete items, and still enjoy the great kit savings!

Kit Swap SAVINGS™

Here's an example:
Let's say you want a Stage III Interior Kit, but don't need everything that comes with it, need a different color combination than what's offered, or would like a few other items not offered in the kit. We'll let you mix and match as you see fit, plus you'll still get the full kit discount.

- Change out items and retain the kit discount on the remaining products. For example, get premium Essex Carpet instead of the standard 80/20.

- Delete items off the kit that you don't need, or add items to a kit. We'll still honor the discount on the remaining items.

- Once you've decided what you need, give us a call and we'll assist you.

This Kit Swap is a special service that we have implemented to serve you. To take advantage of Kit Swap Savings, the final Kit components you buy must retain a portion of the original kit price. Call for details.

FOUR KITS FOR YOU TO CHOOSE FROM

Stage I

Each kit contains the most visible components necessary to create a dramatic showroom new difference. A tremendous value

Stage II

Complete the finer details of your interior restoration. Includes everything in the Stage I kit plus many typically worn-out small detail items like door lock knobs, armrest pads and bases! See chart for complete description.

Stage III

Each kit features a large selection of detail items. Includes everything in the Stage II kit plus a dash pad and additional insulation. Convertible application kits include the top, pads, rear window, well liner and boot.

STAGE IV

Exclusively available 24/7 at OPGI.COM! Truly the greatest value. This comprehensive kit contains just about everything you'll need for your interior restoration. Each Stage IV kit is larger in scope than the others and is packed with a huge array of products designed to get you well on your way to a show-winning interior!

Complete Carpet Restoration Kit

Original Style Molded Carpet:
Each 100% Nylon carpet set is heat-pressed and precisely molded into an original, high-quality GTO floor pan die to ensure a perfect fit. Each carpet is then finished with a precisely reproduced plastic heel-pad and the original style 1/2" thick jute bonded to the underside for your convenience.

Premium Essex Carpet:
"Essex-style" sets use the same 22-ounce cut pile carpet as Mercedes and other high-end cars. They include original style machine-bonded plastic heel pads in the factory location with the correct molded plastic dimmer switch grommet and are shipped complete with a 1/2"-thick jute backing bonded to the carpet. Heat-pressed and molded to an original GM floor pan die.

Original Style Molded Carpet

Why compromise? OPGI stocks the highest quality carpet in the restoration industry! Coupled with OPGI's premier and preferred supplier, Auto Custom Carpets, each 100% Nylon carpet set is manufactured with a durable Mass Backing, a black rubber-like material used to provide an additional layer of heat and sound control while also increasing mold-ability. Each set is then heat-pressed and precisely molded into an original, high-quality floor pan die to ensure a finished product with a perfect fit. Then, of course, machine bonded (not glued!) with the most precisely reproduced plastic heel-pad in the industry (size, color key and durability) for a superior fit and finish. The best! Shipped complete and ready to install with the original style 1/2" thick jute bonded to the underside for your convenience.

Premium Essex Carpet

These luxurious, heavyweight, "Essex-style" sets use the same 22-ounce cut pile carpet as Mercedes and other high-end cars. These complete carpet sets (front and rear) include original style machine-bonded plastic heel pads in the factory location with the correct-molded plastic dimmer switch grommet and already have the jute backing bonded to the carpet. Heat-pressed and molded to an accurate floor pan die, these premium luxury carpets are simple to install and have a "pop-in" fit. These thick, deep pile carpet sets have that luxury car feel and look for all Pontiacs.

ORIGINAL-FORMED CARPET JUTE

Machine-stamped and perfectly matched to our carpet sets. Plush, premium-quality jute provides an additional cushion

OPGI.COM PRODUCT VIDEO AVAILABLE ONLINE

JCC2502

MADE IN THE USA

Original-Style Under Carpet Jute

For extra protection and greater comfort, your carpet installation will be enhanced by adding additional jute backing between the floor pan and the molded carpet. Doubling up the jute provides a plush cushion and heightens the amount of protection from the elements such as road noise. It's also helpful in insulating the temperature to stay cool in the summer and warm in the winter.

LIGHT WEIGHT SOUND DEADENER

Eliminate heat and road noise from your drive

HSM1040BK

Hushmat Ultra Custom Sets

When driving your vehicle do you feel the heat coming through the firewall, floor and tunnel? Do you hear road noise and vibration that prevents you from having a conversation inside your vehicle? Then reduce that engine, exhaust drone, road noise, vibration and reduce the heat that comes from the engine, headers, exhaust or catalytic converters with the light weight Hushmat Ultra! Hushmat's proprietary USA manufactured visco-elastic chemistry dissipates this heat insulating your interior causing less load on your A/C system. Hushmat Ultra is available from OPGI in several different kits and sizes to cover certain sections of your vehicle or the entire vehicle. Sheet sets are available in black or silver, while custom sets available in silver only.

HushMat

MADE IN THE USA

Silencer Megabond

Absorb and eliminate high frequency airborne noise that enters the vehicle by using Silencer Megabond sound deadener from Hushmat. Made in the USA using light weight and self-adhesive material, Hushmat Silencer Megabond will not only eliminate those annoying road noises, but also reduce the heat that comes from the engine, headers, exhaust and catalytic converters. Similar to the application of foam on the ceiling and walls of a recording studio, the Silencer Megabond sound deadener performs the same function for the interior of your vehicle and is guaranteed to make a difference in your driving experience.

'64-72 ORIGINAL-STYLE

SHOW-QUALITY

Distinctive Industries has been manufacturing interior products for the American muscle car since 1969. They still manufacture their products right here in America with the same passion and attention to detail that was used when these cars were new. The dielectric (heat sealed) detail on Distinctive Industries seat covers features unsurpassed detail and is true to the original GM patterns. Attention to detail, final assembly quality, correctness and durability are built into every product they manufacture, and the product truly is "Better by Design".

1964-65

1964 Seville grain vinyl seat covers feature dielectrically formed pleats like the factory originals. In 1965, GM switched to Madrid grain vinyl for use in their A-Body cars. Guaranteed to match the GM originals down to the last detail, including the correctly weighted vinyl and authentically reproduced embossing. Automotive-grade vinyl assures you that you're getting the best quality anywhere!

1966-67

Features identically reproduced, double-stitched, insert pleats. However, it's not just what's on the surface that counts. Our 1966-67 A-Body sets also include the fabric-backed foam rubber necessary for the original "showroom" look. Factory Madrid grain vinyl is used throughout— Your satisfaction is guaranteed.

1968-69

1968 sets Feature vertical insert pleats, while our 1969 seat sets feature the vertical "waffle" pattern, identical to the factory originals. Reproduced and manufactured with heavyweight Madrid grain vinyl. Each set is professionally sewn with the correctly patterned inserts; an important detail is the use of the correct color and proper thread weight in the production of these sets.

1970-72

These finely reproduced seat sets features the vertical dual "waffle" pattern insert for 1970 and rich Elk grain inserts for 1970-72, resembling hundreds of tiny. These are the most correctly reproduced sets for 1970-72 A-Bodies available anywhere. Heavyweight Madrid grain vinyl is used throughout. Don't settle for less, there is a difference. We guarantee your complete satisfaction.

PREMIUM-QUALITY MILLED GOODS

Available in original colors and grain patterns

ALL ORIGINAL COLORS AVAILABLE ONLINE 24/7 OPGI.COM OR (TOLL-FREE AT 800.243.8355)

Vinyl Yardage

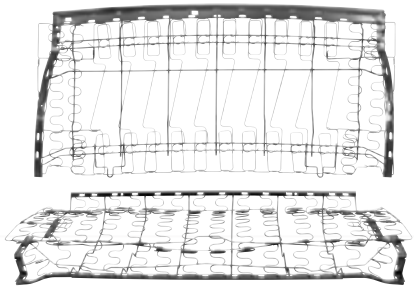
This top-quality automotive grade vinyl from OPGI is manufactured to meet the highest expectations and ensure your satisfaction. For original style vinyl, choose between Seville, Madrid or Sierra grains, which are available in a variety of factory colors. For a custom look, we also offer a more modern leatherette material, which is also available in a wide array of colors. All vinyl material is sold by the yard (36" x 54") for your convenience.

Part#	Year	Desc.	UOM	Price
Distinctive Industries				
VY350D	61-64	Seville grain	each	65.99
VY360D	65-73	Madrid grain	each	65.99

NOTE1: Minimum order is 1-yard. NOTE2: Due to several factors, including differences in dye-lots and variances in manufacturers and materials, vinyl yardage may not be a 100% match to your existing interior.

FULL ASSEMBLY IS IDENTICAL TO THE FACTORY ORIGINALS!

Bucket seat conversion or replacement—ideal for both



1966-72 Bucket Seat Frame Assemblies

Whether replacing factory parts or converting to bucket seats, these seat frames are the perfect solution. Identical to the original factory frames, each seat is manufactured from heavy-duty steel and includes the springs for both the back and bottom sections. Available for both driver and passenger side applications.

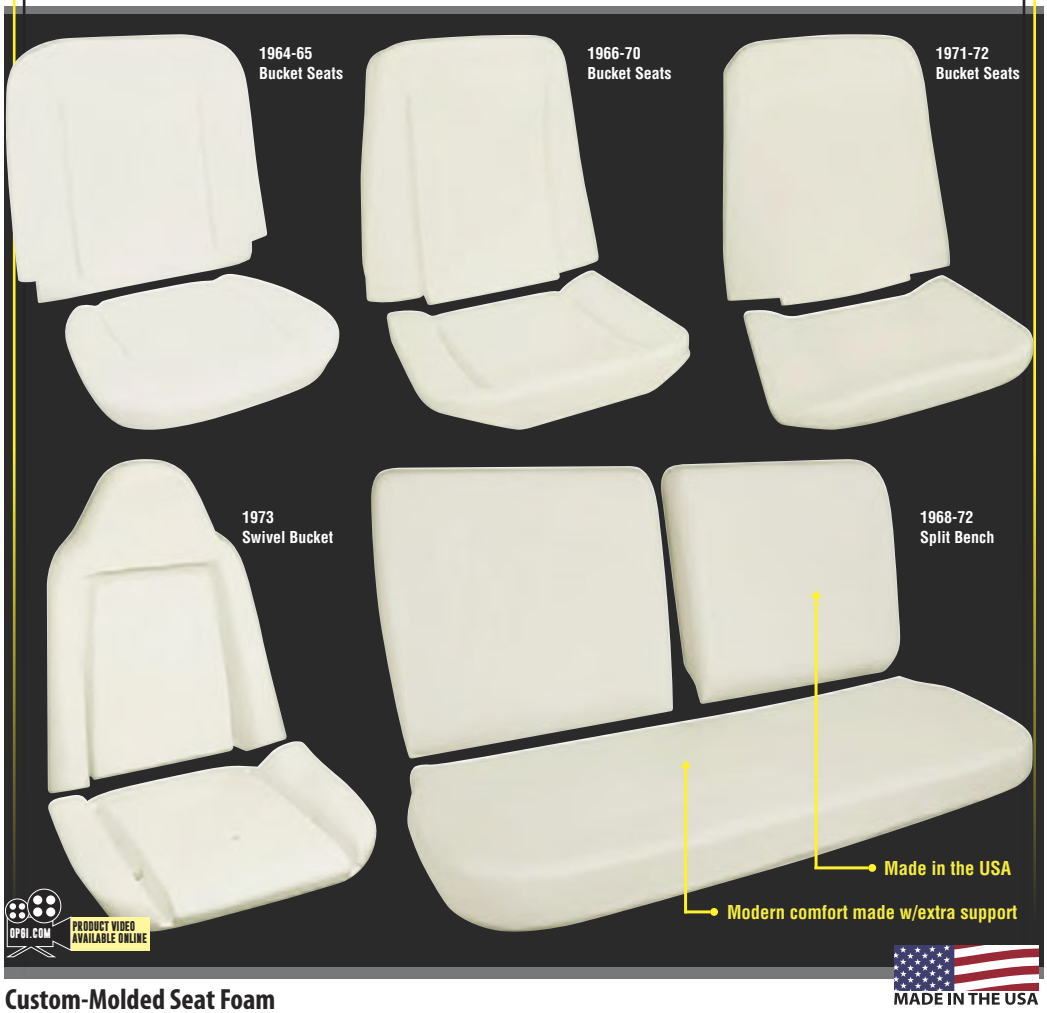
BUCKET & BENCH SEAT FOAM

NEW AND IMPROVED

- Brand new formula & precise tooling - Better quality & warranty than the competition
- Ever-so slightly more pliable than prior versions making for an easier install
- Same fit and comfort that you expect from RESTOPARTS®



MADE IN THE USA

Custom-Molded Seat Foam

We now offer both bench and bucket seat foam. If your existing seats have lost all or just some of their original shape, new seat upholstery will not make up for old, worn-out foam. Recapture the "factory-fresh" look and feel with this accurately reproduced seat foam set.

Seat Heater Set

These seat heaters use the latest in flexible heating technology and the highest quality components to provide an increased level of comfort to your vehicle. The exclusive design features a blended polymer element, which is self-regulating and does not require a thermostat, thus eliminating the possibility of overheating. Heater sets include pads for both the back and bottom of the seat, illuminated "Hi-Lo-Off" switch, complete harness, hardware and complete instructions for a hassle-free installation under your upholstery. Heaters are sold as a set for one seat.

SHOW-QUALITY

Distinctive Industries has been manufacturing interior products for the American muscle car since 1969. They still manufacture their products right here in America with the same passion and attention to detail that was used when these cars were new. The dielectric (heat sealed) detail on Distinctive Industries seat covers features unsurpassed detail and is true to the original GM patterns. Attention to detail, final assembly quality, correctness and durability are built into every product they manufacture, and the product truly is "Better by Design".

NOTE2: Front door panels include a "metal" top rail, while the rear door panels feature an ABS "plastic" top rail.

PREMIUM JUTE INSULATION

Keeps the passenger compartment quiet

CH28685

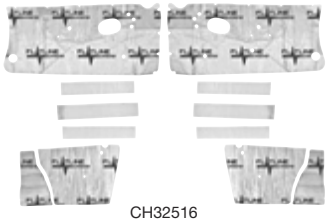
1973 Interior Lower Quarter Panel Insulation

This genuine reproduction insulation is professionally die-cut from thick 3/8" jute for excellent sound deadening properties. The original style insulation is sold per pair and fits behind the lower rear side panels in all 1973 models.

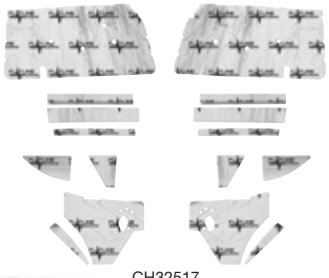
Part#	Year	Desc.	UOM	Price
CH28685	73	.....	pair	26.99

ELIMINATE UNWANTED NOISE

Peel and stick installation



CH32516



CH32517

Pre-Cut Door & Inner Quarter Panel Sound Deadener & Insulation Kits

Flatline Barriers pre-cut kits provide the sound solution you've been looking for. Manufactured from dense butyl rubber and backed with a silver foil lining, these insulation and sound damping kits eliminate noise and vibration, creating a more enjoyable driving experience. Whether you need a shield from unwanted heat, a way to prevent unwanted noise from your roof, doors or trunk, or enhance the acoustics of your new sound system, these kits get the job done. Pre-punched accessory holes and sticky adhesive backing make installation hassle-free. Each product meets federal safety standards for flammability.

Part#	Year	Desc.	UOM	Price

CH32517	68-72	.....	set	136.99

A PERFECT FIT

Thick 3/8" jute insulation

1973 Door Panel Insulation

Genuine reproduction door panel insulation is die-cut to exact specifications for fit and function using thick 3/8" jute insulation for the best quality OEM soundproofing available. Sold as a pair, the insulation features all of the correct holes for door and window handles making installation a snap.

Part#	Year	Desc.	UOM	Price
CH28688	73	.....	pair	39.99

1964-67 Wagon Quarter Panel Insulation

This felt insulation is identical to original equipment installed in your wagon on the General Motors assembly line. Each piece of felt is soaked in tar to increase the noise canceling properties and effectiveness of the insulation. Insulation is sold in a set for one vehicle.

Door Panel Water Shields

Protect your door panels with these reproduction water shields from OPGI. The shields are die-cut to precise dimensions and feature the original openings for door handles, window cranks and other options. Available for a variety of applications, all shields are authentically reproduced. Our convertible shields are manufactured in thin opaque plastic, while all others are cut from a special wax-coated paper.

HELPS ELIMINATE WIND NOISE

Complete headliner insulation for '61-73

MADE IN THE USA

Headliner Insulation

This is a four-piece assembly featuring die-cut insulation that goes between the roof and the headliner on the inside of the roof panel to insulate the interior from heat and cold, as well as deaden noise and vibrations. Adheres using our spray adhesive part# KHL2016.

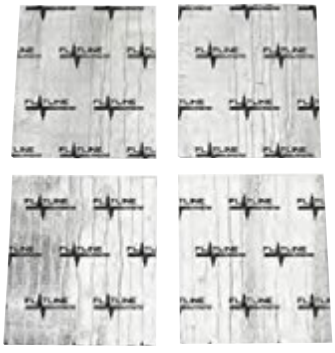
DENSE YET LIGHTWEIGHT
Superior noise control



FLATLINE

Pre-Cut Roof Sound Deadener & Insulation Kits
Flatline Barriers pre-cut kits provide the sound solution you've been looking for. Manufactured from dense butyl rubber and backed with a silver foil lining, these insulation and sound damping kits eliminate noise and vibration, creating a more enjoyable driving experience. Whether you need a shield from unwanted heat, a way to prevent unwanted noise from your roof, doors or trunk, or enhance the acoustics of your new sound system, these kits get the job done. Pre-punched accessory holes and sticky adhesive backing make installation hassle-free. Each product meets federal safety standards for flammability.

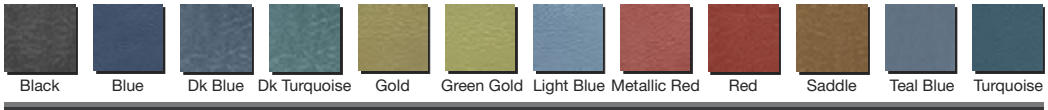
THE VERY BEST ON THE MARKET!

There is simply no comparison between RESTOPARTS® premium brand dash pads and others.



MANY COLORS AVAILABLE. 24/7 OPGI.COM OR TOLL-FREE - 800.243.8355 WITH YOUR YEAR, & CHOICE OF COLOR

1964-68 Authentic Foam Molded Padded Dashes

RESTOPARTS® brand remains the 'Rolls Royce' of dash pads. In the past few years, inferior pads have come to the market, and although pricing is similar, there are significant differences in quality, fit, and finish. A major difference is that RESTOPARTS® pads are produced the right way utilizing a steel inner core (like the GM factory originals), which ensures an exact, consistent fit every time, unlike competitor versions that cut corners using cheap fiberglass cores. Using fiberglass is less expensive, but it is often inconsistent so by nature will vary in fitment and quality.

RESTOPARTS® Dash Pads are produced the right way using carefully researched Madrid grains and textures as General Motors did back in the day. Whether it's professionally vinyl wrapped foam as GM did, or solid urethane (we make both types), each dash pad is produced using only the highest quality tooling and careful factory finishing work.

- RESTOPARTS® pads include companion mounting hardware as well, while others do not.
- RESTOPARTS® dash pads feature either a factory correct steel inner core or tough injection molded ABS plastic, while competitor versions use an inconsistent fiberglass core. Avoid installation frustration, insist on premium brand RESTOPARTS®. When you purchase a RESTOPARTS® pad from OPGI, you are buying direct from the manufacturer, an automatic extended 12 month warranty, and you can be sure that we stand firmly behind the quality, fit and appearance.

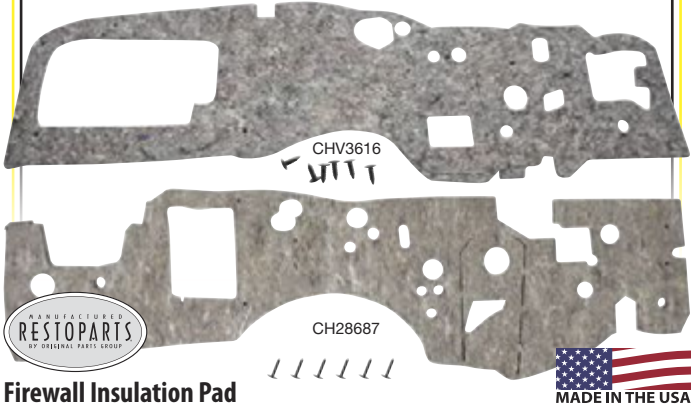
FLAWLESS CRAFTSMANSHIP

This jute backed, heat resistant pad comes complete with the correct backing, identical to the factory originals in fit and function



MADE IN THE USA

Firewall Insulation Pad

This pad runs the length of the firewall inside your car and behind your dash board. The installation of this pad will help eliminate unwanted engine noise caused by dried and worn out insulation. The pad features heavy-duty jute insulation with the original style die-cut backing in either fiberboard or rubber depending on application. Guaranteed by OPGI to be the best the market has to offer. Mounting grommets are included to aid installation.

Quickly convert to desirable Rally Gauges

G241640

1965-67 & 1969-72 Premium Gauge Cluster Assembly
Restore or convert your existing dash with this premium gauge cluster assembly from OPGI. Each assembly is vehicle specific and features an authentic stamped steel housing for strength and durability. All of the gauges are equipped with a metal face that is precisely detailed for a factory-fresh appearance. Your original speedometer movement must be re-used with the included speedometer faceplate. 1965-67 clusters include a new lens with the correct pointer. 1969-72 clusters are available as a factory replacement assembly for cars originally equipped with Rally Gauges (must re-use factory printed circuit), or as a conversion assembly for cars that were originally equipped with warning lights. The conversion assembly includes a special printed circuit board that directly plugs into the factory warning light dash harness with no modifications necessary.

1965 – 0-60 oil pressure, 100-245 temperature. Late models feature green arc on tach 0-5,000 rpm, orange from 5,000-8,000 rpm. Gauges feature black faces.
1966 – 0-60 oil pressure, 100-245 temperature. Gauges feature gray faces.
1967 – 0-80 oil pressure, 100-250 temperature. Gauges feature gray faces.
1969-72 - 0-80 oil pressure, 100-250 temperature. Gauges feature gray faces

Intellitronix — MADE IN THE USA

GPS Speedometer Sending Unit

The Intellitronix GPS Speedometer Sending Unit offers high-accuracy readouts and can be wired directly into your existing speedometer with a simple 3 wire hookup! The Intellitronix GPS Speedometer Sending Unit easily connects to your existing speedometer, allowing for precise readings that you will not get with any other speed sending unit.

Our GPS Speedometer Sending Unit works with any industry standard 4000, 8000 or 16000 pulse per mile or programmable speedometer. It can be wired directly into your existing speedometer and needs no additional sensor from the transmission to operate. The unit comes with a GPS receiver, omni-directional 4 ½ ft. antenna, and microprocessor that continuously converts GPS signals into a pulse stream that then replicate the output from you existing, mechanical speed sensor but with GPS accuracy. This combination of GPS technology and our own innovative engineering and electrical design allows for high-accuracy readouts. You do not have to worry about inaccuracies due to changes like different tire sizes or rear end gear ratios ever again!

USE YOUR ORIGINAL SPEEDOMETER

Dakota Digital

Electronic Cable Speedometer Drive

The missing link between your cable-driven speedometer and late model electronic transmission! Measuring 5 1/2" x 3 1/2" x 2", this drive unit allows the use of a mechanical-cable speedometer to be used in conjunction with a modern drivetrain which provides only an electronic output. 36" cable available for GM thread-on & GM clip-on style speedometers. Powerful motor is quiet enough to mount the module inside the cabin. Waterproofed case can also be mounted under the hood, or even inside a fenderwell. Bluetooth-enabled to sync with available mobile app for stone-simple set up. Supplied programming switch and LED readout make setup easy. For OBD II equipped vehicles, the supplied pigtail will easily plug into the DLC, simplifying the wiring connections. The PID control of the cable speed provides quick, smooth operation and prevents overdriving or damaging the speedometer needle. Consider this the most precise and easiest to use cable-drive unit on the market!

HDX Gauge Conversion Black Display

VHX Gauge Conversion Carbon Fiber With Red Display

RTX Gauge ConversionDisplay

MADE IN THE USA

1964-67 HDX Gauge Conversion

The fully machined instrument housing attaches directly to the stock gauge bezel found in 1964-67 Pontiac A bodies (including '63 Tempest!). Two TFT message centers and six analog gauge sweeps will the quartet of openings, allowing the driver to view nearly any parameters desired. Order with your choice of black or silver face styling. Available with your choice of black or silver alloy gauge-face styling, each HDX system allows the user to select independent illumination colors for the gauge readings and needles, as well as the message centers. Calibration and personal settings are manipulated with the built-in, capacitive-touch buttons, or the available Bluetooth app for Apple and Android devices. Each needle hub is black nickel plated spun-aluminum to match the buttons. All HDX instrument systems feature dead-faced indicators (turn signals, high beam, check engine, cruise control, parking brake, plus two user-definable), and a red, settable warning light for each gauge. With our central control box, installation is greatly simplified with vehicle-harness sourced signals and supplied, solid state sending units connecting cleanly to their respective terminal.

1964-67 RTX Gauge Conversions

Dakota Digital's direct-fit system features a machined aluminum housing for an accurate fit, while the twin TFT message centers and LED backlighting ensure the driver is well informed at all times. Every effort was made to keep the original styling cues intact, so even a straight restoration can have the best instruments available. The RTX series is the latest from Dakota Digital, focused on retaining that stock look without sacrificing the late-model features you love. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on in your favorite color scheme, all doubts will be removed. Starting from scratch, CNC machined housings are filled with electronics designed and built in-house, helping Dakota Digital once again raise the bar for aftermarket instrumentation. The high-definition TFT message centers can be fully configured to display just about any piece of information needed. As you've come to expect from Dakota Digital, the RTX series utilizes a central control box to make installation and setup as easy as possible.

NEW! Dash Dimmer Kit

If you want the most out of your gauges, Dakota Digital offers a light dimming kit to adjust the dimming feature built into your instrument system for enhanced night time driving. The switch can be mounted anywhere on the dash or out of sight for optimum convenience. A hole of .570" diameter is required to secure the switch which will look great anywhere with its aluminum knob and bezel. This light dimming switch will work with VFD3/RE, VHX, HDX, and RTX instrument systems. This dimming switch will not work with the STR series control box, Odyssey or Solarix gauges. Your stock dimming switches will not work with Dakota Digital Instruments.

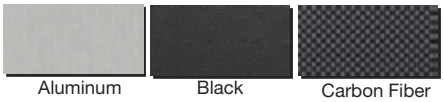
HIGH-QUALITY MOLDED ABS COMPOSITE PANELS

Features premium gauges to monitor vehicle info

G241677 - Aluminum
With Sport Comp Gauges Shown



Classic Thunder Road Dash Conversion

These custom panels from Classic Thunder Road are the perfect upgrade for your original dash. Each panel is precisely molded using lightweight ABS plastic in your choice of a black, aluminum, or carbon fiber finish. These rigid plastic panels are impregnated with a UV inhibiter to protect against sun damage and maintain an outstanding appearance for years to come. Panels include top-of-the-line instrumentation, which allows you to closely monitor your engine and vehicle vitals. Gauges are available in several styles and all include water and oil sending units as well as detailed instructions for assembly and installation. The Autometer gauges have clearly marked terminals on the backside that require wiring to the proper sending units and other vehicle locations by the installer. A speedometer sending unit and LED indicators are sold separately.

AUTOMETER HIGH-PERFORMANCE GAUGES

AutoMeter products come from a long line of racing history. When engines were becoming more powerful, in turn, they revved faster, created more heat, and demanded more out of the vehicle. Factory instruments were unable to keep up with the need of the racers. In 1957, AutoMeter was founded on the fastest, most accurate tachometer ever designed. Able to keep with the revs and provide unparalleled accuracy, the AutoMeter tachometer was widely accepted in the cockpits of the fastest race cars. Through the years, AutoMeter honed this technology to continuously improve all products. AutoMeter Products, Inc. is the worldwide leader in performance instrumentation.

Interface Module

Output your gauge information direct from the OBD-II/CAN or aftermarket EFI CAN connection to your Dakota Digital HDX, RTX, VFD3 or VHX Gauges.

Part#	Year	Desc.	UOM	Price
DDBIM01	61-73	.....	each	113.99

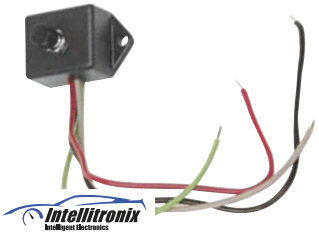
NOTE1: The interface works with HDX, RTX, VFD3 & VHX gauges with the black plastic modules. The earlier aluminum modules will not work with the interface. NOTE2: Dakota Digital cannot guarantee the presence or accuracy of the outputs since this is a function of the computer (ECM) or aftermarket system and matching OEM or aftermarket functional sensors.

Tachometer Adapter

Correct the operation of your voltage triggered tachometer with an MSD tach adapter. Adapters are available for non-current limiting systems as well as current limiting systems.

Part#	Desc.	UOM	Price
CH26152	for non-current limiting systems (w/ballast resistor)	each	71.99
G240817	for current limiting systems (non-ballast resistor).....	each	74.99

NOTE: For use with MSD 6, 7, 8 ignitions only.



Tachometer Recall Kit

Simply connect the little black box in between your existing tachometer and the tachometer signal from your ignition. The microprocessor monitors each incoming tachometer signal and saves the highest reading. In normal mode, the microprocessor simply sends the incoming tachometer signal straight to your tachometer, but when you press the button, the microprocessor recalls and sends the highest signal to your tachometer instead of the one coming from the ignition. This product includes a lifetime warranty, and this product is made in the USA!

Part#	Year	Desc.	UOM	Price

Rocket Tachometer

Monitor your engine rpm levels with this nostalgic Rocket Tach from Classic Instruments. The nostalgic appearance of this tachometer is fitting for any classic vehicle. The half-sweep tach features a dual layer design, color changing rocket booster, a red pointer, and a rich black face with bright white numbers and hash lines. Finished with a stainless steel low-step bezel and flat glass, the Rocket Tach comes mounted in a chrome-plated cup that allows for a variety of mounting positions. The tach is calibrated for use with 8-cylinder engines and has a range of 0-8000 rpm. Detailed instructions are included for a hassle-free installation.

Fuel Link Gauge Adapter

Whether you are using an aftermarket fuel gauge or have installed a fuel injection tank with a different sending unit than the original, this unit will correct the signal difference and allow any gauge to work with any fuel sending unit. Its compact size and labeled wire terminals make the Fuel Link from Classic Instruments easy to install while the pushbutton programmability with LED readout allows for simple use. Extra features include signal damping to prevent unnecessary needle movement as well as the option to trigger a low fuel warning light at 1/8 tank (light not included). A simple solution to inaccurate fuel gauges.

SHOCK PROOF ENGINE THERMOMETERS

Monitor important temperatures from the intake manifold, cylinder head and transmission with these liquid filled engine thermometer gauges from Marshall Instruments. Each engine thermometer is liquid-filled to absorb harmful vibrations that result in difficult readings or damage from excessive needle movement. The stem extends 1" from back of thermometer connection.

COMP II AUTO GAUGES

High performance at an affordable price. The Comp II series includes 2-5/8" full sweep mechanical and short sweep electric performance gauges and 5" pedestal mount memory tachometers. 2-5/8" gauges come with chrome step bezel, removable silver aluminum bezel and incandescent lighting. The 5" pedestal memory tachometer has a high-speed stepper motor movement, peak recall, optional external shift light and advanced white through-dial LED lighting.

DIAL COLORS: Black, white. **BEZEL FINISHES FOR TACHS**: Black, silver

Durable chrome-plated finish

Billet Horn Buttons

Billet aluminum horn buttons for 9-hole steering wheels are machined with precision and chrome-plated for a durable mirror finish. Available in two styles, the small button leaves the steering wheel mounting bolts visible for a modern performance look and the large button covers the wheel mounting bolts for an elegant smooth look.

1964-67 4-Speed Floor Console Top Plate Kit

Console top plate kits are ideal for all 1964-67 GTO, Tempest and LeMans models. The kits are available in two versions to suit your needs. The plastic version is correct for 1964-67 models and features injection-molded and chrome-plated ABS plastic components that are detailed in the correct satin black finish. We offer a correctly reproduced metal version for 1965-66 models as well as a version for 1967 models. Each component is die-cast metal dipped in brilliant chrome-plating and accented with satin black enamel. The 1967 version features an authentic wood grain overlay for a factory-correct appearance. All kits are sold complete with top plate, door housing, door, door hinge and shift bezel.

Part#	Year	Desc.	UOM	Price
G240992	64-67	plastic	set	392.99
G241134	65-66	die-cast	set	732.99
G241135	67	die-cast	set	729.99

NOTE: 1965-66 top plate kits will work on 1964 models. The fit and function is the same, but the original 1964 components featured steel-blue accents as opposed to the satin black accents on the 1965-66 models.

DIE-CAST STEEL REPRODUCTION

Identical to original equipment

1964-67 Console Door Housing

SMOOTH SOLID LINKAGE OPERATION

Top-quality craftsmanship throughout

Floor Mounted Automatic Shifter

Add a subtle custom look to your interior with a floor mounted shifter from Lokar. These shifters are manufactured to premium quality standards to ensure proper function and a long life. The solid linkage utilizes adjustable rod ends which eliminate the need for a cumbersome cable. Standard shifters feature a chrome finish with a satin mushroom knob, while Midnight series shifters feature a black powder coated finish and black mushroom knob. Shifters are available in either 8" or 16" height and can be purchased in either straight or curved configurations to accommodate your interior style. These shifters are the perfect complement to any interior and can be mounted inside a console, or direct to the floor. Neutral safety switch is included with every shifter, while shift boots and custom knobs are sold separately.

AVAILABLE IN: Blk pwdr coated or chrm finish.

FOR TKX & MAGNUM APPLICATIONS

Proper offset for console applications

FREE SHIPPING ON THIS ITEM

AMERICAN POWERTRAIN

MADE IN THE USA

White Lightning Shifters

White Lightning short throw shifters feature a natural finish, billet aluminum base plate, tower and also the billet steel core which includes a independent adjustable spring bias for improved centering and a smoother operation on the 2-3 shift by simply turning a screw. These shifters will shorten your shift about 20% with multiple shifter positions, their low-profile design increases tunnel clearance, allowing for factory consoles to be used with avoiding modifications. Offered for TKX, and T-56 transmissions. Made right here in the U.S.A. so quality is better than anything else on the market!

NOTE: In 1966-68 GM used a rubber coating over steel. The pad was switched in 1969 to an abrasive-resistant plastic pedal. We now manufacture all pads using the newer design. The 1966, 1967 and 1968 pads look and fit the same as originals once installed, but are now plastic. When using the RESTOPARTS® reproduction accelerator pads, you must use pin #87A0224 and spring #87A0103. The factory pin and spring for 1966-72 will not work.

1966-72 Pedal Trim Plate Kits

Get all of your pedal trim plates in one easy-to-use kit. Trim plates are precision-manufactured using top-grade stainless steel and meet all OE specs for the ultimate in fit and appearance.

G240361

GTO 8-Track Housing, Bezel & Brackets

Many vehicles were originally outfitted with 8-track tape players from the factory. Through years of use and exposure to the sun, the plastic housings can deteriorate and easily crack or break. Now you can replace those originals with these 8-track components. OPGI has what you need—whether it's a new ABS plastic bezel, faceplate or bracket. One or all of these could be just what you need to bring the 8-track housing back to life.

StayFast Premium Convertible Tops

Tops are made of high-end quality cloth called "StayFast." This material, which is used on all modern luxury cars including Mercedes and Porsche, is a combination of acrylic-bonded with butyl rubber to a cotton sateen backing for the ultimate in looks and durability. All rear windows are plastic. A StayFast top will add the perfect custom touch to your convertible.

Authentic Vinyl Convertible Top Boot

Our identical reproductions are manufactured utilizing a heavyweight Madrid grain vinyl, with correctly reproduced double-turned bindings and plastic reinforcements. A foam, die-cut padded underside is added just like factory originals. Mounting clips required, but not included with 1965-67 boots. The 1968-72 boot features original plastic "tuck" strip for easy mounting.

Best quality on the market

Top Boot Clips

These quality RESTOPARTS® reproduction clips connect the boot to the well. 1964-65 clips are original springboard-style steel required to secure the boot. The clips are then dipped to form a plastic film so as not to scratch the chrome around the well. 1966-67 style clips are a blend of plastic and nylon. Stronger and more durable than the original GM clips, they provide an easier snap-on fit.

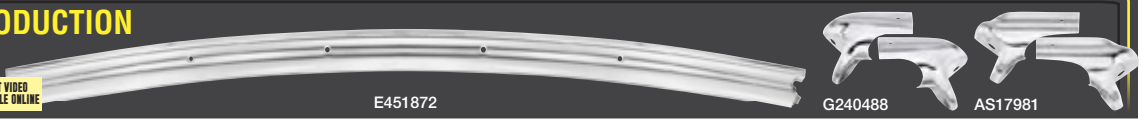
A PRECISE REPRODUCTION



1964-67 Convertible Header Molding Kit

Long discontinued from GM, these A-Body convertible header center moldings, where the top seals to the windshield, have been carefully reproduced down to the last detail by RESTOPARTS®. You can't tell them from the originals! Made using new tooling, these brilliantly polished stainless steel header center moldings have all the correct bends and mounting holes for that "showroom" look and fit. Finding NOS convertible header center moldings—even good used ones—is almost impossible, but now we have them exclusively at OPGI. For that fresh from the factory look when the top is down get the RESTOPARTS® convertible header center molding.

LONG-LASTING AND GUARANTEED TO BE THE BEST!

– Authentic Levant grain vinyl
– Pre-cut for an easy install
– 1964-72 dual-seamed
– 1973 single-seamed (like factory original)

MADE IN THE USA

1964-73 Vinyl Tops

Each vinyl top is created utilizing the dielectric heat-sealing method, which is an exact factory duplication of the original GM vinyl tops. These have been installed in thousands of GTO's, Tempests and LeMans since the early 1980's. The most original vinyl tops on the market continue to be a mainstay in the restoration market. Available in black or white.

EXACT REPLACEMENT COWL WEATHERSTRIPPING

MADE IN THE USA

Hood-To-Cowl Seals

Authentically reproduced hood to cowl seals are a must have for any vehicle. The seal mounts on the lower windshield cowl and seals the rear hood edge when closed. This seal helps prevent unwanted dirt and water runoff from entering the engine compartment.

'64 GTO

Just like General Motors in the '60s!

1964 Grille Emblem

OPGI.COM PRODUCT VIDEO AVAILABLE ONLINE

Precisely reproduced "GTO" grille nameplate is not only the finest, but also the most original on the market. There is simply no comparison to the quality that die-cast zinc (like GM factory original) offers. Don't settle for poorly reproduced (soft metal) castings elsewhere that are cheaper to produce, yet yield marginal detail in comparison.

Part#	Year	Desc.	UOM	Price
EM00011	64	.....	each	21.99

GTO, TEMPEST & LEMANS

Exceptional quality, detail and identical to the factory

1964 Arrowhead Hood Emblem

This reproduction of this "Arrowhead" hood emblem is professionally die-cast in authentic case-hardened steel molds (just like the factory GM versions). You will be thrilled with the quality!

Part#	Year	Desc.	UOM	Price
EM00010	64	.....	each	36.99

'64 TEMPEST & LEMANS

1964 "PONTIAC" Grille Emblem

Chromed and painted—entirely original in appearance and fit—as shown.

INSTALL DECALS & GRAPHICS PROPERLY

Preparation is the key to success

CH31704 CH31705 CH31706

PHOENIX GRAPHIX

Decal & Graphics Preparation

Surface preparation is key when installing decals and graphics on your vehicle. OPGI has several products that will help you achieve professional results ensuring your vehicle looks great for years to come. PRE-APP eliminates wax, oil and dirt providing a smooth and clean surface to begin with. SLIDE-ON resists drying and allows movement of the decal for proper placement. Once the squeegee is applied, the decal adhesives be allowed to "set-up". SLIDE-OVER UV protectant shields your decals from fading while repelling dust, dirt and oils. Unlike petroleum based products, it does not attract dust or draw moisture out of the decal. These products are a must-have when installing decals or graphics on your vehicle.

IMPROVES VISIBILITY AND SAFETY

Maintains a classic appearance

J.W. SPEAKER

MADE IN THE USA

1973 LED Headlights

Drive anytime with confidence. The J.W. Speaker 8700 Evo 2 Classic draws less than half the power of halogen lamps while providing a brighter, enhanced driving experience. Reduce the demand on your classic ride's electrical system and your eyes at night. An easy Retrofit: fits numerous classic cars that use a 7"/PAR56 style sealed beam headlamp and H4 connector. These easy plug and play LEDs feature Dual Burn and ComfortLite high beams for an extra punch of light. The 8700 EVO 2 Classic is DOT approved and tested to be 100% street legal - unlike other replacement LED bulbs.

1966-67 Headlight Bezels

Finest on the market! We introduced these precise reproductions in 2007. There are many important differences between this bezel set and others on the market. For instance, ours includes the custom GM factory hardware (we reproduce everything), while others on the market do not. In addition, others on the market do not offer the same fit quality—there's nothing more frustrating than a reproduction that does not conform to or exceed GM original standards. Already, these have been installed into hundreds of Goats with superb results. Why compromise? You will be thrilled with the fit, finish and quality of these RESTOPARTS®-manufactured reproductions.

ALL-INCLUSIVE KIT ELIMINATES THE NEED FOR ORIGINAL VACUUM COMPONENTS

State of the art technology throughout

1968-69 Hideaway Headlight Conversion Kit

Bring your hideaway headlights into the 21st-Century with this electronic conversion kit from OPGI. This complete kit contains everything that you need to replace the troublesome vacuum controlled system installed at the factory. Each kit contains heavy duty electric actuators, alloy gears, alloy gear cases, CNC billet aluminum brackets, hardened electronics with aluminum cases, Teflon coated wire, Deutsch gold-plated connectors and stainless steel hardware. Using the supplied instructions, installation is straightforward and requires no cutting, drilling or fabrication. Electrical connections are made through four short wires, eliminating the need to run wires to the firewall and inside the vehicle. This kit is a must-have when engine vacuum is limited or modernization is a necessity.

G240031-PR

Upper Fender Molding
Long discontinued by GM, these upper fender moldings are the finishing touch for any 1968-72 GTO and LeMans restoration. These stainless steel, show-quality moldings mount at the top of the fender, below the windshield, between the hood and the door. They have the correct curves, folds and mounting flange as the originals did.

Inside Rearview Mirrors

Why compromise? Our 1961-72 mirrors are high-end reproductions and manufactured in precision-stamping dies just like the factory originals. Stainless steel backing finely replicates the original "mirror-like" finish to a tee! Hardened zinc die-cast attachment and end ball ensures that the mirror stays in place securely in the socket where you want it. Don't take a chance on others in the market that have been known to loosen over time, which can be frustrating (we guarantee ours). Our mirror reproductions are also professionally assembled, and checked for quality at the factory then rechecked again before shipping, ensuring that your mirror will be trouble-free and a breeze to install. The 10-1/8" and 11-1/2" mirrors are available with your choice of black or gray rubber protective ring.

ADD A CUSTOM FEATURE TO YOUR INTERIOR

1961-72 Custom Rear View Mirrors with Map Light

These custom day/night rear view mirrors are styled after original equipment, but feature the addition of a built-in map light. Designed to easily mount to your original mirror support, each unit includes a day/night lever on the bottom. The included wire features both a male and female terminal which can easily be plugged into your fuse block. Available in 3 sizes; 8-inch and 10-inch are available in silver or black, while the 12-inch is only available in silver.

IN SEVERAL FINISHES!

CNC-machined billet aluminum

1961-73 Billet Aluminum Inside Rearview Mirrors

Custom interior mirrors are manufactured from 6061-T6 billet aluminum to achieve a consistent appearance, fit and function. Mirrors feature convex glass and an adjustable pivot to enhance your field of vision and ensure stability while driving. Mirrors measure 9" x 2-1/2" x 1" and are available in two styles, and several finishes. Choose the stem mount to fit the mirror to your original mirror mount bracket, or the glass mount, which fastens to the windshield when used with the proper adapter, which is sold separately.

THE PERFECT MIX OF STYLE, ELEGANCE AND FUNCTIONALITY!

Manufactured in the USA

MADE IN THE USA

Billet Aluminum Outer Mirror

Starting with 6061-T6 aluminum, the billet mirrors are CNC-machined to achieve consistent appearance, fit and function. To enhance the field of vision, these mirrors feature convex glass as well as increased articulation. Due to the unique design, the pivot ball can be tightened to lock the mirror head in place once positioned. These mirrors utilize the original mounting holes drilled by General Motors, but can be fitted to nearly any vehicle by drilling new holes. Mirrors include a mounting gasket and are available in a variety of finishes to suit your specific taste.

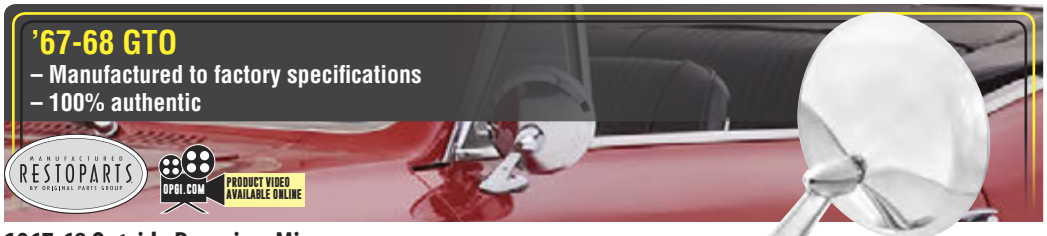
1964-66 Outside Rearview Mirror

RESTOPARTS® has reproduced this mirror to General Motors specifications in order to enhance the authenticity of your restoration. The mirror base and head are precision-tooled and die-cast in zinc for a genuine look and feel. Each mirror is brilliantly chrome-plated to provide a long-lasting shine. This RESTOPARTS® exclusive reproduction also features premium-quality low-distortion mirror glass and a superior pivot design, which eliminates mirror wobble. For your convenience, all mirrors include the original style mounting bracket, hardware and molded plastic gasket. Sold per each for the left or right hand side.

Part#	Year	Desc.	UOM	Price
GTA1094	64-66	.....	each	64.99



1967-68 Outside Rearview Mirror

This premium-quality reproduction is identical to the original equipment and can be found on our 1968 GTO, which won the General Motors SEMA design award for best-restored GM vehicle at the 2008 SEMA show. This mirror features an authentic zinc die-cast base and head that are chrome-plated to perfection and identical to the original equipment in every way. High-clarity mirror glass and a tight pivot-ball at the head make this the most genuine reproduction available on the market today. Included with each mirror is the original style mounting bracket, hardware and molded plastic gasket. Sold per each, and fits left and right hand sides.

Part#	Year	Desc.	UOM	Price

1969-72 Outside Rearview Mirror

This is within the same family of RESTOPARTS® manufactured mirrors as found on our GTO, Tempest and LeMans, which won the General Motors SEMA design award—against thousands of others in attendance—for best-restored GM Vehicle at the 2008 SEMA show. Professionally die-cast to original General Motors specifications then brilliantly chrome-plated, this is a genuine reproduction you can be proud to have on your car. The precision-tooled mirror base is an identical recreation of the factory original. Our premium mirror glass and factory-correct pivot design make this mirror the one to have for total authenticity. As an added bonus, at no extra charge, each mirror includes the original style mounting bracket, hardware & authentic-molded plastic gasket. Sold per each and fits the left hand and right hand sides.

A MUST-HAVE
Step into the modern age with these valuable & expertly made sets

C240046

MADE IN THE USA

Door & Trunk Remote Opener Sets
One-button remote access to opening your doors and/or your trunk is now easy with these high-quality sets. Made by the premier manufacturer of remote access sets, each features all USA-made components with heavy-duty bear claw latches and strikers. This outstanding set also includes wiring diagrams and schematics, gear driven actuators with built-in relays, transmitter and a lifetime warranty. There are two choices when you order: one that opens just the doors, and the other that opens the doors and the trunk.

AN OFTEN-OVERLOOKED DETAIL

Identically reproduced

Inside Door Lock Rod Clip

This is the correct plastic sleeve that holds the door pull lock rod into the inside door frame and allows the door lock rod shaft to swivel on the body of the door frame. Use two per side and four per car. These are commonly broken and without these sleeves, the door lock pull rod will not function correctly.

LARGEST SELECTION OF IN-STOCK PREMIUM HOODS

'64-70 GTO AND LEMANS

When nothing will do but a full replacement steel hood, look no further than Original Parts Group! We carry steel hoods for Pontiac A-Bodies from '64 through '70 and they're all made to OEM specifications ensuring a perfect fit. The steel is typically "die-stamped" on a 1,200-ton press, trimmed and folded using all steel tooling then electro deposit plated for superior rust protection. Count on OPGI to deliver you the best the industry has to offer. Your total satisfaction is guaranteed!

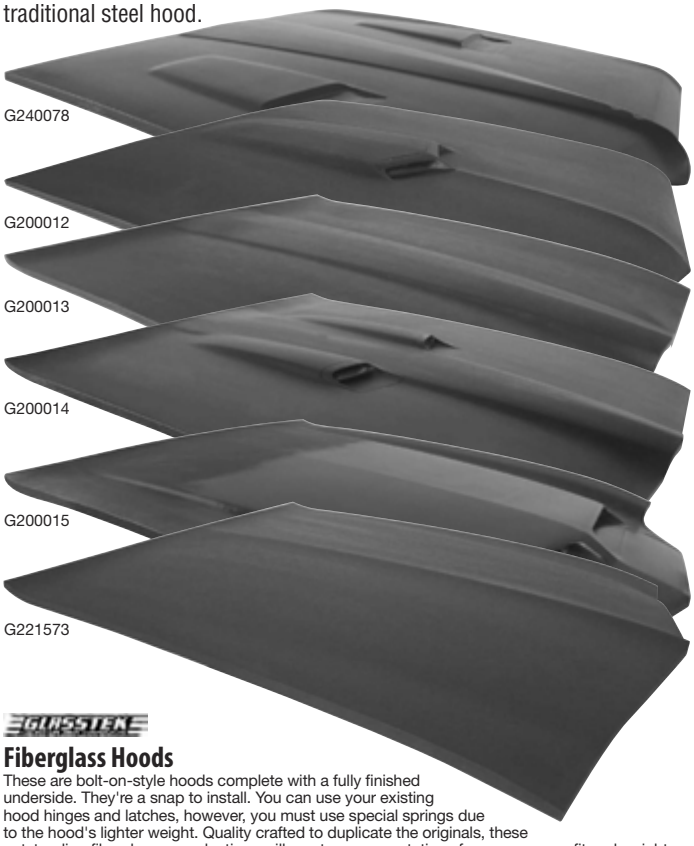
ORIGINAL PARTS GROUP NOW STOCKS THESE PREMIUM-QUALITY FIBERGLASS HOODS FOR YOUR PONTIAC

These are exact replicas of the factory originals right down to the most intricate molded details on the scoops. Unlike other fiberglass replacement hoods, ours are contoured and professionally finished to give your car a showroom-fresh look without the added weight of a traditional steel hood.



GLASSTEK

Fiberglass Hoods

These are bolt-on-style hoods complete with a fully finished underside. They're a snap to install. You can use your existing hood hinges and latches, however, you must use special springs due to the hood's lighter weight. Quality crafted to duplicate the originals, these outstanding fiberglass reproductions will meet your expectations for appearance, fit and weight.

DON'T COMPROMISE!
Competitor bolts are generic and contain a potentially serious flaw. Our reproduction hood bolt eliminates the problem

DISCOUNTED KIT SAVINGS

Hood Hinge Bolts
This reproduction is the only exact one on the market. The set includes the four bolts to hold the hinge to the hood and the four correct bolts that fasten the hinge to the inside part of the fender. The current generic "replacement" bolt, sold by competitors everywhere, is too long, has a sharp pointy end and, when screwed down, it often creates a frustrating "nipple dent" from the tip of the bolt on the top of your hood—a serious flaw.

G241245	67-72	.....	each	49.99

1967-72 Hood Tach Vent Line

One of the big problems with the 1967-69 hood tachs was that they fogged up with condensation and were very hard to see. On 1970-72 models with hood tachs, the factory ran a vacuum line from the heater box to the tach to eliminate the fogging—and it worked. OPGI now has authentic reproductions of these vacuum line kits that will work on all 1967-72 hood-mounted, tach-equipped cars. It'll look like yours came factory equipped with it, whether or not it did.

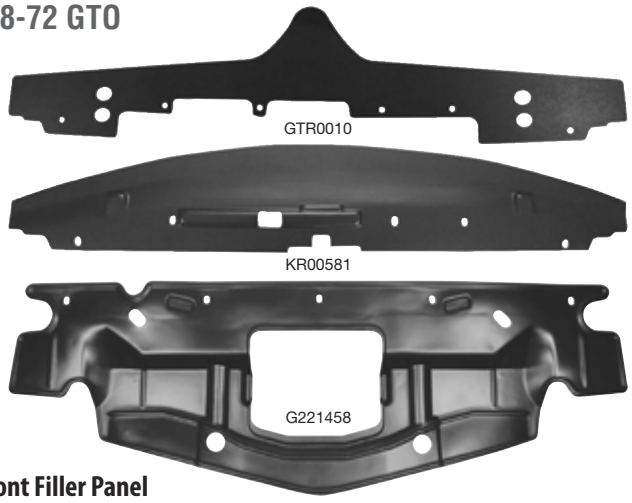
G240527	67	.....	each	168.99

NOTE: EDP-coating - A form of sealing & protecting raw metal. EDP stands for Electro Deposit Primer.

'68-72 GTO



Front Filler Panel

Pontiac originally used a panel to fill the gap between the radiator core support and the front nose. Often times, this panel is damaged beyond repair, but OPGI has all-new panels to solve that dilemma. Reproduced to meet the highest standards, each panel is complete with all of the correct mounting holes and contours for a great fit. Available in durable ABS plastic, these all-new panels are designed to last for years.

Important Body Panel Information

Regarding Minor Imperfections In Steel Panels:
The sheet metal you receive may have scratches, dings, small dents and other minor imperfections, which are considered normal sheet metal characteristics due to the nature of the product. OPGI does not consider these minor imperfections as damaged. These items will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. All sheet metal panels will require some sort of manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

Regarding Minor Imperfections In Fiberglass Panels:
Due to the fragile nature of fiberglass products, we inspect each piece for major damage prior to shipping. It is common for fiberglass components to have small chips and minor imperfections in the gel coat finish. These imperfections are not considered damage as they will be eliminated during the paint preparation process. Fiberglass parts are not shipped in a finished "ready to install" state and will require minimal filling and sanding prior to primer and paint.

Test Fit All Panels Prior To Paint and Installation:
OPGI recommends test-fitting all sheet metal panels prior to final paint and installation. It is also recommended that the damaged area of the vehicle not be cut out before receiving the new sheet metal. Measure twice, cut once to be safe. Sheet metal panels are not a finished product like door handles and mirrors. Minor modifications including elongating mounting holes, adding shims etc. are normal and may be necessary when installing sheet metal. This is a consideration when reinstalling original GM panels as well as reproductions. It is important to note that hard driving conditions can twist frames and bodies out of original tolerances. Poor bodywork from previous collisions can cause problems with the body structures that the panels are attached to.

PREMIUM SPRING STEEL
Formed with precision

C210105 G240352

Trunk Lock Cylinder Retaining Clip
This reproduction trunk lock retaining clip is precision stamped from premium spring steel to ensure a proper fit. Ensure your lock stays in place by installing it with a fresh reproduction clip.

Part#	Year	Desc.	UOM	Price
G240352	65	.....	each	38.99
C210105	68-72	.....	each	19.99
G241606	66-67	.....	each	21.49

G240833 CH28160

Lower Trunk Drop Off Panel Plug
These reproduction plugs are identical to original equipment used to seal the lower trunk drop-off panel. Plugs for 1964-69 are factory-correct molded rubber and press into place for a positive seal, while 1970-72 plugs are stamped steel with a green painted finish and orange rubber gasket designed to seal the hole.

Part#	Year	Desc.	UOM	Price

'72 GTO
Spoilers for coupe or convertible

G240247

1972 Rear Ducktail Spoiler
Although it was listed as an option for the 1972 GTO's, not very many cars were made with the ducktail rear spoiler. There were problems with delivery and quality, but these high-quality reproductions are perfect in every aspect including fit and finish. Made from spun-molded fiberglass, these three-piece spoilers come ready to paint and mount including the hardware to install them.

1968 Rear Body Panel
This is one of the most easily damaged body panels on a Pontiac A-Body, especially if you've been in a rear end collision. Don't forget about rust too, particularly if you live in the East where they salt the roads in the winter. This is an exact reproduction of the original 1968 lower rear body panel that goes between the quarter panels where the tail lights are located and rolls up into the trunk area. This panel also includes the lower portion of the trunk weatherstrip channel. A perfect reproduction.

Part#	Year	Desc.	UOM	Price
G240102	68	.....	each	159.99

G240033 G240032

Rear Valance Panels
A beautiful reproduction, original style steel rear valance panel has all the right contours, curves and mounting tabs just as the original did. Part# G240033 is the standard valance panel for all 1970-71 GTO's with the chrome exhaust extensions coming straight out the back, but will also fit 1972 GTO's if you want to run the exhaust through the lower valance panel for a custom style. Part# G221287 is a plastic version duplicated from originals with the correct cut outs and mounting tabs. All four panels give your 1970-72 GTO that factory-fresh look at an everyday low price.

THE CURE FOR A ROTTEN TRUNK FLOOR

Complete Trunk Floor

OPGI now has the cure for a rotten trunk floor. This complete trunk floor covers everything from the rear of the car up to the rear deck area. Heavy steel panels are stamped exactly like originals and include all of the braces and brackets as well as the factory-style spot welds. If your original trunk floor is beyond repair, cut it out and replace it with this excellent reproduction.

1968-72 Center Trunk Floor

This one-piece trunk pan is designed to give you the option of repairing the large, middle area of the trunk floor. If your rust repair needs do not exceed the area covered by this unit, this is the perfect solution. However, it does not cover as wide an area as our three-piece trunk floor kit. The exact dimensions are 34" x 47".

EXACT REPRODUCTION OF THE FACTORY OPTION
'68-69 GTO

1968-69 Front Endura Bumper
In 1968 and 1969 you got a chrome bumper as standard equipment. The option was the body-colored "Endura" bumper, a urethane-molded part that would take parking lot bruising and low speed impacts with no visible damage. Finding someone to repair these bumpers correctly is very difficult, so OPGI is now offering these authentic replacements of the Endura bumper that can be painted to match your Pontiac A-Body's body color. An exact reproduction.

Part#	Year	Desc.	UOM	Price

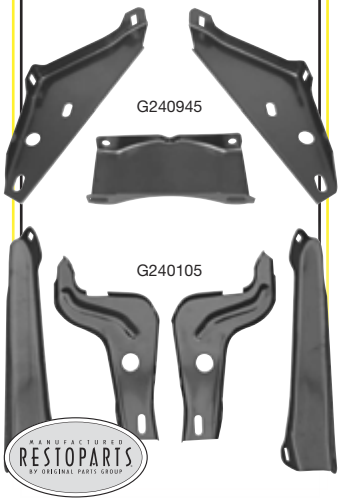
Complete 3-pcs or 4-pcs set



G240945

G240105

1965-67 Bumper Brackets
These are authentic reproductions of the bumper brackets that attach the bumper to the frame. Because of the age of these cars, it's not unusual for these brackets to be bent or missing so replace them with quality reproductions of the originals from OPGI. The front brackets fit 1966-67 GTO, while the rear brackets fit 1965-66 GTO, Tempest and LeMans.

1971-72 Front Endura Bumper Stabilizer Bushings

These are the bushings that fit on the brackets at the upper center of the "Endura" front bumper on 1971-72 GTO's. They help to keep the alignment of the Endura bumper with the hood. They didn't service the bushing itself, so you had to buy the stabilizer bracket with the bushing attached. Now OPGI has the bushing by itself and it's an exact reproduction. Two required per car, and they are sold per each.

TUBULAR CONTROL ARMS

SPC's upper control arms are a patented design that will give you the most adjustability and best clearance of any arm on the market. Sold as a pair, upper arms come with ball studs that are 1/2" taller than stock to improve camber curve. Throw in some caster and the ability to tune camber and you will have a 'modern' feeling suspension. The ball joints are greaseable and rebuildable. Additionally, OE length and 1/4" extended studs are available to tune your ride or maximize your specific suspension geometry. Front upper Adjustment range: Camber ±3.0° Caster ±3.0°. SPC's lower control arms will lower your front end by 1" and add 1° positive caster for an aggressive, ready-to-run stance. If you have coilovers use SPC's Coilover Mount and Spacer Plate 2 pack - part number SP95338, 4 pack - part number SP95332. Optional bump stop available (part no SP95339). Combine upper and lower control arms with SPC's 1" lowering springs to complete the transformation of your Pro Touring, Track Ready, or daily driving street use American Muscle.

STARTING AT UPPER $895.99

SP64344 LOWER $1,257.99

Pro Springs

SPC's Performance Pro Spring Kit offers immediate handling enhancement and gives your muscle car an aggressive stance! Front springs provide a 1.3" approximate drop and rear springs offer a 1.0" drop. Highest quality and design assures springs will retain optimum rates for unsurpassed performance. Springs are epoxy coated with a diamond black color and have a lifetime warranty. Sold as a complete set.

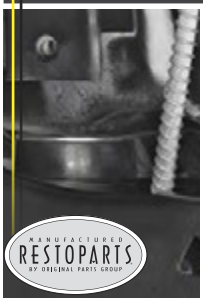
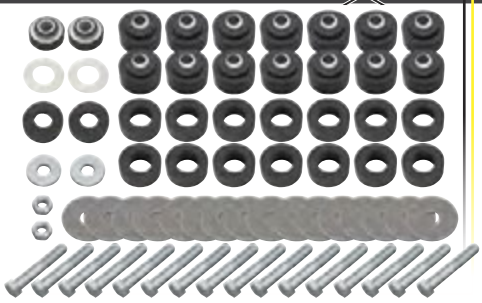
MOST COMPLETE KIT ON THE MARKET

These are considered the "gold standard" in authenticity, quality and value!

OPGI.COM PRODUCT VIDEO AVAILABLE ONLINE





SB515K

Complete Body Bushing Kits

When we introduced these in 1986, they were considered the gold-standard in body bushings. Today, they are still the best on the market. Why? Because we didn't cut corners then and we don't now. Just as we did in 1986, we continue to produce them in custom, case-hardened steel tools (expensive, but the right way to do it), ensuring a consistent, precise, injection-molded rubber bushing every single time (unlike the ones that competitors offer, which judging by the lower density, seem to be produced in cheaper aluminum molds). In addition to our finely reproduced rubber bushings, it's also noteworthy that each steel insert is stamped the right way in authentic zinc and the included installation hardware is zinc coated for long lasting corrosion resistance. Again, no competitor bushing and insert combination comes close. The bottom line is that you get the finest quality—time-tested and proven over and over again to be the best anywhere. Your satisfaction is guaranteed!

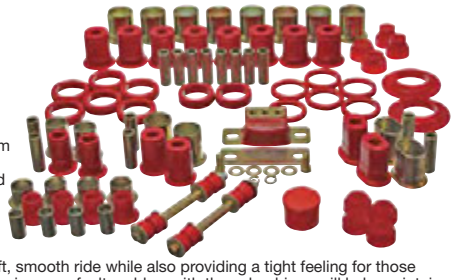
MAINTAIN PROPER ALIGNMENT SETTINGS
Both restores and improves handling better than new

MADE IN THE USA

ENERGY SUSPENSION

NEW! Hyper Flex Master Bushing Sets



Energy Suspension bushings are developed and manufactured from their HYPER FLEX performance polyurethane, providing increased longevity and durability of the bushing over OE. Not only does it increase durability while improving the vehicles stability, they're capable of providing a soft, smooth ride while also providing a tight feeling for those demanding roads or tracks. Replacing your faulty rubber with these bushings will help maintain proper alignment settings under extreme conditions compared to factory rubber which tend to crack and distort. Dramatically improve your vehicles handling with quicker steering response and greater control. One set covers both the driver and passenger sides.
Available in black or red.

NEW! Hyper Flex Control Arm Bushing Sets
Energy suspension has manufactured these bushings using their HYPER FLEX performance polyurethane, inevitably enhancing its durability and performance benefits over the factory bushing. They have been designed to provide proper stability and control by providing the driver a nice tight feel for those out in their weekend cruisers or out at the race tracks. Replacing your faulty rubber with these bushings will help maintain proper alignment settings under extreme conditions compared to factory rubber which tend to crack and distort.
Available in black or red.

ALL-INCLUSIVE KIT

A great way to upgrade your original frame

FREE SHIPPING ON THIS ITEM

1968-72 Frame FX Reinforcement Kit

One of the most effective ways to improve the stiffness and handling of your A-Body is to box the factory frame. The Frame FX kit takes all of the guesswork out of the job and gives you 14 pre-cut panels manufactured in heavy-gauge to match the thickness of the factory frame and fit into the weak points of the original chassis. Hellwig has also engineered a panel that adds an extra body mount to tie the floor to the chassis using an included polyurethane bushing, to add even more strength to the entire car. The kit also includes brackets for mounting the transmission crossmember with enough adjustment to accommodate nearly any drivetrain configuration. While fabrication and welding skills are necessary for proper installation, the kit comes with everything you need, including a detailed instruction booklet, to make this job a success.

OFFSET CROSS SHAFTS

1964-72 Billet Steel Upper Control Arm Cross Shafts

With these offset upper control arm cross shafts from Global West for GM A-Body applications, you are now able to fine tune your alignment for racing or performance street applications. They will give you an additional 1-1/4 degrees of adjustment even on stock suspension setups. Made from billet steel, they are guaranteed to last and stand up to the pressures associated with performance driving. Includes hardware for the shaft, but not for the frame.

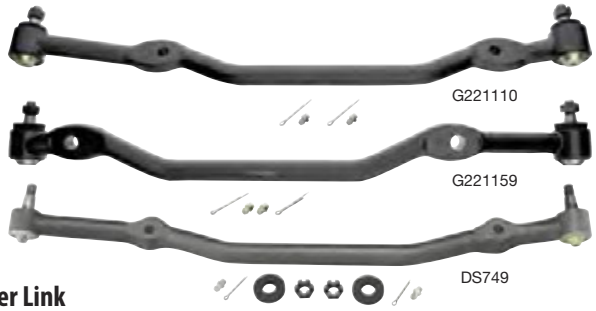
REPRODUCED TO FACTORY SPECIFICATIONS

A must-have when restoring your steering



Center Link

The center link is a critical component that ties the steering system together, and it is recommended to replace any time you are restoring your steering linkage. OPGI offers several solutions to suit your needs. Our premium line features the highest quality reproductions that often exceed OEM requirements with larger stronger forgings, improved design and tighter machining tolerances. Our standard reproduction line consists of center links that meet factory specifications and are designed as a fully functioning replacement of original equipment.

CH35846

ENERGY SUSPENSION. MADE IN THE USA

NEW! Hyper Flex Trailing Arm Bushing Sets

Improve the overall feel and drivability of your vehicle by using Energy Suspensions well proven bushings manufactured from their HYPER FLEX performance polyurethane. Not only have their bushings longevity and durability been greatly increased over OE, they have also improved the vehicles stability and control while providing a smooth and tight feeling for those demanding roads or tracks. Replacing your faulty rubber with these bushings will help maintain proper alignment settings under extreme conditions compared to factory rubber which tend to crack and distort. Dramatically improve the way your vehicle handles with quicker steering response and greater control. One set covers both the driver and passenger sides.

Available in black or red

Geometry Plus Control Arms

"Geometry Plus" control arms offer more than just a high-tech appearance. Designed to improve the suspension, the arms provide more straight-line stability, better corner entry and overall vehicle response. The main concept is keeping as much of the tire on the ground as possible during all conditions. This is done with different length control arms, which directly affect the tilt of the tire in relationship to the pavement. Arms are fully assembled including ball joints and bushings, which are available in the revolutionary Del-A-Lum design. Del-A-Lum bushings are fully greasable and feature a no drag design that will not work harden and wear out. All arms are TIG-welded for strength and powder coated gloss black for outstanding looks. Arms are sold per pair for upper and lower applications.

PRECISION ENGINEERED
For use with disc brakes

1964-72 Tubular Control Arms
Precision engineered tubular control arms feature improved geometry over stock equipment while also allowing for additional wheel clearance without rubbing. Changes to both camber and caster reduce bump steer, provide better handling, and maintain a larger contact patch where your tire meets the pavement. Stronger than factory replacements, these arms are ideal for street, strip, and autocross. The TIG welded arms have reinforced bushing tubes, bump stops, and polyurethane bushings preinstalled. Upper arms will include the billet cross-shaft, while lower arms have sway bar end links pre-installed.

Reduce frame flexing

CH26429

Rear Crossmember Reinforcement Braces
These are reproductions of the factory braces that were standard equipment on all A-Bodies with heavy-duty or performance suspensions—they stiffen the chassis from the lower rear control arm forward mounting point. This triangulates this area and prevents the upper crossmember from flexing and possibly breaking. An easy bolt-in that's noticeable right away.

GLOBAL WEST DESIGNS

Get maximum traction

CH26912

GLOBAL WEST PERFORMANCE

Rear Suspension Accessories

The Global West tubular lower rear control arm offers better traction for hard launches and improved handling due to less flex in the control arm and bushings. OPGI offers three versions of these powder coated control arms.
The most economical rear lower control arm comes with polyurethane bushings in each end and is great for drag racing. Because there isn't much suspension movement at the drag strip, this control arm won't cause undue amounts of suspension bind. If they are used on the street, the lateral force and aft forces can cause the suspension to bind and produce an unbalanced, ratcheting movement. The polyurethane will eventually wear and work-harden resulting in an unresponsive rear suspension.
Our #2 Global West tubular lower control arm utilizes a spherical bearing on the frame end and a poly bushing on the rear axle end. This eliminates bind in the suspension and works well on the street and track. The down side? The poly bushing will eventually work-harden and wear out. Still, a great overall choice.
Global West's top-of-the-line lower rear control arm features a spherical bearing on the frame end and a Del-A-Lum bushing on the rear axle end. This control arm eliminates lateral force and aft movement, with no bushing deflection and therefore no bind in the rear suspension. Great for use on the street and strip!
Global West also offers upper rear control arms that are fully adjustable. This, of course, makes setting the pinion angle easy. The control arm is designed with right hand and left hand threads on the adjuster so the arm does not have to be removed in order to adjust the length. Jam nuts secure the position after the adjustment. The arms come with spherical bearings located on the frame side, which allows the rear end to maintain proper movement.
Rear suspension frame supports: Global West adjustable round tube supports tie the upper control arm frame mount to the lower control arm mount. These supports provide additional strength to the upper crossmember in order to reduce the possibility of tearing the upper mount out during hard acceleration.

Part#	Desc.	Mfg #	UOM	Price
CH25026	64-73 lower/ Del-A-Lum	TBC-4	pair	429.99
CH26914	64-67 adjust frame supports	TS-47	pair	145.99

Sway Bars
Tighten up your front suspension and improve cornering with an all-new Performance by OPGI front sway bar. These top-quality sway bars are based on original equipment options offered by GM in the 60's and 70's. Available in 1-1/8" and 1-1/4" diameter, these bars feature all of the correct contours for proper clearance as well as end link mounting points for a straightforward installation. Each solid steel bar is finished in a durable gloss-black powder coat for an outstanding appearance and protection from the elements. Available in your choice of an individual bar, or a complete kit that includes premium Polyurethane bushings and end links. Each Performance by OPGI sway bar is backed by a no-hassle 1-year warranty.

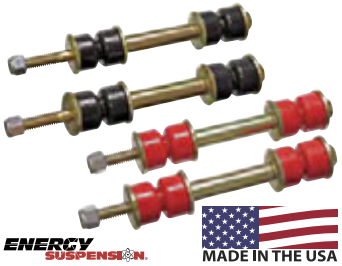
TOP QUALITY CONSTRUCTION
Durable polyurethane construction



NEW! Hyper Flex Sway Bar End Link Assembly
Energy suspension's bushings have increased in longevity and durability over the factory bushings using their famous HYPER FLEX performance polyurethane. They are capable of providing a soft, smooth ride while also providing a tight feeling of stability and control for those demanding roads or tracks. Replacing your faulty rubber with these bushings will help maintain proper alignment settings under extreme conditions compared to factory rubber which tend to crack and distort.

356-T6 ALUMINUM

Includes everything

1961-70 Rear End Cover/Girdle

This cover prevents breakage of the cast-iron carrier bearing caps when they're subjected to a sudden loading—like a drag race launch. By slightly pre-loading the carrier bearing caps, the cover/girdle holds the cap in place so there's no movement and therefore no breakage. Made of 356-T6 aluminum, weighing only 7-lbs., the T/A cover/girdle is easy-to-install and comes with all the necessary instructions, bolts, washers and cover gasket.

Part#	Desc.	UOM	Price
C220171	10-bolt (BOP) 8.5"	each	229.99

NOTE1: BOP = Buick, Olds and Pontiac.
NOTE2: Stud kits are used to help prevent stock cast-iron bearing caps from moving and causing carrier bearing breakage.

AuburnGear

Grip-N-Loc Differential

Welcome to Auburn Gear's most advanced limited slip differential, the Grip-N-Loc™. It builds upon exclusive technologies previously found in their limited slip line, but is even more robust to satisfy the extreme demands of serious drivers.

If you push the limits of performance and traction, perhaps through competition, or simply through extreme weather driving, Grip-N-Loc is your best choice. A Grip-N-Loc will upgrade your vehicle for safe transfer of increased power/torque across the axle. Case material is up to 50% stronger than OE cases. Advanced cone clutch technology provides 25% increase in bias ratio/increased traction. Heat-treated, hardened-steel gear materials for confidence in extreme conditions.

Chevy 12-Bolt available in 3.07-3.73:1 or 4.10:1 & up gear ratios; Ford 9-Inch available in 28 or 31 spline; BOP 10-Bolt available in 2.93-3.23 or 3.36 & Up gear ratios

KYB Gas-A-Just Shocks

When building a car, why not go with the best? Shocks are an important aspect of the suspension that is commonly overlooked. Don't go out and buy just any auto parts store shock when you can get the best at a reasonable price. KYB "Gas-A-Just" shocks are America's best-selling monotube gas shock. The monotube design is paired with high-pressure nitrogen gas to keep your tires glued to any road surface. This system eliminates the common problem of fading performance (associated with twin-tube construction) that allows the air and fluid to mix. KYB "Gas-A-Just" shocks include a protective outer shell to keep dirt out, self-sealing packing to reduce oil leakage, rubber cushions to protect inside on extreme extension strokes, seamless cylinder to reduce splitting, hard-chromed piston rod to reduce friction, rebound/compression valve to give quick dual-direction response, sintered iron piston for strength, all-weather fluid, floating dividing piston to separate gas and fluid and a tube guard to prevent damage from stones and debris. "Gas-A-Just" shocks are ideal for use with both radial and bias-ply tires.

Part#	Year	Desc.	UOM	Price
C980099	64-67	front	each	61.99

C980102	68-73	rear	each	51.99

Excel G Shocks

Looking for a smooth ride? Look no further! The KYB "Excel G" shock is the answer to the smooth ride question. The "Excel G" shock features low-pressure gas to make your ride more comfortable, while giving you precision handling at the same time. Features include a protective outer shell to keep the dirt out, multi-lip seal to reduce oil leakage, check valve to control flow of fluid and gas, sintered iron rod guide for longevity, chromed piston rod to reduce friction, seamless cylinder to reduce splitting, wear-resistant piston ring to reduce friction and leakage, all-weather fluid, 3-stage compression valve to assure fast recovery and a seamless eye ring to reduce the possibility of breakage. "Excel G" shocks are the economical way to step up from hydraulic shocks to gas shocks so you can improve the ride and control of any vehicle.

ALL-INCLUSIVE STEERING CONVERSION KIT

CH27656

1968-72 Rack & Pinion Steering Kits

Improve the steering of your classic A-body with this complete rack and pinion conversion from Flaming River. This unique system utilizes the "Travelbar" which connects new tubular inner tie rod ends at the original pivot points, reducing bump steer. Each cradle system is welded in a jig for accuracy and comes ready to bolt in.

Kits include the following components:
-Complete rack cradle
-Mounting hardware
-Steering shafts
-U-joints
-Tilt steering column (where applicable)
-Power steering pump and pulley (where applicable)
-Polished aluminum reservoir (where applicable)
-Sway Bar (1964-67)

C240404	bolt	each	7.99
CH30681	3-pc. washer set	set	5.49

NO FABRICATION NEEDED

3/4" 30-spline

1964-73 500 Series Quick Ratio Power Steering Box

This new power steering conversion gearbox is a modern alternative to the popular but outdated 800 box. The 500 Series box provides superior directional control and road feedback, as well as a more stable and comfortable feel to the driver. CPP engineered the recirculating ball gears for low friction and increased steering response. Also, it will line up perfectly to your column without shims or spacers. All the other boxes on the market are rebuilt units, whereas this CPP 500 Series box is brand new, with a new housing, new internals, new gaskets, and seals. This is the very best gear-box available to convert your vehicle to power steering! Output shaft is 3/4" 30-spline, it utilizes a factory power steering pitman arm and the box is setup for stock inverted flared fittings.

Part#	Desc.	UOM	Price
CH31602	painted - 14:1 ...	each	449.99

NOTE1: Requires power steering pitman arm. NOTE2: Requires ¾"x30 spline coupler such as CH32126

GM Type II Pump Power Steering Hardlines

Eddie Motorsports power steering hardlines are used on GM type II power steering pumps with attached reservoirs. These stainless steel power steering hardlines are available in a long or short option. The long hardline wraps around the top of the reservoir whereas the short hardline wraps around the side of the reservoir. The integral banjo fitting has 16.5mm x 1.5 threads and the line includes a nut and ferrule for attaching AN-6 Teflon lined braided stainless steel hose. Eddie Motorsports also offers power steering pump fittings and hardware for GM type II power steering pumps only. High flow pressure fitting accepts fittings with 16.5mm x 1.5 threads, internal orifice is .150" and allows pump to flow 3 -3.5 gallons per minute @ 1500 psi for use with Eddie Motorsports pumps used with GM power steering gear boxes. Low flow pressure fitting accepts fittings with 16.5mm x 1.5 threads, internal orifice is .120" and allows pump to flow 1.5 - 2 gallons per minute @ 1200 psi for use with Eddie Motorsports pumps used with rack and pinion steering systems.

Part#	Desc.	UOM	Price

NOTE: Short hardline is only compatible with hose with a .030" wall thickness.

Braided Stainless Power Steering Hoses

Eddie Motorsports power steering hose kits feature high-quality 28" braided stainless steel hoses that are Teflon lined to handle the high-pressure demands of your steering system. These kits are for use with Eddie Motorsports pulley kits and include two 28" braided stainless steel/ teflon lines, each with one crimped-on 90° hose end and all of the necessary fittings. Installation requires cutting the two hoses to length and installing the included screw-together hose ends. Kits for systems with remote reservoirs will also include one 36" -10 return line, or add a remote power steering reservoir to your existing system using hose kit # EM10737, this kit includes 36" of -10 braided stainless steel line and clear anodized hose ends.

M240043 CH28699

Lower Steering Column Bearing
This lower steering column bearing is a direct factory replacement for original equipment on 1964-66 and 1969-73 vehicles. The open ball bearing fits into the lower portion of the column housing and keeps the steering shaft in place, which reduces vibrations that can be possibly damaging and unsafe.

Part#	Year	Desc.	UOM	Price

1969-73 Steering Column Bearing Upgrade Set
This reproduction steering bearing kit replaces the factory GM bushing kit found at the base of the main steering column. It replaces the following four GM parts: adapter #7805822, bearing #7805700, retainer #7804440, and retainer clip #7804439. Ideally, you would want to replace this if you are changing the lower steering shaft, or replacing the steering coupler that attaches to the gear box. The reason is, the lower steering shaft has to be removed to slip the old bearing assembly out and install the new one. You do not have to remove the main steering shaft that this bearing kit goes on to. This reproduction upgraded bearing kit includes everything you need and comes with the bearing already pressed into the plastic adapter. By offering it as a complete kit, it eliminates any issues with having to try to save any of the original related parts when you remove the old bearing. By upgrading to a metal ball bearing format, it provides a much tighter secure fit. It comes with easy-to-follow directions. Made in the USA.

COMPLETE WITH IGNITION SWITCH & KEYED TUMBLER

CH27663 (Paintable)

Tilt Steering Columns

Add tilt steering to your classic, while maintaining an original appearance, with a classic-keyed tilt column from Flaming River. Each column is manufactured in the USA with all-new components including: The GM ignition switch and key assembly with the full-function positions and standard GM plug module. The tilt columns are constructed of 304 stainless tubing and also incorporate a high-strength all-steel shaft with Teflon-coated bearings and Flaming River's exclusive "Tru-Torque" tilt locking system. Available for both floor shift or column shift applications, each column can be ordered in a plain mill finish, polished stainless or black powder coat finish. Columns are sold per each and carry a 3-year/36,000 mile warranty.

More vehicle models available (Column Shift), please see OPGI.COM for your vehicle fitment.

Tilt Steering Column Accessories

These genuine Flaming River accessories are just what you need to mount your new steering column. All components are manufactured from the highest grade metals to ensure quality and satisfaction throughout. Installation kits are application specific and include wiring harness with hazard flasher, dash mount bracket and horn relay. Lower firewall mounting plates are available as direct bolt-in replacement for original equipment. Each machined aluminum plate features a ball swivel for mounting at any angle. Custom ball swivels are also available. U-Joints are available in stainless steel or billet steel to suit your needs from column to shaft as well as from shaft to steering box. Steering shafts are available in carbon steel or stainless steel. Choose between solid and collapsible.

NOTE: Part# KR20106 is a one-piece rotor designed to work with the original four-piston calipers.

LIGHTWEIGHT FORGED ALUMINUM

Complete kit is ready for installation

1964-72 Roller Bearing Hub Kit

This front hub kit is the ideal addition to any brake system. The lightweight kit will remove 2-lbs. from your front end and increase strength over the original cast iron hubs. Perfect for today's modern wheels and upgraded braking systems, each kit features forged aluminum hubs, inner and outer roller bearings, bearing races, wheel studs, seals, hardware and grease caps.

Part#	Year	Desc.	UOM	Price
CH30250	64-72	.....	each	219.99

NOTE: These kits can be used with disc brake conversions that utilize the original hub and spindle.

IDENTICAL REPLACEMENT

Complete with bearings, seals and more

1964-72 Drum Brake Hub Kit

This drum brake hub kit is a direct replacement for missing or worn originals. The front drum brake hubs are cast, just like OEM and come complete with new wheel studs, as well as bearings, races, seals, nuts, washers, pins and caps for a hassle-free installation to get you back on the road.

Part#	Year	Desc.	UOM	Price
CH30556	64-72	.....	set	99.99

NOTE: These kits can be used with disc brake conversions that utilize the original hub and spindle.

FORGED 4140 STEEL CONSTRUCTION

For OE style brakes

PRODUCT VIDEO AVAILABLE ONLINE

1964-72 2" Drop Disc Brake Spindles

Lower your center of gravity and improve handling without hassle using these forged steel drop spindles. Designed to mount directly to original equipment ball joints, tie rod ends, and steering arms while allowing the use of factory single piston disc brake components as well as original dust shields.

Part#	Year	Desc.	UOM	Price
PP05701	64-72	.....	pair	189.99

NOTE: Installation may require slight clearancing on factory disc brake caliper.

REPRODUCED TO OEM DIMENSIONS

A must-have for disc brakes

1964-72 Disc Brake Spindles

These original style disc brake spindles are identically forged to factory specifications for fit and finish. Each spindle is expertly machined and ready for installation.

Part#	Year	Desc.	UOM	Price
CH20359	64-72	.....	each	69.99

NOTE: Will work on 1964-66 cars with conversions.

FORGED 1045 ALLOY

For OEM or big disc brakes

1964-72 2" Forged Drop Spindles

New drop spindles are ready for installation. The spindles are designed to be used with factory disc brakes or larger 13" big brake kits. When using the OE disc brakes, the factory steering arms and calipers bolt right up. The spindles are forged from 1045 steel alloy for strength and durability and precisely machined for a perfect fit. Spindles require the use of 15" or larger disc brake wheels that do not exceed a 4" backspace.

Part#	Year	Desc.	UOM	Price
CH26651	64-72	.....	pair	249.99

NOTE1: Factory disc brake caliper bracket requires slight modification for a proper fit. Modification involves light grinding for clearance. NOTE2: The use of these spindles eliminates the use of original backing plates.

MADE IN THE USA

1964-72 AFX Pro Spindles

Wilwood's AFX ProSpindle Kits contain a pair of high strength steel spindles for 1964-72 GM A Body vehicles that use the original bolt on steering arms. Specifically designed for use with Wilwood's disc brake kits, with a 2.00" drop for a more aggressive stance without affecting steering geometry. With the added benefits of providing a lower center of gravity, raised front roll center and a decreased camber change also improve handling with less body roll. Installs using the OE ball joints using original or aftermarket control arms. The kit includes four steering arm bolts, two for each spindle.

ALL-INCLUSIVE BOLT-ON KITS

Provides superior stopping power

FREE SHIPPING ON THIS ITEM

1964-72 Hydraulic Brake Assist Kits

These all new hydraulic brake assist kits are the perfect upgrade for your existing manual or vacuum-assisted brakes. With the use of hydraulic pressure, these kits put an amazing 1800psi to the wheels for serious stopping power. Kits are available in two styles, the Street Beast and the Show Stopper. The Street Beast includes the hydraulic assist unit, steel firewall bracket, aluminum Corvette-style master cylinder, underhung prop and stop block kit, rubber pressure and return hoses, and all necessary fittings and hardware for installation. The Show Stopper includes the hydraulic assist unit, billet aluminum firewall bracket, MCPV-1 aluminum all-in-one master cylinder, chrome accumulator cover, braided stainless steel pressure hose, rubber return hose, and all necessary fittings and hardware for installation. Due to the placement of the master cylinder and proportioning valve in this kit, brake lines from the proportioning valve to the distribution block must be custom made upon installation.

15° angle typical of GM power brake applications

FREE SHIPPING ON THIS ITEM

NEW! Remote Tandem Master Cylinder Set

Wilwood has packaged the Remote Tandem Master Cylinder in a kit with the GM style angled reservoirs, Combination Proportioning Valve, mounting bracket, fluid tubes, and mounting hardware. Wilwood's Tandem Master Cylinders represent the latest in refinements in brake pressure actuation and fluid control, and the durable nylon reservoirs are designed so that the top is level when mounted at the 15° angle typical of GM power brake applications. The high-pressure die-cast aluminum cylinder is available 2 finishes, ball burnished or black E-coat, with slotted mounting flanges for 3.22" to 3.40" on center studs. The Combination Proportioning Valve substantially simplifies wiring and brake proportioning incorporating a hydraulic brake light switch, adjustable prop valve, and Y-junction block, and finished in black E-coat for durability and a performance look. Stainless steel fluid tubes are precision bent with pre-installed plated steel tube nuts for a simple bolt-on installation. Rear brake circuit reservoir, closest to the booster, holds nearly 5 oz., while front brake reservoir holds 8 oz. both made of black plastic with black screw caps.

FULLY-MACHINED FOR PRECISION PERFORMANCE

An ideal addition to your braking system

Aluminum Tandem Master Cylinder

This Wilwood tandem chamber master cylinder has been precisely machined from one high-pressure die-casting of a premium aluminum alloy to guarantee top quality. Each master cylinder features a slotted mounting flange to accommodate mount centers between 3.22" and 3.40" and also features side-hole mounts on 6.40" centers. Each master cylinder has a full separation between front and rear chambers and dual outlets allow for right or left hand plumbing based on mounting location. The total piston stroke is 1.10" and the volume ratio between primary and secondary chambers is 2:1. Available in several finishes, the master cylinders are sold in a 1" bore for manual brakes and 1-1/8" bore for power brakes.

FREE SHIPPING ON THIS ITEM

MCPV-1 All-In-One Polished Master Cylinder

Weighing in at only five pounds, the MCPV-1 aluminum master cylinder has all the features of a modern braking system in one master cylinder. It has a double-adjustable proportioning valve, removable metering valve (for four-wheel disc brake cars), stop light switch port, larger capacity (1-quart) and a smaller size than a conventional iron master cylinder. It's approximately the same size as an iron Corvette master cylinder, only much lighter. The MCPV-1 has two circuits: A front circuit with a metering valve for disc front/drum rear brakes, which is removable for four-wheel disc brakes and a rear circuit that has the double-adjustable proportioning valve and a maximum rear pressure adjustment. The proportioning valve controls the brake pressure between front and rear brakes, while the rear pressure adjustment controls what the maximum pressure is to the rear brakes. They're available in two different bore sizes for most brake applications and come with a polished finish.

CH27121	64-72	.....	each	9.99

ADJUSTABLE DESIGN

A must-have component

Adjustable Proportioning Valve

These premium proportioning valves from Wilwood allow you to precisely adjust your vehicle's brake pressure and are a must have for any disc brake conversion. Each valve features a forged-billet body and a fine-thread adjustment knob for pinpoint accuracy when tuning. Two valves are available to suit your needs. The standard valve features an adjustment knob and a single inlet and outlet. The combination valve features an adjustment knob, high-pressure brake light switch and a total of three inlets and three outlets while maintaining full isolation between front and rear circuits.

Part#	Year	Desc.	UOM	Price

PP05626	64-72	chrome .	each	17.99

PRECISELY FORMED SET

Includes fittings

Proportioning Valve Line Sets

Professionally manufactured brake line sets used for plumbing the proportioning valve. Sets consist of two lines, one 9/16" and one 1/2". Two styles available; bottom or left mount. Lines are available in gold Zinc, silver Zinc or chrome-plated finishes.

Part#	Year	Desc.	UOM	Price
PP05628	64-72	.....	set	12.99

HASSLE-FREE IN-LINE MOUNTING

Help maintain line pressure

Residual Brake Pressure Valve

Anodized aluminum valves maintain minimum brake fluid pressure eliminating spongy brake pedal feel or excessive pedal travel. Available in two variations, 2 pounds for disc brake applications or 10 pounds for drum brake. Installs in-line using 3/8" fittings.

Part#	Year	Desc.	UOM	Price
PP05635	61-73	.....	each	13.99

'64-72 REPLACEMENT

CH26776

1964-72 Proportioning Valves

Proportioning valves are a vital part of the braking system and are necessary when converting from drum to disc brakes. Making sure fluid is going to the right place and maintaining correct pressure is important. Whether disc/drum or disc/disc, OPGI has the right valve to get the job done.

Part#	Year	Desc.	UOM	Price
CH26775	64-72	disc/drum	each	79.99
CH26776	64-72	disc/disc	each	79.99

NOTE: This part is a replacement—mounting may differ from the original.

GM Proportioning Valve Kits

Complete proportioning valve kits feature a new valve in your choice of black or aluminum finish, pre-formed lines and bracket to connect with your existing aftermarket master cylinder. Available as an under mount or side mount, in black or aluminum finish.

Part#	Year	Desc.	UOM	Price
CH32112	61-73	side mount ...	each	99.99

LONG LASTING COATING

Eliminate fitment issues

Proportioning Valve Adapter Fittings

This brake line adapter set eliminates any headaches while fitting many of today's different proportioning valves and brake lines to your vehicle's plumbing. All three pieces feature a 9/16"-18 inverted male flare and either a 3/8"-24, 7/16"-24, or 1/2"-20 inverted female flare, which are the most common sizes to adapt any brake parts or lines.

Part#	Year	Desc.	UOM	Price
CH31114	61-73	.....	set	12.69

CH26982

Brake Fluid Distribution Block

Fluid distribution blocks were used on all cars whether equipped with disc or drum brakes. The block mounts to the frame and feeds both the front and rear brakes. While not a proportioning valve or hold-off valve, the block will contact the brake warning light if there is a loss of pressure detected. This valve features the correct brass body and phosphate-plating on the mounting bracket.

AUTHENTIC SIZE — SOLID BRASS

Brake Fluid Distribution Block

These solid brass distribution blocks route the brake fluid from the master cylinder to the front and rear of the car. OPGI is now offering exact reproductions of these brake distribution blocks that fit and function just like the originals. The 1964-65 block looks just like the 1966 block, but the 1966 had a 1/4" brake line that goes from the front to the rear of the car. The 1966 block is for a dual reservoir master cylinder or disc-brake-equipped vehicle. These blocks are correct in every detail for that top-quality restoration.

CH30540

Rear Drum Brake Hardware
Keep your rear drum brakes working properly with new hardware. New brake shoe washers, spacer bars and spacer bar springs are all available from OPGI. The washer slides over the shoe mounting stud to keep things in place, while the spacer bar acts as a support for the shoes on the lower portion of the drum—it also helps the automatic adjusters to work correctly. Often worn or bent, it's definitely a good idea to replace these small items.

PRECISELY MACHINED BLEEDER SCREWS
Identical to original equipment

CH28799

Brake Bleeder Screw Sets
Our brake bleeder screws are identical reproductions of original equipment. Two kits are available depending on your needs. The drum brake kit features four zinc-plated 5/16" bleeder screws, while our disc brake kit includes four gold-anodized 5/16" screws, two 3/8" screws and two blue plastic dirt caps.

BRAKE SYSTEM BLEEDING & FLUSHING MADE EASY

Power Bleeder Kit
This power brake bleeder is designed as a one-person operation with no external power source needed. Because of the two-quart container, you can flush a complete brake system without having to stop to refill the fluid supply container. They say you should flush your brake system once a year due to the absorption of up to 2% moisture and contaminants, which will rust, corrode and wear-out brake system components.
The "Power Bleeder" makes this an easy operation and it is a durable tool that is inexpensive to boot. Comes complete with the correct adapters, hoses and clamps.

Part#	Year	Desc.	UOM	Price
CH26311	61-73	.....	each	89.99

CH24755 CH24756

Speed Bleeders
Brake bleeding is now a one-person job. This revolutionary Russell "Speed Bleeder" replaces the original bleeder valve in your caliper/wheel cylinder with a spring-loaded, one-way ball and check valve design. This allows the old fluid and air out and then closes automatically between pumps preventing the old fluid and air from re-entering the brake line. Just position a container to collect the brake fluid then remove your OEM bleeder screw and replace it with the new Speed Bleeder screw.

WORKS WITH OUR "POWER BLEEDER" KIT PART# CH26311

Motive Products Brake Bleeding Catch Bottle Kit
When you're using Motive Products power brake bleeder, this catch bottle kit will be very handy. The kit consists of two 500 mL polyethylene bottles with a flexible bleed valve attachment tube and steel wire to hang the bottles from any suspension part. Each bottle also has a vent on top to connect the bleed valve tube when the bottle is not in use.

THE ULTIMATE IN STOPPING POWER FOR MUSCLE CARS

ACDelco

1967-72 AC Delco Dura-Stop Brake Shoes

With their specially formulated friction material that doesn't require a break-in period and has consistent high-torque stopping power at all pad temperatures, these "Dura-Stop" pads and shoes are the best available. The pads are also 400% stronger than standard ones, due to a special pad and steel backing plate molding, not bonding, process. Other benefits of these pads and shoes include instant brake response with a light pedal effort, dramatically reduced fade in an extreme stop and reduced rotor checking and cracking. The ultimate in muscle car brake pads and shoes.

PREMIUM-QUALITY BRAKE FLUID

Perfect for street and strip

Wilwood

Brake Fluid

Fill your braking system with high-quality fluids from Wilwood engineering. Wilwood's High Temp 570 is a specially formulated racing fluid that has a minimum dry boiling point of 570° Fahrenheit to withstand the rigors of racing. The low viscosity allows easy bleeding of your brake system, eliminating aeration of the brake fluid caused by foaming due to excessive pumping of the pedal. Sold in packs of six 12-oz bottles, which are hermetically sealed to guarantee against unwanted absorption of moisture.

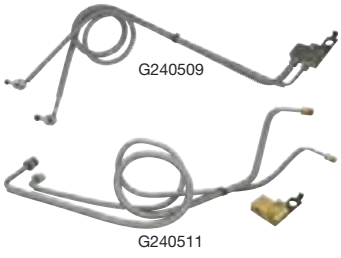
IMPECCABLE QUALITY

Easy installation for your drum brake



Master Cylinder-To-Distribution Block Brake Line Kits

Brake line modifications are unavoidable when converting from a single master cylinder to a dual port unit. Take the hassle out of bending lines and retain an OE look with one of these assemblies from OPGI. Each features new lines, fittings and a new distribution block, which bolts to the original location on the frame. For drum brakes only.

FREE SHIPPING ON THIS ITEM

Professional Flaring Tool

This professional level flaring tool makes flares quickly in all types of tubing and does not damage or deform the tubing. The tool comes with 5 dies and one turret with 8 punches to provide 37° flares for 3/16", 1/4", 5/16", 3/8" and 1/2" tubing sizes in various materials including copper, aluminum, copper/nickel, steel and stainless steel. The Earl's Professional Flaring Tool also includes a bench mounting flange to mount to your shop bench and can also be used with a vise.

Part#	Year	Desc.	UOM	Price
ERL1002	61-73	.....	each	471.99

Professional Lever Style Tubing Benders

Earl's professional tubing benders are high-quality tools that can handle all types of tubing including harder material like stainless steel but will also work with other materials such as steel, copper and copper/nickel. The open side of the tool slips over the tube at any point, and makes smooth, tight radius bends without scoring or flattening the tube and can bend tubing up to 180°. Each tool bends a single size and are sold individually.

Brake & Fuel Line Clip Bolt

Used by the factory to fasten the brake & fuel lines to frame. This high-quality reproduction features the correct dimensions including 1/2" hex head, built-in washer & .925" length. Finished in black oxide.

Part#	Year	Desc.	UOM	Price
CH27369	61-73	.....	each	7.49

Rivet-Style Line Clip

Depending on the application, there were either four or five of these rivet clips used to hold the brake and fuel lines to the frame front-to-rear. The clip is designed to hold two lines, but in some instances, it only held one line. These rivet clips mount just the way the factory ones did and are dyed the original red color.

Part#	Year	Desc.	UOM	Price
C240224	61-67	.....	each	6.49

Heavy-Duty Frame Clip

These clips keep the brake and fuel lines up and out of the way of the forward mounting point of the lower rear control arm. It is reproduced just like the factory part with the correct-gray phosphate coating—they are used on both sides of the frame. They are capable of holding up to three lines although, from the factory, they typically held one or two lines.

CNC MANUFACTURED FOR PRECISION

Steel or Stainless Steel

MADE IN THE USA

Modulator Lines

These vacuum lines are an authentic reproduction of original equipment and are a necessity for proper transmission operation. Pre-bent to factory specifications, the lines feature the correctly bubbled ends, which keep the rubber lines in place at the modulator and the intake manifold. Lines are available in OM steel or durable stainless steel depending on your preference. Sold per each.

GALVANIZED TANKS
feature a double-sided zinc coating for corrosion resistance. All seams & components are copper brazed for increased strength & durability, while a powder coated finish is applied to each brazing area as an added layer of protection.

NI-TERNE STEEL TANKS
feature a double-sided zinc-tin alloy coating for superior resistance to rust & corrosion. Featuring added shine, these tanks are soldered w/tin to reduce or eliminate the possibility of cracks & leaks found in other tanks.

STAINLESS STEEL TANKS
are stamped to factory specs using 304 stainless steel sheet & provide the ultimate in appearance & corrosion resistance. Each tank is tin soldered to prevent cracks and leaks.

NEW! Fuel Tank Kits

Premium fuel tanks from RESTOPARTS® are now available and ready for shipment! Choose from Galvanized, Ni-Terne, or Stainless Steel. Each tank features the lock ring and gasket for installation of the fuel sending unit. Tanks also feature the necessary vent and return line connections as well as the filler neck where specified. Rather than arc welding which can become brittle and subject to premature cracking, our RESTOPARTS® tanks are manufactured using superior methods for increased strength and durability. These methods are able to withstand constant road vibrations without fears of cracking or leaking.

COMPLETE KIT INCLUDES:
Fuel tank, mounting straps, hardware, fuel sending unit, pick-up filter sock, lock ring and gasket, hoses, clamps, and fuel tank cap.

A MUST HAVE ITEM

Prevent metal-to-metal wear

Fuel Tank Mounting Strap Anti-Squeak Kit

This is the rubber strap material that protects unnecessary metal-to-metal wear between the straps and tank during road shake. The seals go between the gas tank steel straps and the gas tank. Also, they'll prohibit annoying squeaking noises commonly heard after changing or replacing the gas tank. Each kit includes 6-feet of material, enough to do both sides.

PREMIUM STAMPED FUEL TANKS!

MANUFACTURED RESTOPARTS BY ORIGINAL PARTS GROUP

Available in several versions to suit your build

OPGI.COM PRODUCT VIDEO AVAILABLE ONLINE

GALVANIZED TANKS
feature a double-sided zinc coating for corrosion resistance. All seams & components are copper brazed for increased strength & durability, while a powder coated finish is applied to each brazing area as an added layer of protection.

NI-TERNE STEEL TANKS
feature a double-sided zinc-tin alloy coating for superior resistance to rust & corrosion. Featuring added shine, these tanks are soldered w/tin to reduce or eliminate the possibility of cracks & leaks found in other tanks.

STAINLESS STEEL TANKS
are stamped to factory specs using 304 stainless steel sheet & provide the ultimate in appearance & corrosion resistance. Each tank is tin soldered to prevent cracks and leaks.

Premium fuel tanks from RESTOPARTS® are now available and ready for shipment! Choose from Galvanized, Ni-Terne, or Stainless Steel.Each tank features the lock ring and gasket for installation of the fuel sending unit. Tanks also feature the necessary vent and return line connections as well as the filler neck where specified. Rather than arc welding which can become brittle and subject to premature cracking, our RESTOPARTS® tanks are manufactured using superior methods for increased strength and durability. These methods are able to withstand constant road vibrations without fears of cracking or leaking.

OPGI.COM PRODUCT VIDEO AVAILABLE ONLINE

Stealth Gen II Fuel Tanks

The new Gen II Stealth tank utilizes Aeromotive's patented and award-winning Phantom in-tank technology that enables a quiet, high-flow EFI pump and baffle to maintain an ample fuel supply around the inlet of the pump while ensuring consistent fuel delivery and drivability even in low fuel conditions. Unlike competitive tanks, Aeromotive's Gen II Stealth tanks feature outlet and return ports along with electrical terminals positioned in the OEM location. This design enables flush installation to the vehicle floor and will not require strap modification or spacers. All Gen II Stealth tanks come out of the box completely assembled. The fuel pump, fuel level sending unit, and fuel/electrical bulkhead are pre-installed. As a true plug-and-play assembly, the Aeromotive Gen II Stealth tank gets you out of the garage and on the road in no time.

Fuel Tank & EFI Fuel Pump

FiTech has partnered with TANKS Inc. to make your EFI upgrade easier with a complete offering of fuel tanks and FiTech In-Tank Pump Module! Fuel Injection demands higher pressure from an electric fuel pump and the best place to mount a pump is in the gas tank. FiTech's In-Tank Module secures the supplied 340 LPH pump and bolts directly into the new tank providing a modern EFI solution that supports up to 800 horsepower (NA). Notched tanks help with exhaust clearance and vehicles with mini-tubs.

- Direct-fit tanks feature internal baffles for constant fuel delivery
- In-Tank Pump Module secures the supplied 340 LPH pump in the tank
- -6 AN inlet/outlet provide leak-free fuel line connections
- Recessed sending unit mount provides added clearance
- New mounting straps and fuel level sending unit supplied

USE WITH ANY GAUGE

Corrects fuel gauge and sending unit mismatch.

Fuel Link Gauge Adapter

Whether you are using an aftermarket fuel gauge or have installed a fuel injection tank with a different sending unit than the original, this unit will correct the signal difference and allow any gauge to work with any fuel sending unit. Its compact size and labeled wire terminals make the Fuel Link from Classic Instruments easy to install while the pushbutton programmability with LED readout allows for simple use. Extra features include signal damping to prevent unnecessary needle movement as well as the option to trigger a low fuel warning light at 1/8 tank (light not included). A simple solution to inaccurate fuel gauges.

Phantom Fuel Systems

These Phantom 340 Stealth fuel systems from Aeromotive convert any stock fuel tank to a modern, in-tank design and supplies enough fuel for whatever engine combination you have. Whether you have a carbureted application, EFI swap or you are placing a late model electronic fuel injected engine into your classic, OPGI has what you need! The clever design of this fuel system allows you to have an in-tank fuel pump that runs quietly, keeps fuel from sloshing and keeps the pump submerged even at low fuel levels. This system includes all the fittings needed, the fuel pressure regulator as well as the fuel filter needed to get you on the road quickly. Not only will these kits support up to 900 horsepower, they are made of anodized billet aluminum and made in the U.S.A. Detailed instructions are included to make sure you know exactly what needs to be done to complete the installation. AN-08 style fuel hose and hose ends are not included.

Carbureted: (1) 18688 Phantom 340 fuel pump, (1) 12321 10 micron fuel filter, (1) 12305 fuel filter bracket, (1) 13204 bypass fuel pressure regulator, (1) 16307 fuel pump wiring kit, (3) 15606 AN-06 ORB to AN-06 flare fittings, (1) 15607 AN-08 ORB to AN-08 flare fitting, (3) 15610 AN-10 ORB to AN-08 flare fittings, (1) 15626 AN-06 port plug, (2) 15649 AN-06 ORB to AN-08 flare fittings, (1) 15632 0-15 psi fuel pressure gauge.

EFI conversions: (1) 18688 Phantom 340 fuel pump, (1) 12321 10 micron fuel filter, (1) 12305 fuel filter bracket, (1) 13131 bypass fuel pressure regulator, (1) 16307 fuel pump wiring kit, (6) 15606 AN-06 ORB to AN-06 flare fittings, (2) 15609 AN-10 ORB to AN-06 flare fittings, (1) 15626 AN-06 port plug, (1) 15633 0-100 psi fuel pressure gauge.

Late model EFI: (1) 18688 Phantom 340 fuel pump, (1) 12321 10 micron fuel filter, (1) 12305 fuel filter bracket, (1) 13131 bypass fuel pressure regulator, (1) 16307 fuel pump wiring kit, (1) 15118 3/8" quick connect to AN-08 fitting, (1) 15605 AN-08 ORB to AN-06 flare fitting, (6) 15606 AN-06 ORB to AN-06 flare fittings, (2) 15609 AN-10 ORB to AN-06 flare fittings, (1) 15633 0-100 psi fuel pressure gauge.

Holley SNIPER EFI MADE IN THE USA

NEW! Dual Pump In-Tank Fuel Modules

Looking to make a serious step up in the horsepower department? The Sniper Dual 340 LPH or 450 LPH EFI pump modules would be an excellent choice. While the name includes EFI, these modules can be used as an upgrade for carbureted systems as well with the proper regulator. The innovative clamping system allows you to locate the module nearly anywhere in the tank while retaining your factory fuel level sending unit. The clamping system allows you to rotate the unit 360° for easier clocking of the plumbing and wiring locations under your vehicle.

NO RETURN LINE NEEDED!

AEROMOTIVE MADE IN THE USA

Phantom In-Tank Fuel Module

Aeromotive's all-new returnless Carbureted Phantom is a cost effective way to install a fuel system for virtually any carbureted system and in virtually any fuel tank. For those customers who want the ease of a returnless carbureted system in their car and are tired of loud, noisy T-style pumps, Aeromotive's new Carbureted Phantom is the way to go. Line pressure is pre-set at 15 psi, features the Aeromotive Stealth 325 pump, and supports anything from 200 to 1,200 horsepower.

Includes: Billet top hat with ORB-06 ports, foam baffle and bladder sump, proprietary sealing gasket, installation ring, high-flow pre-pump filter, and billet c-ring mount. Height adjustable 6-11".

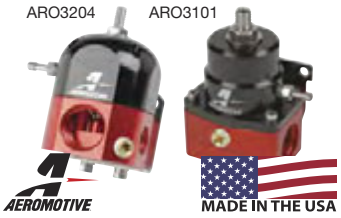
EFI AND CARBURETED APPLICATIONS



AEROMOTIVE MADE IN THE USA

A1000 Bypass Fuel Pressure Regulators
Made of anodized billet aluminum, these fuel pressure regulators from Aeromotive are the best on the market. Available for both electronic fuel injected or carbureted applications, the Aeromotive A1000 bypass fuel pressure regulators are meant for medium to high horsepower applications to control fuel pressure to an optimum level. These regulators can be used in either gasoline or alcohol configurations as well as supercharged or turbocharged engines. Each bypass fuel pressure regulator comes with easy to follow instructions to ensure you have the system set up correctly.

	Part#	Desc.	UOM	Price
3	ARO3204	carbureted....	each	219.99
3	ARO3101	EFI.....	each	209.99

NOTE: Carbureted applications require AN-08 return line from bottom of regulator to the top of the fuel tank.

AEROMOTIVE IN-LINE FUEL FILTERS
These fuel filters are an inexpensive insurance policy to make sure that your fuel system is clean and the performance you expect from your engine is not diminished. Aeromotive has made these fuel filters to run on anything from 200 horsepower to an astounding 3000 horsepower. These high-flow filters are available in NPT, ORB, AN, and canister styles, with your choice of a 100, 40, or 10 micron (µm) filter. The 100 micron in-line filters include a stainless steel cleanable element that is meant to be used between the fuel tank and the fuel pump to protect the pump. The 40 micron in-line filters include a fabric filter element and the 10 micron in-line filters include a cellulose filter element that is meant to run after the fuel pump to protect your injectors or carburetor. Aeromotive also offers replacements O-rings for use with your Aeromotive fuel filters. Whenever you change your fuel filter element, install new O-rings to ensure a positive, leak-free seal from the filter to your fuel lines.

FOR STREET OR RACE APPLICATIONS

Edelbrock

Electric Fuel Pumps
Manufactured for carbureted street and maximum performance/race applications, these electric fuel pumps and regulator are made to the highest quality standards. They're machined from aircraft-quality aluminum to aerospace tolerances for extended life and performance. The pumps are available in both a 120 gph and 160 gph (gallons-per-hour) configuration. The 120 gph pump (good for 600 HP) preset at 6.5 psi so no regulator is needed. The 160 gph pump (good for 1000 HP) requires the fuel pressure regulator, which has 3/8" NPT inlet/outlet and is adjustable from 5-10 psi. Premium performance fuel system components from Edelbrock. Made in the USA.

LS ECU & HARNESS KITS

The new Pro-Flo 4 LS ECU & Harness Kit is what you'll need to complete your Gen III or Gen IV Chevy LS engine swap.

Edelbrock

FREE SHIPPING ON THIS ITEM

Pro-Flo 4 LS Engine Swap ECU & Harness Kits

Now you can get an affordable easy solution for adding EFI on your Gen III or IV LS engine. This basic EFI conversion kit is a great option if you already have an EFI intake on your LS engine and only require an engine management system. This kit is a great solution for any performance level LS engine swap. These kits include the all new Pro-Flo 4 ECU, Bosch 4.9 LSU wide band sensor and harness. The harnesses connect directly to the factory coils, injectors, camshaft/crank sensors and other sensors on the factory LS intake manifold. To further simplify your LS EFI conversion experience, this system also uses the exclusive Edelbrock E-Tuner 2 wireless Bluetooth Android based tuning application that can be downloaded to your smartphone or optional tablet. No complicated laptop software necessary, as Edelbrock has done the hard work for you. The E-Tuner 2 app includes a setup wizard that's easy to use and the ECU is pre-loaded with calibrations that best fit your engine setup. Once your vehicle is up and running, the self-learning features of the E-Tuner 2 app continually adjust the fuel mapping to get the best performance available from your engine package, leaving you to enjoy the ride!

CONSTANT FLOW

CH20504

CH20502

CH20503

Holley

Electric Fuel Pumps

The Holley electric fuel pumps provide constant fuel flow with no pulsation. Each have externally accessible pressure relief valves & are more tolerant of contaminated fuels. Each pump weighs approximately three pounds & includes mounting bracket. The "red" pump flows 97 gph (free flow) & 67 gph at five psi. The "blue" pump flows 110 gph (free flow) & 70 gph at nine psi & includes fuel pump pressure regulator part# CH20503. These pumps are not designed or recommended for use on fuel injection systems. Use of safety shut-off switch part# CH20505 is strongly recommended.

FLOW FOR 600HP

3/8" NPT inlet and outlet

Edelbrock

MADE IN THE USA

High Volume Mechanical Fuel Pump

Edelbrock Performer RPM Series fuel pump is for Pontiac V8 designed for use with all Edelbrock carburetors used in Performer or Performer RPM applications. These high-performance street Fuel Pumps feature a high quality three stage polished finish. The unique valve design improves flow quantity and quality and will support engines up to 600 hp. High-volume 3/8" NPT inlet and outlet fittings surpass the capacity of conventional models. This pump produces 6 psi of fuel pressure and does not require a regulator. Use with gasoline only. The lower housing is clockable and can be rotated in 60° Increments for best inlet/outlet alignment. Includes installation gasket and features a 12 month warranty.

A MUST-HAVE!
Run your fuel pump when you need it

Electric Fuel Pump Controller
This fuel pump controller is ideal for any vehicle that utilizes an electric pump. The controller works off of the tachometer signal which tells the pump when to work. The pump is allowed to run for 3-seconds when the key is turned on in order to prime the system, after that, the pump runs only when the engine is running. When the engine stops, so does the fuel pump. The controller is for use with any 12-volt pump and includes detailed instructions for a straightforward installation.

Holley EFI CONVERSIONS AT ORIGINAL PARTS GROUP

For over a century Holley has driven the cutting edge of fuel-system design. That work continues today through Holley's market-leading EFI products as well as through Holley's family of best-in-industry brands. Top brands like MSD, Flowmaster, Hurst, Accel and many more make up the industry's leading offering of enthusiast-driven products to deliver robust, complete performance solutions for builders, racers, and drivers.

HOLLEY SNIPER EFI KITS

Easy to install and will support up to 600 HP with a simple 4 wire connection. There are no extra control boxes to mount and both the fuel pressure regulator, ignition timing control are completely integrated. All controlled by an included color touchscreen programmer. The self-tuning ECU will automatically make adjustments on the fly which means no laptop required. The master kit will contain the most complete EFI fuel system on the market. Everything is included to completely plumb your fuel system including 20 feet of 3/8" EFI hose, in-line fuel pump, post and pre fuel filters, return bulkhead and all of the necessary fittings and hardware.

STARTING AT

3 **$1,181.99**

SNIPER QUADRAJET EFI CONVERSION

The first bolt on spread bore electronic fuel injected throttle body system that does not require any additional adapters, sealing plates, or intake manifold swaps! The system retains the same great features as the 4150 Sniper EFI version such as; four 100lb./hr. Injectors, built in timing control, a 3.5" full color touchscreen and much more! The throttle body will support up to 500 horsepower naturally aspirated. In addition to all of these great tried and true features, the Sniper EFI Rochester Quadrajet™ (Q-Jet) system will fit most stock air cleaners and offers multiple fuel inlet configurations that allow for a stock appearing installation!

STARTING AT

3 **$1,474.99**

DUAL-QUAD SNIPER STEALTH 4150 EFI

The Sniper EFI 4150 2x4 system from Holley features 8, 100LB/HR Fuel Injectors capable of supporting 1250 HP on both naturally aspirated and forced induction applications. The Sniper EFI 4150 2x4 was designed for use on naturally aspirated engines, while the Super Sniper EFI 4150 2x4 system was developed for both naturally aspirated and draw through supercharged applications. Every Sniper EFI can be used with free downloadable Sniper EFI Software, giving you unlimited control of your engine. Super Sniper EFI 2x4 comes with a USB to CAN tuning cable allowing for live engine tuning.

Ultimate LS EFI System

FiTech's Ultimate LS Induction systems are designed as a complete system for your LS engine and are ready to be installed out of the box! The sheet metal intake looks stellar and delivers the performance to match for engines ranging from 500-750 horsepower. Kits are available with or without built-in transmission controls for popular GM 4-speed automatics. There are kits available with a taller intake to accept the truck accessory drive assembly.

- •Cast throttle body with a 92mm(500 HP) or 102mm(750 HP) inlet
- •Sheet metal design is ideal for a 1500-6500 rpm power band
- •Self-learning technology maintains your target air/fuel ratio settings
- •Sequential fuel and spark control with individual cylinder trim
- •Connects to 24x and 58x cam sensors
- •Knock sensor control connects to factory sensors
- •3-Bar MAP sensor for boosted applications up to 30-psi
- •Tach output driver works with most tachs
- •Two programmable electric fan outputs
- •Wide band oxygen sensors
- •Custom wiring harness for a direct plug-in installation
- •Control the shift points & firmness of 4L60/65/80/85 transmissions

STARTING AT $1,696.99

Master kits include the above plus:

•FiTech EFI Kit with Inline Pump Kit

This kit is supplied with our heavy duty, 255 LPH, external fuel pump that is suitable to support engines producing up to 650 horsepower. This kit includes 40 feet of high pressure fuel hose, two fuel filters including a serviceable 10-micron filter, fittings, mounts & clamps.

•FiTech EFI Kit with Force Fuel System

The new Force Fuel System mounts under the hood and uses the stock fuel pump to supply fuel to the reservoir. Inside is an efficient 340 LPH electric pump that produces the high pressure required of the EFI system. This kit is supplied with the reservoir assembly and includes a built-in pressure regulator, 5-feet of high pressure hose, -6AN fittings and an efficient 10-micron serviceable fuel filter.

NEW! Retro-LS EFI Kit

The Retro-LS throttle body system, plated in classic carburetor gold, bolts to an LS intake made for carburetors and delivers all the driveability benefits of a factory EFI system. The kit supports up to 650 horsepower with its four 80-lbs injectors and delivers a semi-sequential fuel supply through an effective annular discharge design. For ease of installation, a wiring harness is supplied that is already terminated with the specific LS engine sensors, including the factory knock sensors to complement the built-in timing control. On top of that, the ECU also has the ability to control the transmission shift points and characteristics of the popular 4L60/65/80E transmissions.

3

CH33710 (BASE) **$1,723.99**

CH33711 (MASTER) **$2,104.99**

No laptop is required and the system will work on 24x or 58x cam sensors. Supplied with: ECU, handheld controller, windshield mount, dual WB02 sensors, bung kits, gasket, and mini USB cable.

Master kits include the above plus: •FiTech EFI Kit with Force Fuel System. The new Force Fuel System mounts under the hood and uses the stock fuel pump to supply fuel to the reservoir. Inside is an efficient 340 LPH electric pump that produces the high pressure required of the EFI system. This kit is supplied with the reservoir assembly and includes a built-in pressure regulator, 5-feet of high pressure hose, -6AN fittings and an efficient 10-micron serviceable fuel filter.

GO Port EFI

3

The Go Port EFI system features eight injectors placed precisely in each intake runner to inject fuel right into the cylinder head port. A sequential port fuel design provides excellent throttle response, effective fuel atomization and delivery resulting in terrific throttle response and overall performance.

starting at $1,299.99

FiTech offers two complete systems; a kit for up to 550 horsepower and a 1050 horsepower kit. Each system is supplied with a new aluminum intake machined and fitted with injectors (36 or 80 lbs), fuel rails, the wiring harness and an 850 cfm throttle body. The ECU, with its high speed processor, is integral to the throttle body along with the TPS, IAC, IAT and MAP sensors reducing wiring and making installation as easy as possible. All setup is handled through the color touchscreen monitor with no tuning experience necessary to have your engine fired up and running at its best. There is also a standalone system if you would like to supply the manifold. Supplied with: Throttle Body, gasket, aluminum single plane intake manifold, high flow fuel rails, injectors, WB02 sensor, bung kit, coolant temp sensor, color touchscreen monitor and mount.

MSD Atomic EFI

Adding fuel-injection to your classic car just got easier with the Atomic EFI from MSD. The Atomic EFI is the fastest way to quicker starts, smoother idle and immediate throttle response. Available in several configurations as complete kits, each throttle body injection unit is packed with features designed to enhance performance and reliability. An internal fuel rail reduces leaks and provides a sleek appearance. Annular rings improve fuel atomization and ensure the best air/fuel mixture is delivered to each cylinder. The square-bore design features large 1.75" diameter throttle blades that are riding on precision roller bearings for a smooth pedal transition. The self-calibrating throttle position sensor and four 80-lb injectors ensure that fuel is delivered at the correct rate. Wiring is reduced by integrating the ECU and most sensors into the throttle body. The only sensors you'll need to connect are the O2 and coolant temperature. The compact power module is a simple plug-in device that can control the electric fuel pump and two electric fans. A hand-held programmer provides a hassle-free way to custom-tailor the EFI to your engine and monitors all of the vitals during operation.

- Master Kit: Throttle body, power module, wide band O2 sensor, hand-held monitor, fuel pump, filter, brackets, high-pressure hose & clamps.
- Standard Kit: Throttle body, power module, wide band O2 sensor, hand-held monitor.

JET Performance Products

FREE SHIPPING ON THIS ITEM

Streetmaster Rochester Quadrajet Carburetors

These "Streetmaster" Quadrajet carburetors from JET Performance are the perfect replacement for a an engine that is stock or loaded with performance parts. Each unit starts with a hand selected core and a complete disassembly, cleaning, and inspection procedure. The casting plugs are sealed with epoxy to prevent leak-down into the intake manifold. All circuits are checked for proper sizing and the calibration is checked for proper jets, primary metering rods and secondary metering rods. Each carburetor features a fully recalibrated idle, off idle, main, accelerator pump and high speed circuits to match the stock engines specifications or mild modifications such as intake manifold, headers, ignition or mild cam change. The carburetor is then reassembled using the highest quality components with a new float, choke pull-off and bronze bushed throttle shafts.

CH35737

AFR Air Flow Research

CH35737

NEW! Carburetor Spacers

Air Flow Research 1" carburetor spacers are manufactured from phenolic plastic and can be installed on any 4150 style carburetors, both spacers are to improve your engines output and air/fuel distribution by lengthening the intake mixture column. Both versions act as a heat barrier between the manifold and carburetor to keep the fuel in the float bowls cooler, as well as the actual carburetor's body itself. Which results in cooler, denser air/fuel induction charge for increased HP. Both have a clover leaf design reducing some of the turbulent air directly under the carburetor base making them more efficient. The open spacer is to increase high-RPM power, while the tapered 4-hole spacer helps increase mid-range torque. They fit the AFR line of composite intake manifolds perfectly but can be used on most aftermarket manifolds as well.

PERFORMANCE

SuperMatic 4L65E 4-Speed Automatic Transmission

Chevrolet Performance 4L65E Four-Speed Automatic Transmission is similar in design to the 4L60E. This remanufactured 4L65E electronically controlled four-speed overdrive transmission features five-pinion gearsets, heat-treated stator shaft splines, induction-hardened turbine shaft, seven-plate 3.4 clutch. The 4L65E can handle up to 430 lb.-ft. torque, with gear ratios: 1st: 3.06, 2nd: 1.62, 3rd: 1.00, 4th: 0.70. Use SuperMatic™ converter for direct bolt up to Gen I and Gen II engines. Torque converter not include. Use with electronic controller part# CH33199 with Chevrolet Performance LS fuel injected applications. Chevrolet Performance has you covered with a 12 month Warranty.

MADE IN THE USA

AMERICAN POWERTRAIN

ProFit T-56 Magnum 6-Speed Conversion Kits

Regardless of having a stump-pulling 600 horsepower big block or a modest 350 horsepower small block under the hood, these 6-speed T-56 Magnum transmissions are built to withstand up to 700 lb.-ft. of torque. Available in either a close ratio or wide ratio configuration. American Powertrain has designed these kits to be as comprehensive as possible, yet allowing for some customization to what you are looking for in the perfect transmission for your application.

Part#	Year	Desc.	Mfg #	UOM	Price
CH31428	64-72	close ratio.....	COGM-A1G	set	4,268.99
CH31429	64-72	wide ratio.....	COGM-A1J	set	4,268.99

NOTE1: Requires bellhousing adapter or engine specific bellhousing.
NOTE2: Requires 26-spline clutch disc. NOTE3: Please call when converting from an automatic transmission to obtain a list of parts needed. NOTE4: Modifications are necessary.

ProFit TKX 5-Speed Conversion Kits

American Powertrain ProFit Tremec TKX manual transmissions and installation kits are designed to fit your classic muscle cars. The TKX has a more streamlined case than the normally used OE design T-56 and T-5 which provides clearance in most transmission tunnels. The rigid 3-piece aluminum housing capable of engines speeds of 8,000 rpm with shifts at 7,500 rpm.

TKX 5-Speed Manual Transmission Features and Benefits

- Designed, tested and built specifically for the aftermarket.
- Designed for multiple applications with three shifter locations. Compact, end-loaded design provides clearance in most transmission tunnels without floor modifications.
- Increased case strength with three-piece aluminum housing provides outstanding structural stiffness (includes main case, intermediate plate and rear extension). Gaskets at all flanges simplifies installation and eliminates fluid leaks.
- Superior shift-ability through use of multi-cone synchronizers and hybrid synchronizer rings made of sintered bronze and carbon
- Noise, vibration and harshness (NVH) minimized with gear layout to best control stress levels. All gears supported by caged needle bearings to reduce end play on the gears.
- Equipped with a high-performance short-throw billet aluminum shifter that isolates road noise, while providing clean, crisp shifts.
- Robust design with internal three-rail shift system and steel shift forks.
- Wide gear width increases gear life and torque capacity.
- Built-in reverse light switch and cruise control safety switch.

NEW! Tremec T-56 Magnum Manual Transmissions

The kingpin of TREMEC's high performance line-up, the Magnum double-overdrive 6-speed transmission takes the very best from TREMEC's current OEM technologies and pairs it with the most popular features of the TKO 5-speed. Able to withstand a massive 700 lb-ft. of torque while providing unbelievably crisp shifts, no other manual transmission on the planet offers as much combined strength, versatility, and general ease-of-use as the Magnum. Known in its original equipment form as the 'TR-6060', the Magnum is an aftermarket version of the same transmission found in many of today's most celebrated factory muscle cars. Multiple shifter locations, giving you refinement where you want it and strength where it counts. Can be combined with any GM engine; big block, small block, or LS when using the correct bell housing.

Part#	Desc.	Mfg #	UOM	Price

Go-Shift Transmission Controller

The FiTech Go-Shift stand-alone electronic transmission control is the perfect solution when it comes to managing your GM 4L60/65/80/85E transmission. The Go-Shift is designed to be easy to install, affordable and simple to program. In fact, all of the transmission settings, including shift points, firmness and converter lock-up can be adjusted through the supplied handheld monitor! A harness, complete with OEM style sealed connectors, makes installation a plug 'n play affair while the compact ECU easily mounts out of the way. After setting up the trans, you can disconnect the monitor or keep it plugged in to view transmission data.

- Easily adjust the rpm points and firmness of each shift
- Direct plug-in harness for ease of installation
- Speedometer calibration and output
- Compatible with paddle shift inputs
- Control the torque converter clutch lock-up

Supplied with: ECU, transmission wiring harness, color touchscreen monitor and dash mount.

DESIGNED TO PROVIDE LONG LIFE WHEN MATCHED WITH A SUPERMATIC TRANSMISSION

FREE SHIPPING ON THIS ITEM

PERFORMANCE

SuperMatic Torque Converters

Chevrolet Performance SuperMatic Torque convertors are designed to provide long life when matched with a SuperMatic Transmission. Each converter incorporates the following features: Steel Billet Front Cover, Custom Stator, Fully Furnace Brazed Pump and Turbine, Lock-up Clutch, all internal components static balanced and Fully vector balanced as an assembly. Designed for Chevrolet Performance 4L60/65/70E late "LS" V8 transmissions mated to LS V8 engines (single bolt pattern - 11.062") without the need for external adapters. Available in 2400-2800 stall or 3000-3400 stall.

Remote Transmission Filter Kit

Most transmission failures are caused by contamination. The solution? A remote transmission filter will increase filtration efficiency 2-5 fold. This kit includes a permanent remote-adapter, and a spin-on filter and related hardware. It is easily mounted on a firewall or fenderwell. A simple solution that will add years to your transmission's life.

Part#	Desc.	Mfg #	UOM	Price
CH23692	.....	80277	each	63.99

Transmission Cooler

The "SuperCooler" is one of the most efficient automatic transmission oil coolers available due to its unique rigid stack plate construction, which reduces pressure drops across the internal core. With the stack plate design with the width of the internal tubes, the heat rejection rate is much greater than conventional fin and tube transmission coolers. Because of its rigid design, the SuperCooler is much more resistant to damage from flying debris and rocks. This transmission cooler is pressure tested to 200 psi and it has large 1/2 NPT fittings for maximum fluid flow. Increase your automatic transmission's life with the B&M SuperCooler.

Dimensions: 11" x 5-3/4" x 3/4"

PRODUCED TO ORIGINAL STANDARDS

Correct for all V8 models

1965-73 Aluminum Bellhousing

This authentically reproduced bellhousing is identical to the original equipment and can be used with Muncie, Saginaw or Borg-Warner transmissions. Cast from high-quality aluminum, the bellhousing features machined mating surfaces for the engine, transmission and starter as well as the correctly located mounting holes for a straightforward install. Bellhousing is compatible with all 1965-73 Pontiac V8 engines.

MADE IN THE USA

NEW! Aluminum Bellhousing

American Powertrain is offering direct bolt-on bellhousings that properly mount your GM or aftermarket transmission. Cast from A356 aluminum which include a high titanium content that resists torque stress, the bellhousings also feature extra-thick walls for added rigidity and are individually CNC machined for a precise fit. The housings are lighter than cast iron, making it a cost effective solution for builders who are not needing SFI certification. All hardware needed for installation is included. Compatible with OE mechanical linkage or hydraulics and 160/166t flywheel. Bellhousings and Adapters are 100% manufactured in the USA.

Hays Billet Steel Flywheels

These 1.1 SFI-Rated flywheels are engineered to handle extreme duty applications and designed to take the punishment of today's high horsepower engines. Available for the Pontiac 326-455 V8 Engines with 166 tooth gear. These 30 lbs billet steel flywheels are CAD engineered and precision CNC machined to strict tolerances. For internally balanced engines the flywheel includes a removable black insert that allows this to fit the 2.5" crank and can be removed to fit the 2.75" crank. For externally balanced engines the flywheels are precision balanced to Detroit specifications. For both style of flywheels you can use either a 10.5" or 11" clutch. The flywheels are drilled with both the Borg and Beck and long-style clutch patterns.

1964-73 Hydramax Hydraulic Clutch Kits

Are you installing a 4-speed or converting to a modern 5 or 6-speed manual transmission in your classic A-body GM vehicle but do not want to mess with the original style linkage? These American Powertrain Hydramax hydraulic throwout bearing conversions are exactly what you are looking for! The Hydramax hydraulic bearing conversion set is easily installed and uses original or aftermarket style pedals and because of the adjustable master cylinder bracket, you are able to achieve the perfect clutch rod angle without having to make unnecessary holes in your firewall. Aside from working with original style pedals, these kits will work with most 4-speed, Tremec TKO, Richmond, T56 and Magnum 6-speed transmissions.

The kit includes: Pre-bled Hydramax concentric slave cylinder, steel braided lines, 3/4" bore black powdercoated master cylinder, nickel plated firewall mount, reservoir kit, pedal rod, fittings, hardware and complete instructions.

A MUST-HAVE ITEM!

Battery Relocation Mounts

Detroit Speed battery relocation kit is a great way to reduce underhood clutter and improve weight distribution. This CNC machined aluminum battery mount is designed around the optima battery (GROUP 34 /78 batteries). The entire battery mount is machined from 6061 billet aluminum. Three countersunk stainless steel bolts secure the top of the battery mount to the support rods. The base of the mount is mounted to your vehicle with no visible bolts from the top. It is a simple, strong way to hold your Optima battery anywhere. There are six drilled and tapped holes on the underside of the base. Although fewer attachment locations will securely mount your battery, provide six mounting holes to give you added flexibility. A mounting hole template is provided to assist you in locating the holes. These kits are available without cables or as a set with 18' red/black 2 gauge battery cable, 2 bulkheads (1 positive, 1 negative), 1 pair top post battery terminals and 4 crimp/solder rings for 2 gauge battery cables. The mounts are shipped in a natural finish. The dimensions of the battery mount are 11 1/2" x 8 1/2" x 7 1/2" tall.

12V Automatic Float Charger

This float charger is designed to prevent the normal discharging of a battery that is not used for weeks, months or years. By keeping the charge up, the tender extends the life of batteries rated for 5-125 amp-hours. The tender can do this by providing a constant, minimum current, regulated output, which is great for long-term use. The float charger works on all 12-volt batteries for cars, trucks, motorcycles and boats. It comes with a 1-year limited warranty.

FIRE PROTECTION SLEEVE

COOL IT Thermo Tec

MADE IN THE USA

Heat Sleeve Insulation

This new silicone-coated fiberglass fire sleeving is designed to protect wires, cables and hoses from high-temperature exposure, liquid spills and occasional exposure to flame. The high-quality sleeving is made in the U.S.A. from braided fiberglass and coated with a compound silicone rubber. It is capable of continuous protection to 500°F and short-term exposure thru 2200°F. These sleeves come in your choice of silver or black, as well as lengths of 3-feet or 10-feet, and 1/2", 3/4", and 1" diameters.

Thermo-Flex Wire/Hose Insulations

Thermo-Flex Aluminum is a composite heat shield material with unlimited uses. The material is manufactured with a combination of materials to provide abrasion-resistance, thermal insulation, and physical containment of hoses and wiring. The combination of aluminum, silica, and stainless steel is combined to produce a sleeving that is flexible, lightweight, and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering without disconnecting the ends of the wire or hoses. Thermo-Flex Aluminum can withstand extreme temperatures of up to 750°F.

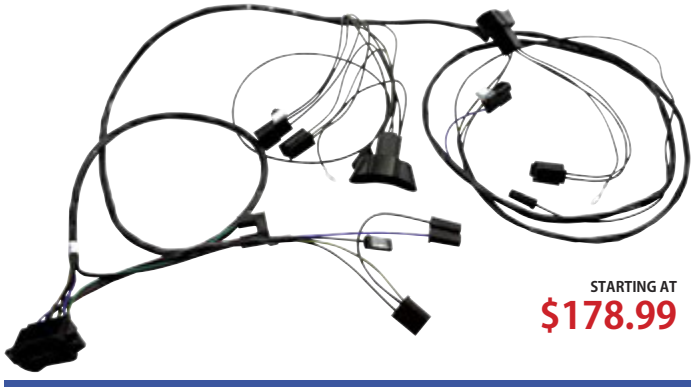
STARTING AT ENGINE HARNESS $189.99

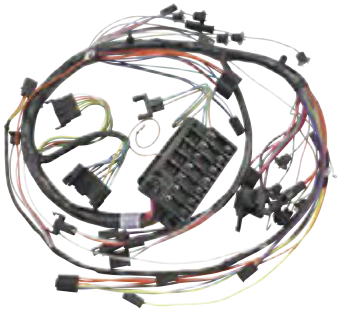
This harness is one of two (the other being the forward lamp harness) located in the engine compartment. It includes the wiring for the solenoid, motor, heater blower, coil, tachometer (1968 and up), wiper motor, oil pressure light, brake warning lights and idle stop solenoid (1969 only).



STARTING AT
$178.99

FORWARD LAMP HARNESS

This harness is located in the engine compartment and covers the wiring for the headlights, battery, park lights, side marker lights (1968 and up), horn, alternator, temperature, sensor and amp gauge.



REAR LIGHT

This harness is found inside the trunk. It carries the operations for the back-up lights, tail lights and back-up light harness.

STARTING AT
$148.99

DASH HARNESS

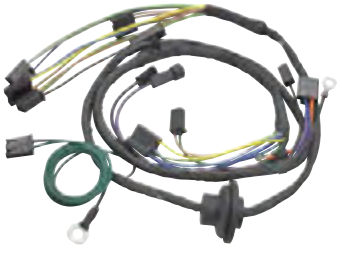
This complete assembly provides wiring for all instrumentation and underdash functional wiring. Fuse block, heater control, interior console lighting (if applicable), steering column controls and air conditioning controls where applicable.

STARTING AT
$779.99

CONSOLE

Reproduction wiring harnesses are available for automatic or manual transmission models. Each harness is identical to original equipment and features factory color-coded wire as well as the correct plugs and sockets.

STARTING AT
$29.99



AC HARNESS

This harness provides wiring for air conditioning relays and a compressor in the engine compartment. (On 1966 with CAC the AC harness is already inclusive with the engine harness.)

STARTING AT
$109.99

BATTERY CABLES

Finally, authentic, original spring ring cables with all the correct markings for 1964-70 Chevelle and El Camino! These are identical to the original and produced in the USA for OPGI. Priced per each cable.

STARTING AT
$69.99

PROTECT YOUR VEHICLE

Disable the ignition by grounding out the coil

Performance DUI Distributors

MADE IN THE USA

Kill Switch

Protect your vehicle from theft with this simple, easy to install kill switch. The DUI Kill Switch is designed to disable the ignition by grounding out the coil which will prevent the engine from starting. The system is easy to install with the included hardware. Just mount the toggle switch in an inconspicuous area, connect one side of the switch to the negative side of the coil and the other side to a ground. This effective and low cost anti-theft device will ensure that your hot rod will remain where you park it without the fear of some knucklehead driving off with it. The kill switch works with all DUI and HEI style distributors. Comes with all items pictured and easy to follow instructions.

AIRCRAFT QUALITY

Turn the 18 volt Mini-VIP and other accessories on and off with ease

Performance DUI Distributors

MADE IN THE USA

Toggle Switch with Cover

Aircraft quality toggle switch with cover allows you to turn the 18 volt VIP Battery and other accessories on and off with ease. The red cover remains in the up position when the switch is on. Turn the switch off by simply pushing down on the red cover. Helps to prevent leaving the voltage or other accessories on, which could cause damage to other components.

NOTE1: Part# G241019 includes light socket for column shift automatic transmission, customer to discard if not needed. NOTE2: To ensure the correct turn signal switch is received, the original must be removed from the steering column and inspected as there were two possible switches used for 1964-66 non-tilt columns that cannot be interchanged. The BPC switch will have the lower portion of the switch's body made of metal, and there will be "BPC" stamped on the unit. A Guide switch will have the body made of plastic and "Guide" will be stamped on the unit.

LiveWires Spark Plug Wires

LiveWires are built with a high temperature sleeve that protects the plug wire from the extreme under hood temperatures. This unique sleeving provides heat protection up to +1400° F and offers excellent resistance to moisture and chemicals. Inside this high temperature sleeve is an 8mm spiral core wire with a durable and lasting silicone jacket. The spiral core consists of a stainless steel wire wrapped around a magnetic core. All sets are custom fit and numbered on both ends for the correct cylinder making installation, removal and re-installation quick and easy.

1964-77 Ceramic Boot Spark Plug Wires

These are the answer to your burnt wire blues. Each wire is constructed from two layers of ultra-high temperature silicone and rated up to 600° F. The ceramic spark plug boot acts as the primary protection to direct heat withstanding up to 2000° F.

•Two current paths for reliability and redundancy. -Primary path: Carbon impregnated fiberglass center core. -Secondary path: Spiral wound stainless steel alloy

•Low 500 ohm per foot resistance.

•8mm Silicone jacket to resist high temperatures, moisture, oil and chemicals.

•EPDM (Ethylene Propylene Diene Methylene) inner insulation for superior heat resistance and prevention of arcing and voltage leaks.

•Fiberglass reinforcing braid for added strength and flexibility.

•Available with 45°, 90° & 180° boots.

1964-77 Street Fire Spark Plug Wires

Street Fire spark plug wires have been designed with 500 OHM per foot resistance for improved spark delivery and power. Wires feature a helically wound conductor to suppress electro and radio noise and the Kevlar core adds strength and durability. Thick 8 mm silicone jacket resists heat and abrasion while heavy-duty terminals provide a secure connection. Spark plug wires are sold in complete sets and available in a variety of end configurations.

TOP OFF YOUR VINTAGE APPEARING LS SWAP WITH THIS DISTRIBUTOR AND PLUG WIRE SET
7 mm, Kevlar spiral core spark plug wires

LS Distributor and Plug Wire Set
If you want to top off your vintage appearing LS swap then look no further than Lokar's distributor and plug wire set. Uses a set of high quality, 7 mm, Kevlar spiral core spark plug wires with high-temp silicone boots. The wires are 9' long with 40 ohms of resistance per foot, giving you all the length and performance you need to remote mount your coils, out of sight and out of mind. The plug wires first connect to the coils and then pass through the hollow cast aluminum distributor body that is bolted to the engine's valley plate, and then on to the spark plugs for an authentic nostalgic look. The LS Classic Distributor kit includes the plug wires with pre-installed 90 degree coil boots, straight unterminated spark plug boots (plug wire crimpers are needed to complete the installation), 90 degree distributor boots, distributor housing, cap, and terminals.

	Part#	Desc.	UOM	Price
4	CH34266	.....	set	724.99

NOTE: Check firewall clearance to ensure fit. Distributor is designed to bolt to the back two bolts of LS Classic Valley Plates (they will NOT clear valley plates with raised ribs or oil pressure sender boss).

WIRE RETAINER INCLUDED

CH22387 MSD8433

HEI Tower Window Cap
Convert your socket-style cap to a much stronger cap with HEI-style terminals. Not only do the HEI towers provide a locking connection, but you can hold the wires in place with the supplied retainer. With the retainer in place, there's no way a wire can pop off. The cap fits on a variety of MSD "Pro-Billet" distributors and can be used on many stock GM points-style distributors as well.

Part#	Desc.	UOM	Price

Max-Fire Distributor
Max-Fire distributor for Pontiac 326-455 V-8 engines is ready to run right out-of-the-box and are the perfect upgrade for your ignition system. They're ideal for replacing or upgrading from a points triggered distributor. They feature precision machining for a perfect fit along with a simple three wire hook up for an easy installation with no need to run an external ignition control box. The centerless ground shaft utilizes an upper sealed roller bearing with an extra long lower bronze Oil-Lite bushing for smooth operation. The high output magnetic pickup and large paddle wheel reluctor deliver a strong trigger signal at high RPM for maximum performance. All of these features allow Max-Fire distributors to provide unrivaled voltage to the coil, ensuring that you're getting maximum performance from your engine. We recommend a new Max-Fire coil for maximum voltage output, ensuring you get the most from your high performance engine at higher RPM's. Each distributor includes a cap, rotor, retainer and mechanical advance curve kit. FEATURES AND BENEFITS: • CNC machined from 6061-T6 aluminum with O-ring grooves for use in a fully machined engine block • Cap and rotor are molded in high quality 30% glass filled polyester for durability and carbon tracking resistance • Features brass contacts and a stainless steel rotor spring for maximum conductivity • Hardened iron drive gear ensures long service life • Fully adjustable mechanical and vacuum advance for increased mileage potential

Street / Strip Distributors

Add some serious firepower to your engine! The DUI (Davis Unified Ignition) has everything you need for the ignition in one simple unit. No external coils or spark boxes are needed. Just one 12 volt hot wire hooked up to the DUI sends 50,000 volts of pure spark energy to the plugs for a cleaner, crisper, more powerful running engine! Part of the DUI's performance comes from the custom calibrated advance curve. A special weight and spring assembly is hand fitted and dialed-in using a Sun Distributor Machine for a precise timing curve that will match the specifications of your engine and vehicle. The super smooth advance provides instant throttle response and maximum power throughout the rpm range with no pre-detonation. Vacuum advance is provided for improved fuel economy and cleaner spark plugs. The DUI's high output spark comes from our 50,000 volt coil and Dyna-Module. The high voltage coil allows spark plug gaps to be opened up to a massive .055"! The dwell in our Dyna-Module has been increased electronically to allow the coil to produce a longer duration spark. The combination of the larger gap and longer duration spark provides the most complete combustion of the fuel mixture possible for increased horsepower and torque. Additional benefits include quicker starting, smoother idle and better fuel economy! All DUI caps have the brass terminals for optimum conductivity and superior resistance to corrosion.

Colors Available: Black, blue, clear, red and yellow

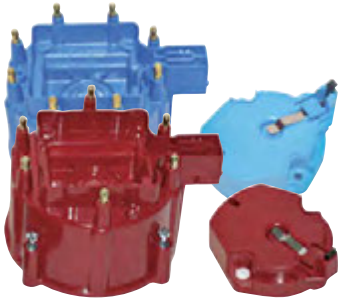
DUI / HEI Cap and Rotor



This kit offers up to 50% higher dielectric strength and can handle all of the voltage available from the coil. Built with Brass Terminals for maximum conductivity with an improved design in the rotor for eliminating burn-through. The material used in this kit has proven to be the ideal resin for caps and rotors for DUI and HEI distributors. Nylon rotor screws are included and eliminate a "ground" for the voltage to jump at high RPM's. Fits all V8 DUI Distributors. Made in the USA.

EACH DISTRIBUTOR IS CUSTOM TUNED

Performance Distributors

Tri-Power Ignition Distributor

Performance Distributors now offers a small diameter high performance electronic ignition system for engines that do not have the clearance for a D.U.I. Due to the large size of the D.U.I, it will not fit applications utilizing a blower, tunnel ram or where the engine is too close to the firewall. This put our engineers to work using a smaller diameter distributor. The results were the Tri-Power Ignition System. The Tri-Power ignition system features our Dyna Mod (HEI style) electronic module mounted externally to a remanufactured points style distributor housing. The system also includes our high voltage "Inferno" coil which is mounted externally from the distributor. The Inferno coil allows spark plug gaps to be opened to an incredible .055". Each Tri-Power distributor is custom tuned on a distributor machine based on your cam duration & lift, compression ratio, octane of fuel and vehicle weight. A super smooth advance curve will eliminate engine damaging detonation, provide instant throttle response and produce maximum power throughout your entire rpm range. With the combination of the Inferno coil and Dyna Mod module, you will notice quicker starting, smoother idle and more horsepower up to 8500 rpms! Made in the USA.

STEP UP YOUR CHARGING SYSTEM FROM 14 VOLTS TO 18 VOLTS

Allows plug gaps to be opened up to .070"

CH33805LS

Performance DUI Distributors MADE IN THE USA

Mini-VIP Voltage Step-Up Regulator

The new 18 volt Mini-VIP (Voltage Intensive Power) steps up your charging systems 14 volts to 18 volts, which is sent specifically to your ignition system in order to provide your engine with the ultimate spark for improved combustion. The 18 volt Mini-VIP is truly a revolutionary product that leads to "Chargition". "Chargition" is what Performance Distributors defines as the science that bridges the gap between your charging system and your ignition system. It emphasizes how a maximum performing charging system leads to a maximum performing ignition system. The 18 volts produced by the Mini-VIP enables you to open up your spark plug gaps to a whopping .070". The larger gap and hotter spark will burn the fuel more completely on each piston stroke. Voltage drop, which occurs when you have your accessories running, is eliminated as the Mini-VIP isolates the 18 volts to your ignition system only! In the long run, your plugs will stay cleaner. Some applications will also be able to run a richer fuel mixture due to the additional spark intensity. The unit is a simple three wire installation. The Mini-VIP is true to its name as it is small enough to mount anywhere and only weighs one pound.

BETTER THROTTLE RESPONSE

Easy installation

Performance DUI Distributors MADE IN THE USA

Ignition Module

For a crisper, smoother running engine, replace your stock HEI module with the Dyna-Module. The Dyna-Module has more electronic dwell in it to provide more coil saturation time. The additional saturation time allows the coil to produce a more intense spark, improving throttle response and low end power! Installation is easy as the Dyna-Module mounts in the stock location of an HEI module with no modifications. Fits all V8 & 6 Cylinder DUI / HEI Distributors. Also fits Performance Distributors GM Tri-Power Ignition Systems.

PERTRONIX PERFORMANCE PRODUCTS

PRT08611

High-Performance LS Coils

The Pertronix Flame-Thrower Coils feature a square body or round body (depending on application) and are an optimized coil design for 15% more spark energy. They are a direct fit replacement.

- 15% more available spark energy burns all fuel in the cylinders for more power, quicker, starting, and improved mileage.
- Designed to perfectly fit the factory mounting holes for direct OE replacement fit.
- OEM style factory connectors plug directly into factory wiring harness and lock directly into place.
- Where applicable, high temperature boots secure the spark plug insulating the high voltage ensuring all energy is delivered to the spark plug.
- High temperature epoxy insulates the coil windings to prevent voltage breakdown in high temperatures.
- PRT0811 replacement for GM Part#s 12558693/19355500.
- PRT0851 replacement for GM Part#s 12619161/12669351.

FLAME-THROWER I, II & III

Great for 6 or 8-cylinder engines

CH20140 SK00002 CH30757

PERTRONIX PERFORMANCE PRODUCTS

High-Performance Coils

The "Flame-Thrower I" high-performance coil delivers 15% more spark, which allows for larger spark plug gap for added power, smoother response and better fuel economy. Delivers a full 40,000 volts.

The "Flame-Thrower II" coils maximize energy and reliability over the full rpm range, enable larger plug gaps for greater fuel economy and increased power levels and they're 50-state legal. These coils are rated at 45,000 volts and are intended for use with the "Ignitor II" ignition system.

The "Flame-Thrower III", 45,000 volts, 50 state legal, oil filled, 0.32 OHM's primary resistance, compatible with most C.D. ignition systems.

NEW SOLID STATE RELAYS

Four relays in one convenient block

MADE IN THE USA

NEW! Solid State Relay Block

Clean up your wiring with an MSD Solid State Relay Block. This module takes the place of 4 standard relays and eliminates unsightly wiring. 4 independent channels can be activated using either power or ground. With 4 channels the relay block is available with 200 or 400 amps of momentary and 80 or 140 amps constant combined power, you can easily control electric fans, water pumps, nitrous solenoids, auxiliary lighting and any other electrical accessories that would normally require a relay. LED status indicators ensure proper wiring and operation of each channel. Should a problem arise, the relay block has built-in automatic over-temp, short circuit and overload protection. The block can easily be mounted using the supplied hardware and mounting tabs that can be rotated 90° to accommodate various mounting locations. Its compact and clean design will make your wiring project a breeze. Available in red or black.

PERFORMANCE UPGRADE

Blaster Ignition Coils

MSD "Blaster Coils" are an upgrade to your stock coil or if you want to complement the performance of your MSD ignition. These coils do not include a ballast resistor. When using an MSD "Ignition Control," the ignition is responsible for delivering the voltage to the coil so a ballast resistor is not necessary. The "Blaster 3" coil features an extra-tall tower to improve the coil wire attachment and spark isolation. Includes 90° terminal and boot. 0.7 OHM's.

Ignition Coil

Electronic oil filled ignition canister style coil with red or chrome finish for high-performance vehicles that have been converted to an electronic breaker less distributor, where a traditional oil filled can-style coil is preferred for the correct classic appearance. Designed with optimized winding for use with ready-to-run distributors and 6 Series CD ignition control boxes. Engineered for high output resulting in quicker starts, improved throttle response and more power at higher RPM Universal High Output Dome Style Ignition Coil with Red Finish, designed to work specifically with the high output inductive storage ignition module in the ready to run distributors. It features heavy gauge windings that are engineered to ensure maximum power at higher RPM levels. A molded housing of glass reinforced polyester and high temperature epoxy encapsulation resists shock and vibration while providing excellent thermal conductivity. The brass contacts ensure maximum conductivity, while the male tower offers superior boot/terminal retention and protecting from arch over. This is compatible for use with 6 Series CD ignition systems.

Inferno Coil

Add some serious firepower to your ignition system with the Inferno coil! The Inferno and Inferno 2 Coils were designed to outperform all stock and other aftermarket coils. Both Inferno Coils are universal and will work with most any ignition system except for HEI and our DUI Distributors. The coils have been tested to withstand engine heat and extremely high temperatures. If you currently have a tachometer or later install one, all the necessary hardware to complete the installation is included. The higher voltage output of the Inferno coils will allow spark plug gaps to be opened up .010" larger than the factory plug gap. In some applications the gap can be opened up as much as .055". The Inferno coil will mount in a factory coil bracket and the Inferno 2 coil can be easily mounted anywhere in the engine compartment.

MADE IN THE USA

Sultans of Spark Coil

Boost ignition performance with our SOS (Sultans Of Spark) Coils for 1997-2019 General Motors LS/VORTEC engines. These hotter coils are packed with more voltage over the stock coils to help produce increased power, better throttle response, quicker starting and smoother idle! The LS SOS Coils have 7000 more volts per coil over stock and this additional spark energy will fire plug gaps up to .065". Extended plug gaps expose a larger spark kernel in the combustion chamber for an increased burn of the fuel mixture, thus giving your LS extra performance and better fuel efficiency. Our design team has used the latest technology to enhance the coil windings for higher output, yet maintained the original size so the coils will mount in the OEM bracket and retain the factory wiring. LS SOS Coils are fully compatible with flash devices and programmers. Superior thermal epoxy leads to improved heat transfer and vibration resistance. Brass terminals are utilized for improved conduction and resistance to corrosion. LS SOS Coils have a one year warranty from date of purchase.

STEADY SPARK OUTPUT UP TO 7000 RPM

Corrosion resistant brass terminals

MADE IN THE USA

Street/Strip Coil Kit

Our 50,000 volt DUI (Davis Unified Ignition) Street/Strip Coil Kit is designed for a maximum output of 7000 RPM's! The high voltage coil allows spark plug gaps to be opened up to .055". The wider plug gap provides a more complete burn of the fuel mixture for more power and better fuel economy. Brass terminals in the cap provide greater conductivity and resists corrosion longer. This kit is great for upgrading a stock HEI for improved performance. The kit includes the coil, cap, rotor and nylon retaining screws. The Street/Strip Coil Kit has a one year warranty from date of purchase.

AN AFFORDABLE PERFORMANCE OPTION

Improve ignition performance

Street Fire Ignition Control Box

This Street Fire ignition box from MSD is an affordable performance choice for any ignition system. This box utilizes capacitive discharge technology to ensure the complete combustion of the air/fuel mixture to produce great throttle response and a smooth idle. The built-in adjustable rev limiter provides extra protection to your engine and installation is straightforward using the supplied instructions.

	Part#	Desc.	UOM	Price

Second Strike Ignition Box

Pertronix has combined the two with its "Second Strike" ignition supplement that uses your stock ignition as the primary spark producer and follows it with a second spark—anywhere from 2-18 crank degrees later—from its Second Strike CD box. This assures you of complete burning of the air/fuel mixture in the combustion chamber. It means you can get more power, better combustion efficiency and reduced plug fouling. The Second Strike also has a built-in rev limiter that randomly cuts out a spark from different cylinders to reduce plug fouling when you over-rev your engine. This ignition supplement works with most OEM and aftermarket non-CD ignitions and is compatible with most modern tachs without an interface.

	Part#	Desc.	UOM	Price
1	CH25765	.....	each	379.99

FULL DIGITAL IGNITION CONTROL BOX

Improved efficiency & performance

MSD6425

MSD6421

Digital 6A & 6AL Ignition Control Box

Maximize your spark and improve performance with one of MSD's digital ignition control boxes. These boxes feature high output with 530 primary volts and 135 mJ of spark energy. The efficient components use less current and produce more power than capacitive discharge ignition systems. Both boxes feature a locked and sealed wiring connection and the 6AL includes a built-in soft-touch rev limiter complete with adjustable rotary dials for added protection. Sold per each, the control boxes come with all necessary wiring, vibration dampers, instructions and hardware.

	Part#	Desc.	UOM	Price
1	MSD6201	6A	each	291.99
1	MSD6425	6AL	each	338.99

6AL-2 Ignition Control

The 6AL-2 is the new generation of ignition controls from MSD featuring a new housing, digital controls and more power in a sleek package. Inside every 6AL-2 is an advanced micro-controller that manages the timing and rpm of the ignition as well as maintaining a spark output of 535-volts. In order to ensure complete combustion, the multiple sparks burn inside the cylinder for 20° of crankshaft rotation. Two other benefits are the rev-limiting controls: one for high-end over rev and the other can be set to activate off a clutch or trans-brake to set a launch limit. Rev limiters are controlled via rotary dials providing easy adjustments at any time. Ignition boxes are sold per each and include wiring, vibration mounts and complete instructions. Compatible with 4-cylinder, 6-cylinder and 8-cylinder engines.

MOVE YOUR UNSIGHTLY IGNITION COILS OUT OF VIEW

Constructed from laser cut steel and are black powder coated

MADE IN THE USA

LS3 Coil Relocation Brackets

The LS Classic coil relocation brackets are an easy way to move your unsightly ignition coils out of view. These Lokar brackets are designed to fit round, LS2 / LS3 GM 12573190 / AC Delco D514A or equivalent coils. The brackets are constructed from laser cut steel and are black powder coated. The kit includes two brackets and the necessary fasteners and spacers to mount eight coils.

NOTE: Coils are not included.

MADE IN THE USA

LS Coil Extension Harness 48"

When relocating ignition coils, it's common that the wiring harness is not long enough to reach. These Lokar harness extensions solve that problem by adding an additional 4' of length. These are sold in pairs and plug directly into the factory harness.

3 MODE DIGITAL

Set the high and low limit

NEW! RPM Activated Switch

Intellitronix Digital RPM 3 Mode Window Switch is ideal for nitrous applications allowing you to activate nitrous at a predetermined RPM and have it shut off before it reaches the peak RPM. The RPM Activated Switch with digital technology uses push buttons and digital display to program the switch and works with 1, 2, 4, 6, 8, 10, and 12-cylinder engines with an RPM range of 2000 to under 10,000 RPM. This uniquely designed Digital RPM 3 Mode Window Switch functions as a tachometer with high RPM recall and features over-current protection, short-circuit protection, and overvoltage protection. The push buttons and digital display are easy to use to program the switch and has three modes available to set.

MADE IN THE USA

Rev Limiter

Protect your engine from over revving with the DUI Rev Limiter! This soft touch Rev Limiter uses sophisticated computer circuitry to drop spark one cylinder at a time, until your engine is at or below its maximum rpm. Those cylinders are then fired on the next cycle, to prevent them from loading up with fuel. The result is smooth rev limiting action that prevents backfires and possible engine damage. RPM limits are set with plug-in modules. A 6000, 7000 and 8000 RPM module is included with the rev limiter but other RPM limiting modules are available in separate kits. Works with all HEI and DUI Distributors.

MADE IN THE USA

RPM Activated Switches

RPM Activated Switches are ideal for nitrous applications. They allow you to activate your nitrous system at a predetermined RPM and will stay active until RPM falls below the set RPM. IN03012 programs easily with the device's onboard dipswitches. IN03209 uses push-buttons and a digital display for programming. IN03210, also programmed using push-buttons and digital display, functions as a two-stage "window" switch, allowing you to turn on an accessory at the desired RPM, then turn it off at a second higher RPM. Selectable normally-open or normally-closed functionality allows you to turn on or off the accessory of your choice at the desired RPM. 2,000 to 9,000 RPM range. Digital versions also function as a Tachometer with high RPM recall. Switches feature over current protection, short circuit protection, and over voltage protection.

Digital Ignition Tester

This valuable tool allows you to test your ignition while it's in the car. The tester produces a simulated trigger signal that fires the ignition as if the engine were running. A special load producing clip-on spark plug is included to connect the coil wire. If the spark is unable to jump the gap of the tester, there is an ignition problem and you can trace it. The tester has an LCD display that will show simulated rpm, so you can test rpm limits, rpm activated switches, shift light operation and tachometer.

Part#	Year	Desc.	UOM	Price
CH20327	64-73	.....	each	392.99

Digital Rev Limiter

The "Digital Rev Limiter" digitally controls rpm limits by stealing random sparks just one rpm past the limiter setting. This reduces spark plug fouling common to other rev limiters. You can set the limits in 100 rpm increments using easy-to-adjust rotary switches and with the TTL interface, the Digital Rev Limiter is compatible with most modern tachs. Limiter will operate on 6-volts to 18-volts and has a 4-wire hookup for easy installation.

3 CONNECT & CRUISE POWERTRAIN SYSTEM

Each Connect & Cruise kit delivers a brand-new, fully assembled crate engine, an electronically controlled overdrive transmission, electronic control modules for both, and the engine control hardware to get it all running in your project vehicle – including the mass airflow sensor, oxygen sensors and even the special throttle pedal for the engine's electronic throttle bodies. Chevrolet Performance engineers matched the engines with their respective transmission, ensuring it was up to the task of channeling big power with absolute dependability. The engine controller is specially calibrated to run the engine without some of the production-vehicle features that aren't required in an older vehicle. That means no "trouble" codes and no need for third-party tuning. Better still, the system's unique SuperMatic transmission controller is designed to work with the engine controller for a seamless, "plug and play" installation that is quick, easy and intuitive. Detailed instructions outline all the necessary steps. Chevrolet Performance has you covered with a 24-month/50,000-mile limited warranty.

Lokar's Classic Crate Engines start with a brand new GM 495 horse power LS3 right out of the box. It is then painted Chevrolet orange. Lokar then begins the assembly process using your desired components until they have the perfect crate engine for your project. Once completely assembled Lokar puts the engine on their in-house run stand, load your Holley EFI ECU with a start-up tune, and run your engine to check for leaks and oil pressure. After they are satisfied that your engine will operate with no issues, they put it back in the original GM crate and ship it. Once you receive your engine it is as simple as installing it, terminating a couple of power and ground wires on the harness and putting fuel pressure to the engine.

LOKAR CRATE ENGINE TECH SPECS

GM Part Number: 19369333
Engine Type: LS-Series Gen-IV SB V-8
Displacement (cu. in.): 376 (6.2L)
Bore x Stroke (in): 4.065 x 3.622 (103.25 x 92 mm)
Block (# 12623967): Cast-aluminum with six-bolt, cross-bolted main caps
Crankshaft (# 12597569): Nodular iron
Connecting Rods (# 12649190): Powdered metal
Pistons (# 19207287): Hypereutectic aluminum
Camshaft Type (# 88958753): Hydraulic roller
Valve Lift (in.): .525 intake / .525 exhaust
Cam Duration (@.050 in.): 219° in / 228° exh
Cylinder Heads (# 12629063):
Alum. L92-style port; as cast w/68-cc chambers
Valve Size (in.): 2.165 intake / 1.590 exhaust
Compression Ratio: 10.7:1
Rocker Arms (# 12569167 int):
Investment-cast, roller trunnion

TRI-POWER STYLE LS REPLICATES ONE OF GM'S MOST ICONIC ENGINES

BB style valve covers in your choice of finish

LS Tri-Power Style Crate Engine

LS Classic Series Tri-Power Style crate engines are designed to give your LS the look of one of GM's most iconic big blocks, while using modern technology for ultimate performance. These crate engines start with a brand new, GM 495 horsepower "Hot Cam" LS3 right out of the box, with your choice of the engine being painted orange or left unpainted. The LS Classic Series Tri-Power Style engines are assembled with a specially modified single plane, dual carb aluminum intake manifold topped with a Tri-Power style air cleaner assembly. Includes your choice of cast, chrome or orange painted block style valve covers. These crate engines come with coils, coil harness, valley plate, Intake system w/ throttle body, valve covers, Corvette style balancer, exhaust manifolds, spark plugs, 4L60E/4L80E flexplate and Holley ECU with engine harness. Once completely assembled, Lokar puts the engine on an in-house run stand, loads the Holley EFI ECU with a start-up tune and runs the engine to check for leaks and correct oil pressure. After they are satisfied that your engine will operate with no issues, it is put back in the original GM crate and shipped directly to you or your builder.

VINTAGE LOOKS WITH MODERN LS PERFORMANCE

Your choice of 409 "W", SB or BB valve covers

LS 14" Classic Crate Engine

LS 14" Classic Series crate engines have the right combination of classic looks and modern performance to complement your classic vehicle. These crate engines start with a brand new, GM 495 horsepower "Hot Cam" LS3 right out of the box, with your choice of the engine being painted orange or left unpainted. The LS 14" Classic Series engines are assembled with a retro inspired intake kit that includes a single plane aluminum intake manifold, billet aluminum fuel rails and a 14" chrome round air cleaner. Comes with your choice of small block, big block or 409 Chevy style valve covers. These crate engines come with coils, coil harness, valley plate, Intake system w/ throttle body, valve covers, Corvette style balancer, exhaust manifolds, spark plugs, 4L60E/4L80E flexplate and Holley ECU with engine harness. Once completely assembled, Lokar puts the engine on an in-house run stand, loads the Holley EFI ECU with a start-up tune and runs the engine to check for leaks and correct oil pressure. THE RIGHT STYLE TO MATCH YOUR SIXTIES MUSCLE CAR

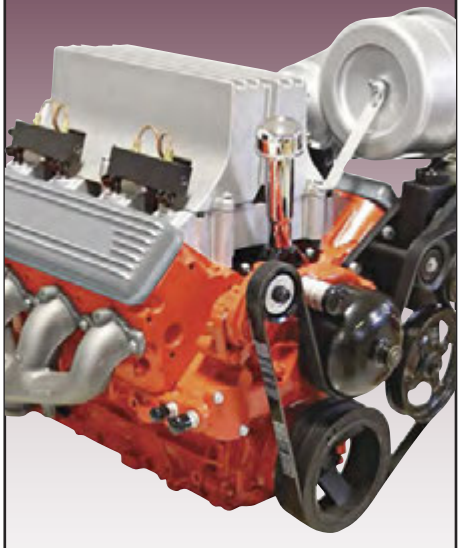
Classic looks with modern reliability



LS Fuelie Style Crate Engine

LS Classic Series Fuelie Style crate engines are designed to give your LS the look of GM's iconic original mechanical fuel injection system while using modern technology for ultimate performance. These crate engines start with a brand new, GM 495 horsepower "Hot Cam" LS3 right out of the box, with your choice of the engine being painted orange or left unpainted. The LS Classic Fuelie Series engines are assembled with a cast aluminum, two-piece manifold in a 1957, 1962 or 1963 configuration. Also features finned, cast aluminum small small block style valve covers. These crate engines come with coils, coil harness, valley plate, Intake system w/ throttle body, valve covers, Corvette style balancer, exhaust manifolds, spark plugs, 4L60E/4L80E flexplate and Holley ECU with engine harness. Once completely assembled, Lokar puts the engine on an in-house run stand, loads the Holley EFI ECU with a start-up tune and runs the engine to check for leaks and correct oil pressure. After they are satisfied that your engine will operate with no issues, it is put back in the original GM crate and shipped directly to you or your builder.

Lunati Factory Performance Camshafts

You can now get factory like performance and sound from your classic Pontiac engine with these factory performance camshafts from Lunati. Made to almost factory correct specifications, these camshafts are made to emulate the classic Ram Air III and Ram Air IV camshafts, but are designed to give more power and reliability while still giving a factory sound.

1969-73 Performer Plus Camshaft Kit

This Edelbrock camshaft is a hydraulic flat tappet cam designed for 350-455 Pontiac V8 engines to produce optimum torque from the low-end to the mid-range. This Performer-Plus camshafts should be matched with Performer manifolds for vehicles operating from off-idle to 5500 rpm. It produced 387HP and 439-ft/lbs of Torque when paired with Performer intake manifold G980017 and Performer RPM cylinder heads G980036.

COMP CAMS

Comp Cams Factory Muscle Camshafts

The factory muscle camshafts from Comp Cams are reproduced using factory specifications with strict Comp Cams tolerances. You can be sure that these camshafts keep a stock fit, and great sound from factory performance engines as well as incredible performance. This camshaft is the same cam used in 1968 400 c.i.d. Ram Air IV, factory 366 H.P. 400 c.i.d., 1969 factory 345/370 H.P., 455 c.i.d., and 1970 factory 370 H.P. applications.

Perma-Loc Rocker Arm Nuts

ARP Perma-Loc rocker arm nuts are made not to loosen. Reason being, the adjuster body is heat-treated all the way through (not just casehardened), which eliminates "thread" movement. The threads are machined exactly perpendicular to the bottom of the adjuster, so it seats evenly and applies pressure on a full 360° circle. The screw is machined flush on the bottom (not pointed) to have optimum contact on the rocker arm stud.

Rocker Arm Studs

Milodon's rocker arm stud kits are premium race quality fasteners. Manufactured from tough 8740 steel, they feature a large ground radius fillet to provide increased support to the stud shank, effectively eliminating bending and subsequent breakage. All Milodon studs are precision machined with rolled threads and heat-treated for strength of 190,000 PSI. The complete stud has a black oxide finish, and each kit contains 16 studs.

Ram Air & H.O. Intake Manifolds

Searching for a factory-style Ram Air or H.O. aluminum intake? Look no further, because OPGI has excellent reproductions of these hard-to-find manifolds. Cast aluminum manifolds are available for various 1969-72 Pontiac engines. Each intake features the correct casting number and "W" snowflake logo used by the Winters Foundry that produced the originals. With 1969-70 manifolds being correct for Ram Air IV 400 engines and 1971-72 manifolds being correct for H.O. 455 applications—all manifolds will work on 1965 and up 350-455 engines. Manifolds have machined mounting surfaces and all of the correct mounting holes for a pain-free installation.

MADE IN THE USA

LS Fuelie Style Intake Systems

LS Classic Series Fuelie Intake Systems are designed to give your LS engine the look of GM's iconic powerplants of the 50's and 60's while using modern technology for ultimate performance. Lokar's Fuelie Style Intake Systems are based on a cast aluminum, two-piece manifold, like the originals. They are also made in the USA, and kits include billet aluminum fuel rails, all mounting hardware, and gaskets. These systems utilize GM LS3 OEM fuel injectors and GM four bolt, 92mm, drive-by-wire throttle body (not included) and are compatible with GM and aftermarket ECU's and harnesses that support both drive-by-wire and speed density tuning. Manifold kits are available to work with your choice of rectangular or cathedral port LS cylinder heads.

THE PERFECT LOOK FOR A RESTO-MOD MUSCLE CAR

Uses modern technology for ultimate performance

LS 14" Classic Intake Kit

The LS Classic Series 14" Classic Intake Kit is designed to pay respect to the classic muscle cars and trucks of the 60's and 70's while using modern technology for ultimate performance. The intake kits include a single plane aluminum intake manifold, billet aluminum fuel rails, 14" chrome round air cleaner, 4150 carb adapter plate, all mounting hardware, and gaskets. The systems utilize GM LS3 OEM fuel injectors and GM four bolt, 92mm, drive-by-wire throttle body (not included) and are compatible with GM and aftermarket ECU's and harnesses that support both drive-by-wire and speed density tuning. Manifolds are available to work with rectangular and cathedral port LS cylinder heads.

ULTIMATE RETRO MULTI-CARB LOOK FOR YOUR LS

Modern fuel injection performance

LS Tri-Power Style Intake Kit

Designed to pay tribute to the baddest big block Corvettes of the late 60's while using modern technology for ultimate performance. The intake kits are built around a modified single plane, dual carb aluminum intake manifold that utilizes dual 92mm, GM LS3, four bolt, throttle bodies and fuel injectors (not included) and accepts Lokar's Tri-Power style, chrome, triangular air cleaner. The kit also includes 4150 carb adapter plates, throttle body to air cleaner clamp assemblies, mounting fasteners, and cotton gauze air cleaner. The Tri-Power kit requires the use of Holley Dominator (or equivalent) ECU and harness that supports the dual drive-by-wire throttle bodies. Manifolds are available to work with rectangular and cathedral port LS cylinder heads.

FACTORY-CORRECT REPLACEMENT
For all Pontiac V8 engines

G241673

Original Style V8 Valley Pans
These OEM-style valley pans are manufactured to factory specifications using heavy-duty steel for superior strength. The pans are designed for use with a PCV valve and feature the correct baffling for proper ventilation. Each pan is coated with a silver finish for added durability and corrosion prevention, and can be painted to match your engine. Part# G241673 is designed to clear roller lifters on both hydraulic, or solid roller camshafts.

NOTE1: Not for use with EGR manifolds.
NOTE2: Part# G241673 may require some trimming to clearance some intake manifolds.

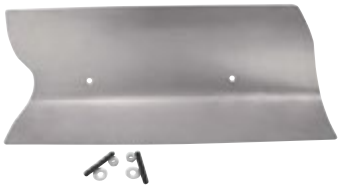
PRECISION-BENT ON A CNC BRAKE
Features a durable powder-coated finish

1964-73 Pontiac Aluminum Intake Valley Pan
These aluminum valley pans are manufactured from billet aluminum to provide a lightweight, yet strong product for the Pontiac V8 engine. Pans are available for PCV and Non-PCV applications, and each pan is complete with a grommet and bolts for installation.
AVAILABLE IN:
G241595 - Powder coated black or silver

	Part#	Desc.	UOM	Price
4	G241595	w/o PCV.....	each	128.99

NOTE: Instead of a gasket, silicone or engine gasket sealant recommended.

FOR RACE APPLICATIONS



Aluminum Valley Pan Without PCV
If you're running a race-style Pontiac engine and aren't using a PCV valve, this lightweight aluminum valley pan is the one you want. In most instances this aluminum valley pan can be used without a gasket, and remember, it doesn't have a hole for the PCV valve so it's really relegated to race-only applications.

PERFORMANCE GASKETS
Top-quality materials

Edelbrock

High-Performance Valve Cover Gaskets
Edelbrock has painstakingly designed their gaskets to provide a perfect seal with their heads and intakes as well as most factory stock parts. All gaskets are manufactured from top-quality materials and available for a variety of applications. Valve cover gaskets are manufactured from a core reinforced composite for proper sealing integrity and an easy installation. The reinforced design provides a high radial strength to resist high vacuum or blow out conditions.

Valve Cover Gaskets
New valve cover gaskets are often the cure for messy oil leaks. OPGI has two solutions to choose from in order to keep the oil where it belongs. Standard thickness 3/16" rubber gaskets are a great choice for all standard applications. Also available are extra-thick 5/16" cork gaskets, which provide necessary clearance with some roller rockers or poly locks. The extra material is a great alternative to costly spacers and is a great idea when installing new valve covers.

Crank Scraper For Race Applications

Crankshaft scraper will wipe the excess oil from the crank & rod assembly, thereby eliminating windage, which eats up power. Heavy-gauge, not-so-easily-bendable-steel, this scraper is laser-cut with the correct profile to fit Indian Adventures blocks & factory 4-bolt main blocks with aftermarket caps—there is no need for modifications. Elongated mounting holes to adjust for different crank strokes & it doesn't have an oil dipstick hole, but one can easily be drilled.

Allows for precise timing

FREE SHIPPING ON THIS ITEM

Accu-Drive Gear Drives

Replaces stock timing chain with a precision gear drive system. The gear drive can be easily installed.

The "Accu-Drive" system transmits power from the crankshaft gear to a full-floating main idler, which drives the camshaft gear. Accu-Drive gear drives are not recommended for use above 7000 rpm or on computer-controlled vehicles with knock sensors.

ALL-NEW STAMPED STEEL REPRODUCTION

Adds a period-correct look

Nostalgia Air Cleaner Assembly

This all-new air cleaner assembly is perfect for adding a nostalgic appearance to your engine compartment. The stamped steel housing is reminiscent of the early Cadillac and Oldsmobile air cleaners from the 1950's, and features a durable EDP-coating for corrosion resistance. Each housing spans 18-1/4" wide and 4-3/4" high from carb base to wing nut, and is ready to top any modern 4-barrel carburetor with a 5-1/8" throat. The complete assembly features the housing, element, stud, AC decal, and chrome-plated "rocket" wing nut to keep everything in place.

KITS INCLUDE HIGH QUALITY, NAME-BRAND COMPONENTS

American-made billet aluminum brackets

LS Accessory Drive Kits

Depending on application, these kits feature quality components for your engine. F-Body kits are designed to work with early F-Body/GTO style belt lines. Truck kits are designed to work with the truck style belt line using an early F-body water pump. Kits do not include the F-body water pump or balancer.

KITS FEATURE:

CH34268- GM Type II/TC style power steering pump and an integrated, large capacity, remote, billet aluminum reservoir, high capacity Sanden 709 air compressor and a 180 amp Powermaster alternator
CH34269- GM Type II/TC style power steering pump and an integrated, large capacity, remote, billet aluminum reservoir and a 180 amp Powermaster alternator
CH34270- high capacity Sanden 709 air compressor and a 180 amp Powermaster alternator
CH34271- 180 amp Powermaster alternator

MAX PERFORMANCE

XS Torque 200-Ft./Lb. Starter

These powerful starters are great for high-compression or difficult-to-start engines. With 200-ft./lbs. of torque and a 4.4:1 gear reduction, these Powermaster XS Torque starters will spin over any engine where tight spaces or heat soak are problems. They clear most headers and oil pan configurations and weigh only 8.5 pounds. Starters are available with "Infi-Clock," which allows the starter body to be clocked in virtually any position, thus allowing for maximum clearance in tight spaces.

Part#	Desc.	UOM	Price
G200057	natural	each	234.99
G240108	chrome	each	319.99

NOTE: These products are warranted against defects in workmanship and materials for a period of one year.

Master Torque 180-Ft./Lbs. Starter

These powerful starters are great for 12:1 compression or tough-to-start V8 engines. With 180-ft./lbs. of torque and a 4.4:1 gear reduction, these Powermaster "Master Torque" starters will turn over engines where there is limited space or heat soaking the starter is a problem. The mounting/adapter block is machined from aluminum and the starter body is coated black. They will clear most all header and oil pan configurations and they weigh only 12.5 pounds.

Part#	Year	Desc.	UOM	Price

MADE IN THE USA

Starter Heat Shield

Starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, Thermo-Tec created a non-conductive strap-on heat shield with a highly-reflective Mylar surface. The Starter Heat Shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield is a universal kit that fits all starters and does include two 24" Snap-Straps for ease of installation.

HIGH TECH APPEARANCE
Includes billet pulley and fan

MADE IN THE USA

Performance Alternators
Keep your battery voltage up with a Performance Distributors GM One-Wire Alternator. This alternator has a high tech appearance and provides a simple and clean installation in your vehicle's engine bay. The all new (not re-manufactured) alternator is built with high quality bearings, diodes and copper windings to provide years of dependable and reliable performance. Easily installs with factory GM brackets and one wire is all that is required for hookup. Connection can be made at the starter solenoid or directly to the positive side of the battery. Features an internal voltage regulator and high tech billet pulley and fan. This is a direct replacement alternator for pre-fuel injected GM vehicles.

R-Terminal Starter Wiring Harness
When installing a high-torque starter on your classic muscle car, this diode wiring harness may be necessary. This harness is for use with original points ignition or systems that utilize a ballast resistor. The diode is shrink wrapped for extreme conditions and pre-terminated for straightforward installation. This is the ideal solution for connecting the "R" terminal wire from your existing harness to your new starter.

CPP

1964-72 FITRITE™ LS Engine Mount Kits

The new FITRITE™ engine mount kits are the perfect solution for mounting a newer style LS engine into your classic muscle car. The kits are available in two styles; short or long, depending on your needs. Each kit allows the mount to travel forward and backward to position the engine where you want it. The easy-to-install kits bolt into place and feature laser-cut steel brackets finished in black powder coat, coupled with polyurethane engine mounts.

Short: 1-1/2" Travel
Long: 3-1/2" Travel

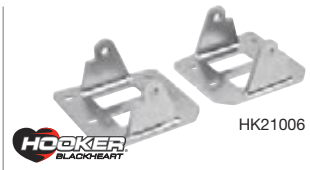
NOTE: Please specify size (long or short) when ordering.



HOOKER BLACKHEART

HK21006

1968-72Hooker Blackheart LS-Swap Engine Mounts

These Hooker BlackHeart engine swap mounting brackets facilitate the installation of a GM LS motor into a 1968-72 A-Body as part of your LS swap project. This mounting bracket kit is part of the most comprehensively engineered system of mounting components, headers and exhaust systems available for this application. The entire Hooker BlackHeart swap system is designed to decrease your total swap installation effort and cost, while increasing the engineered quality of your vehicle and compatibility of these components with other popular aftermarket components.

Part#	Desc.	UOM	Price
HK21006	forward position	pair	172.99
HK21007	stock position...	pair	172.99

NOTE1: Not compatible for use with the stock AC evaporator case. NOTE2: These engine swap mounting bracket kits are designed for use with a Holley® 302-2 oil pan and have been validated to be compatible with Holley or F-Body front drive systems.

GM Date Code Stamp

This authentic date code stamp is ideal for replicating factory markings on a variety of items. Mark the day, month and year on dash clusters, heater boxes, AC controls and much more just like the factory did. A must for concours detailing.

ENERGY SUSPENSION

Hyper Flex Motor and Transmission Mount Sets

Developed and manufactured using their famous HYPER FLEX performance polyurethane. Their "safety interlock" design provides added strength in comparison to solid mounts. The mounts are resistant towards vehicle chemicals and road contamination, reducing the chances of your mounts becoming distorted or cracking unlike the factory mounts. Made in the USA.
Available in black or red

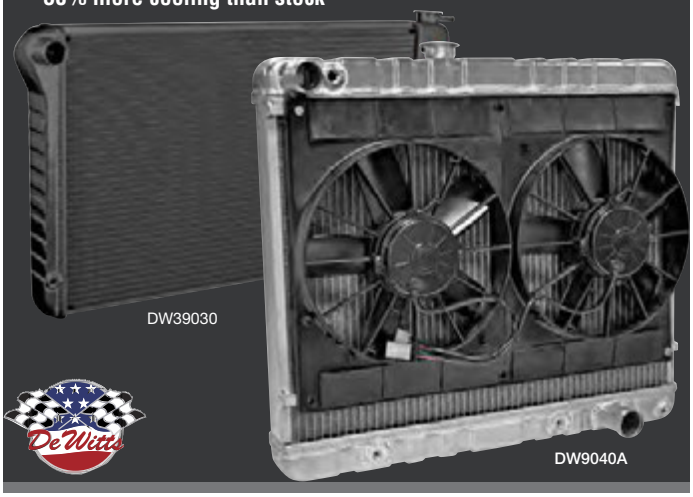
DEWITT'S COOLING SYSTEMS

THE FINEST ALUMINUM RADIATORS AVAILABLE

- **Designed to be a direct-fit**
  30% more cooling than stock
- **Made in the USA**



Pro-Series Direct Fit Aluminum Radiators

DeWitts aluminum radiators are made right here in the USA and they control 100% of the manufacturing process. Why is this important? Well, this allows them to produce the finest aluminum radiators on the market! They feature factory style tanks dual row core and serpentine fins. These aluminum radiators will provide 30% more cooling than the stock copper unit but will also save half of the weight compared to an original radiator. DeWitts Direct Fit aluminum radiators will fit into the stock core support and use original factory hoses. Available in a natural or Black Ice finish for automatic or manual transmissions, as well as combination units that come complete with electric fans. DeWitts radiators include a limited lifetime warranty.

1966-67 LSX Swap Aluminum Radiator & Fan Combos

DeWitts Direct Fit® LSX-SERIES aluminum radiators are engineered to simplify the installation of your LS Engine swap. This custom package is designed to fit the original mounting conditions and provide you with engine matching hose connections. Our standard LSX configuration has both inlet and outlet on the passenger side. Each package includes an electric fan with the temperature switch mounted in the end tank. We also include a steam line connection, custom billet DeWitts radiator cap, and complete electrical wiring kit. Our Direct Fit® aluminum radiators feature factory type press formed end tanks, serpentine fins, and the factory type upper and lower channels. Each radiator core is assembled and brazed in our state of the art aluminum brazing furnace. DeWitts radiators are also epoxy free and come with a limited lifetime warranty. Direct Fit® is DeWitt's official trademark and it means your radiator will fit, without modifications.

NOTE: The radiator petcock is sold separately, part# FJ78800.

1964-73 Desert Cooler 4-Row Radiators

Better cooling than a standard 3-row because they have an extra row of cooling area. They also have slightly larger tanks to allow it to hold more water. Designed to allow a factory fan shroud to bolt right up.

Aluminum Desert Cooler Radiators

Meticulously engineered for a precise fit and OEM appearance, while maintaining maximum cooling. Each radiator features 2-rows of 1" tubes, die-stamped tanks & 100% aluminum high-efficiency core making it one of the most durable radiators on the market. Radiators are available for standard or automatic transmission as well as a satin or polished finished.

Aluminum Radiators

When you spend the money building a performance engine, the last thing you need is overheating. All of your cooling problems can be solved by installing one of BeCool's aluminum radiators. After replacing your stock radiator with this high-performance radiator, we will guarantee a minimum temperature drop of 20° Fahrenheit or your money back. Not only will you get a decrease in temperature, but you'll get a radiator that is 40% lighter.

Overall Dimensions: 19" x 33", 27" core.

NOTE1: The radiator includes the petcock. NOTE2: Radiator cap not included.

Aluminum Downflow Radiators

Be Cool has answered the call of a highly efficient aluminum radiator with a factory-style downflow design. Radiators are available for either automatic or manual transmissions in both satin and polished finishes. These radiators mount in the factory locations and are ready to accept the original fan shrouds.

Super Street Power Cooling Module Assemblies

Be Cool's "Super Street Series Power Cooling Module Assemblies" can take the heat! Here's the system that can take engines rated up to 700 Dyno'd horsepower and provide efficient cooling. Each module contains a Be Cool aluminum dual 1" core crossflow performance radiator with oval fluted tubes, a dual 11" high-torque black electric puller fan set with a vented shroud, a complete set of aluminum fan mounting brackets with hardware, a diamond-cut vented coolant recovery tank, a primary fan wiring harness with a 40-amp relay and billet radiator cap. A secondary wiring harness is also included to independently control the second fan. The electric fans in this module are designed to engage at 195° Fahrenheit and switch-off when the coolant temperature reaches 175° Fahrenheit. Your satisfaction is fully guaranteed.

RADIATOR SIZES: 33" x 19" NOTE: Modules have dual fans.

Aluminum Downflow Radiator Modules

Be Cool "Module" kits are designed to effectively cool the most radical engine combinations. Downflow radiators are constructed from durable aluminum and kits come complete with an electric fan, wiring, cap and overflow bottle. All radiators mount in the factory location and are available in satin or polished.

MADE IN THE USA

NEW! ExactFit Aluminum Radiators

Griffin is proud to introduce the all new ExactFit series of aluminum radiators. These new products feature exact OEM fitment, OEM style stamped tanks, and mounting previsions for all factory equipment to ensure a seamless installation without any cutting, bending, or special tools. Optimal performance is achieved by the use of two rows of Griffin exclusive MegaCool 1.25" tubing which creates a greater amount of surface area in the same amount of space. This allows the product to far exceed the performance of the common two row 1" radiators. Constructed of only the best AA3003 aluminum, these new products are a step above the rest in both purity and design. Backed by the industries best two year warranty and no special coolant requirements, the new ExactFit radiators are the top of the line. This new series is made in the USA at their facility in Piedmont, SC.

NEW! ExactFit Radiator Combos

A simple solution to a complicated situation; Griffin Combo Units are the perfect combination of an aluminum radiator and electric fans. These products are constructed with Griffin 1.25 inch MegaCool tubing, a hand formed, all aluminum shroud, and high performance electric fans. The Combo Unit series has been created by Griffin engineering to take all of the confusing guess work out of switching to electric fans. The best fan for the radiator has been selected, the shroud and fans have been mounted to the radiator, and the wiring harness has been provided. The end result is affordable performance cooling straight out of the box. Griffin Combo Units feature slim line fans.

NEW! 1968-73 PerformanceFit Aluminum Radiators

The wait is finally over; the all new Griffin PerformanceFit aluminum radiators are here! The new series offers superior performance cooling at an affordable cost. Featuring Griffin exclusive MegaCool 1.25" induction welded tubing, these products are capable of cooling some extreme horsepower with their two row crossflow configuration. Modern style, universal, welded tanks provide high performance and D.I.Y. (do-it-yourself) style mounting brackets make installation a snap. Backed by the industries best two year warranty and no special coolant requirements

NEW! 1968-73 PerformanceFit Radiator Combos

Griffin PerformanceFit Combo radiators may be the item for you! Featuring an exclusive MegaCool core that features two rows of oversized 1.25-inch-wide tubes that offer an astounding 25 percent increase in cooling power. The added tube size is capable of cooling moderate to heavily modified engines. Carefully designed to work with various makes and models. The best fan for the radiator has been selected, the shroud and fans have been mounted to the radiator, and the wiring harness has been provided. The end result is affordable performance cooling straight out of the box. Griffin Combo Units feature slim line fans. Griffin products are 100% American. Made in Piedmont, South Carolina.

1964-72 Super Duty Aluminum Radiator & Fan Set

These direct-fit 100% TIG welded Cold-Case aluminum radiators feature polished OE style tanks that accept original radiator caps, two 1.25" oversized rows (unless noted otherwise), and dual electric fans inside a direct-fit aluminum shroud. Sets with 12" fans move 2800 CFM total while sets with 14" fans move 4400 CFM total. Each radiator is pressure tested before it leaves the factory. Kits for automatic transmissions feature an internal transmission cooler with fittings pre-installed while LS-swap kits are designed for use with an external transmission cooler, not included. Harness sold separately.

Milodon MIL6401

High Flow Thermostats

High Flow Thermostats aid the proper functioning of a high performance cooling system. Engineered to warm the engine to a proper operating temperature without allowing it to run hot enough to lose power. The "Balanced Sleeve" design is essential for use with High Volume water pumps as it equals the pressure exerted on the thermostat so its operation is solely regulated by coolant temperature. On other thermostat designs, the increased flow generated by High Volume water pumps can actually attempt to hold the thermostat closed.

Part#	Year	Desc.	UOM	Price

LIFETIME WARRANTY

Stainless Steel Thermostat

Maintaining a consistent engine temperature allows your car to operate at peak power and efficiency regardless of the driving conditions. The performance design reduces engine temperature and provides precise metering of water throughout the engine. They are all made of stainless steel, however, the performance thermostat also comes with a lifetime warranty.

Evans Waterless Coolants

Evans Coolant and Prep Fluids are engineered specifically for use in a waterless cooling system. Evans high performance waterless coolant is for all gasoline & light duty diesel engines used in classic to modern production cars. This coolant offers unbeatable protection against corrosion, electrolysis & protection for the life of your engine. It protects up to -40° as well as a boiling point of 375°, will not vaporize which eliminates boil-over & will generate very low vapor pressures reducing stress on engine cooling systems. When converting to a waterless cooling system the Prep Fluid is designed to purge the cooling system of water-based antifreeze after draining the cooling system, & before installing new waterless coolant. Prep Fluid should be used when block drains are unavailable or cannot be removed. It is not a substitute for thoroughly draining the cooling system & related components. Prep Fluid is NOT intended to be a stand-alone operating coolant, but as a flush fluid only. Evans also offers a cooling Refractometer that is deigned to accurately test for residual water content. By determining the water content you'll be able to safely set up your cooling system with Evans Cooling products. A fast, simple optical method that requires only one drop of coolant to compare the optical reading to water content chart. Evans Refractometer is pre-calibrated for accuracy & consistency.

Water Pump Bolts

G240155 G240156

These Grade 8 bolts have the authentic center indent with the slots and come in the correct-length for both applications. This bolt head design prevents the fasteners from loosening due to vibration. 1963-68 water pumps have eight bolts, while 1969-73 have eleven bolts. Sold per each.

Part#	Year	Desc.	UOM	Price
G240155	63-68	5/16" x 1"....	each	5.49
G240156	69-73	5/16" x 1-1/4"	each	6.49

1963-73 Water Pump Stud Kit

This complete kit contains all of the correctly manufactured hardware to complete the install of an early 8-bolt pump or a late style 11-bolt pump. Each nut, bolt and stud in this 16-piece kit features a black oxide finish for an authentic appearance on your engine.

Part#	Year	Desc.	UOM	Price
G240372	63-73	.....	each	26.99

NOTE: It is recommended that a thread sealer be used when installing studs into the block.

Water Pump Flange Bolt Set

HIGHEST COOLANT FLOW PONTIAC PUMP

1969-73 High-Performance Aluminum Water Pump

Because they manufacture these pumps with new aluminum pump housings and very close tolerance impellers, these pumps can increase flow up to 30% and equalize water flow and distribution through the block. These features also help eliminate hot spots & steam pockets in the block, keeping coolant temperatures down. For added durability, Milodon uses large diameter impellor shafts and has all the factory-correct hose connections and bosses. To lower coolant temperatures, increase flow and efficiency even more, use one of our non-restrictive, high-flow thermostats.

Part#	Desc.	UOM	Price
G221394	V8, 11-bolt, late '69 (w/4-1/2" hub)..	each	129.99

CASE HARDENED BEARINGS & PRECISION CNC-MACHINED SURFACES

Ultra-efficient metal impeller

LS F-Body/GTO Style Aluminum Water Pump

High quality aluminum water pump that includes case hardened bearings and precision CNC-machined surfaces and features an ultra-efficient metal impeller that helps to provide optimum cooling with performance and longevity. Use this water pump with any of the Lokar LS Classic Accessory Drive Systems.

RACE INSPIRED DESIGN

MADE IN THE USA

1962-73 Super Cooling Water Pumps

These Edelbrock Water Pumps for Pontiac 389-455 engines are ideal to prevent overheating in street rods and street machines. Using state-of-the-art racing technology, Edelbrock has designed these "super cooling" Water Pumps to provide maximum flow, maximum pressure and equal distribution to both sides of the block within 1%. These high performance pumps flow in only one direction for optimum efficiency. The casting's computer-designed internal passages and precision powdered metal impeller produce the maximum flow rate possible. Each 4.5" depth water pump will include the backing plate and installation gasket. Available in Satin or Black.

Part#	Desc.	Mfg #	UOM	Price
G242623	satin.....	8856	each	374.99
G242623	black.....	8856	each	374.99

NOTE1: The use of aftermarket (non-OEM) fan spacers are not recommended and will void the warranty of the water pump. NOTE2: Failure to maintain concentricity with the shaft and the fan clutch will void warranty

Variable-Speed Fan Controller

Turns your electric fan on & off at your desired temperature. Fans turn on at 60-percent power and fan speed increases as the temperature rises. You can easily adjust the activation temperature between approximately 160-240 degrees Fahrenheit. This fan controller also has a fuse to protect the controller from accidental shorts or a bad fan. This allows greater control over engine temperature, which helps to reduce charging spikes and current load on the charging system. 3 LED status indicators let you know that you have wired it up properly and that everything is functioning according to plan. The fan controller comes with a 1/8" NPT thread-in temperature sensor with bushing adapter. It works on 12-volt systems only.

MODERN CLIMATE CONTROL TECHNOLOGY

All-inclusive kit

1964-67 Air Conditioning Conversion Kit

The Gen IV™ is Vintage Air's most powerful and intelligent climate control system to date. Separate high capacity copper parallel-flow heat coil and aluminum plate and fin cooling coils provide outstanding performance and instant temperature adjustments. This new GTO Sure Fit™ system includes our exclusive Electronic Cable Converters™, which convert existing factory controls to electronic operation. Additional features include a 3-speed blower switch and a dash, floor, defrost blend. Sure Fit Systems™ are engineered specifically for each vehicle application and require absolutely minimal alteration to the vehicle for installation.

ASSEMBLY INCLUDES:

Evaporator (fits behind dash), Condenser/drier (mounts to radiator), Hose kit, Sanden SD 508 compressor, Compressor bracket, Hi/Lo safety switch

PYPES EXHAUST SYSTEMS

available with a standard X, while others are offered with the exclusive X-change which features additional outlets giving you the option to run your exhaust through mufflers, or uncap the legs for an open system. Cad plated or stainless clamps, stainless hangers and polished stainless tips are available and included in most systems. Available in natural stainless or polished T304 stainless. When it comes to flow, you just can't get anything better than the Race Pro Muffler. Features a 'straight through' path that guarantees throughput that's 99% of straight tubing! The sound is surprisingly calm considering the absence of any impedance when you look down its barrel. At idle and low rpm cruising, you will not draw much attention, but upon acceleration, bystanders lookout! The Race Pros aggressive sound is the result of applying a layer of stainless mesh around a unique internal perforated tube, accompanied by a healthy stuffing of rock wool before the unit is sealed. Highly recommended for the track where every 1/10th counts. Not recommended on lower horsepower vehicles as low end torque may suffer. Race Pro mufflers are available in 14" or the quieter 18" version.

NOTE1: Connection to exhaust manifolds will require the use of OEM-style down pipes available from OPGI for both small-block and big-block. NOTE2: Due to tooling restraints, some of the tailpipes may have a welded joint located above the rear axle. Once installed, this joint will be hidden and will not affect performance. NOTE3: Using either aftermarket headers or stock exhaust manifolds may require additional hardware.

Crossmember-Back H-bomb Exhaust Systems

Fabricated using the highest quality materials, 16 gauge, mandrel-bent, stainless steel pipe ensures maximum exhaust gas flow, which can significantly boost horsepower. The stainless construction of our pipes and mufflers enables them to resist corrosion and extends the life of the system. Our mufflers, H-pipe, oem style stainless tailpipes, are also stainless constructed and precision matched to deliver the ultimate in sound and performance. Cad plated or stainless clamps and stainless hangers are included with each kit, tips sold separately. These systems can be installed at home without any special tools. Some cutting may be required. The Street Pro muffler is great for street/strip use and will maintain its rich sound qualities for the life of the muffler. Based on a chambered type muffler the Street Pro muffler is recommended for stock to medium modified vehicles looking for an aggressive sound but not too noticeable. Next, the Race Pro muffler provides the greatest flow out of any muffler in the Pypes line. The Race Pro features a straight through design wrapped with packing to give you a great sound while still giving the performance of a straight through muffler. The sound is calm at idle and low RPM cruising, but open the throttle and the sound is unleashed! Lastly, the Violator muffler provides the most aggressive sound out of any muffler in the Pypes line. It features a 3" internal louvered tube with small sound deflector chambers to achieve the aggressive sound. The sound at idle is unique, but once the throttle is opened, the exhaust becomes incredibly loud and noticeable.

1964-72 Stainless Steel Exhaust Systems

Pypes Exhaust Systems are designed to deliver enhanced performance, provide extra punch in the passing lane and improve gas mileage. Fabricated using 16 gauge, mandrel-bent stainless steel pipe to ensure maximum exhaust gas flow which can significantly boost horsepower. The stainless construction of our pipes and mufflers enables them to resist corrosion and extends the life of the system. Each kit comes with a precisely engineered X-pipe to equalize exhaust gasses prior to entering the mufflers. All kits are available with a standard X, while others are offered with the exclusive X-change which features additional outlets giving you the option to run your exhaust through mufflers, or uncap the legs for an open system. Cad plated or stainless clamps, stainless hangers and polished stainless tips are available and included in most systems. These systems can be installed at home without any special tools. Some cutting may be required. Available in natural stainless or polished T304 Stainless.

Street Pro Exhaust Systems

This all-inclusive kit from Pypes Exhaust has been designed specifically for street machines and muscle cars. Each kit comes with a precisely engineered X-pipe to equalize exhaust gasses prior to entering the mufflers. All kits are available with a standard X, while others are offered with the exclusive X-change which features additional outlets giving you the option to run your exhaust through mufflers, or uncap the legs for an open system. From the heavy-gauge mandrel bent stainless tubing to the TIG welded stainless steel mufflers, these kits are designed to last for years and provide the smooth sound you desire. Kits also include tailpipes, zinc clamps, and stainless steel hangers to aid installation. The complete systems are compatible with original exhaust manifolds or aftermarket headers.

1964-72 2.5" High-Tuck Exhaust Systems

The new Pypes Exhaust "high tuck" GM A-body systems allows for the most ground clearance of any A-body system on the market . The X-pipe pushes the mufflers up into their installation "pockets" and the tailpipe sits higher coming out of the muffler. No more bottoming out! Pypes Exhaust Systems are designed to deliver enhanced performance, provide extra punch in the passing lane and improve gas mileage. Fabricated using the highest quality materials, 16 gauge, mandrel-bent, stainless steel pipe ensures maximum exhaust gas flow, which can significantly boost horsepower. The stainless construction of our pipes and mufflers enables them to resist corrosion and extends the life of the system. Our mufflers, X-pipe, oem style tailpipes, are also stainless constructed and precision matched to deliver the ultimate in sound and performance. Cad plated or stainless clamps, stainless hangers and polished stainless tips are available and included in most systems. These systems can be installed at home without any special tools. Some cutting may be required.

3	CH32441	64-73	3" X-Change.....	set	391.99

NOTE1: Due to tooling restraints, some of the tailpipes may have a welded joint located above the rear axle. Once installed, this joint will be hidden and will not affect performance. NOTE2: This item as packaged measures over 48" in length, and/or 30" in width or height and is subject to an additional handling surcharge. NOTE3: This item is SPECIAL ORDER and will be drop-shipped from the manufacturer.

HEAVY-GAUGE STAINLESS STEEL

Mandrel bent for superior flow

G240742

1964-73 2-1/2" Exhaust Down Pipes

Stainless steel down pipes are mandrel bent using heavy-gauge tubing for the maximum exhaust flow and a long life. The pipes are designed to connect either standard or Ram Air factory exhaust manifolds to one of the Pypes Exhaust kits. Down pipes are sold per pair, and include the necessary flanges depending on your application.

	Part#	Desc.	UOM	Price
3	G240740	w/3-bolt manifold.....	pair	165.99
3	G240741	w/RA & H.O. 2-/3-blt flange	pair	163.99

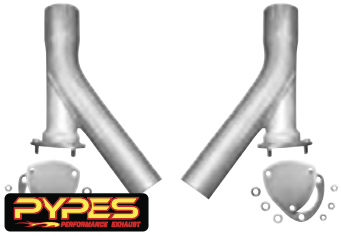
LONG-LASTING

Available in 2-1/2" or 3" diameter

Exhaust Side Exit Tailpipe Conversion Assembly

Convert your tailpipes from rear exit to side exit with this assembly. The assemblies are manufactured using heavy-gauge stainless steel tubing, which is mandrel-bent and flared for a hassle-free installation. These short 90° tubes are available in 2-1/2" or 3" diameter.

	Part#	Desc.	UOM	Price
4	CH27884	2-1/2".....	pair	59.99
4	CH27885	3".....	pair	61.99

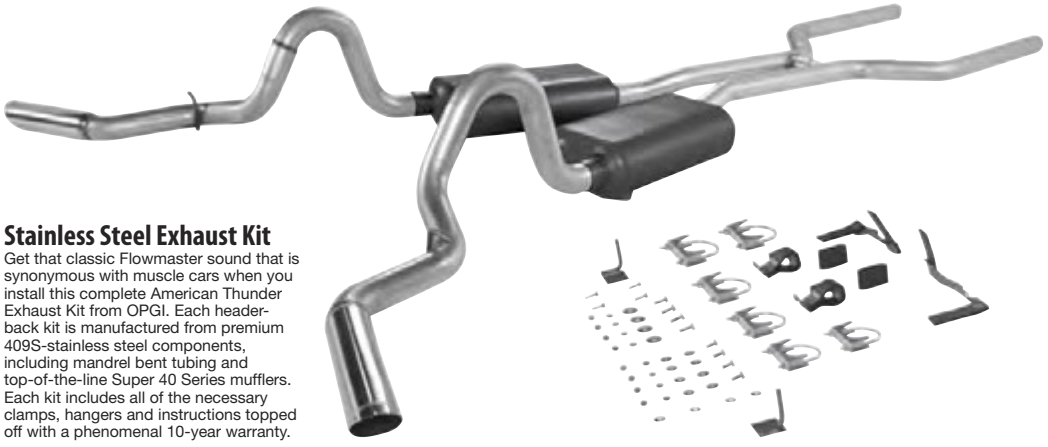


X-Pipe Exhaust Dump Extensions

Adding these dump extension legs to your exhaust system will allow you to run an open system when maximum flow is required. The extensions are manufactured in premium 409 stainless steel for superior strength and durability. Available in your choice of 2-1/2" or 3" diameter, extensions come complete with removable plates, gaskets and hardware.

	Part#	Desc.	UOM	Price
3	CH30927	2-1/2" dump legs.....	pair	145.99
3	CH30928	3" dump legs.	pair	157.99

FLOWMASTER EXHAUST SYSTEMS



Stainless Steel Exhaust Kit

Get that classic Flowmaster sound that is synonymous with muscle cars when you install this complete American Thunder Exhaust Kit from OPGI. Each header-back kit is manufactured from premium 409S-stainless steel components, including mandrel bent tubing and top-of-the-line Super 40 Series mufflers. Each kit includes all of the necessary clamps, hangers and instructions topped off with a phenomenal 10-year warranty.

	Part#	Year	Desc.	Mfg #	UOM	Price

NOTE: Welding is required for installation.

1964-73 3" Mandrel-Bent Pipe Kit

Mandrel-bent pipes keep the exhaust gasses moving for greater power. These are precision-bent, slip-fit pipes for A-Bodies and they come with an H-pipe crossover, but no clamps. You have to use offset inlet/outlet mufflers for the pipes to fit properly. We recommend professional installation as welding and cutting is required.

	Part#	Year	Desc.	Mfg #	UOM	Price

American Thunder Exhaust Kits

As one of the most powerful exhaust systems for A-Bodies with large displacement engines, the Flowmaster "American Thunder" system features heavy-gauge mandrel-bent tubing and Super 40-Series or Super 50-Series mufflers. The tailpipes included are two-piece and install easily. The kit also features an adjustable crossover pipe to fit a variety of applications and has all the hangers and clamps that fit in the factory locations. The 1964-67 kit exits the tailpipes behind the rear wheels pointed at the ground, while the 1968-72 and 1964-72 kits exit out the back at the bumper. Get the power and sound of performance with the Flowmaster American Thunder exhaust system.

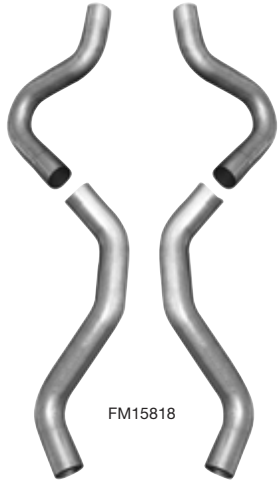
NOTE: Welding is required for installation.

1965-68 Stainless Steel Downpipes

These new downpipes from Flowmaster are manufactured using premium 409S stainless steel for superior strength and longevity. Each pipe is mandrel bent to eliminate restrictions & features a 2.00" inlet and 2.50" outlet. The original style 2-bolt flange is ideal for mounting to your original 389/400 exhaust manifolds.

	Part#	Year	Desc.	Mfg #	UOM	Price
4	G241588	65-68		81073	pair	193.99

NOTE: Downpipes are only for use with original GM manifolds 9779032-LH and 9779328-RH designed for 389/400 V8 engines.



1964-73 3" Tailpipe Kits

Flowmaster has manufactured these 3" diameter mandrel-bent tailpipes so that they are two-piece with a slip-fit connection right behind the rear axle. These kits are sold without hardware or hangers and in pairs only.

EXTREME INSULATION

MADE IN THE USA

Exhaust Wrap

Free up horsepower and reduce underhood temperatures with Thermo Tec exhaust wrap. Manufactured to withstand continuous heat up to 2000°F to help lower intake temperatures. Thermo-Tec wrap contains no Asbestos and will not over-insulate a system when properly installed due to a proprietary coating known as Thermal Conduction Technology (TCT), which conducts heat across the wrap's surface. Exhaust wrap is available in a variety of materials to suit your specific application requirements.

PYPES PERFORMANCE EXHAUST

Stainless Steel Mufflers

Turbo Pro; features flow control channels that eliminate drone, resonance, and flow turbulence while maintaining a steady flow of exhaust gasses that mimics the CFM of a straight pipe. Expect a quiet mellow tone with a true performance sound.

Race Pro; provides the greatest flow out of any muffler in the Pypes line. The Race Pro features a straight through design wrapped with packing to give you a great sound with minimal airflow resistance. The sound is calm at idle and low RPM cruising, but open the throttle and the sound is unleashed!

Street Pro; a great street/strip muffler that will maintain its rich sound qualities for the life of the muffler. The chambered type Street Pro muffler is recommended for stock to medium modified vehicles looking for an aggressive, but not too noticeable sound.

Violator; provides the most aggressive sound out of any muffler in the Pypes line. It features a 3" internal louvered tube with small sound deflector chambers to achieve the aggressive sound. The sound at idle is unique, but once the throttle is opened, the exhaust becomes incredibly loud and noticeable.

Race Venom

black widow TUNED PERFORMANCE EXHAUST

NEW! Performance Mufflers

Black Widow performance mufflers feature a unique internal hourglass design to provide straight through airflow. The design combines an ideal balance of exhaust velocity and exhaust volume with acoustic sound wave deflection to create a distinctive sound unlike any other muffler on the market today. Mufflers feature a fully-welded outer casing manufactured in durable 14-gauge 430 stainless steel and feature a brushed finish as well as an embossed Black Widow logo on one side. Mufflers are bi-directional and can be mounted upside down or backwards without affecting flow or sound. All mufflers are manufactured in the USA and are backed by a lifetime warranty.

Neighborhater - The loudest and least restrictive of the Black Widow line. These mufflers feature a 6" x 5" diameter round body. Available for 2-1/2", 3", or 3-1/2" pipe diameters.

Widowmaker - Almost identical to the Neighborhater, but with a 10" x 5" diameter body offering a slightly quieter sound without restricting airflow. Available for 2-1/2", 3", or 3-1/2" pipe diameters.

Angry Housewife - The loudest of the oval Venom Series mufflers, the Angry Housewife features a 6" x 9" x 4" body. Great flow without the drone.

Race Venom - The second loudest of the oval shaped mufflers from Black Widow. Features a 9" x 9" x 4" body. All Venom series mufflers are available in several sizes and inlet/outlet configurations.

Venom 250 - Nearly identical to the Race Venom, but with a 14" x 9" x 4" body. Slightly quieter with a longer body, while still possessing great airflow qualities.

Venom 300 - A match to the Venom 250 mufflers, but with an 18" x 9" x 4" body. The quietest of the Black Widow line, but still with great airflow qualities thanks to the internal hourglass design in all Black Widow mufflers.

Performance Headers

What is the main thing you look for when shopping for a new set of headers? Performance of course! And with Doug's, you've got it. You'll also get the ease-of-installation and a great selection of applications for all years. Doug's headers feature heavy-wall construction with 3/8"-thick mounting flanges, ensuring durability and longevity under the most demanding circumstances. All of the necessary mounting hardware is included with each set: Bolts, gaskets and reducers. It's a no brainer. Look no further than Doug's for your next set of headers! NOTE: D-Port headers do not fit Edelbrock D-Port heads. Due to the configuration of the exhaust ports, you must use Doug's round port headers. Doug's D-Port headers are for factory Pontiac heads.
All headers are for power brake and power steering applications.

APPLICATION FOOTNOTES:

93. Requires removal or modification of locking steering columns if equipped
104. Some factory heads do not have end bolts and should be drilled and tapped for proper sealing
132. Fits Edelbrock "Performer," Ram-Air, Super-Duty and H.O. heads only
134. 4-Speed applications must use OE 64-65 Z-Bar part# 9776376
136. Application with scatter shield or dual-starter bellhousing must use Fram oil filter part# PH3675
180. Requires use of LS1 adapter plate kit
181. Includes 3" to 2-1/2" reducers with O2 fittings
190. TH400 applications must use shorter aftermarket modulator valve (2-3/4" Long)
191. Headers fit with the following Milodon oil pans: 30355, 31660, 31665

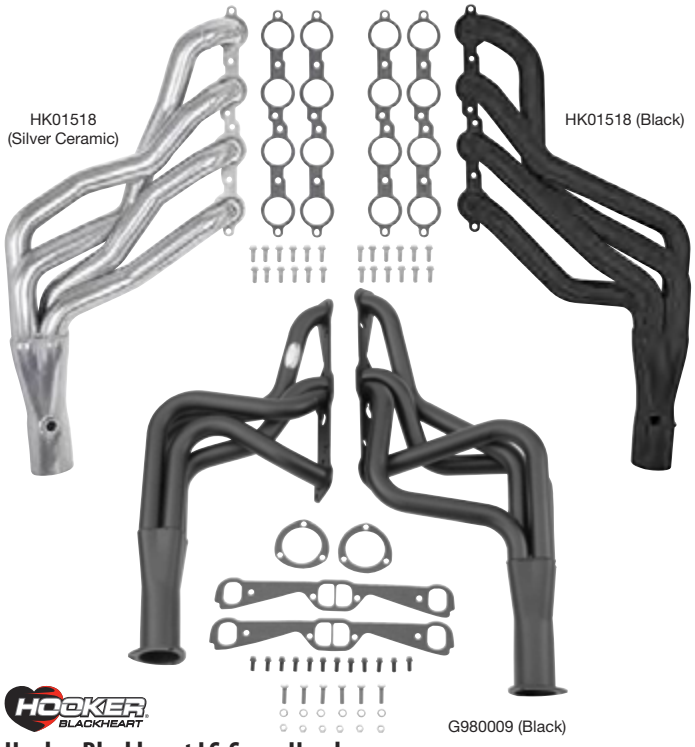
PROVIDE EXCELLENT COMPONENT AND GROUND CLEARANCE



Hooker Blackheart LS-Swap Headers

Featuring a 3" collector and available in either 1-7/8" or 1-3/4" primary tube sizes, these headers provide excellent component clearance for better starter and spark plug service as well as maximum ground clearance. O2 bungs are also located in the header collector to provide an optimized location for wideband O2 sensor operation and reliability. These LS swap headers are compatible with all GM automatic and Tremec T56 or T56 Magnum transmissions. All hardware is included and they are available in painted black, silver ceramic coated and Darkside black ceramic coated finishes.

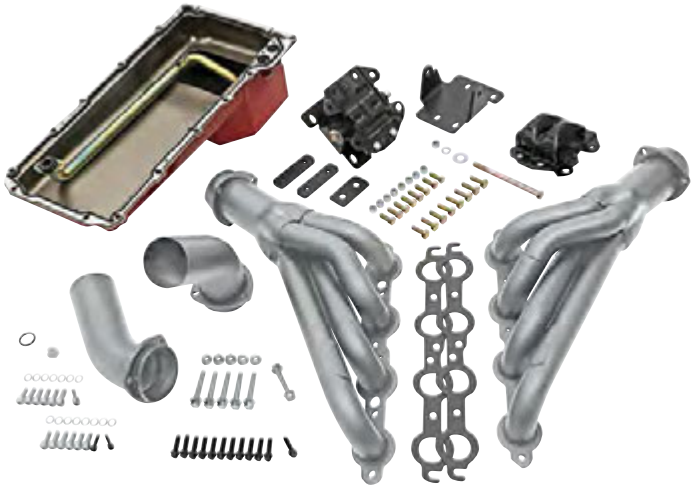
ALL-INCLUSIVE KITS!

Take the guesswork out of your LS Swap!



MADE IN THE USA

Swap-In-A-Box Complete LS Engine Swap Kits

This Swap-In-A-Box Kit is developed specifically for installing an LS engine and T-56, TH350, TH400, 4L60E, 4L65E or 4L70E transmission into General Motors A-body vehicle. This comprehensive kit includes a pair of mild steel, 1-3/4" diameter headers with gaskets, bolts and exhaust collector adapters; a complete LS engine mount kit with hardware and rubber pads; LS swap engine oil pan with bolts, gasket and special oil pick-up tube; adapter brackets to accommodate all the listed transmission models and hardware; an LS swap engine oil pan with bolts, gaskets and special pick-up tube. Choose from Hedman's HTC polished silver ceramic-coated, Black-Maxx satin black ceramic-coated, or uncoated "raw" headers. Headers are backed by a limited lifetime warranty. All other components are covered for a full year from the date of purchase.

STREET PERFORMANCE

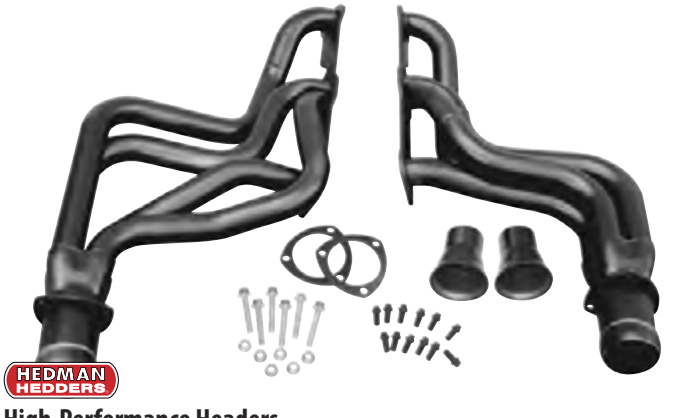
An Excellent Value

Exhaust Headers

Our Street Performance headers are made with 5/16 Flange in a SAP configuration (Same As Port) with 1-5/8" primary tube and 3" collector. All the mounting hardware is included: Reducers, gaskets and bolts.

	Part#	Year	Desc.	UOM	Price
3	PP08057	64-73	black	pair	179.99
3	PP08057	64-73	ceramic coated	pair	323.99

NOTE1: Some factory heads do not have end bolt holes and should be drilled & tapped to assure proper sealing. NOTE2: Must modify stock exhaust to retain catalytic converter(s). Will not fit with A.I.R. pump. Will not fit Ram Air cylinder heads. End holes on head must be drilled and tapped to insure proper seal. Works with A/C. NOTE3: Not for sale in the state of California.



High-Performance Headers

Hedman Hedders is a name known for quality and performance at a fair price. Bolting on a set of these headers will improve both performance and efficiency. They are available for 1964-73 GTO, Tempest and LeMans in two versions and two finishes. The first finish is the standard painted version and then there's the polished, ceramic coated HTC version for long-lasting looks and performance. The full-length, four-tube headers feature 1-3/4" diameter, heavy-gauge tubes with 1/4"-thick port flanges and 3" diameter collectors that will work with either automatic or floor-mounted manual shifting transmissions. The second version is the shorty-design, which has the maximum ground clearance with 1-5/8" tubes going into a 2-1/2" collector and is for floor shift automatic transmission cars only.

HEDMAN HEDDERS

MADE IN THE USA

Long-Tube LS Swap Headers

Premium quality headers are now available from Hedman to help you complete your LS Swap. These long-tube headers are designed specifically for A-body models and are offered in a variety of primary tube diameters. Built from mild steel and handcrafted in the USA, these headers come complete with gaskets, small head header bolts, and exhaust collector adapters for attaching the headers to a 2-1/2" exhaust system. Choose from Hedman's HTC polished silver ceramic-coated, Black-Maxx satin black ceramic-coated, or uncoated "raw" finishes. As with all Hedman Hedders, these headers are backed by a limited lifetime warranty, and the coating is covered for a full 5 years.

LEAK-FREE SEAL

Header Collector Ball Flange Set

This is a gasket-free, bolt-together design intended to replace a standard 3-bolt flange on header collectors. This is a two-piece unit designed to bolt together with a slip-fit tapered ball connection. Includes all of the necessary bolts, nuts and washers.

APPLICATIONS:
CH22305 - 2-1/2" exhaust, 3" collector
CH22303 - 3" exhaust, 3-1/2" collector

	Part#	Desc.	UOM	Price
4	CH22305	.....	set	141.99
4	CH22303	.....	set	185.99

NOTE: Original header collector must be removed and the welding of new ball flanges in their place.

UNCORK YOUR EXHAUST FROM THE DASH

Cable Operated Exhaust Cutouts

This cutouts allows you to control the flow of your vehicle's exhaust either through the stock exhaust system or straight out of the pipe. Cutouts will accept 2" O.D. exhaust pipes and are made of durable cast-iron. Comes complete with a control cable and installation instructions.

304 STAINLESS STEEL

Easy push-button operation

1964-77 Electric Exhaust Cutouts

These new electric cutout kits from Doug's Headers allow you to uncork your exhaust system with the flip of a switch. The new and improved design features compact, pre-wired, high-torque DC motors, which allows for greater installation options in tight spaces. Cutouts and Y-pipe connectors are manufactured using durable 304 stainless steel and feature a self-adjusting, self-cleaning gate, which is designed to provide a leak-proof seal for years to come. Sold per set, the cutouts include all of the necessary hardware and wiring for a hassle-free installation.

COMPACT VALVE DESIGN

Instantly converts your exhaust system

1964-77 Electric Exhaust Cutout Valves

Open your exhaust system with the flip of a switch by installing these electric cutout valves from Pypes Exhaust. Manufactured to meet the highest quality standards, each valve is CNC-machined from billet aluminum and features a premium heat resistant motor designed to withstand the rigors of high exhaust temperatures. The compact butterfly valve design is ideal for use with the 'X-Change" exhaust systems or the 'X-Pipe' extension legs. Sold per pair, the cutout valves bolt up to any 3" collector and come complete with hardware, gaskets and all of the necessary electrical components for a hassle-free installation.

Pipe Shields

Clamp-On Heat Shields incorporate Thermo-Tec's proprietary coating technology developed by Thermo-Tec, Thermal Conduction Technology. The new and improved flexible Clamp-On Heat Shield blocks over 95% of the damaging radiant heat of the exhaust. The high-tech composite construction of this heat shield provides the ultimate in protection. The kits come complete with all clamps and new stainless stand offs and installs in minutes. Clamp-On Heat Shields are available in one, two and three foot lengths. For exhaust pipes that exceed 3.5", use the 4" clamps of which will accommodate up to 4.5" diameter pipes. For applications involving smaller pipe, consider the CH32728 which is designed for 2" pipes.

Exhaust Manifold Bolt Lock

This bolt lock is an exact reproduction of original equipment for Pontiac engines throughout the 1960s and 1970s. Each steel lock features two fold-over tabs designed to keep the bolt in place as well as an additional tab, which prevents rotation of the entire assembly. Locks are sold per each; required amount varies depending on application.

Part#	Year	Desc.	UOM	Price

SUPERIOR PROTECTION

1964-77 Kevlar Heat Barrier

The Kevlar Heat Barrier is made from Kevlar with a Mylar finish. The Barrier can withstand up to 3000° F of radiant heat and can withstand direct contact up to 800° F. The product can be installed using standard rivets with a backup washer or our Heavy-Duty Spray Adhesive. The use of clamps or straps such as Thermo-Tec's Snap Strap can be used to hold the blanket in place for applications on manifolds or exhaust systems. In applications such as a heat shield on the undercarriage above the exhaust the material should be held in place by fasteners as described above.

Part#	Desc.	UOM	Price

BLOCKS RADIANT HEAT

Hassle-free installation

MADE IN THE USA

1961-73 Header Jacket Sets

The new quick-wrap high-velocity Exhaust Jackets are an innovative way to insulate and block radiant heat. The jackets cover the tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and can be applied with the headers in the vehicle. Can be installed with the headers mounted.

CH32719	8 Cyl.....	set	99.99

MADE IN THE USA

1961-73 Header Manifold Blankets

This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source and can withstand direct heat up to 750 degrees Fahrenheit. The aluminized side, facing away, can handle radiant heat up to 2000 degrees Fahrenheit, offers protection from abrasion and harmful liquid spills. The Header Manifold Blanket is available in (2) 20" by 24" blankets for V6 & V8 applications, and (1) 36" by 40" blanket for straight 6 & 4 cylinder engines.

MADE IN THE USA

1961-73 Hi-Heat Coating

To finish off a clean and well-protected Exhaust Insulating Wrap application it is recommended to use the Hi-Heat Coating. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seals the pores to minimize the penetration of harmful liquids. Hi-Heat Coating can handle direct and continuous heat of 2000 degrees Fahrenheit when used with ThermoTec Exhaust Insulating Products. The coating also works excellent as a paint directly on metal surfaces and can handle continuous temperatures up to 1200 degrees Fahrenheit.

G240117

1972-73 Head L-Bracket For Exhaust Manifolds & Headers

If you have ever tried to put bolts in the end holes on 1972 or 1973 Pontiac 7K3 casting number heads, you know there are no bosses or material for bolt holes for the exhaust manifolds or headers. You can't even drill or tap a hole for the bolts, and even if you could, you'd have to remove the heads to do it. This L-bracket solves the problem by bolting to the back and front of the head through existing bolt holes and has a stud mounted on the exhaust face of the bracket that will go through the end bolt holes of either exhaust manifolds or headers. The brackets provide a secure surface for the exhaust manifold or header to seal against on the 1972-73, 7K3 heads.

	Part#	Desc.	UOM	Price

DSE1626

Selecta-Speed Windshield Wiper Kits
These kits provide you with the performance and convenience of a late model wiper system in a package that easily installs in your vehicle. The wiper motor uses a low-profile design that features seven-speeds with 5 delays, low speed and high speed, rotary switch with a billet knob, adapter plate and wiring harness. All of this still gives plenty of clearance to the valve covers and brake booster. Several options are available for you to select the perfect option for your particular application.

ARP automotive racing products

Premium Wheel Studs

Made from 8740 chrome-moly steel & heat-treated in-house to 190,000 psi tensile strength with precision rolled threads after heat-treat. All this attention paid during manufacturing makes these studs some of the strongest on the market. The ARP wheel studs can handle the tremendous acceleration shear shock loads & lateral, or elongation, cornering shock loads placed on them, better than any other wheel studs. In addition, they're cad-plated for increased durability. Sold in sets of five.

Wheel Vintiques

Since 1986, Wheel Vintiques has been manufacturing steel wheels for restored classics, muscle cars and hot rods. All manufacturing processes are handled in house, at their facility in City of Industry, California. Wheel Vintiques manufactures wheels for many applications, and offers authentic O.E. fitment for high quality restorations. Precise sizing and single bolt patterns make our O.E. wheels the best on the market.

American Legend

Racer Series Wheels

A nostalgic design inspired by those post-war speed junkies who quenched their need for speed by hurtling across the endless expanses of Bonneville, El Mirage and Black Rock. American Legend Racer's modern incarnation is old-school cool, looking equally at home on a traditional Jalopy as it does on a modern-day fairgrounds brawler. These cast wheels are available in polished or traditional grey.

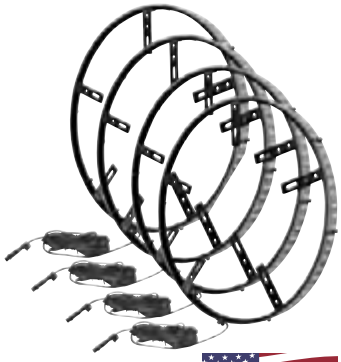
SHOW OFF YOUR WHEELS

Choose your own color!



ORACLE LIGHTING MADE IN THE USA

NEW! LED Wheel Rings

Oracle Lighting illuminated LED wheel rings are an easy and effective way to light up the wheels on your car or truck! This head-turning lighting product consists of a set of (4) LED illuminated aluminum rings which install around the brake rotor and attaches to the brake dust shield. These can also be mounted to older vehicles with drum brakes. The effect is a large ring of light which accents custom wheels and stands out at events. Oversized 16.5" diameter is the largest on the market and fits oversized brakes. The double LED option has two rows of LED lights for more vivid, brighter colors. The ColorShift option lets you use any of the wide variety of colors with a controller, while the ColorShift Dynamic option allows the LED lights to run multiple moving color patterns with a phone application.
Colors Available:
CH35601 - white, ColorSHIFT & ColorSHIFT Dynamic
CH35603 - white, blue, and red.

Part#	Desc.	UOM	Price
LED Illuminated			
CH35601	white	set	206.99
CH35601	ColorSHIFT Dynamic	set	356.99
CH35601	ColorSHIFT	set	287.99
Double LED			
CH35603	white	set	261.99
CH35603	blue	set	261.99
CH35603	red	set	261.99

Note: OL01706 or OL01720 must be used to control the ColorSHIFT option, while ColorSHIFT Dynamic is controlled with a phone application without the need of an additional controller.

NEW! LED Wheel Ring Extension

Six-foot extension cables for single-color wheel rings and 2 pin connectors.

Part#	Desc.	UOM	Price
CH35602	2 pin	each	8.99

NEW! LED Wheel Ring Brackets

For use on installations that require a longer bracket for proper mounting (such as vehicles with drum brakes). 5" total length and made of high quality 304 Stainless Steel.

Part#	Desc.	UOM	Price
CH35604		each	3.99

NEW! Lighting Controller

Perfect for adding ColorSHIFT products to your vehicle, simply connect power and ground then connect your smartphone through the free app to control. The controller features 4 outputs with waterproof connections for easy wiring to your ColorSHIFT lighting products. Through the app you can turn your lights on and off, select from dozens of color variations, illuminate patterns, control brightness, adjust speed, and even control the lights with music.

Part#	Desc.	UOM	Price
OL01720	bluetooth	each	71.99

Harmonic Balancer Puller

This puller is designed to remove balancers, vibration dampers, pulleys and gears with tapped holes. The four slots in the yoke allow use of this tool in either two-hole or three-hole applications. The removable floating swivel prevents damage to shaft ends. Included are the necessary size screws with washers; three 3/8"-24 x 2", three 5/16"-18 x 2", two 3/8"-16 x 4", three M8 x 1.25 x 80 mm. Forged from alloy steel and packaged in a plastic pouch.

Part#	Desc.	UOM	Price
CVT0189	.....	each	26.99

Engine-Rotating Tool

Our engine-rotating tool bolts onto the harmonic balancer & has provisions for a 1/2" drive ratchet or breaker bar and a 1" socket. Constructed of 17-4 stainless steel, this tool also comes in handy when degreeing your cam with the balancer installed.

Part#	Desc.	UOM	Price
CH25812	.....	each	45.99

Piston Ring Compressor

This professional quality piston ring compressor will work on almost any engine. The 7 piece set includes an all metal fine tooth ratcheting plier-type handle that works both vertically and horizontally and 6 different bands to accommodate pistons from 3-1/8" to 4-3/4" in diameter. A must-have for any engine assembly project.

Part#	Desc.	UOM	Price
CV10953	.....	set	69.99

Pitman Arm Puller

This is a heavy-duty design that does not require the use of a hammer when working on your suspension. Fast and easy and works great in tight-fitting areas.

Part#	Desc.	UOM	Price
CVT0186	.....	each	38.99

Stud Remover & Installer

This 1/2"-drive stud remover and installer works on studs ranging from 1/4" to 3/4". Roller assembly grips like a wrench.

Part#	Desc.	UOM	Price
CVT0019	.....	each	31.99

Transmission Output Shaft Plug

This tailshaft plug eliminates the need to drain transmission fluid when repairing or replacing driveline parts. Fits all popular applications.

Part#	Desc.	UOM	Price
CVT0505	.....	each	9.99

Rocker Arm Oil Deflectors

Keep that oil where it belongs when adjusting your rocker arms with this set of eight stamped-steel oil deflectors. This set includes a clear plastic bag for better storage.

Part#	Desc.	UOM	Price
CVT0018	.....	set	16.99

Brake Spring Compressor

This tool is used for compressing brake shoe retainers and springs. Will work on most domestic drum brake cars.

Part#	Desc.	UOM	Price
CVT0269	.....	each	17.49

Camshaft Installation Handle

Our unique camshaft installation handle makes easy work of installing or removing your camshafts. Its hex design handle provides good leverage as well as a firm, non-slip grip and stores all the necessary hardware inside. This tool will save you time, pinched fingers and nicked cam bearing.

Part#	Desc.	UOM	Price
CH25817	V6 & V8.....	each	69.99

Disc Brake Pad Spreader

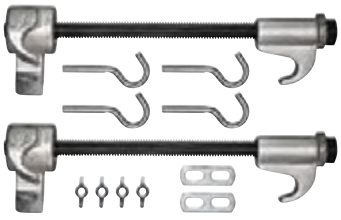
The disc brake pad spreader makes changing brake pads quick and easy. The spreader compresses the inner pad, resetting the piston into the caliper.

Part#	Desc.	UOM	Price
CVT0702	.....	each	15.49

Front Coil Spring Compressor

This tool is perfect for installing new front coils. This tool fits inside the spring & then drops through the lower shock mount after tension is released.

Part#	Desc.	UOM	Price
CVT0510	.....	each	82.99



Rear Coil Spring Compressor

This is the safest way to compress rear coil springs. The outside clamp design works well in the limited space near the rear axle.

Part#	Desc.	UOM	Price
CVT0512	.....	each	72.99

Our "Universal Cam Bearing Installation Kit" is the best available to cleanly and accurately install or remove cam bearings from any engine block. With a range of 1.125" to 2.690", this tool should handle any size or make of engine you encounter. The kit's five expanding mandrel's are neoprene-covered to protect the inner surface of the bearings. A centering cone and extension rod are also included in the fitted plastic case.

Part#	Desc.	UOM	Price
CH25820	.....	each	347.99

Remote Starter Switch

With the push-button remote starter switch, you can turn the engine over from under the hood all by yourself. Just think how handy this will be next time you're adjusting your valves.

Part#	Desc.	UOM	Price
CH22359	.....	each	34.99

Oil Pump Primer

When priming the oil pump on a new or rebuilt engine, this will help prevent premature wear. Simply attach a drill motor to this tool and spin it to prevent a dry-start on your new high-dollar mill. The "Pro" models have a top alignment collar. Also includes a bushing to pressurize the upper valvetrain.

Part#	Desc.	UOM	Price
CH25821	w/bushings.....	each	47.99

NOTE: This fits all Chevy V8's and 90° V6's.

E-Z Valve Lash Wrenches

E-Z Lash wrenches sure make things easy when adjusting valves. You no longer need three hands to get the job done—you just need the right tool. Includes 3/16" and 7/32" T-handles that are fitted to the wrench for smooth operation.

Part#	Desc.	UOM	Price
CH22372	9/16" wrench.....	each	76.99
CH22373	5/8" wrench.....	each	69.99

Peg-Style Head Holders

A great low-cost way to suspend your cylinder heads above your workbench when performing port and polish work. The tapered pins slide into the cylinder head bolt holes so you can hold the head right side up or down.

Part#	Desc.	UOM	Price
CH22354	.....	pair	45.99

Compression Tester

Check the condition of your engine with our high-performance 0-300 psi compression tester. Our unit features a 16" heavy-duty long-reach flex hose, side release valve (for multiple readings), 14 mm long and 18 mm spark plug adapters. Our large 2-1/2" easy-to-read gauge is graduated in both pounds and kilograms.

Part#	Desc.	UOM	Price
CH22363	.....	each	63.99

Pilot Bearing Puller

This puller works great for pilot bearing, starter and generator bushings or any other small bushings and bearings. The jaws on the bearing puller have a range of 1/2" to 1-1/4" to help assist all of your light-duty pulling needs.

Part#	Desc.	UOM	Price
CVT0031	.....	each	42.99

Pontiac Engine Cradle

Manufactured from square steel tubing, this cradle has been designed to bolt right up to any Pontiac V8 engine. The tubes have been welded for strength and durability and each cradle comes with four casters to make moving the engine much easier.

Part#	Desc.	UOM	Price
G240623	.....	each	177.99

CH2211

AN Fitting Wrenches

Each wrench is precisely-machined from 6061-T6 aluminum to eliminate marring and ensure a perfect fit every time. Wrenches are stamped and color coded with the fitting size for easy identification.

CH25819	BB.....	each	41.99

Block & Head Handles

Makes moving blocks, heads or even complete engines much easier around any shop or garage. Constructed of 7075-T6 anodized aluminum, utilizing heat-treated Grade 8 inserts for durability & strength. The handles will screw into any 3/8" coarse threaded hole found in most engine blocks & cylinder heads.

Part#	Desc.	UOM	Price
CH22498	set of 4.....	set	81.99

16" Pro Degree Wheel

Machined from 1/4" aluminum plate, then blue anodized & meticulously engraved with easy-to-read timing marks. The open design allows for easy camshaft timing changes to be done, while the degree wheel is still on the engine. The degree wheel has a 1" diameter center hole to mount to your engine turning sockets or reducer bushings are supplied to work with other balancer bolts. Don't forget to check out the adjustable wire degree pointer that works with this 16" diameter degree wheel.

DURABLE PADDING

Protection for your palm and knuckles

Mechanix Wear M-Pact Work Gloves

The perfect glove for wrenching on your project. Mechanix Wear's M-Pact gloves have protective padding where you need it most. The synthetic leather palms feature foam padding and an added synthetic leather top layer for additional vibration absorption and protection while the outside of the glove has thermal plastic rubber to protect your fingers and knuckles from impact. The fingertips have a redesigned stitching pattern to minimize material bunch-up providing you with ultimate touch feedback while working in tight places.

SUPREME FIT & COMFORT

Improved grip and control

Mechanix Wear Original Work Gloves

The original Mechanix Wear glove features a durable synthetic leather construction with a smooth thumb and index finger pad to offer the best grip and control. The redesigned fingertip pattern gives enhanced tactile feedback when working in tight spaces with low visibility. Avoid injury which causes downtime by wearing the right protection for the job.

INDOOR/OUTDOOR APPLICATIONS - FOUR STYLES TO CHOOSE FROM

3-Layer Premium Car Cover

The ultimate vehicle cover fabric—it's extremely soft and combines barrier protection with needed breathability to release any condensation or trapped moisture at a competitive price. Our 3-layer premium material is ideal for both outdoor and indoor applications. Folds neatly for compact space-saving storage. Includes antenna grommet, cable, lock and storage bag. Tan material.

OUR BEST CAR COVER! Made for indoor/outdoor use.

G210001	64-67	.....	each	132.99
G210002	68-72	.....	each	132.99

NOTE: Not waterproof. Pockets for door mirrors are not included.

4-Layer Plus Car Cover

4-Layer Plus is the favorite among car collectors because of its super-soft underside nap, which protects even the most delicate surface. Covers are longwearing, breathable, mildew and rot-resistant. Includes antenna grommet, cable, lock and storage bag. Gray material. Machine washable.

OUR BEST INDOOR COVER!

G727L02	68-72	.....	each	134.99

NOTE: Not waterproof. Pockets for door mirrors are not included.

Cotton Flannel Car Cover

Protect your expensive paint job with this cotton flannel-lined car cover. Flannel will not wear away the edges of your paint like conventional car covers can. These covers absorb moisture, not repel it. Includes cable, lock and storage bag. Tan material.

Part#	Year	Desc.	UOM	Price
G230002	64-67	.....	each	268.99
G230003	68-72	.....	each	268.99

NOTE1: Not waterproof.
NOTE2: Covers do not include mirror pockets or antenna holes.

4-Layer Car Cover

Four layers thick with a very soft inner layer, our 4-layer cover offers the best combination of water-resistance and breathability in a medium-priced fabric. Absorbs impacts, has high resistance to tears, and punctures. Includes antenna grommet, cable, lock and storage bag. Gray material.

Made for indoor/outdoor use.

Part#	Year	Desc.	UOM	Price
GCH726L	64-67	.....	each	129.99
GCH727L	68-72	.....	each	129.99

NOTE: Not waterproof. Pockets for door mirrors are not included.

Car Cover Lock Kit

Includes seven-foot vinyl-coated steel cable with loops in the ends and a brass lock with two keys. Steel cable locks the car from underneath and connects through the bottom sides of the cover via scratchproof grommets. Kit includes instruction sheet and grommets.

WeatherShield HD Car Covers

Developed primarily for intense sun environments and long term storage. WeatherShield HD not only provides UV opacity, it repels water, blocks dust, tree sap and bird droppings, and is still breathable to allow moisture and heat to escape from under the cover. The base material for WeatherShield HD is woven using solution dyed UV resistant polyester fibers. Not only is the fabric solution dyed, the 300 denier construction is 40% heavier than regular car covers and the heavier denier thread provides double the tear and tensile strength. This superior base fabric is then finished with the patented EPIC by Nextec encapsulation process. Using computer controlled proprietary processes Nextec forces specially formulated polymers inside the fabric to bond to each individual thread and fill the valleys between the woven fibers. These special polymers have amazing elasticity to block moisture and dirt, while still maintaining the breathability of the fabric. For maximum performance in the harshest environments you can't beat WeatherShield HD.

MOTHERS® Polishes•Waxes•Cleaners NEW! MOTHER'S WASH AND WAX

THERE'S NO SHINE LIKE MOTHER'S

NEW! Back-To-Black Heavy Duty Trim Cleaner

Mothers Back-to-Black Heavy Duty Trim Cleaner Kit provides unmatched cleaning ability, restoring your exterior trim and textured plastics to their original, like-new color. Heavy Duty Trim Cleaner is not a cover-up; it deep cleans, allowing you to erase years of neglect and environmental abuse, including oxidation, dirt, road grime and even stubborn embedded wax. It features a unique, drip-free gel, leaving you with a long-lasting, naturally clean surface.

Part#	Desc.	UOM	Price
CH35190	12-oz.....	each	10.99

NEW! Back-To-Black Tire Cleaner

Mothers Back-to-Black Tire Cleaner is formulated with encapsulating cleaning agents to dissolve and lift stubborn browning, dirt, soil, grease, grime, road film, brake dust and old dressings from any color or brand of tire, even whitewalls. Modern chemistry ensures that Back-to-Black Tire Cleaner is tough on tenacious dirt, but gentle and safe on your tires, leaving a long-lasting, naturally clean surface. Just spray on and wipe off, it's that easy.

Part#	Desc.	UOM	Price
CH35191	24-oz.....	each	7.99

NEW! Back-To-Black Tire Shine

With Mothers Back-to-Black Tire Shine, it's no longer necessary to suffer the tradeoff of durability and protection to keep a show quality shine. Formulated using the same industry-proven Back-to-Black surface care technology you have come to know and trust, Back-to-Black Tire Shine provides a high-gloss, long-lasting, protective barrier to keep your tires looking blacker, longer.

Part#	Desc.	UOM	Price
CH35192	24-oz.....	each	12.99

NEW! California Gold Spray Wax

Mothers Spray Wax is the quick and easy way to clean, shine and protect any automotive paint, including clear coats. Spray Wax removes surface dust and fingerprints, while adding long-lasting shine, luster and depth. Used on a wet or dry surface, Spray Wax works as a booster over your existing wax, or as a stand-alone product. Simply spray, wipe and buff to a brilliant shine!

Part#	Year	Desc.	UOM	Price
CH35197	61-73	24-oz.....	each	11.99

NEW! California Gold Synthetic Wax - Liquid

Mothers Synthetic Wax provides unparalleled depth, shine and protection in an easy-to-apply, effortless-to-remove formula. Specially formulated micro-encapsulated polymers form a chemical bond to protect your paint's surface, while ultra-fine polishes bring out the gloss and luster you've come to expect from Mothers.

Part#	Desc.	UOM	Price

CH35195	64-oz.....	each	13.99

NEW! California Gold Water Spot Remover For Glass

Mothers Water Spot Remover For Glass removes stubborn hard water spots and stains from any exterior glass surface. Powerful mineral-dissolving agents scrub away sunbaked sediments, salt spray, tree sap, road grime, bugs and paint overspray. Mothers Water Spot Remover is for exterior glass windshields and windows.

Part#	Desc.	UOM	Price
CH35200	12-oz.....	each	10.99

NEW! California Gold Waterless Wash & Wax

When washing your car with a hose is not an option, turn to Mothers "California Gold Waterless Wash & Wax". The ultra-slick formula dissolves and encapsulates dirt and grime allowing it to be safely wiped away just as they would with the suds of a traditional car wash. Safe for any exterior vehicle surface, just spray, wipe and buff your way to a beautifully washed and waxed finish.

Part#	Desc.	UOM	Price
CH31303	24-oz.....	each	11.99

NEW! Triple Action Foam Wash

Mothers Triple Action Foam Wash is a powerhouse, suds-inspired shampoo, delivering unmatched lubricity and scratch protection thanks to its penetrating polymer surfactant foam blend that safely dissolves, lifts and suspends dulling contaminants. This versatile formula increases in strength—and foam—based on your needs, yet remains safe and effective on every exterior surface. Whether you're looking for a quick, all-purpose super-sudsing shampoo, or an insane foam concentrate to use in your favorite foam cannon or gun, you'll be left with a perfectly clean, streak-free shine. And best of all, it won't strip waxes, sealants or ceramic coatings, regardless of strength because of its dilution-optimized pH balanced and environmentally friendly formula.

Part#	Desc.	UOM	Price
CH35201	16-oz.....	each	6.99

NEW! Ultimate Hybrid Ceramic Detailer & Bead Booster

Mothers Ultimate Hybrid™ Ceramic Detailer & Bead Booster is the effortless way back to that "just coated" super-hydrophobic, liquidy-gloss appearance! Featuring a balanced blend of advanced science and traditional car care, this formula seamlessly unites the trusted and time-tested natural protection of carnauba wax with the cutting-edge nano-quartz ceramic technology of today. Ultimate Hybrid™ Ceramic Detailer is a true instant detailer, effortlessly clearing away dust, fingerprints and smudges, while simultaneously enhancing the protective, hydrophobic beading characteristics of any finish. It can be used over your existing ceramic coating, sealant or wax, or even as a stand-alone bead booster on uncoated vehicles. Just spray on and wipe off, it's that easy!

NEW! Ultimate Hybrid Ceramic Spray Wax

Mothers Ultimate Hybrid™ Ceramic Spray Wax combines the simplicity of a spray wax with the benefits of a ceramic spray coating. Featuring a balanced blend of advanced science and traditional car care, this formula seamlessly unites the trusted and time-tested natural protection of carnauba wax with the cutting-edge nano-quartz ceramic technology of today. From greasy fingerprints and smudges to road grime and dust, Ultimate Hybrid™ Ceramic Spray Wax's ultra-slick formula lubricates while it cleans, leaving you with a scratch-free, SiO2 protected, liquidy-gloss appearance that repels water and contaminants with ease. Use as a stand-alone product, or as a booster over your existing ceramic coating, sealant or wax. Apply in layers for increased depth, durability and protection.

NEW! Ultimate Hybrid 1-Step Ceramic Clay & Coat Kit

Mothers Ultimate Hybrid™ 1-Step Ceramic Clay & Coat is an all-in-one surface prep and preservation system. Featuring a balanced blend of advanced science and traditional car care, this combination seamlessly unites trusted and time-tested methods and the natural protection of carnauba wax, with the cutting-edge nano-quartz ceramic technology of today. Regardless of where you live, your car's finish is exposed to a variety of potentially damaging contaminants. Paint overspray, water spots, fresh tree sap, rail dust, bird droppings, light oxidation and brake dust may seem harmless, but left alone, these particles can cause molecular breakdown of your paint, leaving the finish dull and vulnerable to further deterioration. Ultimate Hybrid™ 1-Step Ceramic Clay & Coat will stop this damage, restore brilliance, and leave a "just coated" super-hydrophobic, liquidy-gloss appearance to your car's paint, chrome, glass, and smooth plastics. Clay & Coat in 1-Step. It's that easy!

NEW! Ultimate Hybrid Ceramic Wax

Mothers Ultimate Hybrid™ Ceramic Wax isn't your father's car wax. Featuring a balanced blend of advanced science and traditional car care, this formula seamlessly unites the trusted and time-tested natural protection of #1 yellow carnauba wax with the cutting-edge nano-quartz ceramic technology of today. Ultra-fine polishes remove minor imperfections and oxidation, promoting proper adhesion and paving the way for a long lasting, Si02 fortified shine that repels water and contaminants with ease.

California Gold Pure Polish

Strong polishes and cleaners are carefully blended to allow you to restore the natural beauty and brilliance of your paint. It prepares the paint for a final waxing by removing oxidation, dirt, stains and old wax.

Part#	Desc.	UOM	Price
MP07100	16-oz.....	each	8.99

California Gold Scratch Remover

There are areas of your paint's finish that see more abuse than others: on the edge of doors and the trunk lid, around the door handles, keyholes, at the hood latch, etc. What you need is a scratch remover. Mothers "Scratch Remover" works on any sort of paint, any sort of finish, to help restore high-mileage paint and remove surface scratches. This is a true polish—be sure to chase it with the standard regiment of waxing to properly seal and protect.

Part#	Desc.	UOM	Price

Back-To-Black

As your ride's exterior ages, rubber, plastic and vinyl exterior hardware of all colors will dry, crack, flake and deteriorate. This oxidation can be stopped and reversed with Mothers "Back-to-Black", our favorite auto-care concoction. This trim treatment is great for all sorts of exterior hardware in all colors-bumpers, molding, louvers, window trim, vents, seals, skirts, door handles, wiper arms—anything that's plastic, rubber or vinyl. Apply "Back-to-Black" to sunburnt plastic, rubber and vinyl to revive the factory-new sheen, then re-treat that exterior hardware regularly. Choose from the 12-oz. wipe-on formula, or the one step spray on 10-oz. aerosol can.

Leather Cleaner

The ultimate leather cleaner. High-traffic leather interiors, convertibles with leather and essentially every other leather should be bathed regularly—it's a natural skin and needs care. The chemists at Mothers created "Leather Cleaner," a pH-balanced formula that safely lifts impregnated dirt, grime and stains from your precious leather interior. Meanwhile, when you use our Leather Cleaner you're preparing that material for Mothers "Leather Conditioner," which will ensure a long, supple life.

Part#	Desc.	UOM	Price
CH23856	8-oz.....	each	9.99

Leather Conditioner

Mothers "Leather Conditioner" will preserve your smooth leather. You've cleaned it, rubbed out stains, spills and the dirt. You don't want to leave that freshly cleansed skin open to new indiscretion. Seal it with Mothers Leather—it's formulated with lanolin and neat's foot oil to preserve the natural oils lost with age. It leaves a protective barrier that helps seal out the detrimental effects of the sun, time and abuse.

Part#	Desc.	UOM	Price
CH23857	8-oz.....	each	10.99

All-In-One Leather Care

Dissolves and lifts away dirt and debris from deep within your leather while premium grade conditioners rejuvenate and replenish the natural oils lost to heat and sunlight over time. When applied regularly, your finished leather will be left non-greasy and with a new-leather sheen.

Part#	Desc.	UOM	Price
CH31302	12-oz.....	each	9.99

Plastic Polish

This is a true polish—you can buff out hairline scratches, smudges, flaws and little nicks as well as clean away yellowing and stains from your plastic convertible window. Mothers Plastic Polish doesn't stop there! It protects your plastics from the sun, smog, water stains and airborne contaminants with a tough layer of polymers. For those tough jobs, try it with our PowerBall.

Part#	Desc.	UOM	Price
CH23862	8-oz.....	each	9.99

California Gold Clay Bar System

Created to remove the particulate debris and contaminants that washing and polishing can't, this exclusive "Clay Bar System" will remove embedded grains of metal, tree sap, airborne environmental deposits and paint overspray. Better yet, our clay bar isn't hazardous to your paint—it's just firm enough to pick up the bad stuff without being too aggressive. Use Mothers "Clay Bar" to get rid of paint fouling grime and pave the way for a complete waxing.

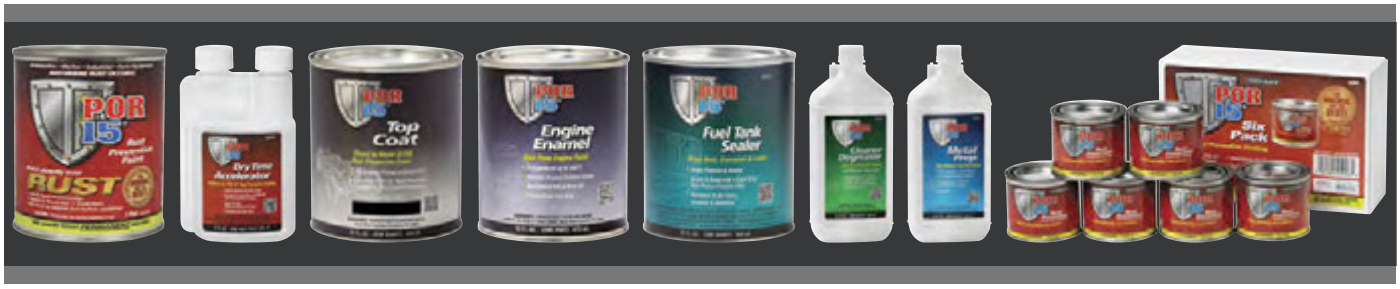
POR-15 PAINT PRODUCTS AND ACCESSORIES

RUST PREVENTIVE COATING - FUEL TANK SEALERS - METAL-PREP - ENGINE PAINT



Rust Preventive Coating

Stop rust permanently with POR-15. Unlike ordinary paints, POR-15 is designed to be coated right onto rusty surfaces leaving a beautiful, rock-hard finish that won't crack, chip or peel. Eliminate stone chips while you're at it. POR-15 is so tough that some folks describe it as, "Powder coat in a can". Furthermore, POR-15 is very flexible and can withstand twisting and bending without cracking. Use POR-15 on anything you want to protect permanently from rust, stone chips or other common paint failures. Sold each.

C220206	black - 1-pint.....	each	28.99

Six Pack Of Rust Preventive Paint

Get maximum convenience and efficiency with a POR-15 six pack. Package contains six 4-oz. cans so you'll only open small amounts as you need them with no waste. Each can cover 12 square feet. Available in black only.

Part#	Desc.	UOM	Price
CH245	black only.....	each	64.99

POR 15 Fuel Tank Sealer

"U.S. Standard Fuel Tank Sealer" was formulated & developed due to a demand for a high-tech sealer impervious to all fuels, including the Stage II fuels that have higher alcohol content. It has superior strength & fuel resistance & does not contain Methyl Ethyl Ketone, a highly flammable & deadly carcinogen.

Part#	Desc.	UOM	Price
C220198	1-pint tank sealer..	each	29.99
C220199	1-quart tank sealer	each	51.99

Cleaner Degreaser

"Cleaner Degreaser" degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete because Cleaner Degreaser diluted with water three, four, five and even ten times its volume will remain even more potent than other cleaners. "Cleaner Degreaser" eliminates grease, oil, mildew, algae, musty odors, soap films and wax. Before applying any rust preventative paint or coating, you must remove any oily film or residue.

APPLICATIONS: Engines, fuel tanks, frames, floor pans, suspension components, transmissions, rubber, nylon, vinyl, grease, etc.

Part#	Desc.	UOM	Price
C220217	1-quart.....	each	15.99
C220216	1-gallon.....	each	29.99

Metal Prep

"Metal Prep" provides the best adhesion to any surface, including aluminum and shiny polished metal surfaces. The simple one-step process gently etches metal, creating an ideal anchor pattern for coatings such as POR-15, while simultaneously leaving a zinc phosphate film to promote chemical bonding of paint and steel. After thoroughly degreasing your work piece, apply environmentally safe "Metal Prep" to both neutralize any rust and etch clean bare metal. This will allow better adhesion of POR-15 or any other paint or coating. "Metal Prep" is not caustic, corrosive, toxic or flammable.

APPLICATIONS: Removes surface rust in minutes, ensures perfect paint adhesion, coats metal with zinc phosphate, provides a perfect base for all paints, gives better welding conductivity without harmful residues and is reusable.

Part#	Desc.	UOM	Price
C220219	32-oz.....	each	21.99
C220220	1-gallon.....	each	41.99

AP120 Metal Prep

Now achieve the ultimate clear finish on brightly polished metal. Designed exclusively for use with the super-tough, super-clear "Glisten PC" coating. "AP120" eliminates impurities and films that may be present, especially on chrome or polished aluminum finishes. Get the toughest, most beautiful clear coat available with "AP120" and "Glisten PC."

Part#	Desc.	UOM	Price
C220107	20-oz.....	each	12.99

NOTE: Not intended for use inside of the vehicle.

Fuel Tank Repair Kit

"Fuel Tank Repair Kit" is more than just pouring in a quart of sealer and sloshing it around. If gum, varnish, sludge or fuel is inside, they must be removed first. Our "Fuel Tank Sealer," like all other sealers, will not work in a contaminated tank. Find out what the pros already know and get this "Fuel Tank Repair Kit" with everything you need to do the job right.

FEATURES: "Cleaner Degreaser" to remove gum, sludge and varnish. "Metal Prep" to remove rust and prepare tank for sealer. "Fuel Tank Sealer" to permanently seal tank. Detailed instructions included.

Part#	Desc.	UOM	Price
C220241	.....	each	99.99

Super Starter Kit

You'll get a 4-oz. can of POR-15 (enough to cover 12 sq. ft.), a 1/2-pint of "Cleaner Degreaser" a 1/2-pint of "Metal Prep" two wooden handle paint brushes and a pair of special high-dexterity surgical latex gloves. Available in black only.

Part#	Desc.	UOM	Price
C2257	black only.....	each	27.99

Brake Caliper Paint Kit

Make your calipers shine with this do-it-yourself paint kit from POR-15. Available in black or silver, this kit will add a beautiful appearance to your brake calipers. Complete kits include all the necessary cleaners and paints to add new life to old calipers.

COLORS AVAILABLE: Black, red or silver

Part#	Desc.	UOM	Price

Power Mesh Reinforcing Fabric

It's perfect for repairing holes in steel, fiberglass, wood or even many plastics. Use it to bridge holes in floors, trunk pans or even quarter panels. It's unbeatable when combined with POR-15 and POR "Epoxy Putty."

Part#	Desc.	UOM	Price
C220202	1 square yard....	each	11.99

Epoxy Putty

FEATURES: Mixes like clay, hardens like steel, easy-to-use, cures in water, no measuring or weighing, stays in place & doesn't slump or sag. Great insulator, malleable consistency, fill in anywhere, can be sanded, drilled, machined, sawed & painted.

Part#	Desc.	UOM	Price
C220203	1-lb.....	each	38.99

Self-Etching Primer

The primer gently etches the glossy surface providing an excellent bond with the paint of your choice. "Self-Etching Primer" is not a high-build primer and is designed to work specifically with POR-15, but will work on bare metal also.

Part#	Desc.	UOM	Price
L240311	15-oz.....	each	36.99

NOTE: This aerosol item must be shipped ground. No Overnight, 2-Day or 3-Day shipping.

POR-Patch

"POR-Patch" is quite literally POR-15 in a tube. Like POR-15 it dries as hard as a rock, remains flexible and once dry, it is totally impervious to fuels and solvents. It's so tough it may actually add strength to weakened metal. It won't absorb moisture and swell like conventional body fillers. Try it, it's incredible.

USE IT TO: Permanently seal seams, patch holes in steel, wood or plastic. Fix holes in fuel tanks.

Frame Coater Kit

The KBS Frame Coater Kit contains everything you need to clean, prep, & apply two coats of RustSeal on up to a 50 square foot area. This 3-STEP SYSTEM is the most effective rust and corrosion prevention system available today. RustSeal chemically bonds to bare metal forming a permanent, moisture resistant finish that is flexible yet won't crack, chip, or peel. Because RustSeal is moisture-cured, this superior coating is made even stronger by continued exposure to moisture. RustSeal is also highly resistant to some of the most aggressive chemicals such as acids, alkalis, salts, abrasive materials, fertilizers, coal dusts, solvents, oils, and other refined petroleum products. Each Frame Coater Kit includes: 1 Quart - KBS Klean, 1 Quart – RustBlast, 1 Quart – RustSeal, black nitrile gloves, two brushes, stir stick, complete & detailed Instructions. A variety of topcoat colors are available.

Part#	Year	Desc.	UOM	Price

1964-77 BlackTop Chassis Paint

BlackTop is a permanent, moisture-cured, UV stable coating primarily used for topcoating surfaces previously sealed with RustSeal or any other paint/primer application. BlackTop is a high performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but it will not offer the ultimate rust protection unless it is used in combination with RustSeal. For the best stop rust & ultraviolet protection, first apply RustSeal to permanently seal the surface and then topcoat with BlackTop for an incredibly tough and professional looking finish. Available in Gloss Black, OEM Satin Black & Flat Black. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs and light weight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is now available in a convenient Aerosol Spray Can! Satisfaction guaranteed!

1964-77 Cavity Coater Rust Preventative

Cavity Coater is the Perfect Solution for hard to reach areas that are prone to rusting! Cavity Coater is a single step, super-penetrating corrosion inhibiting coating designed for long term protection on all metal surfaces. Cavity Coater provides a self-healing film which renders over 4000+ hours salt spray protection...over 4 times the protection of conventional cavity waxes. Use Cavity Coater with a KBS Cavity Wand to give long lasting protection for those hard to reach enclosed cavities such as rocker panels, boxed frames, inside doors & fenders, deck lids, tailgates & more. Available in a variety of sizes for use with your own spray equipment or brushes as well as in a convenient aerosol with or without a spray wand.
Spray wand also sold separately.

1964-77 Diamond Finish Clear Coat

DiamondFinish is a durable and tough water clear coat that can be applied direct-to-metal or over other coatings. The high-gloss coating remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking or peeling. Featuring permanent high solids (over 60%) and low VOC's, this clear is a moisture cured urethane that does not require additives. The advanced coating technology offers durability, flexibility, corrosion and chemical resistance. The self-leveling clear can be applied with a brush without leaving any brush marks, a roller or a conventional spray gun. DiamondFinish ClearCoat will cure without heat or UV lights in temperatures from 50° to 86° Fahrenheit. The clear is able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, Fertilizers, and Acetone. Because of its chemical resistance, graffiti will not stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300° Fahrenheit. Available in several conventional sizes as well as in an easy to use aerosol.

Dry Air Spray Gun Filter

Each disposable filter will absorb up to one (1) fluid ounce of moisture and insure a perfectly dry system from start to finish every time. It absorbs oil aerosols, condensed moisture, and contaminants as small as 0.01 microns. It attaches directly to the air inlet of your spray gun and, as air passes between the filter's compressed layers, particles and moisture are trapped. This incredible filtration is accomplished at a true 30 CFM to the spray gun, with minimal pressure drop at the optimum flow rate.

RustBlast Rust Remover

RustBlast is a powerful rust remover, zinc phosphate pre-primer, and metal etch that effectively dissolves rust, corrosion, metal oxides, and tarnishing from most metal surfaces. Ideal for removing rust from chrome surfaces, this easy to use product can be sprayed on or brushed on. Apply RustBlast full strength to a clean surface keeping it wet for at least 30 minutes or more and watch rust, corrosion, metal oxides, and tarnishing vanish before your eyes! RustBlast will gently etch the surface and leave a zinc phosphate coating to ensure a strong bond with any paint. Available in a variety of sizes for every project.

System Sampler Kit Rust Preventative

The KBS System Sampler Kit contains everything you need to clean, prep, & apply two coats of RustSeal on up to a 12.5 square foot area. RustSeal acts as a total rust inhibitor and preventive with a paint type consistency and excellent spreadability. RustSeal chemically bonds to rusted steel to form a rock-hard, non-porous coating that won't crack chip, or peel. It works by isolating metal from moisture. Without moisture present, steel can't rust. This non-porous, flexible coating is incredibly tough and extremely resistant to abrasion and impact. RustSeal is highly surface tolerant and capable of adhering to almost any prepared substrate. Each System Sampler Kit includes 8oz - KBS Klean, 8oz RustBlast, 8oz RustSeal (any color), black nitrile gloves, two brushes, stir stick, complete & detailed instructions.

COLORS AVAILABLE: cat yellow, galvanized steel, gloss black, grey, guardian green, off-white, oxide red, safety blue, satin black, silver

NuMetalEpoxy Putty

NuMetal Epoxy Putty is an easy-to-use, two part putty you simply mix and mold like clay, but hardens like steel! No complicated weighing or measuring required. NuMetal bonds, seals, fills, insulates, anchors, caulks and waterproofs. It cures without shrinking or sagging and can be drilled, tapped, sanded, primed and painted. NuMetal will not only stick to damp surfaces, but it will cure underwater! Ideal for automotive applications.

COLORS AVAILABLE: black, grey, tan, white

KB70000	64-77	1-lb.....	each	25.99

XTC High Temperature Zinc Primer

XTC Silicone Zinc Primer prevents corrosion of metal surfaces exposed to high heat, high humidity, condensation and salt air. The primer has similar properties to galvanizing as it locks itself to bare metal surfaces leaving a perfect primed surface for top coating. Primer can be finished in the topcoat of your choice, or it can be used as a standalone finish. Available in gray only, the XTC primer withstands temps in excess of 1200°F (648°C), and is free of fluorocarbons, lead, and chromates.

Part#	Year	Desc.	UOM	Price

NOTE: Aerosol items must be shipped ground. No Overnight, 2-Day or 3-Day shipping

XTC High Temperature Paints

XTC is a high temperature/ heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500° F to 1500° F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock-resistance throughout this entire temperature range, and is guaranteed not to burn off! XTC is ideal for exterior applications because it resists rust when primed with XTC Primer. Available in a variety of colors and sizes to suit your needs.

Trunk & Floorpan Repair Kit

KBS Klean, RustBlast, and RustSeal are all part of the formula to clean, etch, repair and seal your floors for future years of service in your vehicle.KBS Klean and RustBlast are designed to clean all contaminants from the surface and provide an etched surface for repairs and sealers to bond with. Epoxy putty and BackBone mat allow you to make any small repairs prior to finishing with Rust Seal. RustSeal is a moisture-cured coating that seals out the rust while maintaining resistance to aggressive chemicals such as acids, alkalis, salts, abrasive materials, fertilizers, coal dusts, solvents, oils, and other refined petroleum products. Each kit includes: 1 Gallon - KBS Klean, 1 Gallon – RustBlast, 1 Quart - RustSeal (any color), 1 lb. - NuMetal Epoxy Putty (any color), Sq. yd. - BackBone Reinforcing Mesh, 8oz - #1 Thinner, KBS Paint Spout, Nitrile Gloves, Mask, Two Brushes, Stir Stick, Complete and Detailed Instructions

Classic California License Plates

Nothing embodies cool, classic car spirit than the California "Black & Yellow" Plates of the mid-to-late 1960's. These plates are cherished by car buyers everywhere as the plates are synonymous with rust-free and original classic cars in all makes and models. These are a must-have for every garage and Man Cave no matter what state you live in. Were you or a loved one born in 1968? Were you married in 1965? Was you first car a 1967? Does your 1966 car wish it was in California versus the frigid North? All great reasons to buy one. These are real stamped (replica) aluminum license plates with raised numbers and letters. Do not confuse these with flat, economy vanity plates that are simply silkscreened. Specify year.

ORDERING & SHIPPING INFORMATION

CALL TOLL FREE: 800.243.8355

HOW TO ORDER:

Online Orders

Shop for our complete line of parts and accessories any time at opgi.com. You'll also find our current sale specials, new product introductions, technical articles and our entertaining blogs. Our site uses SSL encryption technology for a fully secure shopping experience.

Phone Orders

Call us toll-free at 1-800-243-8355 from anywhere in the U.S. or Canada. Our customer service representatives are here to take your order and assist you with any questions you may have regarding your car's restoration.

Our call center hours are 8:00am – 4:30pm Monday – Friday, and 10:00am – 3:00pm Saturdays. All times Pacific Standard. Our call center is closed on Sundays and the following U.S. Federal holidays:

Monday, May 29, 2023 – Memorial Day
Tuesday, July 4, 2023 – Independence Day
Monday, September 4, 2023 - Labor Day
Thursday, November 23, 2023 – Thanksgiving
Monday, December 25, 2023 – Christmas Day
Monday, January 1, 2024 – New Year's Day

International Orders

From outside the U.S. and Canada, dial the international access code then 1-562-594-1000.

METHODS OF PAYMENT:

Credit Cards / Debit Cards

We accept Visa, MasterCard, American Express and Discover credit cards as well as Visa and MasterCard debit cards. When placing your order either online or over the phone, please include your name as it appears on the card, the entire card number, the date of expiration, and the security code located on the back of your Visa, MasterCard or Discover. The security code appears on the front of American Express cards. Please note, we must be able to verify the shipping address as the credit card holder's. Minimum credit card purchase is $20.00.

PayPal

We accept PayPal for all online orders that are shipped FedEx Ground within the continental U.S.

Affirm

Affirm payment subject to credit check and approval. Down payment may be required. Affirm is only available on orders over $400. Affirm loans are made by Cross River Bank, a New Jersey State Chartered Commercial Bank, Member FDIC.

See https://www.affirm.com/help/ for details.

Money Orders & Cashier's Checks

Money Orders, Cashier's Checks and certified checks are accepted. Please be advised that for mailed or faxed orders, we hold these types of checks until funds are cleared by our bank.

Personal Checks / Business Checks (EFT)

To use a personal or business check on pre-paid orders, the name, address and check number must be pre-printed on the check. We can only accept first party checks. Original Parts Group, Inc. processes all checks using electronic fund transfers (EFT), which converts funds electronically to our bank.

All transactions are governed by NACHA Operating Rules. (National Automated Clearing House Association.)

Collect On Delivery Policy (C.O.D.)

Your C.O.D. order must be shipped to a residential or business street address. Sorry, we cannot ship C.O.D. to a Post Office box or APO-FPO. Someone must be present during normal business hours to accept the C.O.D. package. If no one is there to accept the order, we will be obligated to pay FedEx Ground for the freight charges – both ways. We will no longer be able to accept your C.O.D. orders until we are reimbursed for the freight charges and a 20% restocking fee. We only accept C.O.D. orders by phone, so please call us at 800-243-8355 when you're ready to place your order. C.O.D. orders do not qualify for free freight. Original Parts Group, Inc. accepts C.O.D. orders up to $500.00 only. A FedEx Ground C.O.D. collection charge of $49.95 per box will be added to all C.O.D. shipments.

SHIPPING:

Ground Shipments Within The Continental U.S.

Most of our merchandise is shipped throughout North America via FedEx Ground. Our standard ground delivery rates are calculated during your checkout based on the size, weight, and shipping zone of your order. We use multiple shipping partners in an effort to provide cost effective shipping services.

Here are estimated transit times for FedEx Ground from the time your order leaves OPGI. These rates are current at time of printing. These are shipping times only and do not include the time to process your order.

Estimated transit times from the time your order leaves OPGI. Times may vary.

Free Shipping Over $299

FREE SHIPPING ON ALL ORDERS OVER $299

We offer free standard ground shipping on orders over $299 after any and all discounts have been applied. Free standard ground shipping applies to orders within the continental United States only. Alaska, Hawaii, Puerto Rico, Canada, and international orders are not eligible for this offer. Some items may be excluded from free shipping due to size and/or weight restrictions, and may incur additional fees. Collect on Delivery (C.O.D.) orders are excluded from free shipping offers.

Additional Handling Surcharge

Any package that measures over 48" in length, and/or 30" in width is subject to an additional handling surcharge of $15.95 per package. Unusually shaped packages such as cylinders or drums are also subject to this charge, as are unusual exterior packaging materials such as plastic or cloth.

Items That Require Truck Freight Delivery

Products that require truck freight delivery are items too large to be shipped via FedEx Ground. These are items such as fenders, hoods, etc. All truck freight orders must be prepaid. Rates begin at $120.00 and vary based on weight. Please contact our customer service department for accurate freight charges or visit our website at opgi.com. Freight carriers and charges are subject to change.

Drop Ship

All drop-shipped orders must be prepaid. Rates vary depending upon weight.

SHIPPING OPTIONS:

Free Shipping Offer:

Orders that qualify for Free Shipping are shipped via our choice of carriers and typically deliver in 2-10 business days.

FedEx Home Delivery:

In the contiguous U.S., delivery takes 1-5 days. Shipping to Alaska and Hawaii is 3-7 days. Deliveries are made every day of the week.

FedEx 2 Day:

Delivery to most areas by 4:30pm and to residences by 7pm in 2 business days. U.S. orders only.

FedEx Ground Commercial:

Delivery within 1-6 business days (Monday through Friday) within the continental U.S. only (lower 48 States). Delivery by end of the business day.

FedEx Overnight:

Delivery next business day by 3pm to most addresses, and by 8:00pm to most rural areas. U.S. orders only.

USPS Priority Mail:

Delivery typically within 2-5 business days.

International Shipping Options:

We use FedEx International Priority, FedEx International Economy, and USPS Priority Mail.

GENERAL INFORMATION:

Prices

The prices in this catalog were current at the time of printing, and supersede all prices in any previous OPGI publication. OPGI reserves the right to change prices without notice. Availability of all parts and accessories in this catalog are subject to change without notice. OPGI reserves the right to discontinue products and services without notice. Please see OPGI.COM for current pricing.

Back Orders

Many items in our comprehensive inventory move quickly, and rarely are we out of stock on any items for any length of time. Typically, products that are out of stock at the time you place your original order are back in stock within 10 days or less. OPGI's sophisticated back order tracking system automatically processes any items due to you the moment they become available. Back order items normally take as little as a few days to receive, but can sometimes take longer. For an estimated time of arrival, please call our customer service department at 1-800-243-8355.

Sales Tax Information

Orders from outside California are exempt from California State Sales Tax at the time of this printing except for residents of: Colorado, Georgia, Iowa, Idaho, Illinois, Indiana, Massachusetts, Michigan, Minnesota, North Carolina, New Jersey, Nevada, New York, Texas and Wisconsin. California residents are required to pay sales tax on all orders. Due to unforeseen changes in the California Sales Tax and Federal Interstate Tax System, rates are subject to change. The current California State/Region Sales Tax at the time of this printing is 8.75%.

Merchandise Return Policy

If you are unsatisfied with a product or purchase and would like a refund or store credit please visit us at opgi.com/help/return-policy to submit your return through our online returns process. We accept returns or exchanges within 60 days from the date of purchase. All merchandise we offer is guaranteed against defects in workmanship and materials for 60 days from the date you received it. Liability of OPGI is limited to the replacement of defective parts. Returns may be subject to a 20% restocking fee. Each returned product must be in its original, unused condition. Merchandise that has been painted or altered is non-returnable. Returns may be subject to shipping charges. Original GM products and all Branded performance products (example Edelbrock, Holley, Wilwood) must be in their original packaging.

The following products are not returnable under any circumstances:

- Instruction and informative books or manuals
- Special orders
- Items requiring Truck Freight delivery
- Wiring harnesses
- All electrical parts
- Engines and moving internal engine parts
- Interior components that have been installed incorrectly

Please note exchanges cannot be processed online. If you would like to exchange an item, please contact our customer service team at 1-800-243-8355 for further assistance.

Incomplete Orders

Upon receiving your order, be sure to check the contents of your delivery to ensure all parts were received. If you are missing any items, first check your invoice to be sure the parts were not back ordered. If a shortage has occurred, please contact our customer service department within 3 days of receipt of shipment to ensure a prompt replacement.

Damage Claims

Please inspect the merchandise in the presence of the carrier at the time of the delivery. It is the responsibility of the delivering service (FedEx Ground, etc.) to deliver the merchandise in good condition. In the unlikely event that you receive a package that has been opened or damaged, it is imperative that the driver documents this on their delivery sheet. Please report any and all damaged goods in shipments within 3 days of receipt. OPGI cannot be held responsible for damaged or missing parts without documentation on the delivery sheet and without contacting the delivering company directly.

Please promptly call OPGI customer service so we may assist you with Damage Claims.

COMPLIANCE WARNINGS:

Prop 65 Compliance Statement

Products in this catalog can expose you to chemicals including but not limited to lead, sulfur, nickel, chromium, vanadium, titanium, polyvinyl chloride and/or 4,4'-methylenebis (2-chloroaniline) which are known to the state of California to cause cancer or birth defects or other reproductive harm.

For more information, visit www.P65Warnings.ca.gov

Emissions Regulations

Emissions-related parts are regulated under our nation's clean air laws and are primarily enforced by two government agencies: the U.S. Environmental Protection Agency (EPA) and the California Air Resources Board (CARB).

Please visit www.opgi.com/help/emission-regulations for more details.

1 This product is covered under a CARB EO and is legal for sale and use in all 50 states. Please see opgi.com for EO numbers.

Products that have completed the CARB EO process belong in this category. EPA recognizes the CARB EO as a reasonable basis demonstration, therefore products can be considered legal by both CARB and EPA.

Aftermarket Parts that may require an EO Number:
Air Cleaners, Cams, Carburetors, Catalytic Converters, Coils & Ignition Wires, Computer Chips, Electronic Ignitions, Distributors, Fuel Injection, Fuel Tanks, Headers, Intake Manifolds, Internal Engine Parts, Replacement Engines

2 This product has met EPA's reasonable basis requirements and is legal for sale and use within the jurisdiction of the federal EPA.

This category includes products that have demonstrated a reasonable basis emissions compliance either through engineering evaluation or testing, but do NOT have a CARB EO.

There are a few reasons that a product might including (but not limited to):

- Testing has been completed and paperwork submitted to CARB but the EO has not yet been issued.
- The product meets the reasonable basis standard but may not meet CARB's criteria for an EO.
- The Manufacturer has performed testing but has decided not to pursue a CARB EO.

3 This product is not legal for street use on an emissions-controlled vehicle. It may be used on dedicated competition or pre-pollution-controlled vehicles only.

Some products can never be legal for use on pollution-controlled vehicles (both for use on the road and off-road), but they do have a legitimate use on racing vehicles and vehicles that predate emissions regulations. Pre-pollution controlled vehicles are 1965 and older domestic vehicles in California, 1967 imports in California and both domestic and imports under EPA jurisdiction.

4 This product does not require an EO in California. By nature of its design, it is legal for sale and use in all 50 states. Replacement parts included.

This category includes products that have little or no impact on emissions, such as drop-in air filters or exhaust components downstream of the last emissions component (such as the catalytic converter, DPF or exhaust gas sensors). Also included are devices that plug into the OBD port to monitor information, but do not alter the vehicle's electronics.

MORE WAYS TO SAVE WITH OPGI

FREQUENT BUYER REWARDS

Your loyalty just paid off!

As a way of thanking you, our loyal customers, we have a Frequent Buyer Rewards Program which lets you earn points for every dollar you spend on parts.

Here's how it works:

- **Earn 1 point for every $1 spent on parts. See chart for reward tiers.**
- **Points can be redeemed on parts, accessories and gift cards only.**
- **Points have no cash value.**
- **Points expire within one year of first purchase.**
- **Points are available to use upon shipment of each order.**

How to use your points:

- **Call 1-800-243-8355 and ask a customer representative about using your points, or visit our Showroom when you're ready to place an order.**
- **At this time, Frequent Buyer Points are not currently redeemable online.**

250 POINTS. . . . FREE OPGI T-SHIRT	3000 POINTS. . . . $195 FREE PARTS
500 POINTS. . . . . $10 FREE PARTS	5000 POINTS. . . . $420 FREE PARTS
750 POINTS. . . . . $35 FREE PARTS	8000 POINTS. . . . $850 FREE PARTS
1500 POINTS. . . . . $90 FREE PARTS	12000 POINTS. . $1400 FREE PARTS

*Size of order unlimited to qualify. Valid for U.S. ground shipping only. Excludes oversized and Truck Freight items.

Terms & Conditions

Original Parts Group, Inc. reserves the right to cancel, modify or restrict the Frequent Buyer Rewards Program at any time without notice. Points are not transferrable. Accounts cannot be combined. Any abuse of the program or failure to follow the terms and conditions may cause a revocation of Frequent Buyer Points. In the event of refunds, checks returned for insufficient funds or disputed credit card charges, points will be deducted from your account at a rate equal to those accrued in the original transaction. Any Frequent Buyer Rewards accounts that have no purchases for a period longer than one year will be considered inactive and all points accumulated on that account will be terminated. Points are not awarded for shipping charges. Other restrictions may apply.

VOLUME DISCOUNTS ON RESTORATION PARTS

When we aren't already running a promotion you can still take advantage of our volume discounts. Be sure to sign up for email promotions online for the best deals. We offer volume discounts on restoration parts orders over $499. To qualify for a Volume Discount your order must exceed $499 to receive a 5% discount or $999 to receive a 10% discount. This offer cannot be combined with other discounts or promotions. All parts must be ordered at one time, on one invoice. All accepted payment types qualify for the discounts with the exception of Collect on Delivery (C.O.D.). All products on the OPGI website or in catalogs listed as "On Sale", "Discounted Kit", "No Further Discount Available" as well as "High Performance" and "Aftermarket" items, are not eligible for Volume Discounts. All discounts are applied at the time of payment, or at checkout for online orders. Volume Discounts qualify for Free Shipping per our Free Shipping Policies, please reference the Free Shipping policy for details. Orders must consist wholly of restoration parts, some exclusions apply. Other restrictions may apply.

CUSTOMER SATISFACTION GUARANTEE

If you are unsatisfied with a product or purchase and would like a refund or store credit please visit us at opgi.com/help/return-policy to submit your return through our online returns process. We accept returns or exchanges within 60 days from the date of purchase. Please note exchanges cannot be processed online. If you would like to exchange an item, please contact our customer service team at 1-800-243-8355 for further assistance.

Please see "Merchandise Return Policy" for complete details.

NEED AN INTERIOR KIT, BUT NOT EVERYTHING IN THE KIT?

Mix and match, or even delete items, and still enjoy the great kit savings!

Here's an example:

Let's say you want a Stage III Interior Kit, but don't need everything that comes with it, need a different color combination than what's offered, or would like a few other items not offered in the kit. We'll let you mix and match as you see fit, plus you'll still get the full kit discount.

- **Change out items and retain the kit discount on the remaining products, for example, get premium Essex Carpet instead of the standard 80/20.**
- **Delete items off the kit that you don't need, or add items to a kit. We'll still honor the discount on the remaining items.**
- **Once you've decided what you need, give us a call and we'll assist you.**

This Kit Swap is a special service that we have implemented to serve you. To take advantage of Kit Swap Savings, the final Kit components you buy must retain a portion of the original kit price. Call for details.

INSTANT ONLINE PRICE MATCH GUARANTEE

We will not be undersold! It is unlikely you will find a lower price on identical products elsewhere, but in case you do Original Parts Group, Inc. will match any competitor's current advertised price for an identical product. Price matches can be submitted directly on our website on eligible product web pages. Simply provide us with the competitor's current advertised price and we will match it. Price matching is available for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to OPGI competitors within the restoration parts industry. Competitors' sale pricing, inventory reductions, closeouts, special promotional offers, etc. may be exempt from this program.

This program is subject to the terms and conditions of OPGI's current policies. Engines and all performance parts are exempt from the Price Matching policy. Price matching supersedes all other promotional offers and current OPGI, "On Sale" pricing at the time of comparison. (Guarantee cannot be combined with any other OPGI "Sale" offer). If OPGI matches a price from a competitor, additional discounts on that product or products may not apply. Important: If the standard retail price of an OPGI product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, then the "now" discounted or sale pricing will apply. OPGI reserves the right to change or revoke this offer at any time without notice.

Please see opgi.com/company/price-match-guarantee for more details.

RESTOPARTS® PRODUCT WARRANTY

All premium brand RESTOPARTS ® manufactured products are backed by a full 12-month warranty and are guaranteed to meet or exceed OEM specifications in fit, finish, and quality. This warranty protects against defects in workmanship from the date of purchase for the original purchaser only. This guarantee is limited to the replacement of the original product only. OPGI assumes no responsibility for improper installation including but not limited to installation on a vehicle that the product is not intended for (incorrect year and/or model), or misuse resulting in damage to the part and/or expenses related to, beyond the replacement value of the original purchase.

OPEN 24/7 OPGI.COM

SAFE, SECURE AND INFORMATIVE.
SHOP WITH EASE FROM YOUR MOBILE OR DESKTOP.

SHOP ONLINE ANYTIME

Visit opgi.com where you will find everything you see in our catalog as well as useful information to help with your restoration project. Check out our tech articles, installation tips and videos, and in-depth product reviews.

You can visit and order from your computer, tablet, or smartphone anytime!

CUSTOM EXPERIENCE

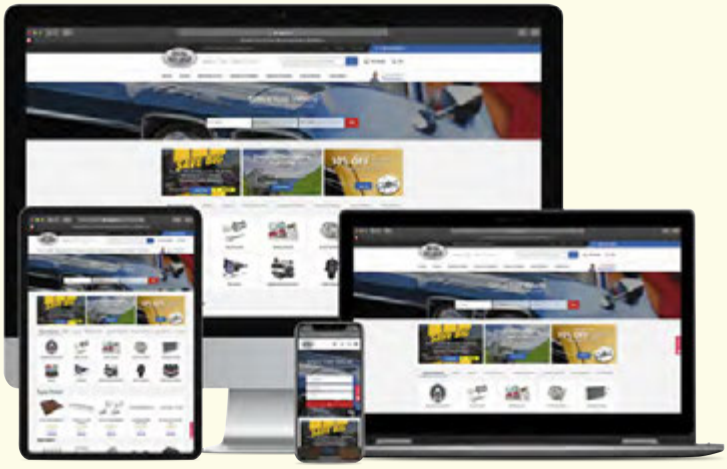
When you visit opgi.com, you can select your specific car model and year and be served with a comprehensive listing of parts and accessories for your car. Each time you visit our website, you'll see products and content that are relevant to your car and shopping needs.

MANAGE YOUR ACCOUNT

Your online account will store information about your specific car so we can ensure you get the right parts every time. You can also track your orders and review your order history, and create a "Wish List" of parts for future orders.

FULLY SECURE

Our website uses SSL encryption technology for a fully secure shopping experience.



RATINGS & REVIEWS

Learn what others are saying about the products we offer and provide your own assessment of parts you've purchased from OPGI.

FREE CATALOGS

You can also order additional free full color catalogs at opgi.com. Our 2023 catalogs are packed with thousands of restoration and performance parts for your GM classic.
